In our lives, there are a few special things that **we can really count on**...to help us accomplish all that we need to do. Things we often take for granted because they are so reliable. However, such dependability doesn't come easy. For decades, the people at Toyota have dedicated themselves to providing you with vehicles of the highest quality and reliability while adapting their products to your ever changing needs.

TOYOTA | everyday

And their perseverance has paid off. Because Toyota is now one of the **most trusted names** in the automotive world — one of the few things you can really depend on. To go where you need to go and do the things you need to do... **every day**. Today, **our commitment** is stronger than ever — not only to the production of outstanding products but to you, the consumer. **Automotive safety** and the **environment** are major concerns so we're producing more innovative technology and cleaner burning, more energy-efficient vehicles. To help you make informed choices, we developed a Web site (www.toyota.com) with interactive views of each model, inside and out, tips on financing and purchasing your Toyota and dealer locations with easy-to-follow maps. There's a Toyota owners' club, and, for automotive enthusiasts, an entertaining area devoted to car culture with everything from games and quizzes to family trips and travel tips. And, if you'd like to share your thoughts and opinions, call our Customer Assistance Center at **1-800-331-4331**.

So come experience a Toyota and you'll discover that there's still something you can trust — to provide you with safety, comfort and enjoyment...each and every day.

The most affordable Camry, the CE, comes standard with a long list of features for your safety, comfort and convenience. Items such as dual remote outside mirrors, intermittent windshield wipers, rear window defogger, tilt steering wheel, an Electronically-Tuned Radio (ETR)/Cassette with four speakers and dual front air bags all work in harmony to make your driving experience more pleasurable.

CAMRY CE

Along with the standard safety and convenience features found on the Camry CE, the LE raises the level of comfort with color-keyed, power-operated outside mirrors, power door locks and windows, variable intermittent wipers, defroster-linked, CFC-free air conditioning, cruise control and standard Anti-lock Brakes (ABS). (Camry LE V6 shown)

CAMRY LE

In addition to the comprehensive list of standard features found on both the CE and LE models, the Camry XLE comes standard with stylish aluminum alloy wheels, multi-adjustable power driver and front passenger seats, heated power outside mirrors, an anti-theft system with engine immobilizer and remote keyless entry system. All of this makes the XLE the most luxurious Camry in the lineup. (Camry XLE V6 shown)

One drive — that's all it takes to know that the Camry XLE is your kind of car. Equipped with the level of comfort, safety and quality you demand, as well as the con-

veniences and luxuries you desire. XLE is sporty yet very sophisticated — it's an automobile you would be proud to own, with a driving experience that far exceeds your expectations. So, drive a Camry XLE, and see why *Automobile Magazine* gave it such a glowing review.

*Camry XLE V6 reviewed, *Automobile Magazine*, February 1997. Most Camrys are built in Georgetown, Kentucky, with many parts manufactured in the U.S.

An optional power glass moonroof tilts open for additional ventilation, slides open to the sun, or you can block the sun altogether with a manual sliding shade.

An overhead compartment keeps your sunglasses or garage-door opener off the seat but close at hand.

An easy-to-open front-seat cup holder keeps a firm grip on your favorite beverage.

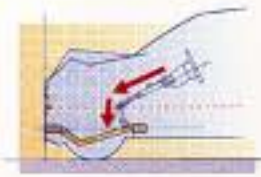

All cups are not alike, so we designed this rear-seat beverage holder to accommodate a wide variety of sizes.

When you slip behind the wheel of a Camry XLE, you'll love what you find. Camry is, after all, quiet, comfortable and very accommodating. You and your passengers will lounge in Camry's spacious interior, with multi-adjustable power seats contoured

for support and comfort and tailored with rich cloth or optional soft leather trim. You will also appreciate the abundance of storage space. Standard features like cruise control, dual illuminated visor vanity mirrors and CFC-free air conditioning contribute to more comfortable, more relaxed driving. For your added security, an anti-theft remote keyless entry system includes an engine immobilizer that rejects any ignition key but your own. A transponder chip in the key emits an ID code that must match up with one in the engine computer before it can start. Discover all that Camry XLE has to offer.

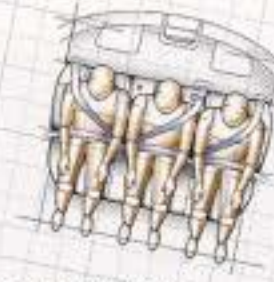

The steering column's energy-absorbing plate and breakaway lower section pull the steering wheel away from the driver in a severe frontal collision.

Camry's rigid frame was designed to help absorb the energy of a frontal impact and direct it around the passenger cell.

Front seat belts include pre-tensioners and force limiters. These features work together to restrain occupants during an initial impact, then by keeping the load on the belt from exceeding a preset value, cushion the shock on the occupant's torso.

All rear-seat passengers are provided with 3-point shoulder belts designed to lock in a sudden stop.

The Toyota driver, front passenger and front seat-mounted, side-impact air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to inflate in a severe frontal collision. The side-impact air bags are designed to inflate in severe side-impact collisions. In all other accidents, the air bags will not inflate. To decrease the risk of injury from a deploying air bag, always wear seat belts, sit upright in the middle of the seat and do not lean against the door. Do not put objects in front of an air bag or around

the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying air bag SRS may cause serious injury. Please see your Owner's Manual for further instructions.

At Toyota, we're committed to making safety the most important part of every vehicle we build, which is why the Camry comes with a long list of active and passive safety systems. We can help you avoid an accident with features like optional all-

speed Traction Control (TRAC)* – to improve control on slippery surfaces – Anti-lock Brakes (ABS)** for skid-resistant stops and quick steering and responsive engines help you move out of harm's way. When accidents can't be avoided, you'll appreciate Camry's front and rear crumple zones, side-impact door beams, dual air bags† in front and our latest addition, optional, front seat-mounted, side-impact air bags.† They're built into the outer edge of the seatbacks and not the doors, so they're always where you need them most. Meeting exacting impact standards, Camry is built to make the best of a compromising situation.

Camry's roof has been reinforced for additional strength.

A windshield rain gutter deflects water away from the side windows for better visibility.

A reinforced rear seatback helps keep objects in the trunk out of the cabin in an accident.

The 4-wheel Anti-lock Brake System (ABS)** helps maintain steering control during emergency braking on dry, wet or slippery surfaces.

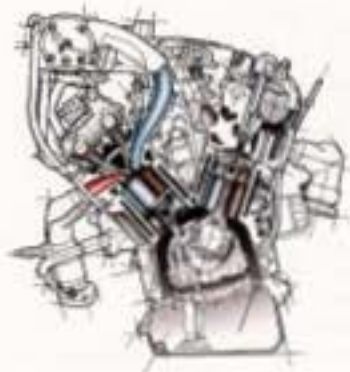

Thanks to a backup power source, the side-impact air bags are designed to inflate even if the main power should fail during a side collision.

The reinforced passenger compartment includes strong steel side-impact door beams.

Crumple zones front and rear help absorb crash impact before it reaches those inside.

*TRAC available on V6 models with automatic transmission.
**ABS optional on CE 4-cylinder models, standard on all other models.
†For more information about air bags, see page 13.

Camry's 24-valve, four-cam V6 is designed to provide quiet power with maximum efficiency.

Toyota is known both for the quality of its automobiles and for its excellent engineering, and the Camry is the ideal blend of the two. *Car and Driver* described Camry's V6 as "...one of the silkiest engines on the planet..."** Its fully independent suspension and variable-assist power rack-and-pinion steering are

meticulously engineered for precise maneuverability, stability and control. V6 or 4-cylinder, engine torque comes on at low rpm for impressive throttle response and fuel mileage.** High Solar Energy-Absorbing (HSEA) glass reduces harmful infrared and ultraviolet rays for a more comfortable interior and more fade-resistant fabric. From bumper to bumper, Camry was designed for beauty...and engineered for pure driving pleasure, mile after mile.

*For details, see EPA mileage statement on page 23.

A special sub-frame supports the rear suspension and helps isolate the passenger compartment from road noise.

Camry's lines evolved from many hours of wind tunnel tests. The result is sleek, aerodynamic efficiency integrated with elegant style.

The Camry features a very large trunk and thanks to its low liftover height, it's easy on your back.

Power window and door lock controls are placed for your convenience. A one-touch "auto-down" feature lowers the driver's window with just a quick touch.

Some of our Georgetown team members are artisans, a skill reflected not only in their crafts but in every Camry they build.

In Georgetown, Kentucky, 7,500 Americans have good reason to be proud of Camry. They're the people who build them...with the same care and attention to detail you'll find in their hand-made crafts.* Within each Kentucky Camry you'll also find parts

from more than 250 American suppliers. As a team, Toyota Motor Manufacturing Kentucky has won dozens of awards for manufacturing achievement, as well as civic involvement. In fact, Toyota's Georgetown plant has been acknowledged as one of the best in the country because of our commitment to the product and to our team members. So it's not surprising that *Automobile Magazine* called Camry "...one of the finest family cars in the world..."**

WARRANTIES*

Every Toyota Car and Truck has excellent warranty coverage. However, given Toyota's worldwide reputation for quality, reliability and dependability, you may never find out just how good our new vehicle warranty really is. But, should you ever need it, we've definitely got you covered.

Basic Coverage: All components other than normal wear and maintenance items are covered for 36 months/36,000 miles.

Powertrain Coverage: Your engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and air bags are covered for 60 months/60,000 miles.

Rust-through Coverage: Corrosion perforation of sheet metal is covered for 60 months/unlimited miles.

Service Adjustment Coverage: Minor repairs required to return a component to factory specifications are covered for 12 months/12,500 miles (24 months/36,000 miles in New York state).

Federal Emission Coverage: Components under the federal emission defect warranty are covered for 36 months/36,000 miles and specified major emission control components are covered for 8 years/80,000 miles.

Specified major emission control components under emission performance warranty are also covered for 8 years/80,000 miles.

In addition, emission performance warranty is applicable for 24 months/24,000 miles in states and local jurisdictions that require a periodic EPA-approved inspection and maintenance program.*

California Emission Control Coverage: In California and any other state that adopts California emission warranty provisions, performance warranty and defect warranty coverage is applicable for 36 months/36,000 miles and specific control devices are covered for 7 years/70,000 miles.*

Accessory Warranty: Toyota-approved accessories are covered for 12 months, regardless of mileage, or for the remainder of any new vehicle warranty (except for car covers, which are covered for 12 months).

In addition, there may be times when we will establish a special policy adjustment which will further delay repair costs. For complete details of Toyota's warranties, please refer to the Owner's Manual Supplement.

An Added Benefit for 1998 Toyota Vehicle Owners: You may be eligible for transportation assistance if your vehicle is required to be kept overnight for warrantable repairs.*

*See your Toyota dealer for more details about the new vehicle warranty.
