SPORT

The icon, re-invigorated. One of the purest, most engaging sports cars ever built takes a major step forward. Lighter body panels front and rear save 9kg and bring revised aerodynamics along with a fresh, contemporary look. The new exposed gearshift is a work of aluminum art in its own right, now as precise and satisfying to use as it is to look at. Our acoustic engineers have added an addictive, motorsport-inspired exhaust note to perfectly complement the race car responses. Together, the upgrades combine to make the Elise Sport even more enthralling on the open road and even more natural on the track.

Add further lightness with a huge range of beautifully-finished lightweight options to make your Elise truly bespoke and exclusive. Still the standard bearer for the Lotus approach to going fast, the Elise remains unrivalled and now more desirable than ever.
