The washable and waterproof material keeps the boot in tip-top condition, in a practical and functional way. The surface features a herringbone pattern, punctuated by the Maserati logo in the middle of the mat. For GranTurismo Folgore, the mat is made from eco-friendly material.

Luggage Compartment *Net*

The stability of the items in the luggage compartment when travelling is fundamental for safe and relaxed driving. The Luggage Compartment Net is a simple and very effective accessory which, thanks to its double layer, enables small and medium-sized objects to be secured. The net is fastened using four hooks located in the corners of the luggage compartment floor.

The Luggage Compartment Net is not compatible with the Luggage Compartment Mat.

Foldable *Bag*

The Foldable Bag is an optimal solution for storing and organizing small to medium-sized objects inside the luggage compartment, while optimizing space thanks to its two modular compartments. Made from recycled materials, the bag is decorated with the embroidered Trident logo on the outside, while the lining and dust bag feature the Trident pattern.

The bag is equipped with velcro straps that allow it to be secured to the carpeting and can be folded up to be used as a briefcase, complete with an umbrella holder and laptop compartment.

With replicated key buttons on the back, you can effortlessly access all of your key's features without the need to remove it from the cover. Plus, the chrome ring allows you to conveniently use it as a practical keychain.

Battery Charger & Maintainer

A compact and user-friendly device, the Battery Charger & Maintainer keeps the charge level of your car battery always in optimal condition, between 95 and 100%, and charges it when required.

The device does not need to be programmed: just connect the car battery to a standard power socket, and you may leave it connected for several months without any risk of damage to the vehicle.
