FORD LTD

LOOK OUT WORLD
HERE COMES FORD

FORD LTD FOR 1982.

A World of Driving Pleasure.

Step into Ford LTD's world. A quiet world where you are surrounded with luxury appointments.

To be sure, LTD's quiet world can become a way of life. A way of life in which comfort and luxury have more meaning than ever before.

The trim size of the LTD sedan belies the plush and roomy interiors that can seat up to six adults in total comfort (with a big vacation-size trunk for their luggage).

Under the hood, a 4.2 litre (255 CID) V-8* is matched with Ford's innovative Automatic Overdrive transmission to form an efficient power team. A combination that nets improved fuel economy.

Every LTD model, whether 2-door, 4-door or wagon offers many standard features designed to satisfy the most critical car buyer. And there's a full list of options for your comfort and convenience.

So, step ahead into Ford LTD's world of comfort, quiet and luxury. Try it in a test drive at your Ford Dealer's today.

LTD Country Squire, pages 10-11.

The World of LTD

In a world where cars are growing smaller, and people are not, it's refreshing to find a trimly proportioned automobile that offers ample room and comfort for six passengers and yet still handles easily. The 1982 Ford LTD is one that does.

LTD comfort can be attributed to many things. The wide flight bench seat with folding center armrest and equally comfortable rear seat. Luxurious fabrics fitted over foam cushions. Ford's Flex-o-lator seat construction. Cut-pile carpeting. Door trim panels that are soft and supple, lending an air of elegance and warmth to the interior. And, of course, there's the quiet serenity associated with LTD.

LTD

You need go no further than the Ford LTD (pages 8-9) to get an uncompromising combination of comfort, efficiency and value.

The efficiency begins with a body style that is clean-lined and smooth for function as well as attractive good looks. LTD's power team includes the innovative Automatic Overdrive transmission and 4.2 litre (255 CID) V-8* engine. Automatic Overdrive includes a fourth overdrive gear that takes over at about 65 kph

(40 mph), reducing engine rpm by approximately one third for increased highway fuel economy. This efficient engine/transmission combination enables the '82 LTD to achieve very impressive fuel economy ratings. Dual rectangular halogen headlamps and chrome-plated grille are extra-value features. Bright accent mouldings compliment LTD's contours along the door belts, rocker panels, wheel lips, window frames and drip rails. Deluxe wheel covers, white sidewall P-metric steel-belted radials, colour-keyed vinyl insert body-side mouldings and accent stripes on the decklid provide finishing touches.

Inside, your comfort is attended to in an equally thorough manner. Seats are deep-cushioned foam with Ford's Flex-o-lator construction. Carpeting is cut-pile and the door panels are soft vinyl with woodtone inserts to match the woodtone appliques on the instrument panel.

Comfort and convenience are at your fingertips with a left-hand remote control rearview mirror, soft rim steering wheel and two column-mounted controls for turn signals, horn, headlamp dimmer and windshield wipers/washers — all standard. The bin-type glove box and ashtray are lighted, as is LTD's deep-well trunk.

The deep-well design provides 634 litres (22.4 cu. ft.) of generous space and allows luggage or grocery bags to be loaded and carried upright. Litterover height is a mere 584 mm (23 ins.) from ground level to sill, making loading and unloading another pleasure with LTD. And LTD includes an AM radio with dual front speakers as standard equipment for your entertainment.

Ford LTD presents some very convincing evidence to support each of its claims of comfort, efficiency and value.

LTD CROWN VICTORIA

This LTD was designed for those who demand more from a luxury car. In LTD Crown Victoria (on pages 2-3 and 4-5), you'll find beauty that stretches from one bright gleaming bumper to the other. But LTD beauty goes much deeper than your reflection in the lustrous paint finish. The clean exterior lines are highlighted with dual accent paint stripes on the hood and bodysides. A lower bodyside moulding system adds protection from door dings. And the padded rear half vinyl roof and brushed aluminum wrapover moulding are only hints of the luxury to come.

Crown Victoria's interior

greet you with the comfort of a wide flight bench seat, with fold-down centre armrest and individually reclining seat backs. The deep-cushioned seat features knit cloth seating surfaces in four attractive colours. Plush carpeting of 18-ounce cut-pile construction extends wall to wall. Woodtone appliques on the instrument panel and door panels lend richness to the quiet interior setting.

The LTD Crown Victoria's Super Luxury Sound Insulation Package minimizes outside noise with sound-absorbing material in strategic areas. To begin every trip (whether long or short), on a pleasant note, there's a subtle seat belt chime that reminds you to buckle up. To help keep you on schedule, there's a super-accurate quartz crystal electric sweep hand clock. For your listening enjoyment, an AM/FM stereo radio is standard.

*5.0L (302 CID) V-8 in wagons

Interior Luxury Group

This optional interior (featured on pages 6-7), available on LTD Crown Victoria and Country Squire Wagon, adds even more luxury items. Begin with split bench seats that adjust individually and are equipped with reclining seat backs and fold-down armrests. You may also select from elegant

crushed velour or supersoft vinyl upholstery. Or for the ultimate, there's nothing quite like the rich feel of leather (an option available with this group only). Lower door trim panels are luxuriously finished with 18-ounce carpeting. Convenient door assist straps are included. Full-length armrests place controls for the power side windows close at hand.

A luxury steering wheel, resettable trip odometer, and warning lights for low fuel and low washer solvent complement the contemporary design of the instrument panel. An electronic digital clock provides day/date/elapsed time functions at the press of a button.

For added convenience, the Interior Luxury Group option includes seat back map pockets and an illuminated visor vanity mirror on the passenger's side — just right for applying those last minute grooming touches.

When selected for the LTD Crown Victoria, the luxury group also includes a rear seat center armrest, carpeted package tray and luxury luggage compartment trim. The deep-well design luggage compartment is fully lined with carpeting on the front and rear compartment floor and side lining boards to protect luggage from scuff marks. There's even a spare tire cover. When specified for

the Country Squire, you get the quiet benefit of the Super Luxury Sound Insulation Package.

All in all, the Interior Luxury Group is a very tasteful way to round out an already luxurious interior.

STATION WAGONS

Both LTD wagons (shown on pages 10-11), the LTD and the luxurious Country Squire, offer the practicality and versatility you seek in a working wagon plus much of the comfort you may have thought came only in a sedan.

Since they're both built to carry passengers and cargo, they have heavy-duty frames and wider wheels than the sedans. Their drive trains consist of the proven 5.0 litre (302 CID) V-8 engine and the Ford-patented Automatic Overdrive transmission.

Load capacity in both wagons with the rear seat folded flat for cargo is over 2 500 litres (almost 90 cu. ft.) plus 280 litres (9.9 cu. ft.) in a lockable stowage compartment below the load floor and 62 litres (2.2 cu. ft.) in a lockable side stowage compartment. The load floor is covered with a colour-keyed carpet that is easily removed for cleaning.

Interiors provide room for six passengers or eight

with the optional dual facing rear seats. The seat cushions of this convenient option are easily removed for cleaning or added storage room under the load floor when the seats are folded flat.

Of special interest to outdoor enthusiasts, there's an optional Medium Duty Trailer Towing Package that increases the towing capacity of any '82 Ford sedan or wagon to 1 590 kg (3,500 pounds).

LTD WAGON

The LTD Wagon is equipped with all the fine features you'll find in LTD 2-Doors and 4-Doors plus some great wagon equipment of its own. Such as the 3-Way Magic Doorgate detailed on page 15. Also, a power tailgate window is standard. Outside there are bright tailgate surround mouldings, bright quarter window trim, large vertical style taillamps and rear bumper guards to enhance the clean-lined smartness of LTD Wagon styling.

Inside, the flight bench front seat and fast fold-down second seat are vinyl-trimmed for easy care. Matching door trim panels of soft vinyl have woodtone inserts. The carpeting is cut-pile and the luxury sound insulation package adds to the interior quietness.

LTD series wagon for 1982. One of the most comfortable, practical working wagons you can buy.

LTD COUNTRY SQUIRE

The Country Squire takes many of its styling cues from the LTD Crown Victoria. Very plush, very luxurious with deluxe door trim, woodtone appliques on the instrument and door panels, and 18-oz. carpeting wall to wall. A big, wide flight bench seat trimmed in vinyl (four colour choices) has a fold-down center armrest and individually reclining seat backs. There is an illuminated, self-regulating quartz clock, rear door courtesy light switches and even a pleasant seat belt reminder chime.

The exterior of the Country Squire is set apart from the LTD Wagon by dark woodtone vinyl paneling finely detailed with planking lines on the bodysides and tailgate. Bordering the side and tailgate panels are surround rails in light woodtone fiberglass.

If you want a working wagon with elegance, you'll be at the head of the wagon class with Ford's LTD Country Squire.

FORD LTD — A CLOSER LOOK.

The closer you look at the 1982 LTD, we feel the better it will look to you. We think you will also be

impressed with the engineering and technology evident in this fine automobile. Here are some of the

reasons we believe a closer look at the '82 Ford LTD can be very rewarding for you.

Halogen Headlamps

LTD's dual rectangular

headlamps are the new halogen design. Ford was among the first American car manufacturers to offer halogen headlamps as standard equipment on all its cars. The reason: they emit a brighter, whiter light than conventional sealed beam lamps and they're more efficient, requiring less energy to operate.

The Quiet LTD

Quiet has become a tradition with LTD. To help accomplish this, Ford first uses computer-selected suspension system components and 12 big body-to-frame rubber isolators. Then, sound-absorbing materials are strategically placed all around the passenger compartment. These sound-absorbing materials do their job so well that Ford calls this the Luxury Sound

Insulation Package. And while it's standard on every LTD sedan and wagon, you can go even further with the Super Luxury Sound Insulation Package (standard on LTD Crown Victoria and included with the Interior Luxury Group option on LTD Country Squire).

Power Front Disc Brakes

LTD is equipped with standard power front disc brakes. Each rotor is a one piece iron casting that is vented for better heat dissipation than non-vented rotors.

3-Way Magic Doorgate

The convenience and practicality built into every Ford LTD Station Wagon is most apparent in the 3-Way Magic Doorgate. It provides 3-way access to the rear of the wagon by opening like a door—with the power tailgate window up or down—so you don't have to reach across the tailgate for your packages. And with the optional Dual Facing Rear Seats, passengers in the rear don't have to clamber over the tailgate. Or, when conditions warrant, it may be opened like a conventional tailgate providing an extension of the load floor. Convenience and practicality as standard equipment—

the Wagonmaster wouldn't have it any other way.

P-Metric White Sidewall Steel-Belted Radials

P-metric tires have a special tread compound and use higher inflation pressures than non P-metric tires. Higher inflation pressures contribute to lower rolling resistance which, in turn, contributes to better fuel economy. On all LTD's, you get this advanced tire design in handsome whitewall styling, standard.

Automatic Overdrive Transmission (AOD)

LTD is one of only two cars in its class (both built by Ford) to offer this innovative transmission as standard equipment. AOD incorporates a fourth overdrive gear that engages at about 65 kph. When engaged, there is a direct mechanical drive which

eliminates much of the torque converter slippage associated with conventional automatic transmissions. This direct linkup with a low numerical drive ratio reduces engine rpm by approximately one-third. The lower rpm means the engine doesn't work as hard to keep the car moving at the same speed. And that translates into improved fuel economy.

CORROSION PROTECTION

All Ford LTD cars are protected with the DURAGUARD System, which includes 7 processes built in at the factory as standard equipment, to provide corrosion protection as follows:

- precoated steel on doors, quarter panels and other selected areas;
- galvanized steel on rocker panels, selected cowl tops and underbody parts;
- vinyl sealer on the underside of rear wheelhouses;
- phosphate coating on the entire car body after a super cleaning process;
- electrocoat process to apply corrosion resistant primer paint, also on the entire body;
- aluminized wax sprayed into hard-to-reach lower body areas, the inside surfaces of doors and quarter panels;
- protective vinyl coating on the lower bodyside for resistance to stone chipping and road abrasion.

The DURAGUARD System is backed by a no-extra charge 36-month unlimited distance manufacturer's warranty against corrosion perforation. This warranty, transferable to succeeding owners during this warranty period, covers the cost of both labour and materials for repair of perforation of parts caused by corrosion. Exhaust system components are excluded. The basic 12-month/20,000 kilometre warranty covers corrosion, other than perforations, that are due to defective factory materials or workmanship. Ask your dealer for details.

- Heavy-Duty Battery
- Medium Duty Trailer Towing Package*
- Heavy Duty Trailer Towing Package.

Protection

- Vinyl Insert Bodyside Mouldings (Squire, on other models except with Tu-Tone paint/tape treatment; otherwise standard)
- Rear Bumper Guards (LTD Sedans, standard on other models)
- Bumper Rub Strips*
- Protection Group. Door edge guards, colour-keyed carpeted front and rear floor mats, license plate frames.

Tires and wheels

- Puncture-Resistant, Self-Sealing W/SW Tires
- Conventional Spare Tire
- Wheels/Wheel Covers (I). From Left: Wire Wheel Covers (4), Luxury Wheel Covers* (4), Cast Aluminum Wheels* (4). See model pages for additional views.

Also well worth considering...

The Ford Extended Service Plan

When you're choosing options for your LTD, consider the merits of ordering the Ford Extended Service Plan. Your dealer has full details. It provides extended repair cost protection, as specified, for parts and labour, for repairs to major components of the mechanical and electrical systems. The plan is offered by Ford Motor Company of Canada, Limited, and is honoured by participating Ford and Mercury dealers throughout Canada and the United States.

Option Availability

1982 LTD options are not confined to these pages but are shown throughout the catalog. Options, whether or not they are identified, are offered at extra cost. Options designated by an asterisk* are offered either in combination with other options, or are subject to additional ordering requirements or limitations. Availability of some models and features described here and elsewhere may be subject to delay.
