

L T D

There may be other luxury cars. But no other Australian luxury car offers the spaciousness, opulence and engineering excellence you'll enjoy in your new Ford LTD.

It is singularly elegant, luxurious and offers the discerning owner an exceptionally high level of comfort - for this LTD is the product of a new approach to the design and manufacture of motor vehicles in this country. LTD is at the forefront of contemporary Australian automotive engineering.

LTD IS LUXURY

When you're at the top, you needn't shout about it. LTD whispers. It soothes your senses with an impeccably quiet ride in a cabin of supreme luxury.

When you travel in LTD, you'll enjoy first-class comfort all the way. The sumptuously padded seats are covered in soft "quilted" velour and give you armchair-like cushioning and support.

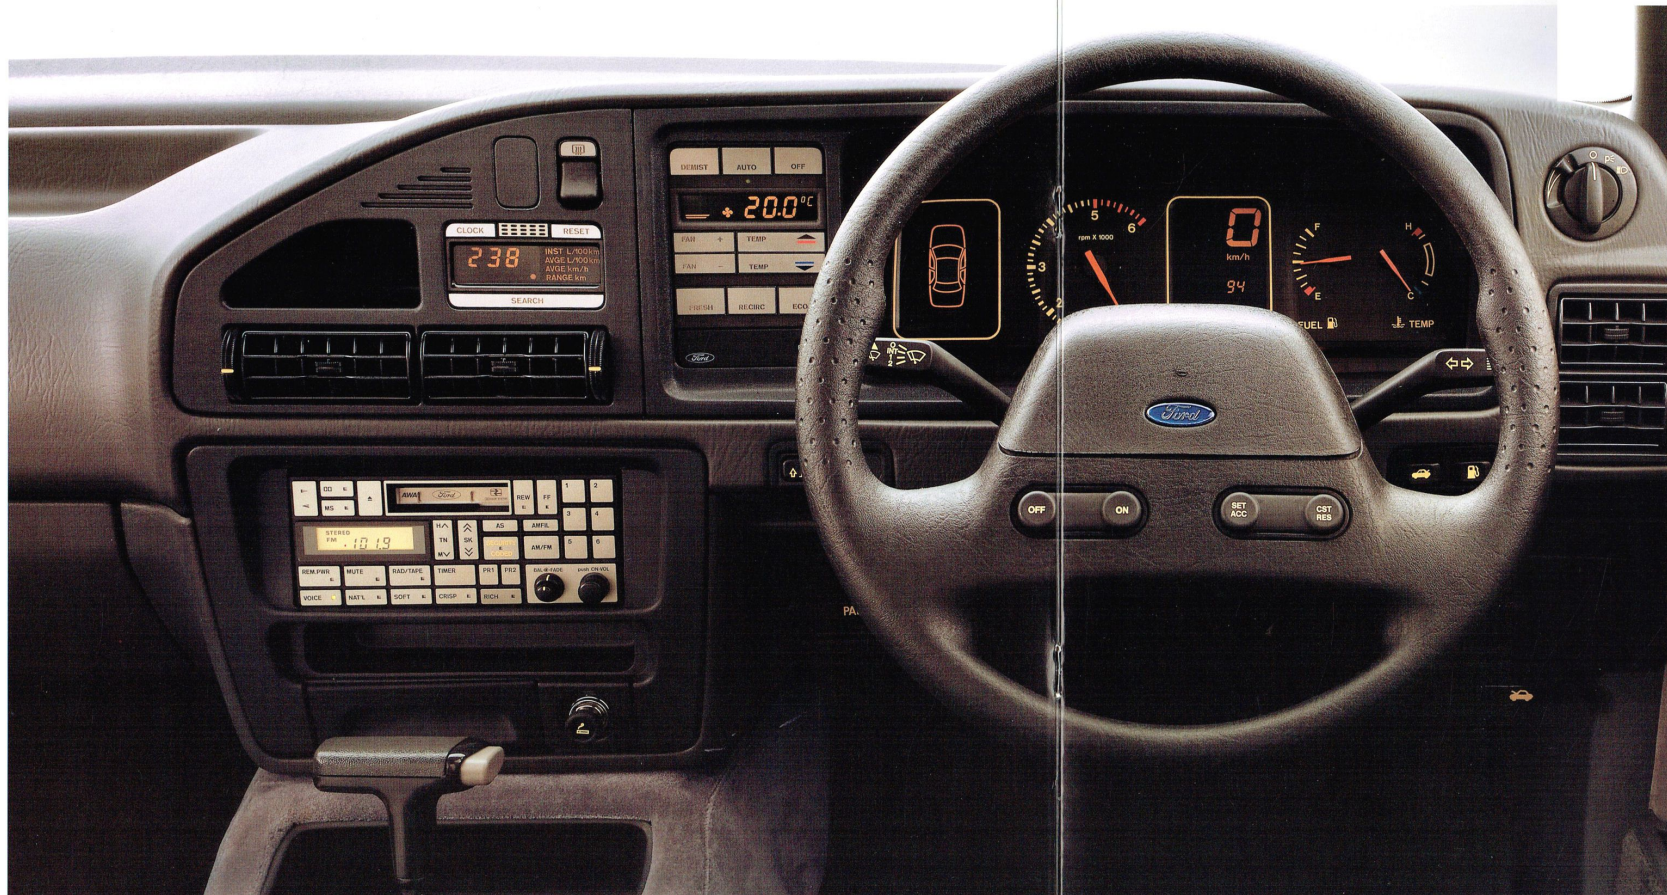

Both front seats have height-adjustable head restraints and a range of electrically-powered adjustments: forward and rearward, cushion front tilt up and down and cushion rear tilt up and down.

For the driver, there is also adjustable lumbar support. The steering column is adjustable for rake and reach. So, you can obtain a driving position that is virtually tailor-made to suit your personal requirements.

As you would expect in such a car, the comfort of the rear-seat passengers has in no way been overlooked. The rear seat is wide and well-padded. It features adjustable head restraints and a fold-down armrest.

The rear seat also has a 60/40 split-folding backrest - a very practical feature for those occasions when you need extra luggage space.

Whether you're the driver or a passenger, LTD sees to your needs with a plush, luxurious interior. A cabin designed to take you in complete comfort, wherever you go.

LTD places the driver in command with comprehensive instruments and controls of the latest ergonomic design. Every switch is within easy reach; every gauge is directly in line of sight.

Liquid Crystal Display (LCD) technology - with its inherent advantages of reliability and clarity - is an important element in the instrument cluster design.

LTD's instrumentation incorporates an accurate digital LCD speedometer as well as an analogue tachometer, fuel and temperature gauges. A car outline warning module immediately tells you if any doors are ajar or if the boot, or fuel filler lid are unlatched.

Twelve different warning lamps keep you informed of the car's operating status. Audible warning chimes are incorporated to alert you to key information, such as low fuel, lights left on, and brake malfunction.

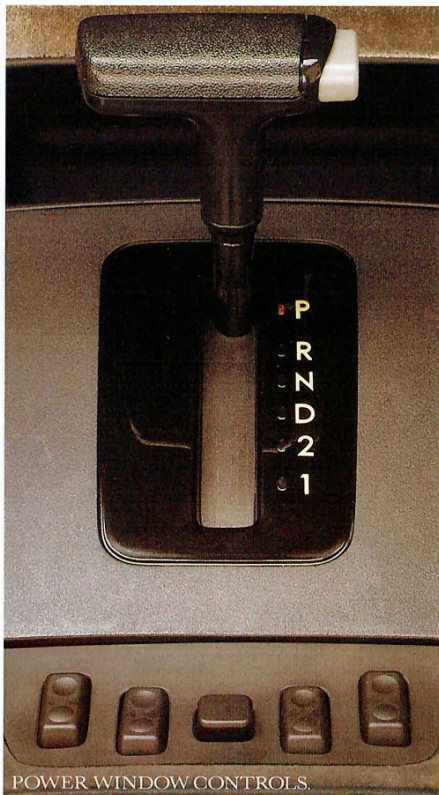

Power door locks, power windows, power exterior rear view mirrors and remote fuel filler cap and boot-lid releases are included in LTD's extensive complement of standard features.

The audio system in LTD keeps you entertained with high-fidelity reproduction that rivals some of the better home systems available. Six speakers surround you with sound. There is stereo AM and FM radio with automatic memory storage and a programmable "switch-on" function.

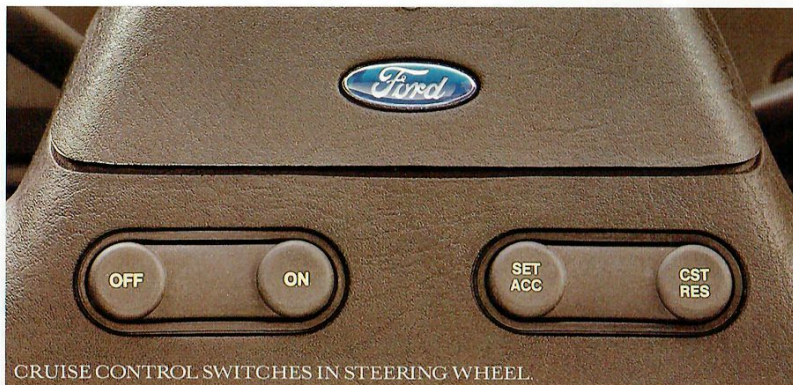

LTD's quality auto-reverse tape player has track search, as well as an automatic selector for metal tape.

The system features electronic volume control and a pre-programmed graphic equalizer. It incorporates a special theft deterrent: a four digit security code which must be programmed in to re-activate the unit whenever it is disconnected from its power source.

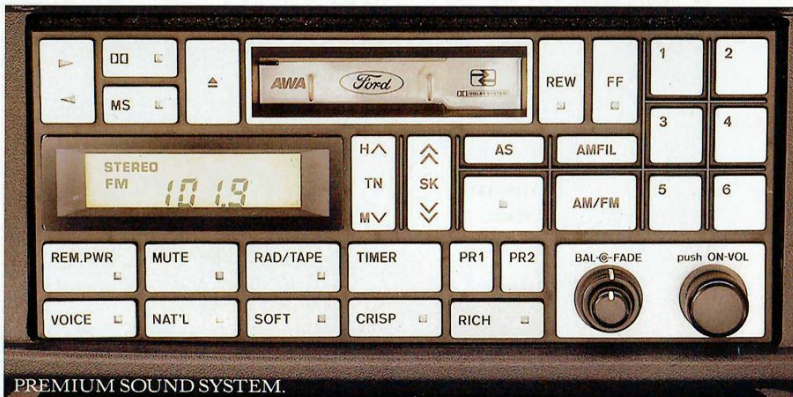

A notable feature of this premium system is its "sound on sound" capability. Rear seat passengers can listen to a tape through headphones while the driver listens to the radio, or vice versa.

POWER WINDOW CONTROLS.

CRUISE CONTROL SWITCHES IN STEERING WHEEL.

PREMIUM SOUND SYSTEM.

REAR SEAT RADIO/TAPE REMOTE PANEL.

ERGONOMICALY DESIGNED TRIP COMPUTER.

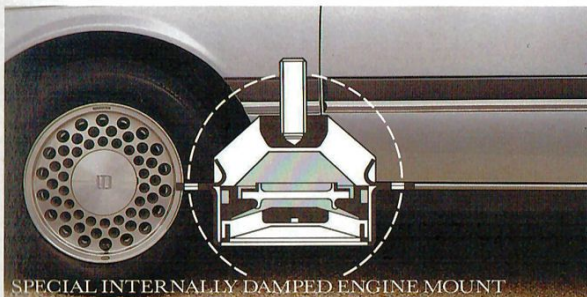

COMPUTERISED AUTOMATIC CLIMATE CONTROL.

For easy relaxed long-distance driving, LTD incorporates the convenience of cruise control. A pair of switches mounted on the steering wheel, allow you to engage, set and disengage this feature quickly and easily. When cruise control is engaged, the words "cruise control on" are displayed on the car outline warning module as a reminder.

Simplicity is a key feature of LTD's ergonomically designed trip computer. It displays information of major importance to the driver, including instantaneous fuel consumption, average fuel consumption, average speed and distance to empty.

LTD's computerised automatic climate control system has been designed expressly for Australian conditions. You simply press a button to set the desired interior temperature, which is displayed on an LCD readout, and the system does the rest. The airflow into the cabin is through a range of sensibly placed front vents as well as vents located at the rear of the centre console. In this way, both front and rear seat passengers enjoy the benefits of this sophisticated system.

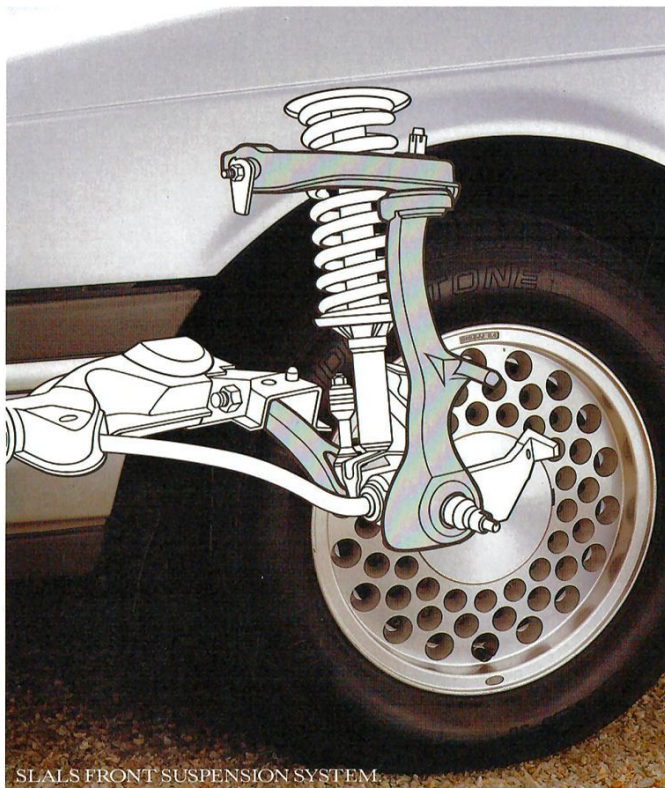

LTD MAKES DRIVING EASY

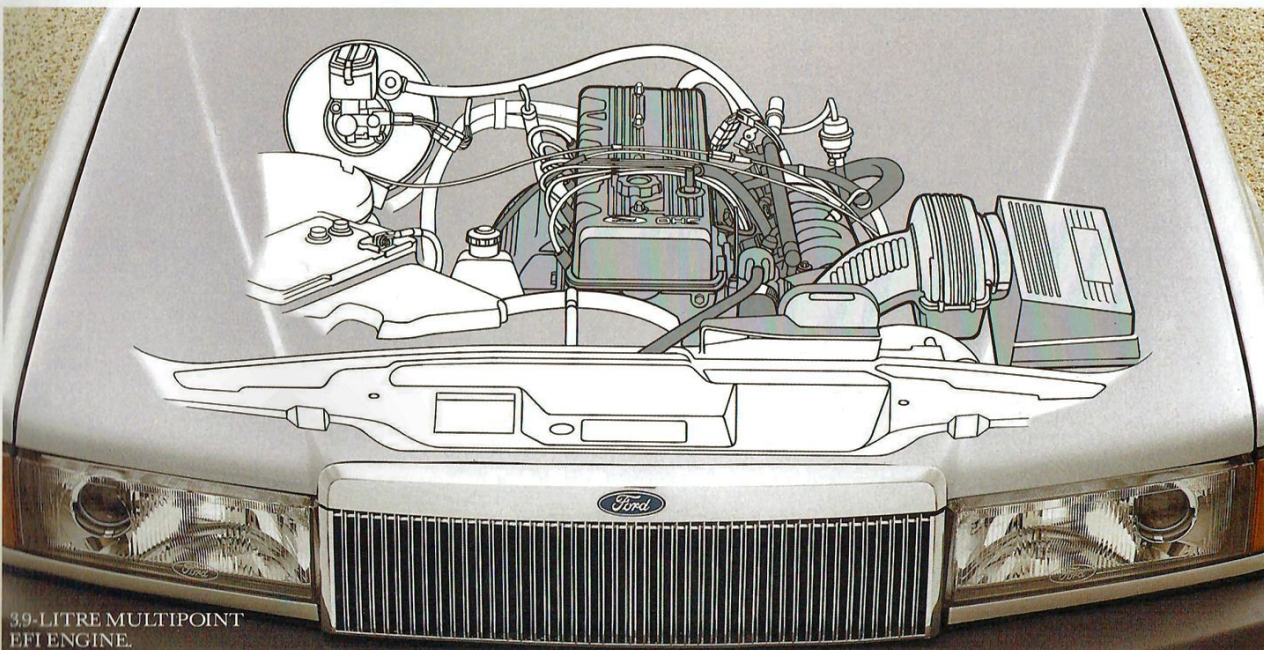

SPECIAL INTERNALLY DAMPED ENGINE MOUNT

TURNING CIRCLE REDUCED BY 1.6 METRES

SLALS FRONT SUSPENSION SYSTEM

3.9-LITRE MULTIPPOINT
EFI ENGINE

LTD's engineering story is one of high achievement.

The 3.9-litre multipoint electronic fuel-injected engine is extremely smooth and efficient. It is designed for easy starting and effortless cruising. And it delivers responsive power and torque whilst maintaining excellent fuel economy.

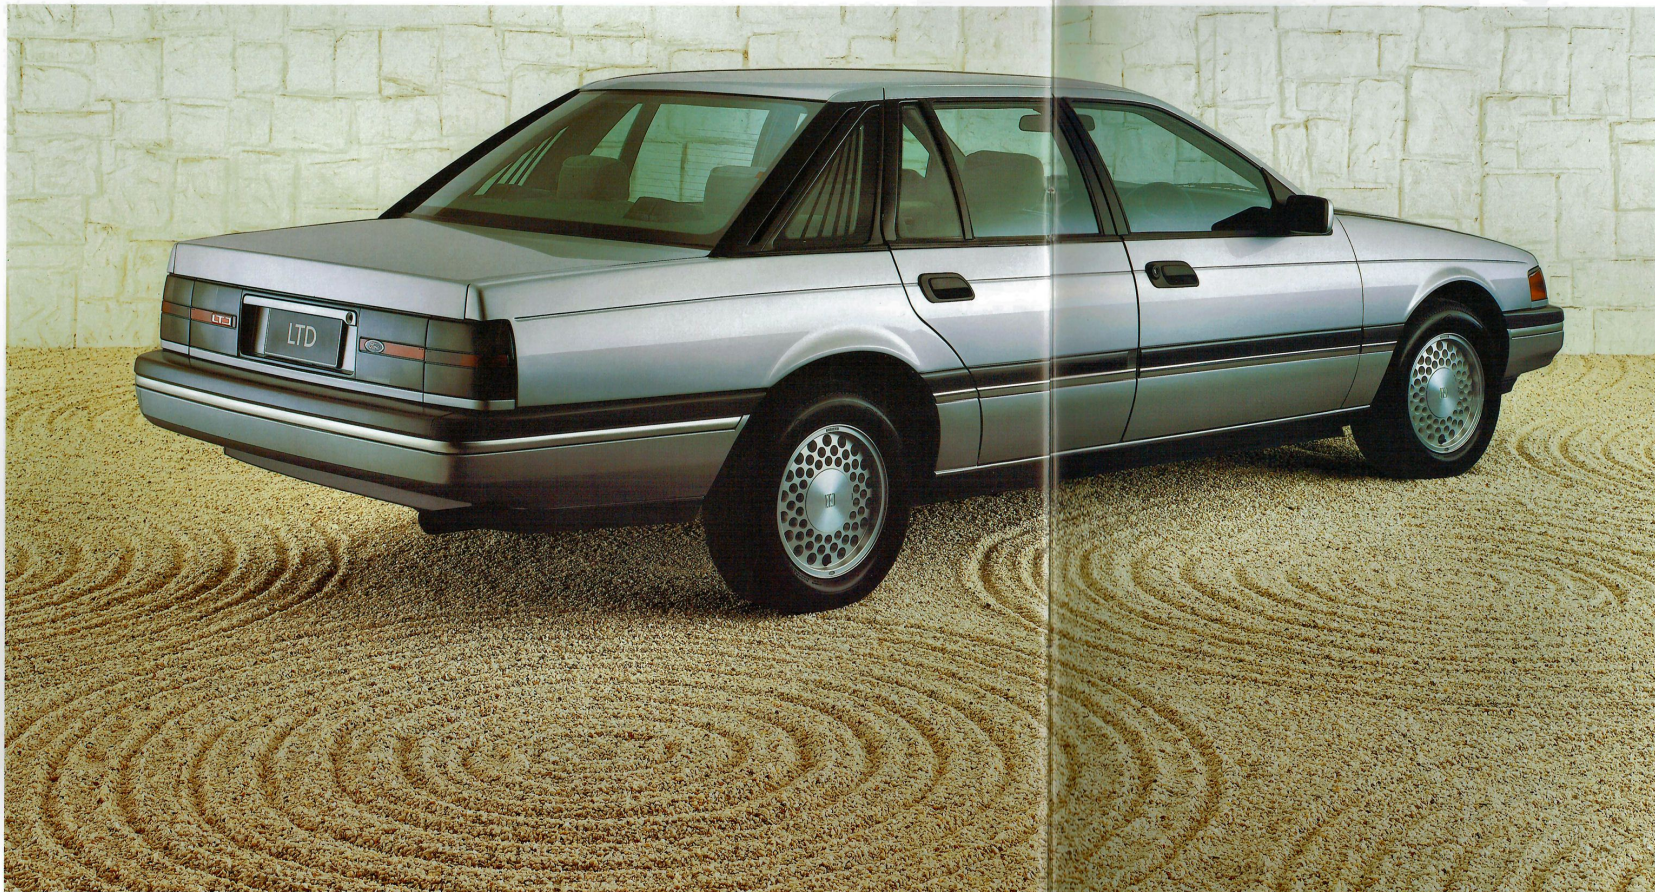

More than seventy times each second, the engine's EEC-4 electronic management system monitors sixteen key functions and issues "instructions." It tells the fuel pump how much fuel to deliver to the injectors. It tells the spark plugs when to fire. It controls the idle speed.

New LTD's sophisticated "SLALS" front suspension utilises a short and long arm, long spindle configuration, similar to systems employed by Mercedes Benz and Honda. Such a system has never before been fitted to a car manufactured in Australia. It gives LTD very highly refined ride and handling characteristics. Combined with variable ratio rack and pinion power steering this system gives you a very real sense of control on both the highway and around town and provides for low steering efforts during parking. And LTD is now surprisingly manoeuvrable for a large car with a turning circle that is 1.6 metres less than before.

The LTD rear suspension is an automatic self-levelling 'Watts Link' system. The system incorporates a height sensor which constantly monitors ride height and, when carrying more passengers or a heavier load than usual, increases air pressure in the air springs to ensure the ride remains totally poised and refined.

And large diameter, power assisted, 4-wheel disc brakes bring LTD to a sure, confident stop.

*LTD IS ADVANCED
ENGINEERING*

The elegant, modern styling of LTD is both pleasing to the eye and eminently functional. A combination of Computer Aided Design and the very latest in styling trends gives LTD its excellent aerodynamic characteristics.

The sleek front-end and steeply-raked windshield help LTD slip through the air and reduce wind drag as well as wind noise. They also aid in driver visibility—as do the strong, slim pillars incorporated in LTD's design.

Concealed rain gutters and discreetly tinted flush mounted side and rear glass also help LTD to cut more smoothly, more quietly through the air.

At the rear, LTD gives you the practicality of a low lift-over boot lip. And inside the boot, you'll find space for a very large load indeed.

The range of metallic and prestige exterior paints incorporates a base coat/clear coat finish of brilliant depth and lustre. And because Ford's new paint technology provides a high level of protection against corrosion, new LTD has a five year Warranty against perforation corrosion.

This is the shape to carry LTD into the future. It is stylish, refined and practical. It is a shape that sets LTD apart.

LTD LEADS THE FIELD

PLEASE NOTE: The paints, colours, trims, combinations and information described depicted and referred to in this selector are to be used only as a general guide in the selection of a vehicle. Vehicle paint colours will differ in varying degrees from those depicted herein.

Ford Motor Company of Australia Limited reserves the right at any time and without notice to discontinue or change the specifications descriptions colours and designs of the paints, colours, trims and combinations thereof as described and referred to herein, to add or delete any paint colour, trim or combination thereof to or from the range described or referred to herein and to temporarily suspend or restrict the use of any paint colour, trim or combination thereof listed or referred to herein without incurring any liability whatsoever for so doing.

Always consult your Authorised Ford Dealer for the latest information on and the availability of paints, colours, trims and combinations before deciding to place an order for a vehicle.

Standard Equipment: Ford LTD

MECHANICAL

- 3.9 litre OHC engine with multipoint electronic fuel injection
- Electronic engine control (EEC 4) system
- 3 speed floor automatic transmission
- Short and long arm, long spindle front suspension
- Auto self levelling Watts Link rear suspension
- Front and rear stabiliser bars
- Four wheel disc brakes
- Power assisted rack and pinion steering
- Limited slip differential

EXTERIOR

- Grey front and rear bumpers with bright insert
- Body coloured valance
- Bright hood grille
- Wide section grey bodyside protection mouldings with bright inserts
- Body coloured rear applique and tail lamp surround
- P205/65 HR15 steel belt radial ply tyres
- 15" x 6.5" JJ holed alloy wheels with centre cap and LTD logo
- Rectangular ellipsoid projector headlamps with integrated indicator and park lamps
- Body coloured foldaway exterior rear view mirrors with electric remote control
- Two speed front windscreen wipers with intermittent setting, demand wash/wipe and demand wipe feature
- Dual jet windscreen washers
- Rear window demister with timed automatic switch off feature
- Tinted band laminated windscreen
- Tinted side and rear glass

INTERIOR

- Deluxe soft feel steering wheel incorporating cruise control switches-
- Adjustable rake and reach steering column
- Prismatic day/night interior rear view mirror
- Cloth covered sunvisors with passenger vanity mirror
- Large velour covered centre console with power windows, rear seat entertainment system controls and centre armrest
- Digital clock with trip computer display
- "Quilted Velour" trim
- Six way power adjustable driver and passenger seats including height up/down, cushion tilt up/down and fore/aft
- Driver and passenger seat infinite adjustable recline
- Driver's seat lumbar adjustment
- Adjustable front and rear headrests
- 60/40 split fold down rear seat backrest with centre armrest

INTERIOR (continued)

- Driver and passenger seat back map pockets
- Front door map pockets/storage compartment
- Passenger assist handles and coat hooks
- Driver's left footrest
- Moulded cloth covered headlining
- Carpeted passenger and luggage compartment floor
- Interior light with twin spot lamps
- Illuminated entry system
- Rear reading lamps
- Front footwell lamps
- Rear footwell lamps
- Luggage compartment lamp
- Ignition lock illumination
- Illuminated front and rear cigar lighter and ashtray
- Illuminated and lockable glove box
- Warning lights: high beam, rear window demister on, turn signal/hazard, alternator, lights on, park brake on, washer fluid low, radiator fluid low, fuel low, high temperature, cruise control indicator, car outline diagram for door, boot/tailgate, fuel filler door open, low oil pressure, seat belt reminder and auto rear suspension malfunction
- Audible warning chimes: low fuel, lights on, low alternator charge, low oil pressure, high coolant temperature, brake failure/park brake on
- Gauges — Digital: speedometer, odometer, tripmeter and analogue fuel gauge, water temperature gauge and tachometer
- Trip computer
- Cruise control
- Dual horns
- Moulded door trims covered in velour with wood trim
- Power door locks
- Power windows
- Childproof rear door locks
- Remote fuel filler release
- Remote boot release
- Front and rear inertia reel seat belts and static rear centre lap belt
- Premium sound system which includes: electronic tuning AM stereo, FM stereo radio/cassette with six speakers, fader/balance control, pre-programmed graphic equaliser, auto reverse, auto scan memory, storage and security code feature and a rear seat entertainment centre with headphones
- Power antenna
- Automatic climate control system with integrated air conditioning and rear seat ducts

OPTIONAL EQUIPMENT

- Towing pack (a)
- Metallic paint (b)
- Prestige paint (b)

Ford LTD Specifications

FORD LTD

Engine	3.9 litre Multipoint EFI
Bore & Stroke mm	91.86 x 99.3
Cylinder Head	OHC; aluminium alloy
Engine Block	Cast iron
Displacement cc	3949
Compression ratio	8.8:1
Fuel System	Electronic fuel injection controlled by EEC 4 engine management system
Fuel (Octane Rating)	91-93
Max Power DIN kW/rpm	139/4250
Max Torque Nm/rpm	338/3500

Suspension

Footnotes:

(a) The towing pack is a factory fitted option and provides a towing capacity of 1200 kgs when used in conjunction with a suitable caravan or trailer braking system and towing equipment. This pack consists of:

- Tow bar
- Gooseneck
- Wiring harness with 7 pin electrical connector
- Transmission cooler (automatic transmissions only).

Note: The caravan or trailer braking system and any other items (such as the tow ball, load levelling devices and safety chains) required for the attachment of a trailer, caravan or the like to the vehicle are not supplied as part of the Pack, and must be purchased at extra cost or be supplied by the purchaser of the vehicle.

The Towing Pack is designed to be incorporated in the vehicle during the assembly of the vehicle. The actual towing capability and performance of a vehicle will depend upon many factors including the suitability of the caravan, trailer, etc, the condition of the vehicle, the vehicle load, the vehicle specifications, weather conditions, road gradient, terrain and other prevailing conditions.

A towing accessory is also available for fitment from your Authorised Ford Dealer. A Ford-approved transmission oil cooler must be fitted in conjunction with any towing accessory fitted to automatic vehicles and used to tow a gross weight of more than 500 kgs. Consult your Authorised Ford Dealer for the latest information with respect to the specifications and the availability of this accessory towing pack.

(b) Not all colours are available in metallic paint or prestige paint. Metallic and prestige paint are available at no extra cost. Consult the Ford colour selector or your Authorised Ford Dealer to determine which colours are available in metallic paint or prestige paint.
