

Toyota Tacoma and T100 are a reflection of the superior quality and value found in all Toyota products, as well as the ongoing Toyota philosophy of total customer satisfaction... and they have the quality Awards to prove it – from customers and experts allike:

A major part of our annual Research & Development budget is directed into design and engineering safety features. For example, we control-crash over 600 vehicles annually; run every engine to assure its reliability; conduct simulated and actual high speed track tests of braking to stress components.

We are absolutely committed to the principle of constant improvement... and we strive not simply to meet your expectations but to exceed them.

Our objective: how to make your driving experience better, easier, more convenient, more fun. Read through this brochure; ask someone who owns a Tacoma or a T100; better still, take one for a test drive. And discover for yourself what Toyota quality really means.

RAV4 4Runner Previa

DESIGNED EXCLUSIVELY TO ANSWER THE WORKING AND PERSONAL RECREATION NEEDS OF NORTH AMERICA. TACOMA FEATURES IMPRESSIVE POWER-

Tacoma 4x4, for year-round fun and recreation! The new standard of performance, styling with a spacious and comfortable interior for your number one choice. Shift on the fly 4WD is simple with the touch of a button' or lever located on the transfer case. A smooth and stable ride on or off-road is assured by a fully independent double wishbone front suspension with coil springs and gas shock absorbers combined with rear multi-leaf springs and bias mounted gas shock absorbers. Choose your Tacoma in Regular Cab or Xtracab models, all with sporty exterior styling and carlike comforts. Toyota's A.D.D. (Automatic Disconnecting Differential) system provides economical 2WD or ondemand 4WD with no hubs to lock. A 4-wheel A.B.S. (Antilock Braking System) which operates in 2 or 4-wheel drive is available on selected models and standard on 4x4 Xtracab SR5 V6. Standard features on all Tacomas include a driver airbag Supplemental Restraint System (SRS), adjustable 'B' Pillar shoulder belt anchors, outboard 3-point lap and shoulder belts and halogen headlamps. 4x2 Tacomas (available in regular or Xtracab) feature a long list of standard equipment in a sporty package, styled and engineered uniquely for your needs. A powerful 142 hp. 16-valve 4-cylinder engine delivers the ideal combination of performance with fuel economy.

AIRBAG NOTICE: The 1997 Toycta Tacoma features a driver airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bag. In moderate frontal collisions, the airbag may not inflate, in a rear or side collision the airbag is designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. Seat belts must be worn at all times by all occupants.

TOYOTA CANADA INC. Specifications and equipment are based on information available at time of printing and are subject to change without notice. In some cases, features, although shown as, or stated to be standard equipment, may nonefleless be optional or not available. 4x4 Xtracab SR5 shown with optional equipment

Optional equipment shown

T100 4x4/4x2

The 4x4 T100 Xtracab & Xtracab SR5 combines the power and cargo capacity of a full-size truck with the styling, ease of handling and economy of a compact. The powerful and fuel efficient 190 hp. 3.4 Litre 24-valve V6 is available with a rugged 5-speed overdrive manual transmission or optional column-shift 4-speed automatic. Optional 4-wheel A.B.S. (Antilock Braking System) is an all-weather feature that operates in 2 or 4-wheel drive. Around town economy in 2WD or on demand 4WD is available at the touch of a lever thanks to Toyota's A.D.D. (Automatic Disconnecting Differential) system. The 3-passenger 60/40 reclining split bench on Xtracab has a fold-down armrest and adjustable headrests, with sport seats & centre console/armrest on Xtracab SR5. The convenient passenger-side walk-in provides easy access to the comfortable rear seating for three with practical fold-down jump seats, assist grips and swing-open quarter windows for ventilation. Adjustable 'B' Pillar shoulder belt anchors, outboard 3-point lap and shoulder belts, and 2-point lap belts for the rear and centre seating positions ensure occupant comfort. The large instrument panel is highly functional, with all controls logically placed. The long list of standard equipment includes a digital clock, tachometer, voltmeter and oil pressure gauges, tinted glass and headlamp-on reminder to name just a few. T100... a tough, durable workhorse with

impressive levels of performance, passenger comfort, handling and payload. Standard T100 safety features include a driver airbag, side impact protection, skidplates for the fuel tank and transfer case (4x4 models), halogen headlamps, adjustable 'B' Pillar shoulder belt anchors and highmount stoplamp. Powerful and dependable as a workhorse, T100 4x2's 5200 lb.' base towing capacity beats all competitors with power to spare. Full wheel covers and front and rear splash guards are standard. The cargo bed holds 4'x 8' panels between the wheelwells, has two-tier loading capability, and the one piece tailgate is easily removable without the use of tools.

*4x4 T100: 5000 lbs., approved frame hitch required.

1997 4x2 T100 Features & Specifications

Toyota Credit

Take advantage of Toyota Credit Lease and Finance Plans. All arrangements can easily be made at your participating Toyota Dealership! Simply ask your salesperson about the complete convenience of Toyota Credit.

We've Got You Covered!

With Extra Care Protection, your new Toyota has inflation protected coverage from mechanical failure, road emergencies, and much more. It is the affordable and cost effective way to guarantee your peace of mind and to protect your investment whether you buy or lease. ECP is not a warranty... it's much more! It can provide you and your new Toyota with coverage such as Towing, Emergency Road Service, Rental Assistance, and Tire Road Hazard Protection. It can take over with Mechanical Protection when your Toyota factory warranty ends. Please consult with your Toyota Dealer about this valuable option, because with ECP, "we've got you covered!"

AIRBAG NOTICE: The 1997 Toyota 1700 features a driver airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the bag. In moderate frontal collisions, the airbag may not inflate, in a rear or side collision the airbag is designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. Seat belts must be worn at all times by all occupants.
