

2004 H2

## 2004 H2 DETAILS

MSRP NOTE 1

### COMPONENTS AND FEATURES

#### ENGINE

Vortec™ 6000 6.0L V8 with cast iron block, cast aluminum cylinder heads and sequential fuel injection

#### HORSEPOWER

316 hp@5200rpm

#### TORQUE

360 lbs.-ft.@4000rpm

#### TRANSMISSION

Borg-Warner™ 2-speed electronically-controlled, full-time 4WD

#### TRACTION CONTROL SYSTEM (TCS)

Brake-controlled, single-wheel control capability with rear axle locking differential

#### STEERING

Variable ratio, integral power, recirculating ball

#### BRAKES

4-wheel disc, 4-wheel/4 channel ABS and dual piston calipers with Dynamic Rear Proportioning

#### FRONT SUSPENSION

Independent with torsion bars, 46mm monotube gas charged shocks and 36mm stabilizer bar

#### REAR SUSPENSION

5-link variable-rate coil spring, solid axle, 46mm monotube gas charged shocks and 30mm stabilizer bar

#### AIR SUSPENSION PACKAGE

Self-leveling rear air spring suspension with on-board air compressor

#### FRAME

3-piece fully welded ladder-type

## 2004 H2 WARRANTY

GM backs your new H2 with its New Vehicle Bumper-to-Bumper Limited Warranty, for GM vehicles registered in the USA. See your HUMMER dealer for terms and conditions. The entire vehicle is warranted for repairs, including parts and labor, to correct problems in materials or workmanship for 3 years or 36,000 miles whichever comes first (except normal maintenance). The warranty covers the complete vehicle, tires, towing to your nearest HUMMER dealership, cosmetic corrosion resulting from defects, and repairs made to correct any vehicle defect. There is no charge for most warranty repairs. There is also no deductible for repairs during the warranty period. And the warranty transfers automatically with vehicle ownership during the warranty period.

**CORROSION:** Since HUMMER trucks are designed to resist corrosion, all body sheet metal components are warranted against rust-through corrosion for 6 years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required, and none is recommended.

**HUMMER**® LIKE NOTHING ELSE.™

**LEGAL NOTES** **1** MSRP does not include tax, title, license, options and accessories. It does include the destination charge. **2** Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in the rear seat. See the vehicle Owner's Manual and child safety seat instructions for more information. **3** 1-year OnStar® Safe & Sound Service Plan is standard on the H2. For more information, call 1.888.4ONSTAR (1.888.466.7827) or visit [www.onstar.com](http://www.onstar.com) for system limitations and details. **4** GVWR (Gross Vehicle Weight Rating) includes vehicle, passengers, equipment and cargo. GVWR availability may vary depending on equipment. **5** Payload includes passengers, equipment and cargo. **6** Trailer tongue weight should be 10-15% of the total loaded trailer weight, up to 100 lb. Do not exceed the maximum allowable tongue weight for your vehicle. Gross combination Weight Rating (GCWR), which is the total allowable weight of the completely loaded vehicle and trailer including any passengers, cargo, equipment and conversions, is 14,000 lb. If you'll be pulling a trailer that, when loaded, will weigh more than 5,000 lb., be sure to use a properly mounted, weight-distributing hitch and sway control of the proper size. If your trailer weighs more than 2,000 lb. loaded, then it needs its own brakes and they must be adequate. Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your HUMMER dealer for additional details. **7** Please review size limitations and exercise caution prior to entering certain garages.
