Safety

ANTHEM

Protect what's important. Inside and out.

Every time an engine starts, lives are on the line. Which is why we've created a higher standard of safety for the Mack Anthem. Because we believe safety starts with protecting the drivers inside our trucks and extends to everyone on the road.

Safer by design.

Exterior features that protect truck and driver.

1. Cab passes additional A-pillar and rear strength pendulum testing
2. Sloped hood for superior visibility
3. Convex hood-mounted mirrors
4. Galvanized steel cab exceeds SAEJ2422 roof strength requirements
5. Passenger side peep window
6. ABS, automatic traction control and Mack Roll Stability Advantage
7. Three points of contact for entry and exit with full-length grab handle and slip resistant steps
8. Door-mounted puddle lights illuminate steps
9. Splayed rails for lower engine mount, allowing the engine and transmission to drop below the cab in the event of a severe front-end collision

Tech that protects.

Advanced connectivity and safety features.

Connectivity

Mack's Integrated Uptime package turns data into insight for additional safety support:

Automatically monitor truck's performance with GuardDog® Connect

Get 24/7 OneCall® roadside assistance

Over the Air (OTA) wirelessly updates software and parameters with Driver Display Activation (DDA)

Control and command.

Interior safety features at the driver's fingertips.

1. Ground reachable light controls and pre-trip light check switch
2. Automotive-style steering wheel controls for easy reach
3. Driver-focused dash design and digital display help eyes stay on the road
4. *mDRIVE*™ automated manual transmission for a smooth shift

Optional features

RollTek® seats for additional collision protection

High-visibility orange seat belts

Driver-facing camera

Alarm to prevent drivers from exiting without setting the parking brake

Bendix® Wingman® Fusion™ 2.0

Integrates radar, camera and
brake system data to assist with:

Collision Mitigation

Adaptive Cruise Control

Lane Departure Warning

Right-side Blind Spot Detection

Automatic Emergency Braking

Command Steer

Driver-assist technology
you'll only find on a Mack.

Holds the lane during unexpected events
(pot holes, wind, sloped roads, etc.)

Reads and dampens steering gear torques
2000 times per second

Steering wheel returns to zero going forward
or when backing up

See how
Command Steer
works.

Doing our part to keep everyone protected.

Little details can make a big difference, which is why the Mack Anthem is built with safety at its core.

Advanced Visibility

From cabs to cameras and every angle in between, the Anthem has clear sightlines to help drivers see more of the road.

Enhanced Maneuverability

The Anthem features advanced driver-assist technologies to help drivers make every move with confidence.

Improved Driver Control

The driver-focused interior is designed to keep heads, hands and eyes focused on the road ahead.
