- Ratings up to 500 hp and 1,850 lb-ft.
- Front axle up to 20,000 lbs./ Rear axle up to 46,000 lbs.

VNR STRAIGHT SERIES

ROLL-OFF

THE ANSWER TO OVERSPEC'ING

For every vocational job that involves extreme loads and rough terrain, there are a dozen that just require you to move material down the road. Volvo believes you shouldn't have to order vocational specs for working on the tundra, when you are simply traveling the turnpike.

Introducing the VNR Straight Series, trucks designed for vocational applications where fuel efficiency is just as important as indestructability.

The VNR roll-off is ideal for local urban and suburban pick-up where maneuverability is crucial. Featuring a chassis and

frame rail that can handle the rigors of canister pick-up, this VNR also provides the PTO options necessary for refuse and debris hauling. The VNR roll-off is designed to run in applications that work 90% on highway, and it easily transfers from hard packed loading areas back on to the asphalt.

Select either a D11 or D13 Volvo Power engine with ratings up to 500 hp. Paired with our innovative I-Shift, you'll enjoy tremendous load capacity and the benefits of fuel-efficient offerings like Volvo's Eco-Torque Performance package.

CAB MODEL – VNR 300	
Applications	Short-haul for refuse, demolition, and construction
Available Engines	Volvo D11 & D13/325-500 hp
	Straight-torque and Eco-torque Performance available
