Capri GT/V6

The new shape of power for the '70s

Click the sports shift a few sweet inches. Press the pedal. Inside ten seconds the white line is slipping by at a mile a minute... a 3-litre V6 engine is answering the call of highway or track with a pulse-quickenning 144 horsepower.

And like all fine pieces of precision machinery, Capri GT/V6 is designed, built and equipped to handle the muscle: Sports suspension. Wide track. Wide, safety-rim wheels shod with road-gripping radials. Servo-assisted front discs and rear drum brakes. Sports console with a fast shift calling the tune for 4 all-synchro, close-ratio gears.
