

1975 DODGE SPORTSMAN WAGONS

INTRODUCING THE DODGE SPORTSMAN WAGON

CHOOSING THE RIGHT SIZE IS EASY AS 1-2-3.

This popular Dodge Sportsman wagon comes in three different models—the B100, B200, and B300. The B200 and B300 are also available in a Maxiwagon, the biggest wagon on the market today. All are designed and built to give their owners many years of service and reliability.

There are many things that make the Sportsman wagon dependable. The ELECTRONIC IGNITION SYSTEM, standard on all Sportsman wagons, has no points or condenser. This means service on these components is eliminated. A solid-state VOLTAGE REGULATOR has no moving parts to go out of adjustment. Dependability is also found in the Dodge transmission. The LOADFLITE AUTOMATIC TRANSMISSION has been constantly refined and improved to the point where we feel it is one of the best on the road today.

1. B200 DODGE SPORTSMAN WAGON ON A 127-INCH WHEELBASE.

Shown above is the B200 Sportsman wagon equipped with the optional Royal Sportsman SE package and sliding side door. New for 1975 is the optional single rear door that can be opened and closed with one hand. Exterior features include bright-finish grille, bright head lamp doors, bright moulding around hood and front fenders, tail lamp bezels, upper moulding package, bright hubcaps, and bright dual five-by-seven-inch mirrors.

2. B100 DODGE SPORTSMAN WAGON ON A 109-INCH WHEELBASE.

Nice and neat—that's the way owners describe this B100 Sportsman wagon on a 109-inch wheelbase. Big enough to handle the job, yet small enough to zip through heavy traffic, park in tight places, and make a U-turn on narrow streets with ease. The model shown here is equipped with the Custom Sportsman package. Colors are white and medium gold with Paint Option Number One. Optional equipment shown is white-wall tires, bright mirrors, and wheel covers. Some of the standard exterior features include painted front and rear bumpers, bright-finish grille, dual five-by-seven-inch mirrors, bright-finish hubcaps, and the upper front and side moulding package.

3. B200 DODGE SPORTSMAN MAXIWAGON ON A 127-INCH WHEELBASE.

Pictured at the right is the biggest wagon in the industry, as well as the most popular. It has an extra 18 inches of length added to the rear and with the optional seats can seat up to 15 people. This large seating capacity makes it an ideal vehicle for schools, groups, and families that want a lot of room. Shown here is a Sportsman Maxiwagon equipped with the Custom Sportsman package. Colors are bright red and white with Paint Option Number One. Optional equipment shown is radio, white sidewall tires, bright sideview mirrors, bright hubcaps, and bright bumpers.

Shown at the left is a Royal Sportsman SE wagon in white and bronze metallic with Paint Option Number Two. Optional equipment shown is radio, wheel covers, sliding side door, single rear door, lower moulding package, and white sidewall tires.

HERE ARE SOME OF THE REASONS WHY SPORTSMAN IS AMERICA'S NUMBER ONE COMPACT WAGON:

TRAILER-TOWING PACKAGES. For those who wish to tow a trailer, your Dodge Dealer will be happy to help you order the right package to suit your needs.

OPTIONAL FRESH AIR AIR CONDITIONING operates two ways. It can bring in a constant supply of fresh air from the outside or recirculate inside air.

FIBER-GLASS engine cover is designed to reduce noise and heat. It's cool to the touch and easily removed for maintenance.

SUN VISORS are full-width to help keep out sun's rays, including those at the windshield corners.

TWO-STAGE FRONT DOOR CHECK keeps door from closing on you as you leave and enter front compartment.

COMFORTABLE FRONT SEATS are full-foam and 20-inches-wide with square corners for leg support.

ENGINE COMPARTMENT is easily accessible to make maintenance and repair work simple and easy. Dipstick, battery, and radiator are up front in plain sight.

CAR-STYLE INSTRUMENT PANEL AND STEERING WHEEL. Instrument panel is easy to read and reach, heater controls are centrally located, and the steering wheel is at a comfortable passenger-car angle.

ELECTRONIC IGNITION SYSTEM. Standard equipment on all Dodge Sportsman wagons, this system eliminates points and condenser, common causes of engine trouble. It also extends the life of your spark plugs and lowers maintenance costs.

INDEPENDENT FRONT SUSPENSION has coil springs for smooth riding comfort and can be adjusted on passenger-car alignment equipment.

POWER FRONT DISC BRAKES are fade-resistant. Rear brakes are drum-type.

OPTIONAL SLIDING DOOR is available on all Sportsman wagon models with a 127-inch wheelbase to make loading and unloading in tight places and narrow alleys quick and easy.

POWER STEERING is an option which makes steering and handling easier, particularly when your Sportsman is fully loaded.

HEATER is located in the engine compartment to give you more footroom and less noise in the front compartment.

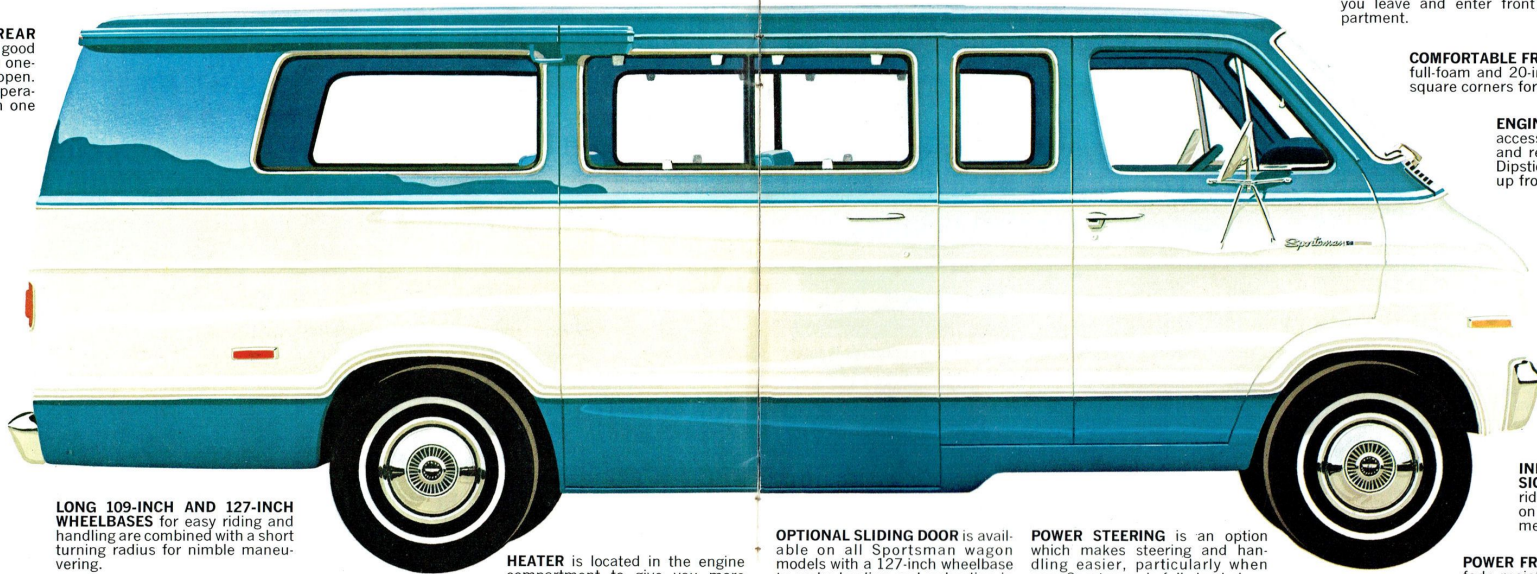

LONG 109-INCH AND 127-INCH WHEELBASES for easy riding and handling are combined with a short turning radius for nimble maneuvering.

EASY ACCESS to cargo area in the 127-inch-wheelbase models is made possible because front seat does not block doorway entrance at side.

GAS TANK has a capacity of 23 gallons, one of the biggest in the compact industry. A new optional 36-gallon-capacity tank is also available on the B300.

RUST PROTECTION is provided in areas where moisture could cause rust and corrosion. Several galvanized coatings are used to do the job.

NEW OPTIONAL SINGLE REAR DOOR is full-width and offers good visibility out the rear. It has a one-position check to hold it fully open. It's well-balanced for easy operation and can be opened with one hand.

Shown above is the Dodge Maxiwagon, the largest compact wagon you can get. Its overall interior length is 153.3 inches from the engine cover to the rear doors, and the overall exterior length from bumper to bumper is 212.0 inches. It has a seating capacity of up to 15. Remove the rear seats and you can carry a 12-foot-long roll of carpet and still close the rear doors. Available only on a 127-inch wheelbase. Colors on model shown are medium blue metallic and white with Paint Option Number Two. Model shown has the Royal Sportsman dress-up package plus white sidewall tires, bright side-view mirrors, and wheel covers.

EXTRA CARE IN ENGINEERING MAKES A DIFFERENCE IN DODGE.

DODGE SPORTSMAN WAGON INTERIORS

ROYAL SPORTSMAN SE INTERIOR upholstery material shown here covers the foam bucket seats, the rear bench seats, and the door and side trim panels. Fabric is color-keyed to go with whichever interior color you select. Choice of gold or parchment. Other features include color-keyed carpet and vinyl door and side trim panels, trim panel mouldings, a carpeted engine housing cover, bucket seat risers, bench seat legs, and "SE" nameplates on door interior and exterior.

ROYAL SPORTSMAN INTERIOR offers an all-vinyl upholstery fabric which covers the foam bucket seats, rear bench seats, and door and side panels. Color-keyed carpeting throughout, off-white headliner, cigarette lighter, bright-finish instrument cluster trim, and padded instrument panel with simulated wood-grained insert are also included. Seat colors are keyed to match the rest of the interior. Selection includes blue, green, parchment, and black.

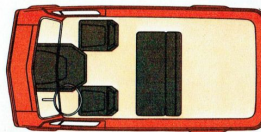

ROYAL SPORTSMAN OPTIONAL INTERIOR is cloth-and-vinyl upholstery that covers foam-padded front seats and rear seats. Color-keyed carpeting throughout, full headliner, padded instrument panel with vinyl wood-grained insert, horn bar, cigarette lighter, and bright-finish instrument cluster trim are also included. Color choices are blue, green, parchment, or black.

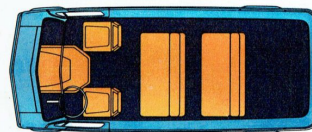

CUSTOM SPORTSMAN INTERIOR has color-keyed trim and seats covered in long-wearing vinyl. Colors include blue, green, parchment, and black. Padded instrument panel, color-keyed floor mats throughout, instrument cluster trim dress-up, horn bar, and cigarette lighter are also included.

SPORTSMAN WAGON SEATING CAPACITIES

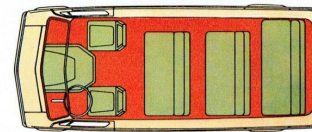

Shown at the right are the standard and optional seating choices you get with Dodge wagons. The standard capacity is five—two in front, three in back. Optional are eight-, twelve- and fifteen-passenger capacities which are provided by the extra bench seats in the rear. The fifteen-seater is available on the B300 Maxiwagon only.

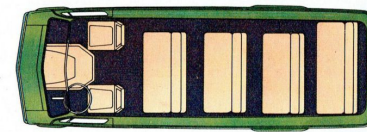

Standard 5-passenger seating

Optional 8-passenger seating (109" & 127" WB, B200 & B300)

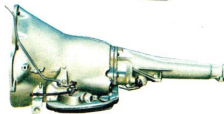

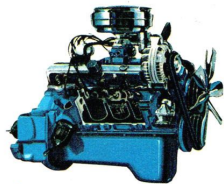

Optional 12-passenger seating (127" WB, B300)

Optional 15-passenger seating (127" WB, B300 Maxiwagon only)

ENGINES, TRANSMISSIONS, AND ELECTRONIC IGNITION SYSTEM

ENGINE AVAILABILITY

The standard engines for the B100, B200, and B300 are the 225-cubic-inch Slant Six and the 318-cubic-inch V8. The 360 engine is optional on the B200 and B300.

TRANSMISSIONS

Standard transmission for B100 and B200 Sportsman wagons with six-cylinder and V8 engines is a three-speed manual. Standard for the B300 Sportsman wagon is an automatic transmission which is also available as an option on the B100 and B200 models.

ELECTRONIC IGNITION

Available as standard equipment on all North American-built Dodge Sportsman wagons, this system eliminates points and condenser, two common causes of ignition problems. It also means fewer tune-ups and longer plug life.

OTHER AVAILABLE OPTIONS

- CONVENIENCE PACKAGE
- INSULATION PACKAGE
- AIR CLEANER—OIL-WETTED (EXCEPT ON 360 ENGINE)
- AIR CONDITIONING—V8 MODELS ONLY
- AUTOMATIC SPEED CONTROL (AVAILABLE WITH V8 ENGINES AND A 727 AUTOMATIC TRANSMISSION ONLY)
- BATTERY—59 AMP OR 70-AMP

- FRONT AND REAR BRIGHT-FINISH BUMPER (STANDARD WITH ROYAL SPORTSMAN SE AND ROYAL SPORTSMAN PACKAGES)
- CIGARETTE LIGHTER
- HEAVY-DUTY CLUTCH (6-CYLINDER ONLY)
- VENTED GLASS REAR DOORS (TINTED GLASS—WINDSHIELD ONLY OR ALL WINDOWS)

BRIGHT GRILLE

This is another standard feature that gives your Sportsman wagon a neat, uncluttered look and an attractive appearance.

- PASSENGER COMPARTMENT HEADLINER (WITH SPORTSMAN PACKAGE ONLY)
- DELUXE HEATER
- HORN BAR (WITH SPORTSMAN PACKAGE ONLY)
- BRIGHT-FINISH HUBCAPS (WITH SPORTSMAN PACKAGE ONLY)
- PADDED INSTRUMENT PANEL (WITH SPORTSMAN PACKAGE ONLY)

AIR INTAKE VENTS

These vents are located at a high level so cooler, cleaner air is brought into the driver/passenger compartment.

- INTERIOR DAY/NIGHT PRISMATIC MIRROR
- INCREASED COOLING
- OIL PRESSURE GAUGE
- POWER STEERING
- AM RADIO
- REAR SEAT PACKAGES AVAILABLE: 8-PASSENGER—B200 AND B300, 12-PASSENGER—B300 127-INCH WHEELBASE AND MAXIWAGON, 15-PASSENGER

SIDE WINDOWS

Side windows of the Sportsman wagon are pushout-type and open and close easily. They offer fresh air, yet cannot be opened wide enough for children to climb out.

BRIGHT-FINISH HUBCAPS

This feature adds a touch of class to the appearance of the wheels.

POWER BRAKES

Power-assist brakes make braking almost effortless.

POPULAR OPTIONAL EQUIPMENT

SLIDING SIDE DOOR

This option makes it easy to load and unload your Sportsman wagon in tight places or narrow alleys.

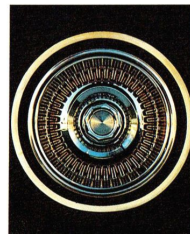

NEW SINGLE REAR DOOR

This full-width rear door offers good visibility out the rear. It has a one-position check to hold it fully open. It's well-balanced for easy operation and can be opened with one hand.

AUXILIARY REAR COMPARTMENT HEATER

This option is available for those who wish or require additional heat in the rear compartment.

PREMIUM WHEEL COVERS

These bright-finish wheel covers add beauty to your Sportsman wagon's wheels.

EXTERIOR MIRRORS

Here are safety items you'll really appreciate. They give you an excellent view of what is behind and beside you with just a quick glance.

AIR CONDITIONING

This system can either recirculate inside air or take in fresh air from the outside and cool it.

TRAILER-TOWING PACKAGES

For those who wish to tow a trailer, your Dodge Dealer will be happy to help you order the right package to suit your needs.

ANTISPIN DIFFERENTIAL

This option gets you out of trouble in mud or snow. Should one wheel start spinning, the power is automatically transferred to the other wheel.

AUTOMATIC SPEED CONTROL

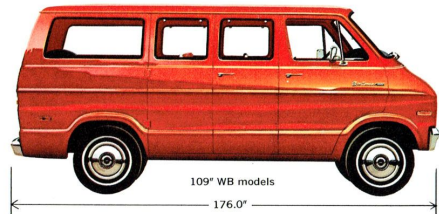

Now you can set the speed you want and forget it. This option holds it until released. Great for long distance trips. Saves gas, too.

HEAVY-DUTY ALTERNATOR

This option is available in either 55- or 72-amps on all models. 55-amp alternator is included with air conditioning and in the trailer-towing packages.
