

NEW LASER

VERSATILITY

► Inside and out, front and back, there have been a lot of changes to Australia's favourite hatch...from the economical L, to the popular GL and the luxury Ghia. Restyled head and tail lights, hood, grille and bumpers, bright new interiors and brilliant new sound systems on GL or Ghia, all add panache and style to these versatile fun cars.

PERFORMANCE

► Under the bonnet, new Ford Laser offers a three-way choice of reliability and power. From the economical 1.3L engine in the Laser L, to a zippy 1.6L engine fitted as standard in the GL and Ghia models.

New Laser Ghia also has the choice, at extra cost, of a 1.6L engine with Electronic Fuel Injection for increased power and performance.

A range of transmissions is available with 4-speed manual in the Laser L and GL and 5-speed manual in Ghia as standard. If you prefer automatic

transmission, 3-speed T-Bar is available on GL and Ghia with the 1.6L engine, while an all new 4-speed electronic automatic with overdrive top is fitted on Ghia models when the 1.6L EFI engine is specified.

Independent suspension and rack and pinion steering are standard features for confident handling

and driving control. Power steering is optional on Laser Ghia in conjunction with automatic transmission.

ROOM FOR FUN

► Go shopping, head off for the weekend, or simply cruise around town - new Laser's got the space and style to do just about anything that takes your fancy. All models have fold down rear seat backs for even more loadspace. With Laser L one pull folds the whole seat back down, while GL and Ghia offer a 50/50 split fold-down. Laser Ghia also has adjustable rear seat back angle, and rear seat head rests.

Test drive new Laser hatch today. You'll rave about it!

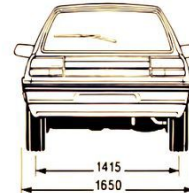

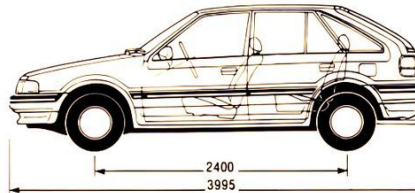

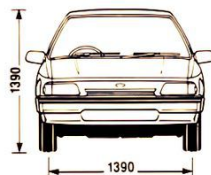

Something to RAVE About!

SPECIFICATIONS
