

2025

VENUE

Making big moves in the big city.

VENUE Limited in Ultimate Red

Venue was built to match urban hustle with personal style and versatility. It's a small SUV with big doses of savvy design, smart technology and sophisticated safety features that shine under the city lights. Offered in three trims, Venue is always in fashion thanks to its chiseled angles, cascading mesh grille and an available two-tone roof.

Playing host to parties of up to five is enhanced by Apple CarPlay® and Android Auto™ integration,¹ which lets you access your compatible smartphone's music playlists, maps, text messages and more using Venue's standard 8" touchscreen display. Prefer issuing verbal instructions? Press the voice command button on your steering wheel and speak your mind.

To make loading your gear easy, Venue offers 60/40 split fold-down rear seats and is available with an adjustable two-level cargo floor. Ready to get going? Venue SEL and Limited feature a Proximity Key with push button start that fires up a Smartstream 1.6L engine rated at up to an EPA-estimated 31 combined MPG.² When you're on the move, available Drive Mode Select lets you choose between Normal or Sport driving dynamics, with a Snow mode that offers enhanced traction on slick roads.

Get to know Venue, and you'll know why global brand research consultancy Brand Keys has ranked Hyundai #1 in Customer Loyalty for the past 15 years in a row.³

¹ Apple® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ² All figures are EPA estimates for comparison purposes only. Actual mileage may vary with options, driving conditions, driving habits and the vehicle's condition. ³ Based on Brand Keys 2010, 2011, 2012, 2013, 2014, 2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023 and 2024 Customer Loyalty Engagement Index®. ⁴ Safety features vary by model and trim level. For details, refer to the Features chart in this brochure or visit HyundaiUSA.com. ⁵ Forward Collision-Avoidance Assist with Pedestrian Detection (FCA) helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles and pedestrians under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for maintaining control of the vehicle and should not wait for the system's alerts before braking, as there may not be sufficient time to brake safely. See Owner's Manual for details and limitations. ⁶ Lane Keeping Assist operates only when the lane markings are clearly visible on the road. It will not work under all circumstances and will not prevent loss of control. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. It uses a camera in the upper windshield area, so it is imperative this area be free of blockage such as stickers, dirt, snow, tinting material, markings and labels. Avoid putting objects on the dashboard that may reflect light or images onto the system camera area. See Owner's Manual for details and limitations. ⁷ It is the driver's responsibility to remain alert at all times. Driver Attention Warning warns the driver of a potential lack of attention or drowsiness. It does not detect or provide an alert in every situation. See Owner's Manual for details and limitations. ⁸ Blind-Spot Collision Warning (BCW) assists the driver by warning of other cars in the blind-spot region when traveling over 20 mph. There are limitations to the function, range, detection and clarity of the system. Do not rely completely on BCW and use proper lane changing procedures. BCW may not detect every object or vehicle and will not prevent accidents. Rear Cross-Traffic Collision Warning (RCCW) is active when the vehicle is in reverse gear and operating at low speeds. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCW. Always look over your shoulder and use your mirrors to confirm rear clearance. See Owner's Manual for details and limitations. ⁹ When the vehicle is parked and the engine has been turned off, the Rear Occupant Alert (ROA) feature can help to alert the driver if the rear door(s) have been opened at any point after the vehicle was unlocked at the beginning of the journey. Upon turning the engine off, ROA will provide a visual alert on the instrument cluster. ROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. See Owner's Manual for details and limitations.

Expand your safe space.

Venue protects you from nearly every angle with Hyundai SmartSense, our suite of advanced safety and driver-assist technologies.⁴ To help keep you aware of potential hazards in front of you, there's Forward Collision-Avoidance Assist with Pedestrian Detection.⁵ Whether it's a slowed vehicle detected in your path, or a pedestrian detected to be walking in the road, Venue can alert you to trouble ahead. If necessary, emergency braking may automatically be applied to help you avoid a collision.

Should you begin drifting outside of your lane without signaling, Lane Keeping Assist can help alert you and actively engage your Venue's steering to gently nudge you back into your lane.⁶ If fatigue or inattentiveness is detected in your driving behavior, a feature called Driver Attention Warning alerts you that it may be time to take a break.⁷

Beyond these standard features, Venue is also available with Blind-Spot Collision Warning and Rear Cross-Traffic Collision Warning, which can act as extra sets of eyes.⁸ Even as you exit your vehicle, Venue looks after your family's safety with a standard Rear Occupant Alert feature that reminds you to check the rear seats before leaving.⁹

Venue's safety engineering goes all the way to its core with a body constructed of advanced high-strength steel. And zones designed to absorb and disperse impacts, helping to protect you and your passengers inside the cabin.

VENUE Limited in Black Cloth / Leatherette

Fits everything you need. Even your vibe.

With all the versatile storage space inside Venue, it's easy to pack up and go to your next gig, game or girls' night out. Hyundai designers carefully studied the sizes and shapes of the gear you carry, then created innovative storage solutions to maximize cargo capacity.

To help organize and secure the things you and your crew bring, there's an available two-level cargo floor. With a standard height designed for easy loading, the floor can be lowered to gain greater clearance for taller items. The cargo cover that lets you conceal your stowed stuff can also be removed and stored when more cargo height is needed.

So now that everything is packed in its proper place, it's time to put yourself in the proper frame of mind. Press a button, and the available power sunroof slides open to let in the sunlight. Tap the touchscreen display to call up your favorite tunes from your phone's playlists, then enjoy how rich and full your music sounds on Venue's standard 6-speaker audio system.

Like you, Venue knows how to be comfortable in different situations. Whether it's hot or cold outside, an available automatic temperature control maintains preset temperatures inside the cabin. Heated front seats are also available to take the chill off. And like you, Venue is totally plugged in. On SEL and Limited trims, you'll enjoy dual rear USB ports. Front-seat passengers can also charge their devices using dual USB ports or a 12-volt power outlet, and control them from Venue's large touchscreen display located front and center.

Introducing Bluelink+: No fees. No trial. No worries.

With Bluelink+, Hyundai becomes the first automotive brand in America to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink+ is complimentary with the purchase of a new 2025 Venue Limited.¹

Bluelink features technologies that help keep you safe – from automatic collision notifications and 24/7 automatic emergency assistance if your airbags deploy to enhanced roadside assistance that sends your exact location to a roadside assistance associate.² Bluelink also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2025 Venue Limited new vehicle purchase.³

Our MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or smart home assistant into a Bluelink remote control that can unlock your vehicle's doors – and start the engine and climate controls – before you walk out the door.⁴

Starting your Venue Limited remotely applies your radio and navigation presets automatically using your Bluelink personal profile. Want to remotely check and see if you've left your doors unlocked or the headlights on? Just consult your MyHyundai with Bluelink app. It's that easy.

Bluelink+

Automatic Emergency Assistance

Bluelink offers 24/7 SOS Emergency Assistance and Automatic Collision Notification that can call for help if you're in an accident where your vehicle's airbags deploy.²

Bluelink Car Finder

Bluelink's Car Finder feature helps you easily navigate city streets and parking lot mazes when finding your way back to your Venue Limited.

On-Demand Diagnostics

Run vehicle diagnostics from the MyHyundai with Bluelink app, report issues at the press of a button and receive monthly vehicle health reports and maintenance reminders by email.

Safeguard Alerts

Are you the proud parent of a teenage driver? Bluelink lets you set geofence, curfew and speed alerts so you can relax when your loved ones are behind the wheel.

Remote Vehicle Controls

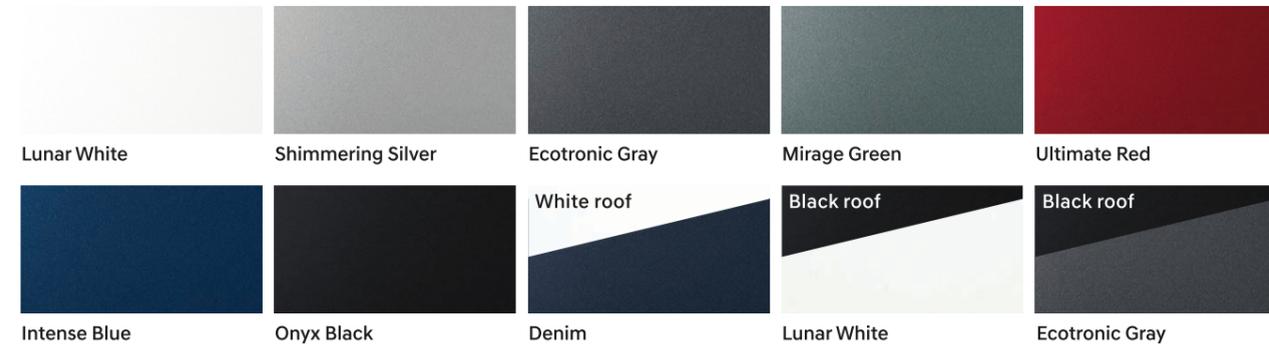

Your compatible smartphone, smart speaker or smartwatch lets you remotely start Venue Limited's engine, set the cabin temperature, unlock the doors and more.

Destination Send-to-Car

Use the MyHyundai with Bluelink app to find addresses, restaurants or other points of interest and send the destination to Venue Limited's navigation system before you start to drive.

Exterior Colors

¹ Bluelink+ is available to purchasers and lessees of new 2025 and newer Bluelink-equipped Hyundai models. Bluelink+ requires an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. ² Bluelink agents will contact existing emergency service responders. ³ Bluelink services rely on digital wireless telecommunications technology outside of Hyundai's control. Bluelink is dependent on 4G LTE cellular networks controlled and maintained by third-party wireless carriers. If and when these networks change and/or discontinue service, or the underlying technology required to support Bluelink becomes obsolete, then the connected services will not work, and Hyundai will be forced to cancel impacted subscription services. ⁴ Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully-automatic temperature control. Remote stop only available when in remote start mode.

Hyundai Hope On Wheels®

Helping Kids Fight Cancer Since 1998

Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 26 years, Hyundai Hope On Wheels has donated \$250 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai. For more information, please visit HyundaiHopeOnWheels.org.

Hyundai Complimentary Maintenance

COMPLIMENTARY MAINTENANCE INCLUDES FOUR (4) BASIC MAINTENANCE SERVICE VISITS THAT MUST BE USED IN THE FIRST 3 YEARS OR 36,000 MILES, WHICHEVER COMES FIRST. Basic maintenance includes Hyundai-approved oil and oil filter change (except for electric vehicles and fuel cell electric vehicles), multi-point inspection plus tire rotation. Driving at normal factory-scheduled maintenance intervals would cover four services for the first 3 years or 36,000 miles. Any additional services and parts are excluded. Offer valid only for original owners of new 2025 model year Hyundai vehicles. See your Hyundai dealer for details and limitations.

Owner Assurance

Our commitment to Hyundai owners does not end with the transfer of keys. Wherever the road takes you, we have got your back with Hyundai Owner Assurance, an umbrella of services and benefits that includes America's Best Warranty, 24/7 Roadside Assistance, innovative safety and car care features...and more.

America's Best Warranty claim based on total package of warranty programs. See your Hyundai dealer for LIMITED WARRANTY details and HyundaiUSA.com/Assurance for Owner Assurance details and limitations. While the information contained in this brochure is based on the latest information available at the time of publication, specifications and equipment can change. Feature comparisons based on competitor information available at the time of publication. Although the information contained in this brochure is believed to be correct, accuracy cannot be guaranteed. No warranty or guarantee is being extended in this brochure, and Hyundai reserves the right to change product specifications and equipment at any time, without notice or incurring obligations.
