

2008 HHR

2008 HHR

CHEVROLET

2008 HHR

WE TOOK A MULTI-DIMENSIONAL VEHICLE. AND ADDED A COUPLE MORE.

It turned conventional thinking on its head. By uniting cool design with innovative versatility. Now Chevrolet HHR is breaking the mould all over again with the introduction of the 2008 HHR Panel and HHR SS Turbocharged models. With two body styles, five models and three engines to choose from, HHR is the vehicle that embodies its driver's personality – in all its forms. HHR Panel takes personalization to the next level with its bold look and enhanced cargo-carrying functionality, as well as its suitability for customization. For the performance minded, nothing will equal the adrenaline-injected power of the HHR SS Turbocharged. As for HHR's rational side – it's demonstrated by the five-star safety ratings for frontal and side-impact crash tests.* And the fact it's backed by the best coverage in Canada – our \$0 deductible 5-year/160,000 km Powertrain Limited Warranty,** in addition to 5-year/160,000 km Courtesy Transportation** and 24/7 Roadside Assistance.** Let's Go make our own rules. With HHR.

*Five-star rating is for the driver and front passenger seating positions in the frontal crash test and the front and rear seating positions in the side-impact crash test. Side-impact crash test rating is for a model tested without optional head curtain side-impact air bags. U.S. government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (NCAP) (safercar.gov).

**Whichever comes first. Conditions and limitations apply, see dealer for details.

LET'S GO 
CHEVROLET

CONTROLS

HHR LT interior, shown in Gray with available equipment.

TUNE IN.

Tunes are an integral part of your ride. That's why every HHR is equipped with an auxiliary audio input for your iPod® or MP3 player. LT models add MP3 playback. If music is really your thing, you can go for the available seven-speaker Pioneer® premium sound system with 260-watt amplifier – and

available XM Satellite Radio™, which features 120 channels of music, news, talk, comedy and sports.* So make yourself comfortable – using the standard six-way driver's seat adjuster. Put the lively, yet impressively fuel-efficient ECOTEC® engine in gear. And tune into a form of driving that's totally you. In HHR.

*Includes three trial months beyond which service fees apply.
Available in 10 Canadian provinces and 48 contiguous United States.

Open up with the available power sunroof. It includes one-touch express open and close functions, as well as a windscreen position.

You go nowhere without your iPod. In HHR, you can do more than bring it with you – you can plug it into the standard auxiliary audio input jack.

VERSATILITY

The front-passenger and second-row seatbacks can be folded flat to create an extended loading floor.

YOU'VE GOT THE STUFF. IT'S GOT THE SPACE.

What's the fun of having all that cool gear if you can't bring it with you? HHR has it covered – there's a whopping 1574 L (55.6 cu. ft.) of cargo space with the rear seats folded down. The space can also be easily reconfigured to maximize either passenger or cargo room, with a fold-flat front-passenger

seat, in addition to 60/40 split-folding rear seats. And there are strategically positioned storage compartments – one at the top of the instrument panel and three concealed bins in the rear of the cargo area. Go ahead – bring it all with you in HHR.

An auxiliary storage compartment is positioned at the top of the centre stack for easy access – an ideal place for items like sunglasses.

The adjustable rear cargo shelf also serves as a tabletop – perfect for tailgate parties. Don't forget the salsa.

Three concealed rear storage bins keep valuables out of sight.

SS TURBOCHARGED

TURBOCHARGE YOUR LIFE. LITERALLY.

Take the style and versatility that define the totally unconventional HHR. Then add heat – in the form of the turbocharged 2.0L ECOTEC engine. In combination with the 5-speed short-throw manual transmission and high-performance suspension, it produces a brand of race-tuned performance that will make you think of a pure sports car, not a vehicle that's classified as a small utility. The HHR with added go. HHR SS Turbocharged.

HHR SS Turbocharged, shown in Victory Red with available equipment.

The HHR SS Turbocharged features Ultra Suede seat inserts and cloth inner/leather outer bolsters. The interior also boasts an analogue titanium boost gauge mounted on the A-pillar.

It's one gutsy performer: the turbocharged 2.0L ECOTEC engine generates a remarkable amount of power for an engine of its displacement.

18-in. aluminum wheels are standard on SS Turbocharged.

TECHNOLOGY/SAFETY

2007 HHR – FIVE-STAR
FRONTAL AND SIDE-IMPACT
CRASH TEST RATINGS*

STAY IN TOUCH.

HHR makes the right connections. The new StabiliTrak™ electronic stability control system helps counteract a lateral skid – it's available on up-level HHR LT models. Then there's the now standard OnStar® system that includes Advanced Automatic Crash Notification. Adding to your peace of mind is the fact that HHR earned the highest U.S. government safety rating – five stars – for both the frontal and side-impact crash tests.* The standard Driver Information Centre, located in the gauge cluster, keeps you in touch with a series of important vehicle functions. So stay in touch with your friends, your favourite pursuits, and the vehicle you drive. HHR.

*Five-star rating is for the driver and front passenger seating positions in the frontal crash test and the front and rear seating positions in the side-impact crash test. Side-impact crash test rating is for a model tested without optional head curtain side-impact air bags. U.S. government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA) New Car Assessment Program (NCAP) (safercar.gov).

1. STABILITRAK ELECTRONIC STABILITY CONTROL SYSTEM

StabiliTrak applies brake pressure at the appropriate wheel or wheels to address the causes of understeer or oversteer. It responds in thousandths of a second when a lateral skid is detected, helping you maintain control and remain headed in your intended direction. StabiliTrak and full-function traction control are available on HHR up-level LT models.

2. ECOTEC ENGINES

The 149 hp 2.2L, 172 hp 2.4L and turbocharged 2.0L ECOTEC I-4 engines all employ a dual overhead camshaft configuration that helps maximize output, and their aluminum engine block reduces weight without sacrificing strength. The 2.4L and turbocharged 2.0L feature torque-boosting variable valve timing.

3. BRAKING PERFORMANCE

HHR features standard front disc brakes with ventilated rotors and single piston calipers, in addition to rear drum brakes, for assured stopping power. A four-wheel anti-lock braking system (ABS) is available.

4. SPEED-SENSITIVE ELECTRIC POWER STEERING

Speed-sensitive, variable-effort electric power steering eliminates the hydraulics of a conventional power steering system, reducing weight and fuel consumption. It uses electronic sensors to react within thousandths of a second for precision control and responsiveness.

5. PASSENGER SENSING SYSTEM

The Passenger Sensing System detects the weight of the passenger in the front seat and automatically suppresses air bag deployment when appropriate.**

**A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.

6. SIDE-IMPACT AIR BAGS*

Dual-stage frontal air bags are standard on all HHR models. In addition, head curtain side-impact air bags for both front and rear passengers are available.

7. QUALITY MANUFACTURING

HHR's rigid body structure reduces noise and vibration, and makes it possible to tune suspension components more precisely. Exceptionally tight tolerances between exterior body panels provide a level of quality you may expect from a much more expensive vehicle.

8. FUEL EFFICIENCY

HHR is very fuel efficient, achieving ratings of 6.6 L/100 km¹ highway (43 mpg) and 10.3 L/100 km¹ (27 mpg) city with the standard 2.2L ECOTEC engine and 5-speed manual transmission.

¹Based on preliminary testing for 2008 model.

ENVIRONMENTAL FEATURES

A series of HHR features help reduce the impact on the environment. They include: the removal of lead from the steel protection process, the elimination of hydraulic fluid in the electric power steering system, reduction in oil consumption thanks to the GM Oil Life Monitoring System, and the use of onboard refuelling vapour recovery to reduce emissions.

ACCESSORIES

GO AHEAD – MAKE YOUR HHR EVEN MORE PERSONAL.

Start with one of the most individualistic vehicles on the road. And then let your imagination take over. With the added style and functionality of GM Accessories. They are the only accessories that are integrated into the process of designing HHR, ensuring that they look right and work right. Only GM Accessories are backed by the 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for HHR, or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

GM Accessories available for HHR include:

- Side-window deflectors
- Head restraint DVD system
- Roof-mounted soft cargo carrier
- Premium all-weather floor mats
- Premium all-weather cargo mat
- Splash guards – contoured and moulded
- Cargo area organizer
- Doorsill plate
- Exhaust tip.

HHR Panel LT, shown in Black and Silverstone Metallic (not a production colour) with available dealer-installed bumper cover protector, spoiler, roof rack cross rails and 17-in. wheels from GM Accessories.

HHR MODEL OVERVIEW

HHR LS

- 149 hp 2.2L ECOTEC I-4 dual overhead cam engine
- 5-speed Getrag manual transmission
- Touring Suspension Package
- 16-in. steel wheels with bolt-on covers
- Power remote control mirrors with Black caps
- Remote keyless entry system
- 6-way driver's seat adjuster
- Flat-folding front passenger seatback
- 60/40 split-folding rear seatback
- Air conditioning
- Power windows and door locks
- Cruise control
- 6-speaker sound system with CD player and auxiliary iPod input jack
- 2 small and 1 large rear storage bins
- OnStar with one year of the Safe & Sound Plan

HHR LT

HHR LT includes the LS features, plus:

- 16-in. custom-spoke painted sterling silver wheels
- Power remote control mirrors with body-colour caps
- Power 8-way driver's seat adjuster
- MP3 playback

HHR SS TURBO

Unique HHR SS Turbocharged features include:

- Turbocharged 2.0L ECOTEC I-4 dual overhead cam engine with variable valve timing
- 5-speed short-throw manual transmission
- 18-in. aluminum wheels
- High-performance suspension
- 4-wheel disc brakes with ABS
- Liftgate-mounted aero spoiler
- Ultra Suede seat inserts and cloth inner/leather outer bolsters
- Analogue titanium boost gauge mounted on the A-pillar

HHR PANEL LS

- 149 hp 2.2L ECOTEC I-4 dual overhead cam engine
- 5-speed Getrag manual transmission
- Touring Suspension Package
- 16-in. steel wheels with bolt-on covers
- Power remote control mirrors with Black caps
- Remote keyless entry system
- 6-way driver's seat adjuster
- Flat-folding front passenger seatback
- Air conditioning
- Power windows and door locks
- Cruise control
- 6-speaker sound system with CD player and auxiliary iPod input jack
- 3 large cargo-area bins
- OnStar with one year of the Safe & Sound Plan

HHR PANEL LT

HHR Panel LT includes the Panel LS features, plus:

- 16-in. custom-spoke painted sterling silver wheels
- Power remote control mirrors with body-colour caps
- Power 8-way driver's seat adjuster
- MP3 playback
