ALLANTÉ

The first roadster enhanced by the year-round reassurance of exclusive Traction Control and anti-lock brakes, standard.

Combining a robust V8 with European road manners for exhilarating performance.

The remarkable spaciousness and renowned comfort of Cadillac. The artistry of handcrafted Italian coachwork.

Sophisticated driving systems, impressive by virtue of both their utility and refinement.

And whisper-quiet aerodynamics embracing a handcrafted work of art, providing you the finest in open-air motoring.

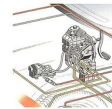

EXCLUSIVE TRACTION CONTROL

Allanté is the first roadster in the world with sophisticated Traction Control, standard. A perfect complement to the inherent stability of front-wheel drive, it applies anti-lock braking technology and controls engine output during acceleration for extraordinary, all-weather performance.

As you accelerate or maintain speed on a slippery surface, Traction Control auto-

matically detects tire slippage in a split second. Employing Bosch III anti-lock braking and, when necessary, reducing engine power, it quickly matches wheel speed to ground speed.

As a result, your Allanté moves forward to the limit of the available traction, providing increased driveability and control day after day, on virtually any road surface.

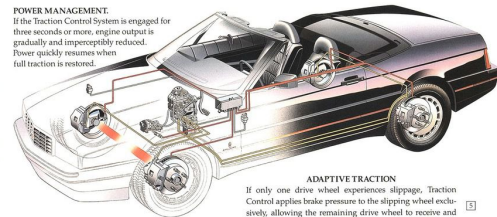

UP TO 15 TIMES PER SECOND.

When wheel slippage occurs during acceleration, Allanté's anti-lock brakes pulse up to 15 times per second until wheel speed and ground speed are nearly matched and maximum traction is obtained.

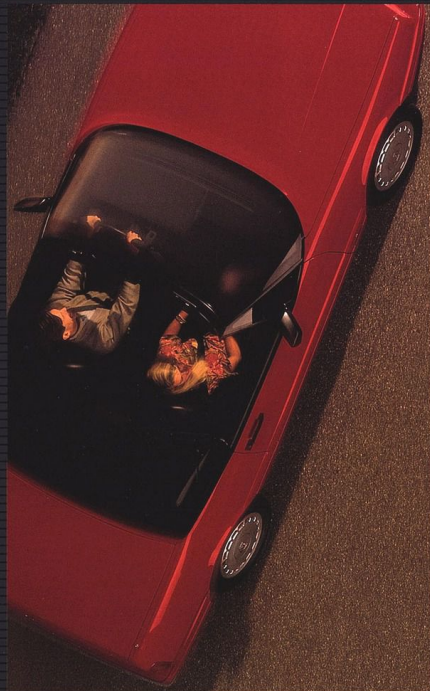

POWER MANAGEMENT.

If the Traction Control System is engaged for three seconds or more, engine output is gradually and imperceptibly reduced. Power quickly resumes when full traction is restored.

ADAPTIVE TRACTION

If only one drive wheel experiences slippage, Traction Control applies brake pressure to the slipping wheel exclusively, allowing the remaining drive wheel to receive and transmit available engine power.

ALLANTÉ

The first roadster enhanced by the year-round reassurance of exclusive Traction Control and anti-lock brakes, standard.

Combining a robust V8 with European road manners for exhilarating performance.

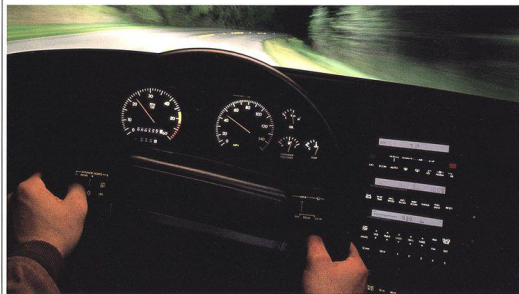

The remarkable spaciousness and renowned comfort of Cadillac. The artistry of handcrafted Italian coachwork.

Sophisticated driving systems, impressive by virtue of both their utility and refinement.

And whisper-quiet aerodynamics embracing a hand-crafted work of art, providing you the finest in open-air motoring.

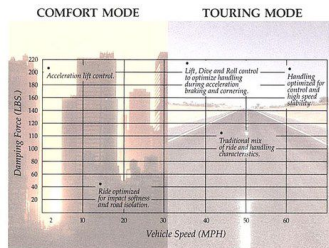

ALLANTÉ PERFORMANCE

ADVANCED SPEED SENSING.

Allanté's electronically controlled Speed Dependent Damping (SDD) automatically reacts to changing vehicle speeds. SDD adapts the damping of its struts between two modes—"comfort," "normal" and "touring"—in an incredible 15/100 of a second. "Comfort" for isolation from bumps in town. "Normal" for increased control at moderate speed. And "touring" for highway travel.

Allanté's speed-sensitive variable assist steering provides parking ease and highway stability.

CORRELATION BETWEEN SUSPENSION FIRMNESS AND VEHICLE SPEED.

EXCLUSIVE WHEELS AND TIRES.

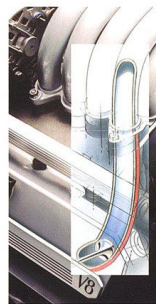

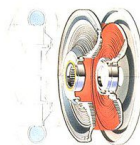

Allanté's exclusive 16" wheels are forged from aluminum for high strength relative to low unsprung mass—to help keep the exclusive Goodyear Eagle V-rated tires in better contact, particularly on rough roads.

AUTOBAHN-PROVEN PERFORMANCE.
From the all-weather characteristics of advanced Traction Control and anti-lock braking to its robust powertrain, superb adaptive Speed Dependent Damping and speed-sensitive variable assist steering, Allanté delivers autobahn-proven performance. This is high-technology driving with outstanding reliability. The V8 engine's premium materials include new dual-tipped platinum spark plugs so durable, their recommended replacement interval is 100,000 miles. The transmission includes hand-assembly, both for performance and high reliability. On-board electronics monitor critical systems while you drive and actually store information that promotes fast, accurate service.

CADILLAC'S EXCLUSIVE VISCOUS CONVERTER CLUTCH.

A viscous fluid link of silicone helps to ensure consistently smooth driveline feel.

RAM AIR TUNING.

The tuned air intake runners of Allanté's high-output V8 pack air more densely at the intake valve at specific engine speeds. The synergistic result: greater cylinder charge during combustion.

AN ELEGANT, REFINED V8 THAT TRANSPORTS YOU WITH DISPATCH.

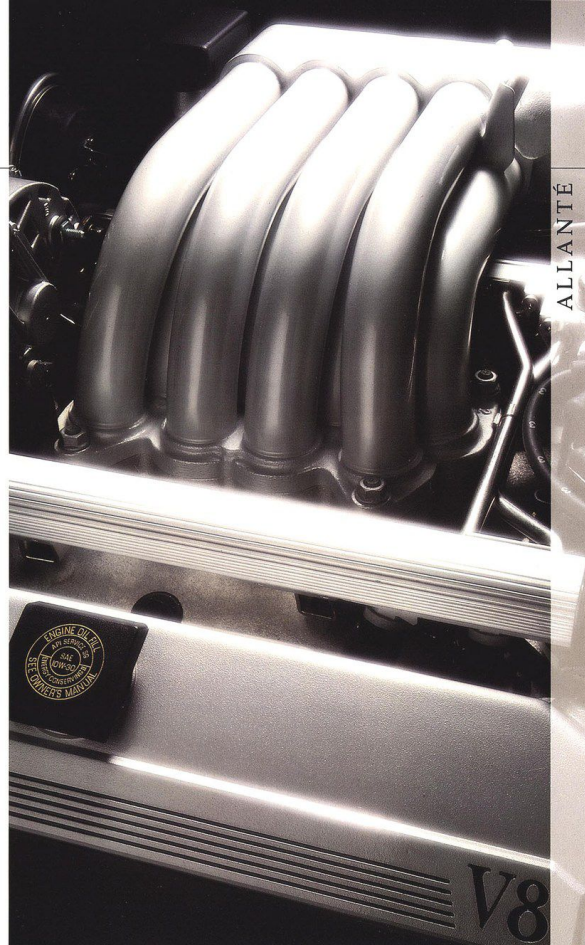

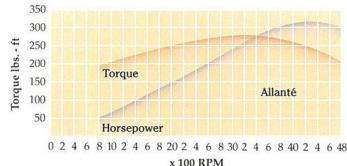

Generating an authoritative 200 horsepower and 270 lbs.-ft. of torque (see chart, below), this engine delivers spirited performance over a wide range of speeds.

The Allanté's 4.5 liter V8 harnesses the sophistication of sequential port fuel injection for more precise fuel metering to each cylinder. The fast response time maximizes power, especially

during changing driving speeds.

The low-swirl combustion chamber, together with large-diameter intake valves, improves engine breathing, maximizing the output of every power stroke.

Power goes through the exclusive F-7 four-speed automatic transmission, tuned for high-performance driving.

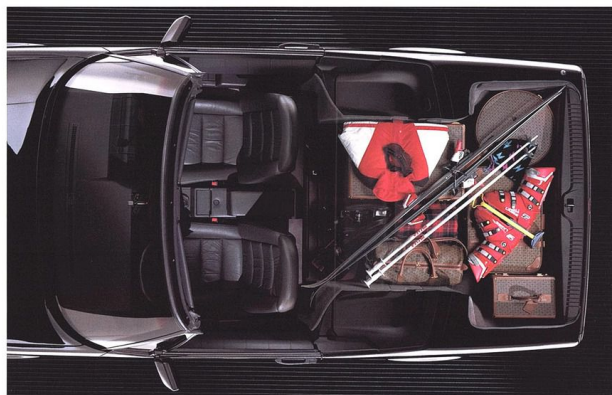

ALLANTÉ | COMFORT/CRAFTSMANSHIP

A SLEEK PREVIEW.

Ultra-luxury. World-class performance. With a cockpit designed to integrate passengers and machine in a most rewarding environment, Allanté strikes a perfect balance between uncompromising luxury and high performance. What's more, Allanté possesses the rare ability to maintain this balance day to day, for a driving experience that reduces variability with the change of seasons.

THE LARGEST LUGGAGE SPACE OF ANY ROADSTER SOLD IN AMERICA. Allanté has 16.3 cubic feet of luggage capacity. Its pass-through design adapts to seasonal changes by providing ample room for golf clubs, skis and more. And a simple turn of the key in the lock mechanism of the luggage compartment unlocks both doors.

WHISPER QUIET.

Engineered in Pininfarina's renowned wind tunnel, Allanté's aerodynamics allow you to have a normal conversation with the top down even at highway speeds.

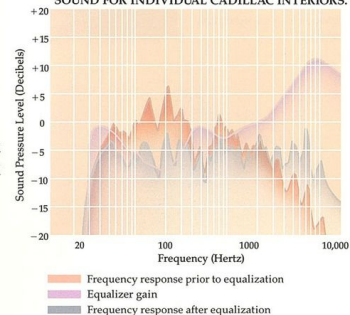

THE ACCLAIMED DELCO/BOSE SOUND SYSTEM.

Here is a synergy of electronics, physics and acoustics. Allanté's standard 200-watt Delco/Bose 200 Series sound system, precisely custom-equalized to match its leather-trimmed interior surfaces, features both compact disc realism and full-featured auto-reverse cassette tape along with AM stereo*/FM stereo radio, standard.

*Receives C-Quam stereo broadcasts. Most AM stations across the country broadcast in C-Quam but some do not. Check with your local stations for compatibility in your area.

DELCO/BOSE EQUALIZATION CREATES OPTIMUM SOUND FOR INDIVIDUAL CADILLAC INTERIORS.

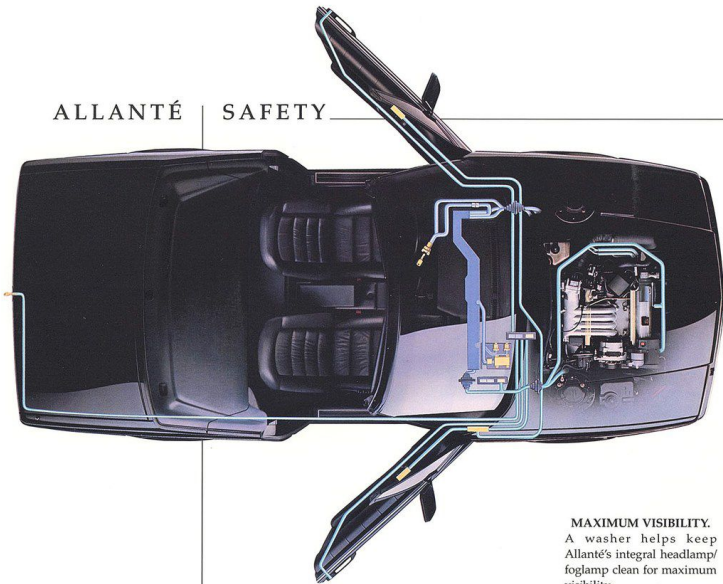

HIGH-PERFORMANCE SEATING WITH EUROPEAN FLAIR.

Clad in supple, hand-matched Italian leather, European-built 10-way adjusting Recaro® bucket seats feature a driver's-side memory function to recall two preferred seating positions. Additionally, the leather seating areas are specifically conditioned for added protection when motoring in the open air.

ALLANTÉ

ALLANTÉ SAFETY

MAXIMUM VISIBILITY.
A washer helps keep Allanté's integral headlamp/foglamp clean for maximum visibility.

PATENTED THEFT-DETERRENT SYSTEM.

The PASS Key® theft-deterrent system employs a resistance-coded pellet discreetly placed in your ignition key. If a key that doesn't bear an identical pellet is turned in the igni-

tion or if ignition wiring is disturbed, both the fuel system and starter are instantly shut down for three minutes. This system may qualify you for comprehensive insurance discounts.

FASTER THAN THE EYE CAN BLINK.

Fifteen different tests are performed to help insure that the Supplemental Inflatable Restraint System (air bag) is deployed only when required collision conditions exist. As a result, strategically located sensors detect any frontal impact occurring at sufficient speed in 1/50th of a second. A back-up power system stands ready to deploy the system if power is interrupted.

A WORLDWIDE EXCLUSIVE.

Allanté is the only automobile in the world with computer-based, multiplexed lamp control. It senses when

a front lamp burns out, notifies the driver, and automatically illuminates a lamp nearby for added safety.

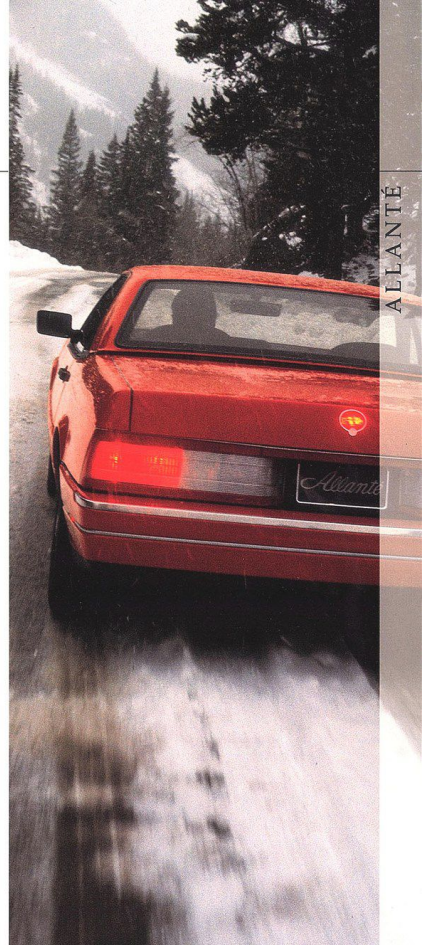

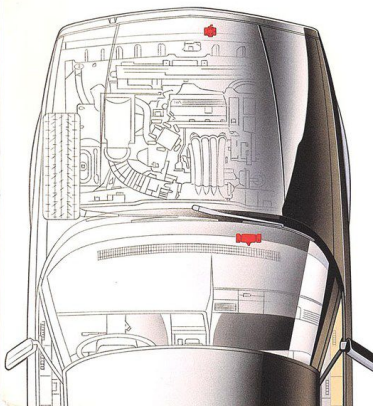

THE WORLD'S ONLY BOSCH III ABS SYSTEM.

Allanté is the only automobile in the world with advanced Bosch III anti-lock braking. A perfect complement to Allanté's four-wheel disc brakes, it minimizes

wheel lock-up on virtually any road surface to help you maintain steering control during sudden stops and when braking on slippery surfaces.

ADVANCED BRAKING TECHNOLOGY.

A toothed ring rotates with the wheel. When a wheel begins to lock, a magnetic sensor at the toothed ring provides this information to two parallel ABS computers which analyze the data separately, then monitor each other to help insure greater reliability. The computers then operate the braking system.

ALLANTÉ

C | A | D | I | L | L | A | C

S | T | Y | L | E

ALLANTÉ

ULTRA-LUXURY.

Allanté's custom interior blends supreme comfort with utility that puts a premium on refinement. From its high-performance seating to the leading-edge sophistication that surrounds it, it's an inviting setting in which to enjoy tailored luxury and the thrill of the open road.

CONCEIVED BY CADILLAC, DESIGNED BY PININFARINA.

The coachwork is designed and handcrafted in the Italian studios of Pininfarina, master designer of the Ferrari Testarossa and Rolls-Royce Camargue.

ALLANTÉ | 1991 SELECTED STANDARD AND AVAILABLE FEATURES

The aluminum hardtop weighs only 58 lbs., and fastens quickly into place. Includes heated rear window and glass quarter windows

Allanté's power-latching soft-top design features gas-strut assist, electrically heated glass rear window and glass quarter windows

The open-car aerodynamics of Allanté turn the wind into a whisper, allowing you to have a normal conversation at highway speeds with the top down

COMFORT AND CONVENIENCE

Body computer module

Electronic climate control with outside temperature display

Illuminated visor vanity mirrors—driver and passenger

Visors, padded dual sun

SEATING AND INTERIOR

■ Seatback pockets

Armrests, door-leather-trimmed Console, includes leather-trimmed armrest, ash receiver, cigarette lighter, storage compartment with coin holder, release buttons for fuel filler door and luggage compartment, leather-trimmed shift selector

Floor mats, Tiffany

Floor mats, carpeted

Headrests, two-way adjustable-leather-trimmed

Lamps, exterior—including fog, low- and high-beam composite headlamps with unique lamp-out substitution feature

Lamps, interior—including fog well, overhead courtesy/map, door-mounted warning/courtesy, underhood, luggage compartment

Luggage compartment with pass-through door; total capacity, 16.3 cubic feet

Seats, Recaro[®], ten-way power, including recliner/lumbar support; and leather seating areas with French seams. Driver seat includes two memory settings plus "exit" feature

Steering wheel, tilt—with leather-trimmed rim

MUSIC SYSTEM

■ Delco/Bose 200 Series Sound System: AM stereo/FM stereo radio with compact disc and auto-reverse cassette tape players; custom-equalized for Allanté interior

Antenna, power

**Receives C-Quam[®] stereo broadcasts. Most AM stereo stations across the country broadcast in C-Quam[®] but some do not. Check with your local stations for compatibility in your area.

CONTROLS AND INSTRUMENTATION

Clock, digital display

Computer diagnostics

Convertible top—power latching

Cruise control

Defogger, electric rear window in both convertible top and hardtop

Defogger, front side windows

Door locks—power

Driver information center

Fuel filler door release—power

Illuminated entry system

Indicators—low brake fluid, fuel and windshield washer fluid levels

Luggage compartment lid release and power pull-down

Mirrors, outside rearview (collapsible)—power, heated

Monitors, low engine coolant, engine oil

Twilight sentinel

Washers, headlamp with independent control—power

Windows, express-down, driver and passenger—power

Windshield wiper system, high-performance controlled-cycle—with wet-arm design washer

APPEARANCE AND PROTECTION

■ Instrument panel, clearcoated

■ Paint, opaque white with opaque white taillamps and dark red exterior accent moldings (for Convertible only)

Body panels, side-galvanized steel, two-sided; aluminum hood, roof and deck lid

Bumper fascia, one-piece wraparound—front and rear

Central door unlocking from doors and luggage compartment locks

Lap/shoulder safety belts—driver and passenger

Luggage compartment mat

Paint finish, clearcoat for a rich luster

Stop lamp, center high-mounted—uniquely mounted in luggage compartment lid

Supplemental Inflatable Restraint system (air bag) in steering wheel hub

Tail lamps, body-color (silver with red or burgundy exterior)

Theft-deterrent system, PASS Key[®]

Theft-deterrent VIN tags

ENGINE/CHASSIS

■ Resonator, air intake—retuned for even quieter engine performance

■ Spark plugs, platinum-tipped—for 100,000-mile service intervals

■ Speed Dependent Damping response time now 0.15 seconds (twice as fast)

■ Suspension, retuned—improves road noise isolation

Alternator, 120-ampere

Anti-lock braking system—Bosch III

Battery, heavy-duty—Delco Freedom[®] III

Front-wheel drive

Oil-life indicator

Parking brake release, automatic—multi-stroke apply

Spare tire—compact with cover

SEVILLE STS

The limited-edition Seville STS is uniquely qualified to be America's international touring sedan. With robust power and agile response for spirited driving. The finest leather, wood and steel refined by time-honored craftsmanship. And the highest levels of comfort and spaciousness to enhance the sheer pleasure of driving.

ELDORADO TOURING COUPE

The Eldorado Touring Coupe, America's premier personal luxury coupe, affords you abundant personal driving pleasure by virtue of its inspiring performance. Sophisticated driving systems. Cadillac comfort and spaciousness. And generous appointments that indulge the most discerning driving enthusiast.

SEVILLE STS/ELDORADO TOURING COUPE

PERFORMANCE THAT INSPIRES DRIVING.

Eldorado Touring Coupe and Seville STS bring a special balance of performance, luxury, superb handling and refined ride to enhance the pure joy of driving.

Whether charging up canyon switchbacks, straightening out coastal highways, or compressing your daily commute, these touring Cadillacs will leave you both exhilarated and refreshed.

- 1 CADILLAC-EXCLUSIVE POWERTRAIN.** The transverse-mounted new V8 with electronically controlled four-speed automatic transmission is space-efficient, contributing to interior room and comfort.
- 2 4.9 LITER V8 WITH SEQUENTIAL PORT FUEL INJECTION.** Robust 200 horsepower, 275 lbs.-ft. torque. Capable of 0-60 in 8.2 seconds. EPA estimated 26 mpg highway. Power to pass, for traffic and merging. A 3.33:1 effective final drive performance ratio, teamed with 16" wheels and tires, allows these V8-powered Cadillacs to respond willingly.
- 3 ELECTRONICALLY CONTROLLED FOUR-SPEED AUTOMATIC TRANSMISSION.** With overdrive and Cadillac-exclusive viscous converter clutch. Precise, balanced response. Integrated with cruise control to ensure imperceptible shifts during long upgrades.
- 4 FRONT-WHEEL DRIVE.** Balanced traction in dry or adverse weather coupled with a V8—the most powerful powertrain of its kind in the U.S.
- 5 QUICK, PRECISE STEERING.** Crisp response and pleasing on-center feel on the highway and deft maneuvering in town with fast 15.6:1 ratio steering.
- 6 ANTI-LOCK BRAKE SYSTEM (ABS).** Reduces the chance of wheel lock-up during hard stops and when braking on slippery or dry surfaces. Helps maintain steering control.
- 7 TOURING SUSPENSION.** Firmer springs, larger front stabilizer bar, a rear stabilizer bar and recalibrated Computer Command Ride offer sporty driving feel without harshness.
- 8 COMPUTER COMMAND RIDE (CCR).** An adaptive suspension, specially tuned for Eldorado Touring Coupe and Seville STS. "Comfort," "normal," and "touring" modes complement their spirited driving potential, and help automatically control acceleration lift and brake dive.
- 9 GOODYEAR EAGLE GT + 4 P215/60R16 RADIALS AND FORGED ALUMINUM ALLOY 16" WHEELS.** Steel-belted, all-season tires for exceptional traction and cornering. Alloy wheels reduce unsprung mass, contributing to better tire contact, particularly on rough roads.
- 10 LATERAL ACCELEROMETER.** Automatically signals the CCR to go into "touring" mode whenever cornering exceeds 0.25 lateral G to help maintain vehicle control at highway speeds.
- 11 INDEPENDENT FOUR-WHEEL SUSPENSION.** Helps create a sporty driving experience. Telegraphs road contour inputs while seemingly ignoring unpleasant road shocks.
- 12 ELECTRONIC LEVEL CONTROL.** Automatically "weighs" luggage and adjusts air pressure in Superlift® shock absorbers to keep the car at design height for excellent ride and control.

SEVILLE STS

The limited-edition Seville STS is uniquely qualified to be America's international touring sedan. With robust power and agile response for spirited driving. The finest leather, wood and steel refined by time-honored craftsmanship. And the highest levels of comfort and spaciousness to enhance the sheer pleasure of driving.

ELDORADO TOURING COUPE

The Eldorado Touring Coupe, America's premier personal luxury coupe, affords you abundant personal driving pleasure by virtue of its inspiring performance. Sophisticated driving systems. Cadillac comfort and spaciousness. And generous appointments that indulge the most discerning driving enthusiast.

SEVILLE STS

ELDORADO TOURING COUPE

A DISTINCTLY AMERICAN BALANCE.

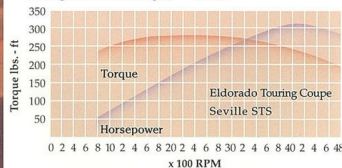

In the Seville STS and Eldorado Touring Coupe, Cadillac has created a distinctly American balance of responsiveness and refinement. An integrated system of components: engine, transmission, suspension, steering, safety, exterior styling and interior comfort.

Because each component provides immediate feedback, you experience high-output V8 response; the balance of touring suspension; precise steering; the grip of premium tires; the confidence of ABS and powerful four-wheel disc brakes.

PERFORMANCE

THE HIGHEST TORQUE RATINGS FOR FRONT-DRIVE AUTOMOBILES SOLD IN THE U.S.

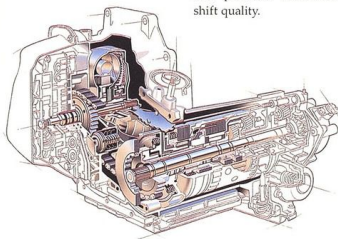

That translates into instantaneous response—accelerating from a traffic light, passing on two-lane roads or merging with freeway traffic.

NEW ELECTRONICALLY CONTROLLED TRANSMISSION.

Cadillac adds new electronic control to the four-speed automatic transmission. Electronics balance barely detectable up- and downshifts during spirited driving with smooth operation at highway speeds.

Because the entire powertrain is controlled by one computer, it can work in harmony with the cruise control by minimizing shift busyness between third and fourth gears on long mountain upgrades. And it also provides consistent shift quality.

FORGED WHEELS, PREMIUM TIRES.

Forged aluminum alloy 16" wheels reduce unsprung mass. Premium Goodyear Eagle GT+4 P215/60R16 tires have large contact patch areas, striking a balance between dry-pavement traction and wet-weather adhesion.

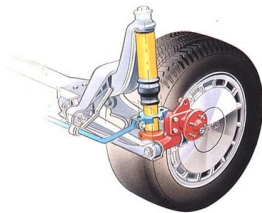

PRECISION PERFORMANCE.

The new 4.9 liter V8's sophisticated sequential port fuel injection meters fuel precisely to each cylinder, infinitely adjusting to throttle angle, temperature and altitude. Premium materials like chrome vanadium valve springs, cast magnesium rocker covers, and high-strength nickel alloy stainless steel exhaust valves are chosen for their abilities to meet exacting tolerances and durability standards.

ELECTRONIC LEVEL CONTROL.

Electronic circuits sense weight change in the independent rear suspension and automatically adjust Superlift® shock absorbers to maintain ride and handling poise despite varying passenger and luggage loads.

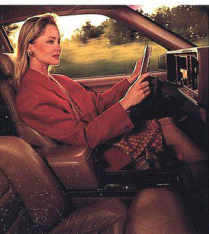

SPIRITED HANDLING.

Fully independent suspension (rear detail shown) incorporates Computer Command Ride. Offers bal-

ance of superb in-town ride while adapting to highway inputs for spirited handling without harshness.

SEVILLE STS

ELDORADO TOURING COUPE

COMFORT/CRAFTSMANSHIP

CUSTOM-TAILORED COMFORT.

Eldorado Touring Coupe and Seville STS maintain the same high level of refinement in their approach to comfort, convenience and craftsmanship. The interiors provide ultra-luxury touring for five passengers, with the quality

of handfitted premium leathers and handfinished woods. The sophisticated leading-edge technology makes comfort a science. These most unique driving environments are designed to inspire as well as satisfy.

RESERVED SEATING.

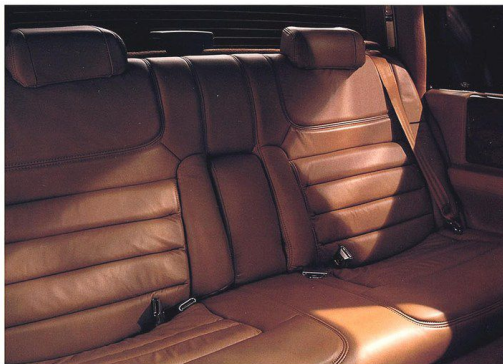

Over 95 square feet of hand-matched cowhide surrounds the seats of the Seville STS. Inlaid elm burl, hand-finished at Behr of West Germany, adds distinction.

THE PERFECT ENVIRONMENT.

Cadillac's world-renowned climate control system is programmed for each car's dimensions to provide constant comfort. It features an advanced sun sensor that measures the intensity of ultraviolet rays entering the interior at

1.92-second intervals. The high-capacity (300 cubic feet per minute) system then automatically achieves and maintains the desired temperature, providing the perfect environment in which to enjoy the driving experience.

THE RENOWNED DELCO/BOSE GOLD SERIES

The available Delco/Bose Gold Series sound system, precisely custom-equalized to match the ultra-soft leather-trimmed interior, offers a choice of two systems. One features a sensitive AM/FM stereo radio

with a full-featured auto-reverse cassette tape player. The other features an AM stereo*/FM stereo radio with a state-of-the-art compact disc player.

Active equalization (the equivalent of a professional

32-band equalizer) and 170 watts of power give greater clarity at higher listening levels. Scientific speaker location, tuning and aiming create realistic sound reproduction at any outboard seat.

*Receives C-Quam, stereo broadcasts. Most AM stereo stations across the country broadcast in C-Quam, but some do not. Check with your local stations for compatibility in your area.

DRIVER INFORMATION CENTER.

This multi-function system keeps you apprised of vital automotive systems. It also serves as a trip computer, reporting your average mileage and estimated driving range.

THE PERFECT FIT.

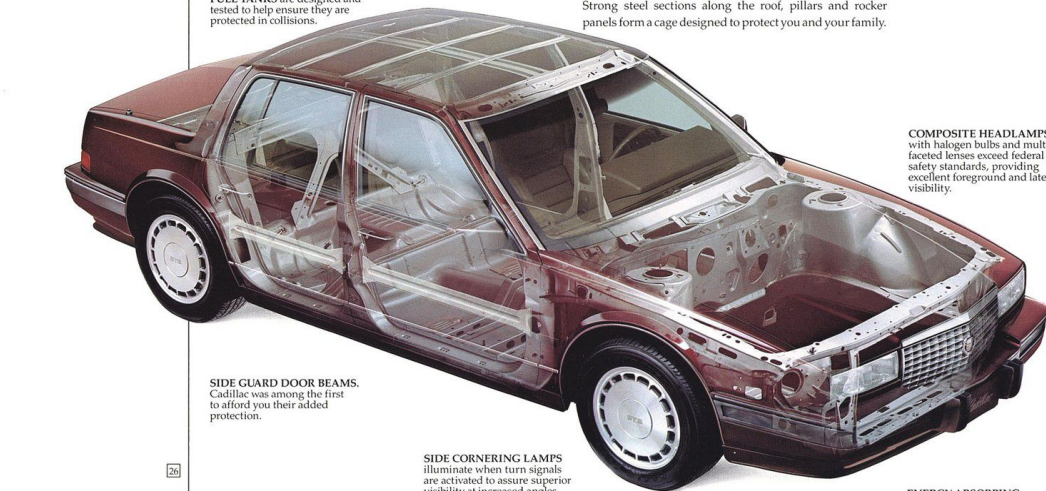

10-way power-adjusting front bucket seats provide outstanding lateral and lumbar support while adapting to preferred seating positions. Tailored in hand-selected cowhides of ultra-soft leather, they're designed to enhance the driving experience by form-fitting to the dimensions of the performance enthusiast.

SEVILLE STS

SAFETY

ELDORADO TOURING COUPE

FUEL TANKS are designed and tested to help ensure they are protected in collisions.

SIDE GUARD DOOR BEAMS. Cadillac was among the first to afford you their added protection.

SIDE CORNERING LAMPS illuminate when turn signals are activated to assure superior visibility at increased angles and better alert other drivers to your intentions.

THE ULTIMATE LUXURY IN A CADILLAC ISN'T A LUXURY AT ALL; IT'S SAFETY.

At Cadillac, we're committed to your safety. That's why every one of our automobiles is designed not only to help protect you in a collision, but to help you avoid that collision in the first place.

Every Cadillac benefits from the knowledge gained at the largest automotive safety testing facility in the world, where over 400 automobiles are barrier-tested every year. Designs are also refined at the world's only

automotive biomedical research laboratory. The resulting advancements have contributed more to your automotive safety than those from any other car company in the world.

As a result, every Cadillac

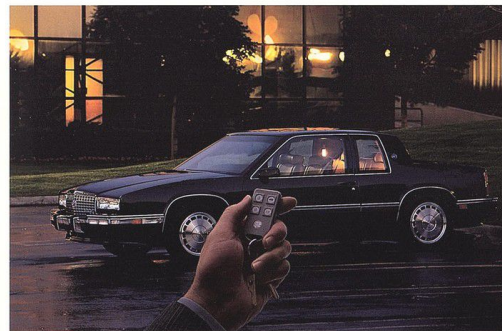

meets or exceeds all federal safety standards and regulations. And every Cadillac possesses some of the most advanced technology on the road today.

Facts which, you may be assured, are no accident at all.

A RUGGED SAFETY CAGE.

Strong steel sections along the roof, pillars and rocker panels form a cage designed to protect you and your family.

COMPOSITE HEADLAMPS with halogen bulbs and multifaceted lenses exceed federal safety standards, providing excellent foreground and lateral visibility.

NEW KEYLESS ENTRY.

A remote keyless entry system (standard, Seville STS; available, Eldorado Touring Coupe) locks and unlocks doors and unlocks decklid

from a 15-foot radius. The system also activates interior lights and theft-deterrent system.

Supplementing the lap/shoulder safety belt, the Supplemental Inflatable Restraint system (air bag) detects a frontal impact of

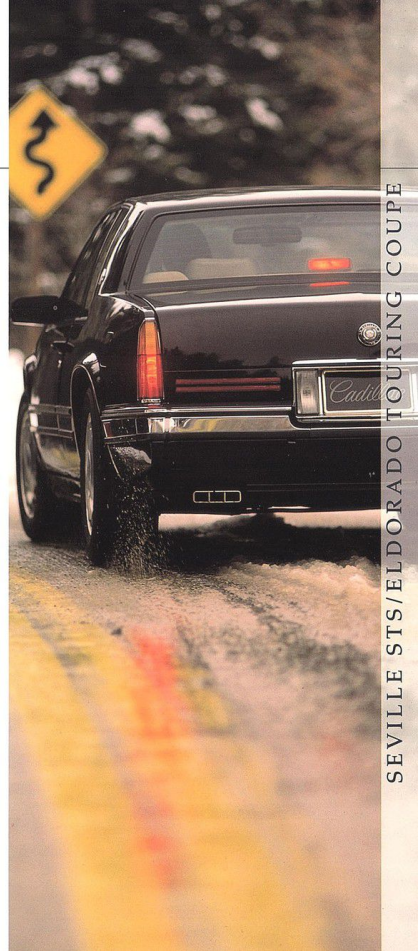

SPLIT-SECOND RESPONSE. sufficient force in 1/50th of a second. The bag inflates within 1/20th of a second, and begins deflating in 1/2 second. Despite the Supple-

mental Inflatable Restraint which lies beneath, the horn can be activated across a wide area of the steering wheel hub for easy access.

THE SUPERIOR CONTROL OF ANTI-LOCK BRAKING. Standard ABS pulses front brakes independently, and rear wheels in tandem up to 15 times per second to help you maintain maximum steering control in a wide range of braking situations.

ELECTROCHROMIC INSIDEREARVIEW MIRROR. It automatically darkens to reduce glare. Standard on Eldorado Touring Coupe, available on Seville STS.

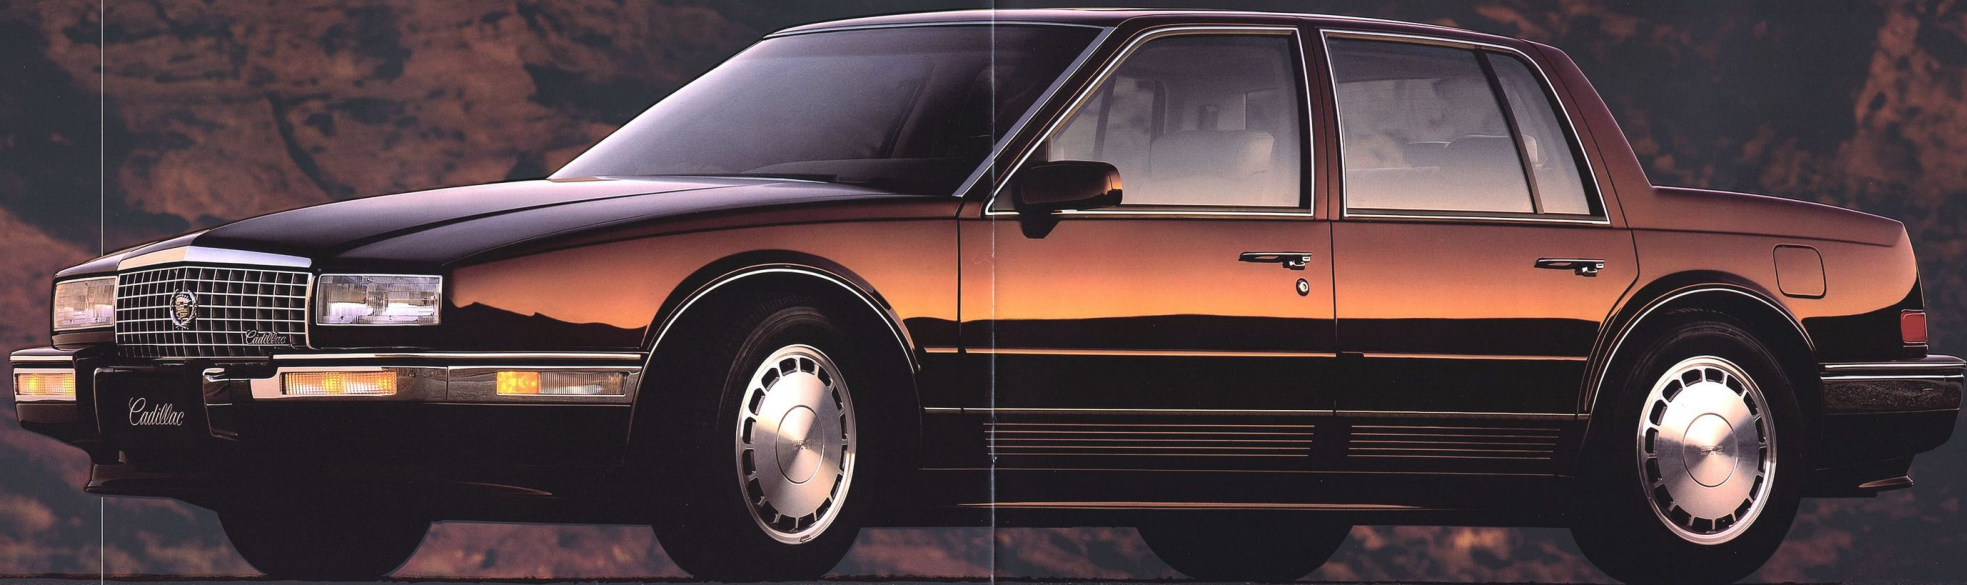

SEVILLE
STS

S | T | Y | L | E

SEVILLE STS

INTERNATIONAL CREDENTIALS.

Inside and out, the Seville STS is the embodiment of what an international touring sedan should be. A striking creation that blends European road manners and styling cues with the power and refinement that is unmistakably Cadillac. The contours of the sculpted seating help hold you firmly in place while cornering. And the logical placement of sophisticated digital instrumentation keeps you readily apprised of essential driving systems.

HANDFINISHED ELEGANCE.

Seville STS features the elegance of inlaid elm burl, more wood than in many renowned sedans from England and the Continent. Here, the wood frames the controls of the 10-way power front bucket seats.

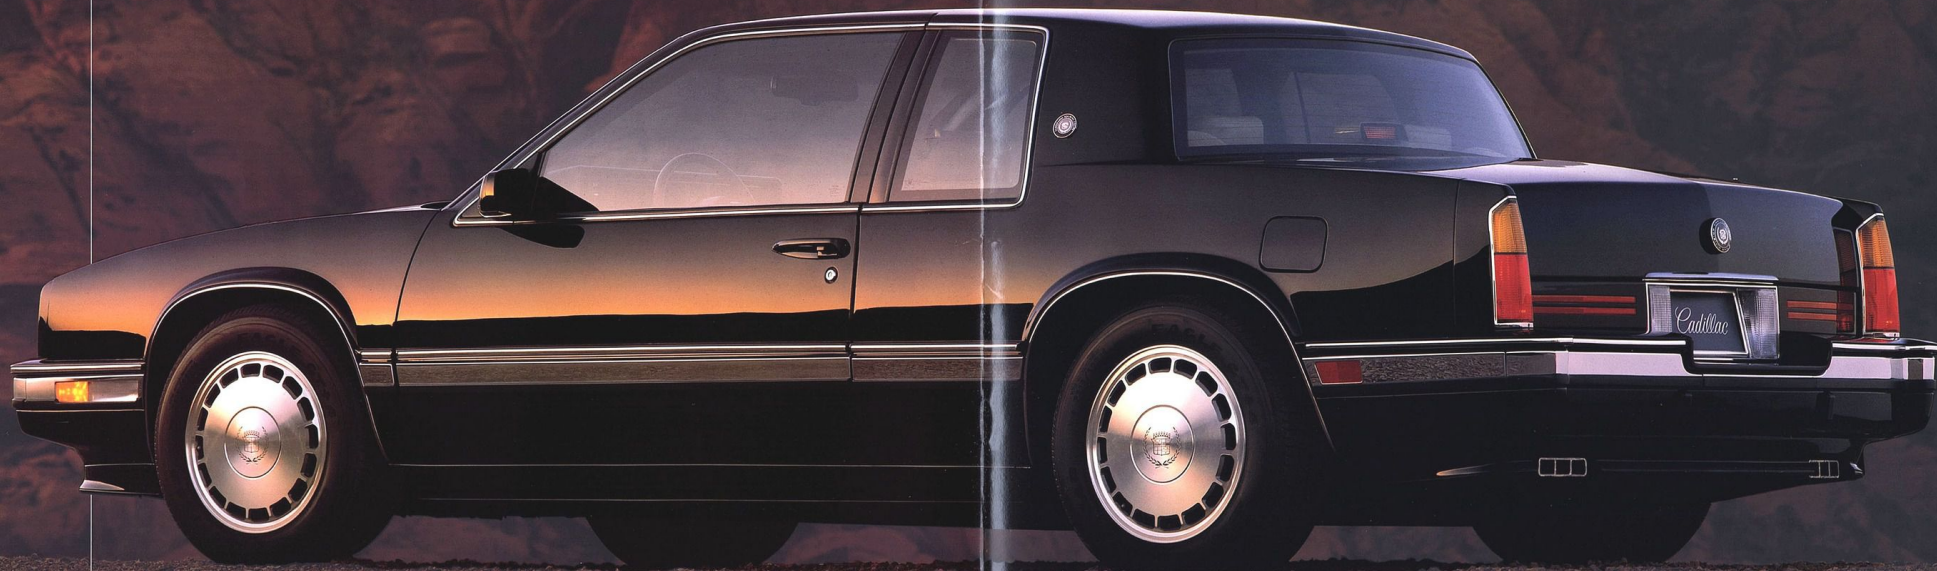

ELDORADO

GM Protection Plan—ask your dealer for details

1991 SEVILLE STS

SPECIFICATIONS

ENGINE—4.9 liter V8 with sequential port fuel injection

Power—200 bhp @ 4100 rpm

Torque—275 lbs.-ft. @ 3000 rpm

Recommended fuel/tank capacity—Unleaded premium/18.8 gallons usable

Transmission—Four-speed automatic with electronic shift control, overdrive and viscous converter clutch

Final drive ratio (effective) Performance 3.3:1

Suspension—Computer Command Ride, touring version; fully independent with larger front plus rear stabilizer bars and Superlift rear electronic level control

Steering—Power-assisted rack and pinion; 15.6:1 ratio

Brakes—Bosch III, ABS; power four-wheel disc

Wheels—Cadillac-exclusive—16" x 7" diamond-finish forged aluminum alloy

Tires—P215/60R16 Goodyear Eagle GT+4 steel-belted radials

DIMENSIONS

Wheelbase—2743mm/108.0"

Length—4846mm/190.8"

Height—1352mm/53.2"

Width—1628mm/72.0"

Turning diameter (wall-to-wall)—12.8m/42.0'

Curb weight—1616.0kg/3562.8 lbs.

Seating capacities (front and rear): 2/3

Headroom: Front—959mm/37.8"

Rear—962mm/37.9"

Legroom: Front—1079mm/42.5"

Rear—915mm/36.0"

Hip room: Front—1410mm/55.5"

Rear—1420mm/55.9"

Shoulder room: Front—1454mm/57.2"

Rear—1454mm/57.2"

Luggage capacity: 0.40 cu.m./14.1 cu.ft.

Specifications as of 9-90

ELDORADO® TOURING COUPE

Standard painted metal roof shown with available Astrorof (reduces headroom slightly)

INDICATES NEW STANDARD AND AVAILABLE FEATURES

STANDARD FEATURES

Cadillac-exclusive Total Ownership Priority Services:

■ Cadillac Consumer Relations Center—24-hour toll-free assistance, 365 days a year

Cadillac Roadside Service—a professional help is a toll-free call away (1-800-882-1112), 24 hours a day, 365 days a year. You get on-the-spot assistance nights, weekends and holidays.

Cadillac's 4-year/50,000-mile Gold Key Bumper to Bumper warranty* and 6-year/100,000-mile rust-through protection. There is no deductible.

COMFORT AND CONVENIENCE

Body computer module

Climate control, electronic with three automatic and two manual fan settings for enhanced comfort

Lamp monitors, front and rear

Mirrors, illuminated—driver and passenger visors

Retained accessory power

Visors, padded dual sun—with adjustable sunshades

Windows, Soft Ray tinted glass

SEATING AND INTERIOR

■ Assist handles

Armrests—front- and rear-seat, center

Console, front floor—with cassette tape, coin and cup storage

Console, overhead—with reading lamps

Floor carpet—Thaxton

Floor mats, front and rear, carpeted—Thaxton

Interior trim—high-gloss Birdseye maple wood

Mirror, inside rearview—with Electrochromic automatic dimming

Seats: five-passenger; 10-way power front bucket; Beechwood ultra-soft leather; power recliners and lumbar adjusters; manual articulating headrests

CONTROLS AND INSTRUMENTATION

■ Windshield wiper, controlled-cycle—with fluidic washer

Clock, digital display

Computer diagnostics

Cruise control

Defogger, electric rear window

Defogger, front side windows

Door locks—power

Driver information center

Fuel filler door release—power

Illuminated entry system

Indicators, low brake fluid, low windshield washer fluid level

Instrument cluster, digital

Luggage compartment lid release and pulldown—power

Mirrors, heated outside rear-view—power, with blue-tinted glare-resistant glass

Steering wheel, tilt-leather-trimmed rim

Twilight sentinel

Window, express-down driver—power

Windows—power

APPEARANCE AND PROTECTION

Bumper guards and grille accents, graphite color

Composite tungsten-halogen headlamps

Cornering lamps, front

Decklid emblem, cloisonné

Door edge guards

Galvanized steel, two-sided, in all body and underbody panels (except roof)

Luggage compartment, carpeted

Mat, luggage compartment

Paint finish—clearcoat

Safety belts, lap/shoulder: front and rear-seat outboard positions

Stop lamp, center high-mounted

Supplemental Inflatable Restraint system (air bag) in steering wheel hub

Tail lamp treatment, modified—amber upper, red lower

Theft-deterrent system, PASS Key

Wreath and crest flush-mounted on grille

Wreath and crest on wheel center cap

ENGINE/CHASSIS

■ 4.9 liter V8 with sequential port fuel injection

■ Alternator, 140-ampere

■ Computer Command Ride

■ Transmission, four-speed automatic with electronic shift control, overdrive and Cadillac-exclusive viscous converter clutch

■ Anti-lock brake system

Battery—Delco Freedom II

Brakes—Bosch III, ABS; power four-wheel disc

Wheels—Cadillac-exclusive—16" x 7" diamond-finish forged aluminum alloy

Tires—P215/60R16 Goodyear Eagle GT+4 steel-belted radials

DIMENSIONS

Wheelbase—2743mm/108.0"

Length—4846mm/191.4"

Height—1352mm/53.2"

Width—1628mm/72.0"

Turning diameter (wall-to-wall)—12.8m/42.0'

Curb weight—1598.1kg/3523.2 lbs.

Seating capacities (front and rear): 2/3

Headroom: Front—959mm/37.8"

Rear—961mm/37.8"

Legroom: Front—1076mm/42.4"

Rear—915mm/36.0"

Hip room: Front—1409mm/55.5"

Rear—1408mm/55.4"

Shoulder room: Front—1463mm/57.6"

Rear—1460mm/57.5"

Luggage capacity: 0.40 cu.m./14.1 cu.ft.

Specifications as of 9-90

Available features that you may order individually:

QUALITY

PUTTING QUALITY ON THE ROAD, CADILLAC STYLE.

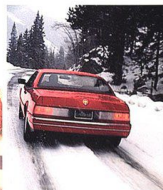

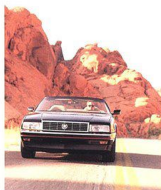

Everywhere you look in an Allanté, Eldorado Touring Coupe or Seville STS, you see the reflection of your own high standards. Quality verified by Cadillac's round-the-clock durability testing, and independent research analyses.

The dedicated people who build these Cadillacs each receive over 200 hours of specialized training.

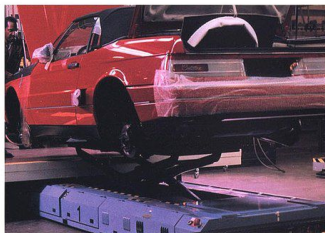

Their pride in building quality vehicles shows in many ways, from the care they put into body fits to quality meetings they hold every week, where they offer suggestions for improvements. Augmenting this exceptional work-force are some of the most advanced machine tools in the world. Quality people, quality machinery.

It is a confident quality backed by a 4-year/50,000-mile bumper-to-bumper warranty that covers every part—no exceptions, no deductible. Allanté also affords you a 7-year/100,000-mile no-deductible warranty on powertrain and major assembly components.*

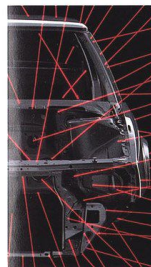

PRECISION-BUILT. Individual body panels are aligned to precise tolerances, then welded into strong assemblies in giant automatic machines. The result: precision-built Eldorado Touring Coupe or Seville STS bodies.

ARDUOUS TESTING. Cadillac-exclusive V8 engines have been tested in some of the toughest "real world" conditions imaginable, from sunbaked 120°F desert runs to wind-chilled -35°F winter odysseys.

OPTIMUM CONDITIONS. Automatic Guided Vehicles (AGVs) move Allanté bodies from station to station along an electronic pathway. Skilled assemblers can raise or lower each AGV to an optimum work height for the assembly operation at hand.

100% LASER-CHECKED BODY FITS.

Perceptron® laser beams probe and peer into every Seville STS and Eldorado Touring Coupe at more than 600 points, verifying that fits between adjacent panels meet your expectations.

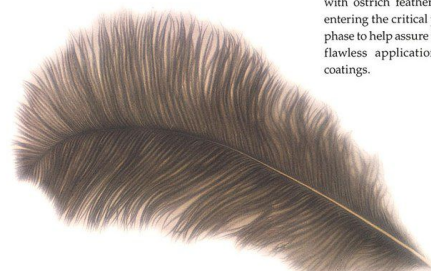

LASTING BEAUTY.

Cadillac corrosion resistance begins with extensive use of two-sided galvanized steel. Allanté hood, roof and decklid are aluminum. Both the zinc coating and aluminum actually eliminate external surface rust due to scratches, dings and chips.

Then, six different coats of protectants, sealers, primers and paint are applied to the Seville STS and Eldorado Touring Coupe (seven coats on Allanté) including a premium clearcoat which provides a deep, rich lustre.

Cadillac corrosion protection is so extensive that Cadillac offers rust-through protection warranty that lasts for 6 years/100,000 miles. (7 years/100,000 miles for Allanté.)*

ATTENTION TO DETAIL. Each Cadillac is "dusted" with ostrich feathers before entering the critical painting phase to help assure the most flawless application of all coatings.

SAFETY FEATURES

OCCUPANT PROTECTION

Supplemental Inflatable Restraint, driver only, with manual lap/shoulder safety belts for the driver and right front passenger (Allanté, Seville STS, Eldorado Touring Coupe) both including visual and audible warning system.

Manual lap/shoulder safety belts, outboard rear seat positions

Manual lap safety belts, center rear seat position, where applicable

Energy-absorbing steering column

Energy-absorbing instrument panel

Energy-absorbing seatback tops, front

Interlocking door latches

Side-guard door beam

Passenger-guard inside door lock handles

Inertia-locking, folding front seatbelts, two-door models

Safety armrests

Head restraints, driver and right front passenger (adjustable)

Breakaway inside rearview mirror

Security door lock and door retention components

Tempered safety glass, side windows; also rear windows

Pressure lock radiator cap

Dual sun visors

ACCIDENT AVOIDANCE

Side marker lamps and reflectors

Parking lamps that illuminate with headlamps

Four-way hazard warning flashers

Backup lamps

Center high-mounted stop lamp

Directional signal control with lane change feature

Windshield defroster, washer and multi-speed wipers

Inside rearview mirror

Outside left and right rearview mirrors

Brake system with dual master cylinder and warning light

Starter safety switch

Dual-action hood latch

Low-glare finish on inside windshield moldings, wiper arms and blades, metallic steering wheel surfaces

Illuminated heater and defroster controls

Illuminated windshield wiper and washer controls

Tires with built-in tread wear indicators

Safety road wheel rims

Pressure-relief fuel cap (pressure-relief fuel system on Allanté)

Audible brake lining wear indicators, disc brakes

A PERSONAL INTRODUCTION TO YOUR NEW CADILLAC.

As part of Cadillac's Gold Key delivery system, your sales representative personally reviews your new Cadillac with you, makes sure the fuel tank is filled, introduces you to key dealer people, and more.

WITH AMERICA'S LARGEST ROADSIDE SERVICE NETWORK, ASSISTANCE IS JUST A PHONE CALL AWAY.

With more participating dealers than any other program, Cadillac Roadside Service® offers benefits beyond other roadside service programs.

You can call toll-free 1-800-882-1112 and talk with factory-trained service advisors 24 hours a day, 365 days a year, no matter what model-year Cadillac you own. With the advanced satellite communications network, a Roadside Service advisor can pinpoint your nearest participating dealer

PREFERRED OWNERS

A UNIQUE OWNERSHIP SERVICES PORTFOLIO THAT MAKES OWNING A CADILLAC AS COMFORTABLE AS DRIVING ONE.

Cadillac and the over 1600 Cadillac dealers nationwide are committed to making Cadillac owners the most cared-for owners in the world. As a result, an impressive array of programs and services has been designed to ensure that your decision to purchase a Cadillac rewards you every day.

NO-DEDUCTIBLE, BUMPER TO BUMPER WARRANTIES.

The substance of Cadillac Style includes warranty protection among the finest of any luxury car—foreign or domestic. The Cadillac Gold Key Bumper to Bumper warranty covers every component in the Seville STS and Eldorado Touring Coupe for 4 years/50,000 miles, no deductibles.¹

The Allanté Assurance Plan extends powertrain and major assembly component protection to 7 years/100,000 miles.² Meaning two of the most comprehensive warranties offered are also two of the easiest to comprehend.

¹Covers every component (except tires, which are covered by their manufacturer, adjustments, normal maintenance items, and battery, which is covered by its own 4-year/50,000-mile prorated warranty).

²Unique Allanté Assurance Plan. See your dealer for terms and conditions of this limited warranty.

simply by inputting the public phone number from which you call.

The advisor can then help remedy your situation right over the phone. And, if necessary, a highly trained service technician will be dispatched in a special vehicle that carries genuine GM parts to provide on-the-spot service when you need it the most—nights, weekends and holidays.

SMARTLEASE BY GMAC. You receive all the benefits of leasing. And the competitive rates and convenience of GMAC. Arrangements are handled in the showroom, terms are tailored to your

IMPORTANT WORDS ABOUT...

THIS CATALOG

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details.

ENGINES

Cadillacs are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

ASSEMBLY

Cadillacs are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Cadillac incorporates thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillacs with different or differently sourced components than originally scheduled. All such components have been approved for use in Cadillacs and will provide the quality performance associated with the Cadillac name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac regularly sends its dealers useful service bulletins about Cadillac products. Cadillac monitors product performance in the field. We then prepare bulletins for servicing our products

CADILLAC, the CADILLAC emblem, ALLANTÉ, SEVILLE, ELDORADO, CADILLAC ROADSIDE SERVICE, and the GM emblem are registered trademarks of the General Motors Corporation. THE ONLY WAY TO TRAVEL IS CADILLAC STYLE is a trademark of General Motors Corporation. GMAC is a registered trademark of the General Motors Acceptance Corporation. Litho in U.S.A. 990 ©1990 GM CORP. better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

FINANCING OR LEASING, IT'S AS EASY AS GMAC.

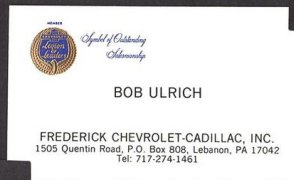

Financing is done right in the showroom. Terms are tailored to suit your personal needs. You can choose your monthly payment date.

CORROSION PROTECTION

Cadillacs are designed and built to resist corrosion. All body sheet-metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Allanté is covered for 7 years/100,000 miles. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

WARRANTY

The GM 4-year/50,000-mile Gold Key Bumper to Bumper limited warranty covers repairs for any new Cadillac, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle will be covered for 4 years or 50,000 miles, whichever comes first (except tires, which are covered by their manufacturer, adjustments, normal maintenance items and battery, which is covered by its own 4-year/50,000-mile prorated warranty). The Cadillac Allanté is backed by the Allanté Assurance Plan—4-year/50,000-mile bumper-to-bumper warranty, including free towing and a portfolio of other services, and 7 years/100,000 miles on powertrain, major assembly components and rust-through protection. There is no deductible on any Cadillac warranty. See your Cadillac dealer for terms of these limited warranties.
