

2011 *ECLIPSE* COUPE / SPYDER

MIVEC ENGINE TECHNOLOGY

Harness the explosive power of the GT's 3.8-litre V6 engine. Mitsubishi Innovative Valve-timing Electronic Control (MIVEC) electronically controlling valve timing.

BORN TO RUN

VA-VA-VOOM! STEP INSIDE AND BUCKLE UP BECAUSE THIS BABY WAS BORN TO RUN! EYE CANDY ON THE OUTSIDE. UNADULTERATED POWER UNDER THE HOOD. PURE SPORTY GOOD LOOKS AND COMFORT ON THE INSIDE MAKE THE 2011 ECLIPSE UNLIKE ANYTHING ELSE ON THE ROAD.

SPEED AND POWER

Who wants to play? Built for the kid in all of us, the eye-catching Eclipse exudes a childlike wonder, but with all the seriousness, technology and safety of a highly engineered, high-performance machine. The embodiment of Mitsubishi's long and legendary racing heritage, the Eclipse boasts a rigid unibody construction, low sport-tuned suspension, Traction Control Logic and Active Stability Control for superior handling, control and safety. Choose between the spirited GS's 2.4L 4-cylinder engine, or the GT's 3.8L V6 power. It will reawaken your passion for driving.

A red Mitsubishi Eclipse Concept car, a two-door convertible, shown from a front three-quarter view. The car features a sleek, aerodynamic design with a black grille, silver multi-spoke wheels, and a black interior. The Mitsubishi logo is visible on the front grille.

Eclipse Spyder comes with a high-quality, multi-layer cloth top that keeps the interior quiet. But the real story is the speed at which open-top motoring can be yours. From the push of the button to sunny skies is less than 20 seconds. Simply amazing.

Every Eclipse has standard disc brakes with an Anti-Lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD). ABS helps prevent individual wheels from locking up during hard braking, while EBD electronically adjusts braking force between front and rear.
