

LASER

The Amazer!

Ford Laser

The Crowd Amazer.

Laser Ghia. It's a crowd amazer! With dazzling good looks that have been influenced by the latest European design concepts. Smooth, stylish, exciting lines, with a wide track, get-up-and-go feeling. Subtle front and rear spoilers add to the effect and assist Laser Ghia's aerodynamics. Colour-keyed, full wrap-around bumpers add style and pizzazz while they smoothly complement Laser's grille and headlamps.

The steeply raked engine-hood sweeps up to meet the windscreen and Laser's smooth lines continue to the stylish rear-end treatment where integrated combination lamps blend elegantly with subtle curves that soothe the eye and cheat the wind.

Before you even step inside other features such as full wheel covers and distinctive pin stripes will catch your eye.

More Amazement

on the Inside. Open the doors and Laser Ghia continues to amaze. There's a feeling of luxury and spaciousness. Softly colour-keyed upholstery with door-to-door loop-pile carpet; carpet on the door pockets and kick panels; and velour inserts within the full wrapover door trims.

Sit down. Feel the comfort. See how stylish Laser is, inside as well as out.

Automatic transmission optional at extra cost.

Air-conditioning optional at extra cost.

The front and rear seats for instance are richly faced in contrasting textured velours. You'll be amazed by how much you can arrange and re-arrange Laser Ghia's interior for your individual size, convenience and comfort.

The front seats feature variable back-rake adjustment. The driver's seat also has adjustments for cushion tilt, seat height and lumbar support. Padded headrests contribute to safety and comfort. Whilst the Laser Ghia's rear seat with its

50/50 split back-rest provides thoughtful versatility in seating and luggage.

A whole world of convenience opens up inside Laser Ghia. Tilt steering, central door locking system, electric remote-controlled exterior rear-view mirrors, illuminated entry system and remote releases for fuel lid and hatchback.

You are in command.

Laser Ghia features an integrated dash with controls grouped within your easy reach. Vital information is there at a glance from the speedo, tachometer, trip meter, fuel and temperature gauges, which are housed in a non-glare binnacle. Warning lights monitor vital functions and a chime reminds you if the headlights are left on when the ignition is switched off.

Laser Ghia's climate control is designed for your comfort - it's fully integrated, so inside Ghia, as in all Laser models you can enjoy rapid air exchange and a continuously fresh environment. Cabin temperature can easily be adjusted with Laser's flow-through ventilation and heating system, instrument panel vents and four-speed fan. The option of integrated air-conditioning is available on Laser Ghia too.

The Spirit Raiser.

Strong on personality, with lots of style and flair, the Laser GL has a superbly designed free-flowing body shape. It looks great and feels terrific.

GL's smooth lines are enhanced by flush door handles, integrated hatch-lift and semi-concealed drip rails. Full wrap-around bumpers, and body side mouldings, together with the

large expanse of tinted side and rear glass add to Laser's good looks.

Below the sweeping line of its engine hood, the choice of engine and transmission is yours. There's an efficient 1.3 litre with four-speed manual or the optional 1.6 litre with four or five-speed manual transmissions or T-Bar auto.

So Distinctive Inside.

Slip into Laser GL's cloth-faced bucket seats. Look around. It's as though Laser GL has been designed around you. The roominess of GL's space-efficient body shape means that this spirit raiser is big in all the right places.

Vital controls and information systems are positioned right where you need them. There's a manual remote-control exterior rear-view mirror on the driver's side with a collapsible mounting. Laser GL is packed with practical and convenient features including:

- ☐ Prismatic Day/Night Mirror
- ☐ Twin-Speaker AM/FM Radio Stereo Cassette

- ☐ Quartz Digital Clock
- ☐ Remote Releases for Fuel lid and Hatchback
- ☐ Four-speed Fan-Boosted Ventilation
- ☐ Childproof Setting on Rear Door Locks

Step inside. Laser GL is ready and waiting to raise your spirits.

LASER

Amazingly Flexible Design.

Excellent versatility has been achieved in the design of Laser's rear seat. Folding down one half of the 50/50 split rear-seat backrest provides the flexibility to increase the luggage capacity, while still allowing for a rear-seat passenger. Alternatively, to accommodate really big loads, both sections of the rear-seat backrest can be folded down to create clear load-space from the back of the front seats right through to the hatch.
