

THE ALL NEW HOLDEN

CALAIS

HOLDEN

There's nothing quite like a Holden.

New levels of luxury, safety and performance.

The all new Holden Calais is the result of the biggest body design project at Holden in 20 years.

Holden engineers set out to design the Calais from the ground up and the result is a superb vehicle that sets the standard for Australian built cars. Holden is recognised within General Motors as a world leader in

engineering and hence is home to one of only three GM Design Centres worldwide. The new Holden Calais combines the best technology available from around the world with the experience that Holden has developed from constantly designing and testing cars in Australia's unique, varied and harsh conditions.

Calais is now longer, wider and with

more legroom, front and rear. The body is sleeker and more stylish while many 'smart' features make it more functional. The wider track, for example, gives brilliant turn-in to corners.

The interior has been completely re-designed. There's a luxurious array of comfort features combined with intelligent safety and convenience enhancements. The 'wrap around' style

cockpit is very driver-oriented, while still retaining a sense of roominess, and the new 12 function trip computer displays vital information.

Your personal Priority Key means even if someone else has been driving the Calais it will return the sound system, climate control, speed alarm limits and other settings to your preferences automatically when you unlock the vehicle.

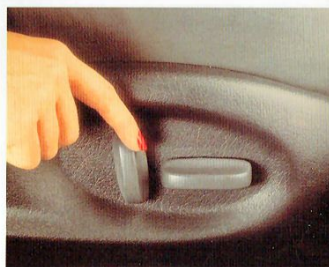

Performance, safety, luxury. The all new Holden Calais is waiting to be judged on its credentials.

A detailed photograph of a car's interior, focusing on the front seats and dashboard. The seats are upholstered in light-colored leather with prominent stitching. The dashboard and center console are also finished in leather. The center console features a gear shifter and handbrake. The steering wheel is leather-wrapped. A person in a suit is partially visible in the background, standing near the open driver's side door.

The climate control also features a 'staged cold start' function which allows the engine to warm before the fan is started. As more warm air becomes available the fan speed increases. Unlike most vehicles, where air flow is increased with vehicle speed because of the 'ramming' effect, Calais keeps the air

Luxury, woven velour interior trim provides a sumptuous, yet durable driving environment. Holden Calais also offers the option of Howe Leather upholstery. The beautiful, rich feel of the interior is further enhanced with the woodgrain-style trim, chrome and charcoal metallic highlights.

8 way power adjustment of the driver and front passenger seats makes it easy to find your ideal seating position, all with the ease of fingertip control.

Calais' 4 speed automatic transmission, with power and economy mode, is smoother than ever. It is equipped with a new transmission cooler as standard, enabling loads of up to 2,100kg to be towed without an additional oil cooler. The Electronic Traction Control (ETC) button is conveniently located for easy engagement or disengagement.

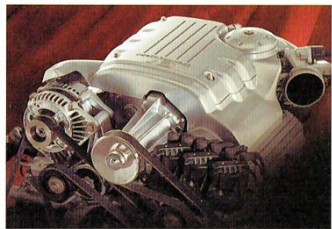

Driving performance on the road to success.

The all new Holden Calais is bigger, with a wide track and longer wheelbase.

The new Electronic Traction Control (ETC) on V6 engine models, with the improved ride of new Independent Rear Suspension (IRS) and the latest Bosch 5.3 Anti-lock Braking System (ABS), means the Calais driver is in control of one of the most technically advanced vehicles on the road.

Holden Calais is powered by the remarkable ECOTEC V6 engine which, with the latest Bosch fuel injection system, combines power with remarkable efficiency.

Three exciting engine options are offered for Holden Calais.

Supercharged V6 engine

The optional Supercharged V6 engine has the ability to deliver the power and torque of a much larger engine, while still having a wide rev range for holding a gear selection when overtaking or on a long uphill climb.

The Supercharged V6 lets Calais join the ranks of Aston Martin, Jaguar and Mercedes-Benz with elite technology that provides peak performance from premium unleaded petrol. That's 171kW of power and 375Nm of smooth mid-range torque for long uphill climbs.

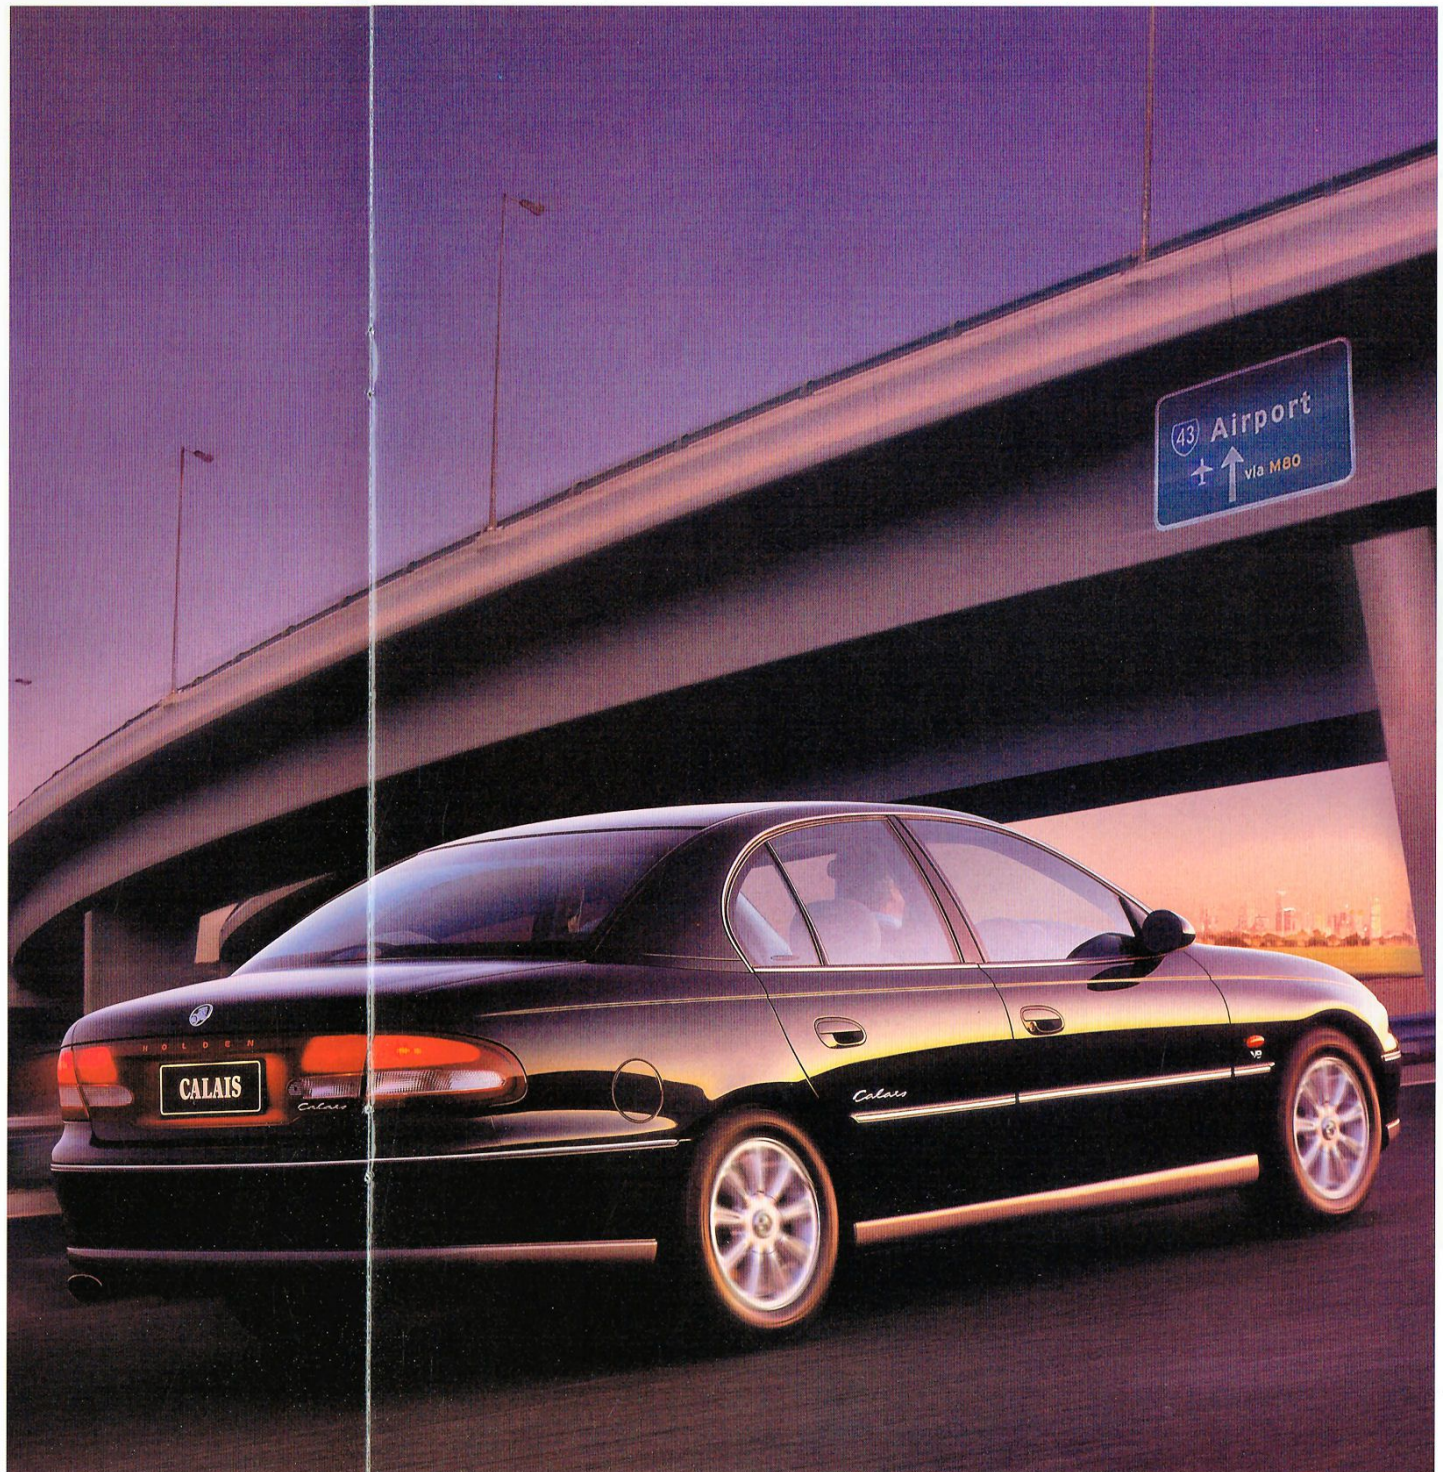

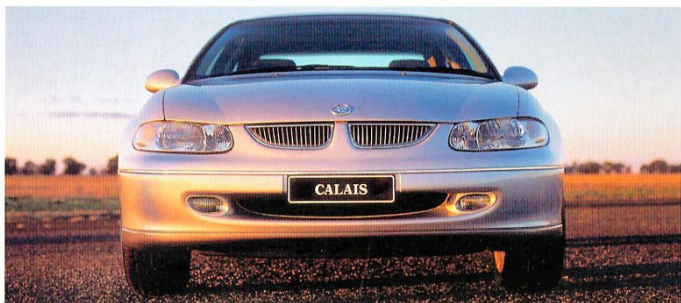

Holden's 5 litre V8 now generates a class-leading 179kW of power and 400Nm of torque as a result of sequential fuel injection, a new free-flow air intake and dual exhaust system, lightweight, low friction pistons and a cylinder head which runs cooler for higher compression.

There's also the awesome power that comes from the race-bred, high performance 195kW 5 litre V8. It will simply take your breath away.

Calais is now equipped with a full length stainless steel, long-life exhaust system to resist corrosion.

Wide track

The wide track of the new Holden Calais gives better cornering turn-in, more cornering grip and minimal body roll.

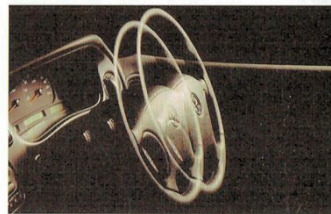

A position of total control.

The all new wrap around style cockpit surrounds the driving position with ergonomically positioned controls and instruments, tilted at a 5° angle toward the driver.

No feature, large or small, has been overlooked to make Calais an outstanding example of prestige motoring. There's electronic cruise control, power exterior mirror adjustment, power windows and even a remote power boot release.

The 12 function trip computer presents the driver with an array of information to ensure a safe and trouble-free trip.

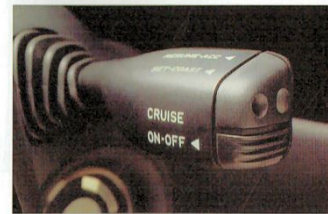

The computer constantly recalculates 'distance to empty' based on

Steering adjustment

The steering wheel, which is height and reach adjustable, combines with the electric seat adjustment to provide the ideal driving position. The Variatronic power steering has been recalibrated to provide assistance when parking and even better road feel on the highway.

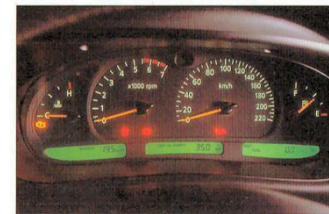

average fuel consumption and there's a speed alert providing visual and audible warnings when pre-set speeds are exceeded.

Cruise control

Fingertip stalk operation of the cruise control allows you to fine-tune your speed precisely as road conditions change.

Pre-set an estimated trip distance and the trip planner can display 'trip distance to go' and 'time to go' readouts. Other readouts include 'elapsed trip

Trip computer

The 12 function trip computer includes a trip planner which counts down the trip distance, time and fuel remaining.

time', 'average fuel economy', 'instant fuel economy' and 'remaining fuel'. 1,000 kilometres before a scheduled service is due a reminder will appear for

CD stacker

Select your favourite music from the boot-mounted 10 CD stacker by simple operation of the sound system console or steering wheel mounted controls.

10 seconds when the engine is switched on or off, giving you time to book your Calais in for servicing.

Designed to impress.

The all new Calais body contains a range of advanced safety engineering features within its sleek, aggressive shape.

Enlarged side rails, which flare out at the front for improved safety, also allowed the wheels to be pushed further out with subtle wheel-arch flares to create a sporting look.

The low nose and chromed grille

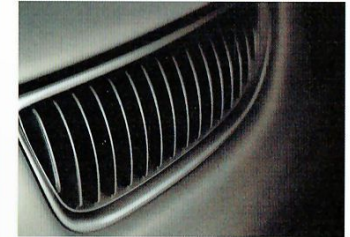

sweep elegantly back to the steeply angled windscreen, then smoothly over the roof to the high tail for improved dynamic design.

Utilising advanced Computer Aided Design (CAD) technology, the body

achieves standards of panel smoothness higher than those required for aircraft panel design. The beautifully shaped panels reflect this technology.

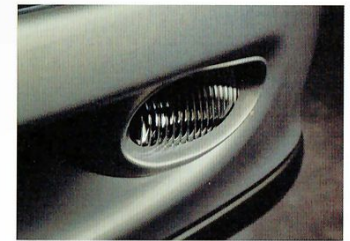

Evidence of the intelligent design can be found everywhere. The external

rear vision mirrors, for example, create eddies in the air stream to help keep the side windows clean. The bold, individual style of the Calais body is further enhanced by new 'spoked' style 16 inch alloy wheels.

Grille

A new generation in styling starts with the low nose to guide the air stream smoothly over the Calais.

Fog lamps

Powerful fog lamps assist visibility when poor weather begins to set in.

Alloy wheels

The distinctive, spoke-style 16 inch alloy wheels stand Calais apart from the crowd.

Calais continues to lead the way in safety for Australian cars.

Holden has enjoyed a long standing reputation of setting benchmarks in safety for Australian built large cars.

First Australian built car with Side Impact Airbags* Deploying within milliseconds at 45° away from the occupant, Calais' side impact airbags will be in optimum position regardless of seat angle.

*To confirm standard safety equipment and options please consult the Features section at the back of this brochure.

Holden remains at the forefront of occupant protection, offering primary safety features which focus on accident avoidance, and secondary safety features which offer protection in the event of a collision.

Holden Calais was the first Australian built car to introduce features like Anti-lock Braking System, seat belt pretensioners, driver and passenger airbags, Independent Rear Suspension and Electronic Traction Control.

Now once again Calais leads the way by introducing side impact airbags* for driver and front seat passenger.

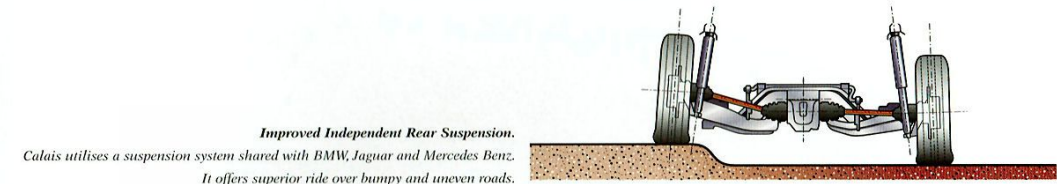

Designed specifically for Australian conditions, Holden's unique 2 stage side impact airbags first help protect the chest then the neck and head.

The technology and thinking behind Holden's side impact airbags is considered to be amongst the best in the world.

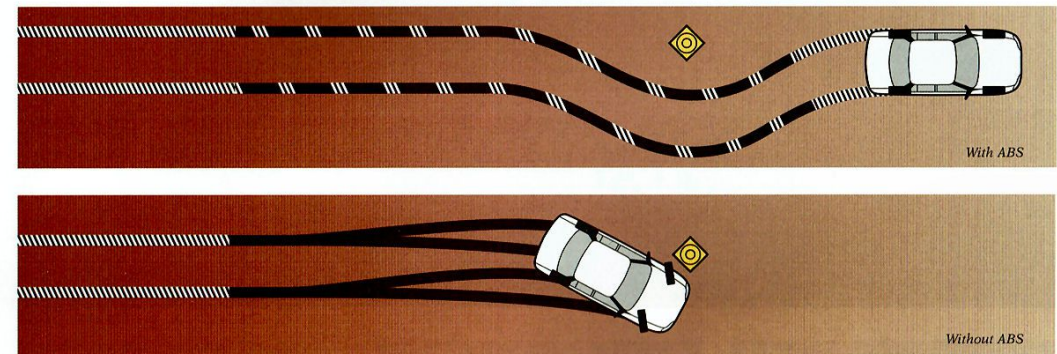

In its aim to maximise safety and help protect all occupants, Holden is continuing to lead the way for Australian motoring.

Calais airbag system The Holden Calais features a driver and front passenger airbag system as standard equipment. These deploy simultaneously in milliseconds in conjunction with the front seat belt pre-tensioners. They also use 'ladder' technology to help prevent aggressive airbag injuries.

Improved Independent Rear Suspension. Calais utilises a suspension system shared with BMW, Jaguar and Mercedes Benz. It offers superior ride over bumpy and uneven roads.

Bosch 5.3 Anti-lock Braking System Anti-lock braking (ABS) assists in an emergency situation by helping to maintain steering control, even under full braking.

Occupant Safety

- Unlike many other manufacturer's airbags, the Holden front airbag has been designed to go off at higher speed. This assists in avoiding head and neck injury from unnecessary airbag inflation.
- Holden has instigated a university accident research team to investigate airbag deployments. This ensures that safety technology is based on real life needs, and has led to Holden's research being used internationally.
- Holden's list of 'firsts' for safety in Australian designed cars continues with the addition of side impact airbags as an option on Calais.
- New pyrotechnic front seat belt pre-tensioners improve the effectiveness of front seat belts by tightening the belt before the occupant begins to move forward in a collision at over 20km/h.

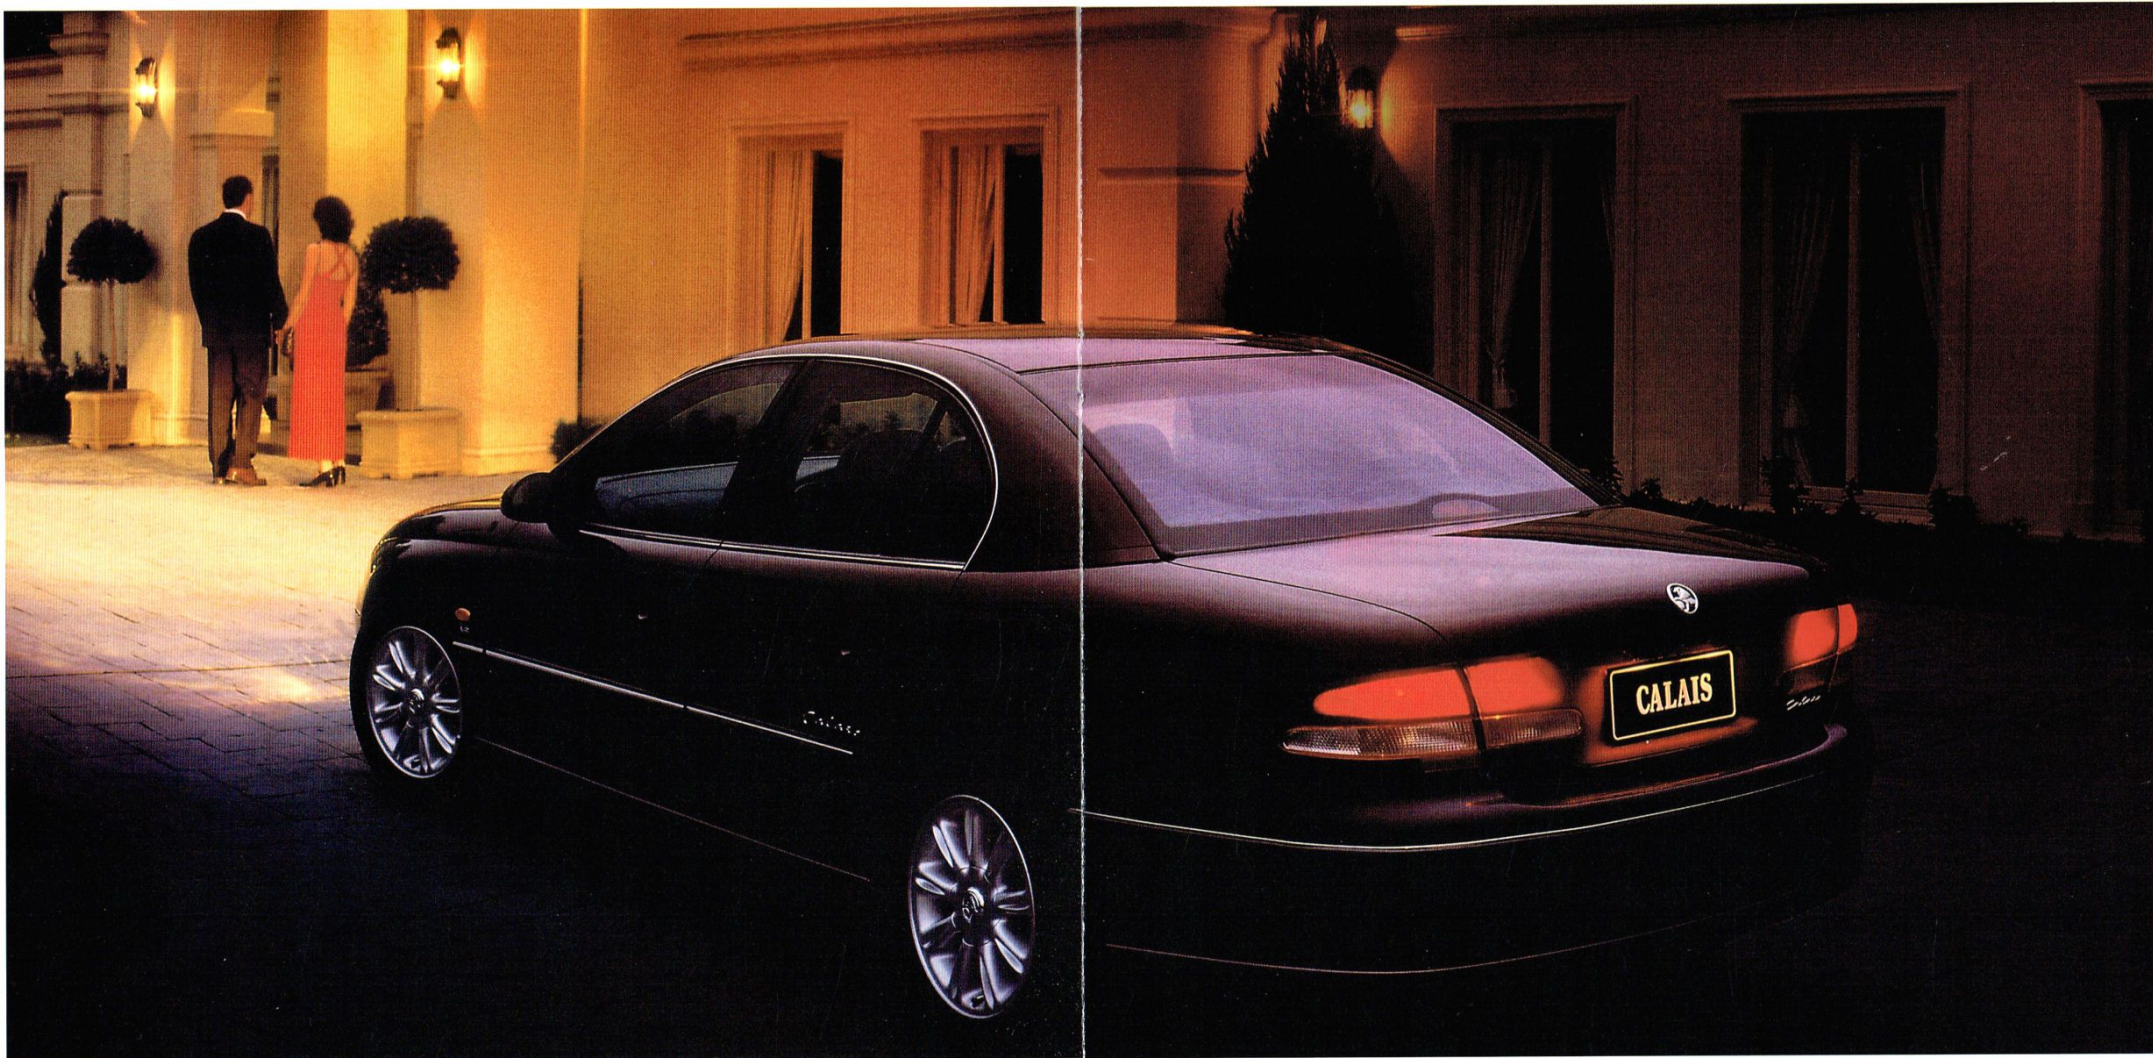

- Special anti-submarining ramps in the seats minimise the risk of damage to internal organs by reducing the chance of the lap belt slipping over the pelvis and into the abdomen during a collision.
- In the event of the front seat belt pre-tensioners being triggered, the on-board computer switches the engine ignition and fuel pump off, the interior light on and unlocks the doors as soon as the vehicle stops moving to allow access.
- Holden's Supplemental Restraint System (SRS) incorporates body structure design and seat belt technology.
- The majority of accidents happen at low speeds. Holden's SRS is designed to minimise the risk of the injuries which can occur in these instances.

Drive Safety

- The latest Bosch 5.3 Anti-lock Braking System (ABS) helps to maintain steering control under extreme braking conditions
- The improved Independent Rear Suspension (IRS) delivers a superior ride over Australia's varied road conditions.
- The widest track in its class offers stable cornering and minimal body roll.
- Holden Calais is the first Australian built large car to offer Electronic Traction Control (ETC) as standard on V6 models.
- The wheels are 'pushed' out to each corner for tenacious roadholding.
- The on-board computer senses road speed and decides how fast to set the intermittent operation of the windscreen wipers during light rain.

Structural Safety

- Government tests cover frontal impacts at one vehicle speed. However, only 36% of accidents are direct frontal impacts so Holden testing covers a wide range of accident impact angles and speeds.
- This has led to a unique new body design with Crash Pulse Optimisation (CPO). The crash pulse is the pattern of the force created on a body in an accident.
- The Crash Pulse Optimised body design includes enlarged, crimped side rails and wide, strong roof bows which help preserve occupant space in the event of a side impact.

With success comes security.

New Holden Calais sets the standard for Australian cars in security and convenience with an abundance of leading technology.

Two personal Priority Keys come with Calais, and each automatically programmes your personal settings on

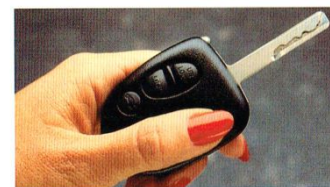

eight functions, including the dual-zone climate control and audio system, when the car is locked by the remote control.

Personal safety is enhanced by the programmable 'headlights off delay' which allows the headlights to remain on for a set period after the vehicle has been parked and locked. This function can, for example, light a path to a door at night.

The vehicle security is improved by a range of features including the vehicle alarm system and deadlocks on all doors which ensures they

cannot be unlocked even if a window is broken. The new freewheeling door lock cylinder recognises if the wrong key or any other implement is inserted and the lock will simply spin uselessly upon an attempt at forced entry.

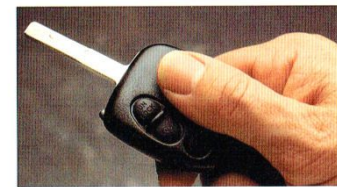

The Calais vehicle immobilisation system now has 16 million new codes, so that no two vehicles will have the same key code.

The new Calais Priority Keys

This new system takes security and convenience to the highest level for Australian luxury cars.

When one of the two Priority Keys is used to lock the vehicle, Holden Calais remembers audio settings, trip computer readout preferences, the transmission mode, climate control settings, overspeed alarm limits, the time delay on the headlights, the instrument brightness and the radio antenna height, relating

the information to that particular key.

If another driver with the second Priority Key enters the car and changes the settings, the new Calais will also programme that information at the remote locking action and distinguish between the two, depending on which key is used to remotely unlock the car on the next occasion.

The Priority Key also remotely unlocks the boot which can be a help when you've got your arms full.

The smartest way to own a new Calais.

Holden & Holden Financial services offer you the most extensive range of options designed to assist you in owning a new Calais more affordably.

HOLDEN FINANCIAL SERVICES SMART CHOICES

Holden SmartBuy puts the keys to a new Calais in your hand and keeps more dollars in your pocket.

of the tax, maintenance and service advantages normally only enjoyed by large fleet buyers. Now that's smart! Calais fleet buyers enjoy access to HNL Fleet Services[†] which offer a wide range of fleet leasing, management and

Low monthly repayments, with a choice of 1, 2 or 3 year terms, give you more affordable and flexible finance options. SmartBuy also has the extra advantage of a guaranteed minimum buyback price.

At the end of the agreement, you can hand back your Calais, pay it out for the agreed value or refinance it. The choice is yours.*

Freecall the SmartBuy Hotline for more details on 1800 642 000. For the annual percentage rate applicable see your local Holden Dealer. Small business Calais buyers have the option of SmartDrive which can provide many

financial services to approved customers. Consult your Holden Dealer or HNL Fleet services direct, toll-free on 1800 226 772.

THE GM CARD A GREAT DEAL MORE REWARDING

Simply by putting your everyday expenses like bills and shopping on your GM Visa or GM MasterCard, you'll be saving towards your next new Holden.†

For every \$20 you spend on credit purchases Holden will put \$1 towards your next new Commodore. You can swipe thousands of dollars off the best price you can negotiate on a new Calais.

The Rebate can be transferred to other eligible members of your family. So even if you're a fleet buyer you can save hundreds, even thousands off a second new car.

The GM Card offers no annual fee in the first year (a fee currently \$18, applies in subsequent years), and a competitive interest rate with up to 55 days interest free.‡

To apply, visit any Westpac/Challenge branch, Holden Dealer, or call The GM card 24 hour Customer Service Line on **131 200.**

The package wouldn't be complete without extra peace of mind.

WE'RE WITH YOU ALL THE WAY

Your new Holden Calais comes with the added peace of mind of the nationwide support of Holden and its Dealer network.

3 YEAR OR 100,000 KM

NEW VEHICLE WARRANTY

Every Holden Calais comes with a 3 year or 100,000 km New Vehicle Warranty, whichever comes first.

This factory backed bumper to bumper warranty covers everything from the engine, transmission, clutch, interior and exterior components including corrosion.

An Extended New Vehicle Warranty is also available.

THE REASSURANCE OF 3 YEAR/24 HOUR HOLDEN ROADSIDE ASSISTANCE.**

Peace of mind is also provided in the form of 3 year/24 hour Holden Roadside Ultra Assistance.

One of Australia's most comprehensive assistance packages it is complimentary for the full term of your new Holden Calais warranty.

Holden Roadside Ultra Assist provides assistance with flat tyres, lock out, unexpected mechanical

by a team of trained technicians who have access to regular factory training bringing them up to speed on the latest technology.

Should you require more information on any of our products contact our Customer Assistance centre on 1800 033 349 (Mon-Fri, 8am-6pm).

At HSV, through various aesthetic and engineering modifications, Calais' world class design is enhanced to build some rather special vehicles, as their name suggests.

It's an organisation dedicated to producing, in very limited numbers, a range of Holdens with an indelible sporting character.

problems, accommodation, car rental, medical repatriation, vehicle recovery, advise and referral in case of accident and vehicle theft.

This service is delivered from over 900 centres by Assist Australia and the combined resources of the Australian motoring organisation.

EXTENSIVE NATIONAL

DEALER SUPPORT

With over 350 dealers strategically located nationwide, the Holden service network is the largest in the country. Each Holden Service Centre is staffed

*Fees and charges apply. Subject to credit approval and current terms and conditions. A disposal fee of \$350 applies plus charges for excess wear or excess kilometres may also apply.
†HNL Fleet Services is a registered business name of Holden National Leasing Ltd. A.C.N. 008 589 562.
‡Subject to The GM Card from Holden Program Rebate Rules. Vehicle sales for which a fleet allowance is paid are not eligible for GM Card Rebate. Full details of terms and conditions are available on request from your local Westpac branch. The interest rate as of July 1997 is 15.9% pa. Fees and charges may apply.
**For full terms and conditions regarding Holden Roadside Assistance please refer to our customer booklet available from our Customer Assistance centre.

Personal style and function, backed by Holden.

Our customers' individual tastes and needs are important.

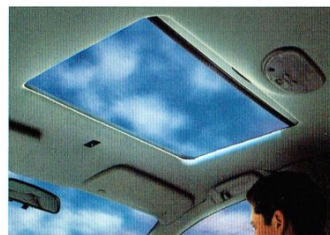

Whether you are looking for eye-catching appearance or special purpose equipment, an extensive range of options is available when you place your new car order with a Holden Dealer.

The stunning 'iD Series' enhances the stylish new Calais shape, with a sporting flavour that goes from subtle to serious. But when it comes to the rigours of everyday life, the choice of practical necessities will make your driving day easier.

All Holden By Design enhancements are fitted in the factory

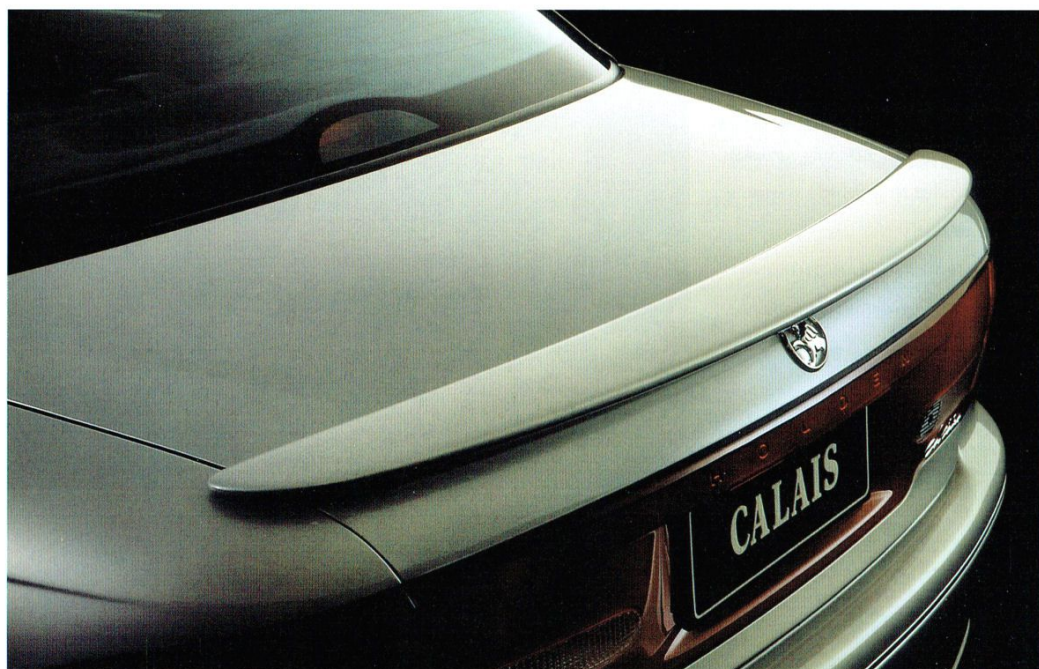

environment.

And for total reassurance, they are covered by a factory-backed 3 year or 100,000km* warranty.

Sunroof

Open-air motoring is a breeze with the tailored sunroof, electrically controlled for preferred positioning in the slide or tilt mode. Ceiling-mounted fingertip controls are conveniently located while the sliding cover ensures privacy.

Aerodynamically designed spoiler. An integrated lip spoiler, aerodynamically designed for airflow efficiency, is securely mounted on the rear decklid. Decklid struts are upgraded to maintain ease of remote opening with the Power Key.

YOUR CALAIS IN DETAIL.

S = Standard Feature. O = Option. P = Option in package with one or more others. H = Holden By Design. A = Accessory.

POWERTRAIN	
3.8 litre ECOTEC V6 engine.	S
171kW, 3.8 litre Supercharged V6 engine.	O
179kW, 5 litre Sequential V8 engine.	O
195kW, 5 litre High Performance Sequential V8 engine.	H
Multipoint fuel injection & engine management system.	S
Electronic control 4-speed automatic transmission. Power or economy mode. Oil-to-air cooler for towing to 2100kg.	S
Limited slip differential.	O
75 litre long range fuel tank. Seamless, laminated plastic anti-rupture type for safety.	S
MECHANICAL	
Rack & pinion steering with power assist.	S
- Variatronic road speed sensitive assist.	S
Independent Rear Suspension (IRS).	S
Self-levelling suspension.	H
FE2 Sports Suspension. (Inc. gas pressure rear shock absorbers.)	O
Four-wheel power disc brakes.	S
Anti-lock Braking System (ABS).	S
Electronic Traction Control (ETC). Auto 'on', manual switch off control. (Avail. with V6 & Supercharged V6.)	S
Engine hood gas strut assist.	S
On-board computer co-ordination of electrics, with self diagnosis.	S
Holden Dealer 'Tech 2' diagnosis of all major electronic control systems.	S
WHEELS	
16 x 7 alloy wheels. P215/60 R16 95V tyres.	S
16 x 7.5 multi spoke alloy wheels. P225/50 ZR16 tyres.	H
17 x 8, five spoke alloy wheels. P235/45 ZR17 tyres.	H
EXTERIOR	
Grille with chrome surround & silver inserts.	S
Bumpers in body colour.	S
Body kit: front, rear & side skirts.	H
Sports body kit Plus: Front, rear & side skirts. Rear deck spoiler, with high-mount stop lamp.	H
Foglamps, front.	S
Headlamp guards.	A
Bonnet protector.	A
Radiator insect screen.	A
Country roo bar. (Avail. in black or silver.)	H/A
Mudflaps (moulded) front & rear.	A
Metallic paintwork.	S
Rocker panel below doorline in two-tone paintwork.	S
Exterior mirrors in body colour.	S
Door handles in body colour.	S
Rear deck spoiler, lip type.	H
Rear deck spoiler, wing type, with high-mount stop lamp.	H/A
Chromed exhaust outlet.	S
Licence plate frames, standard height or slimline.	A
Full immersion body corrosion protection.	S
Full stainless steel long life exhaust system.	S

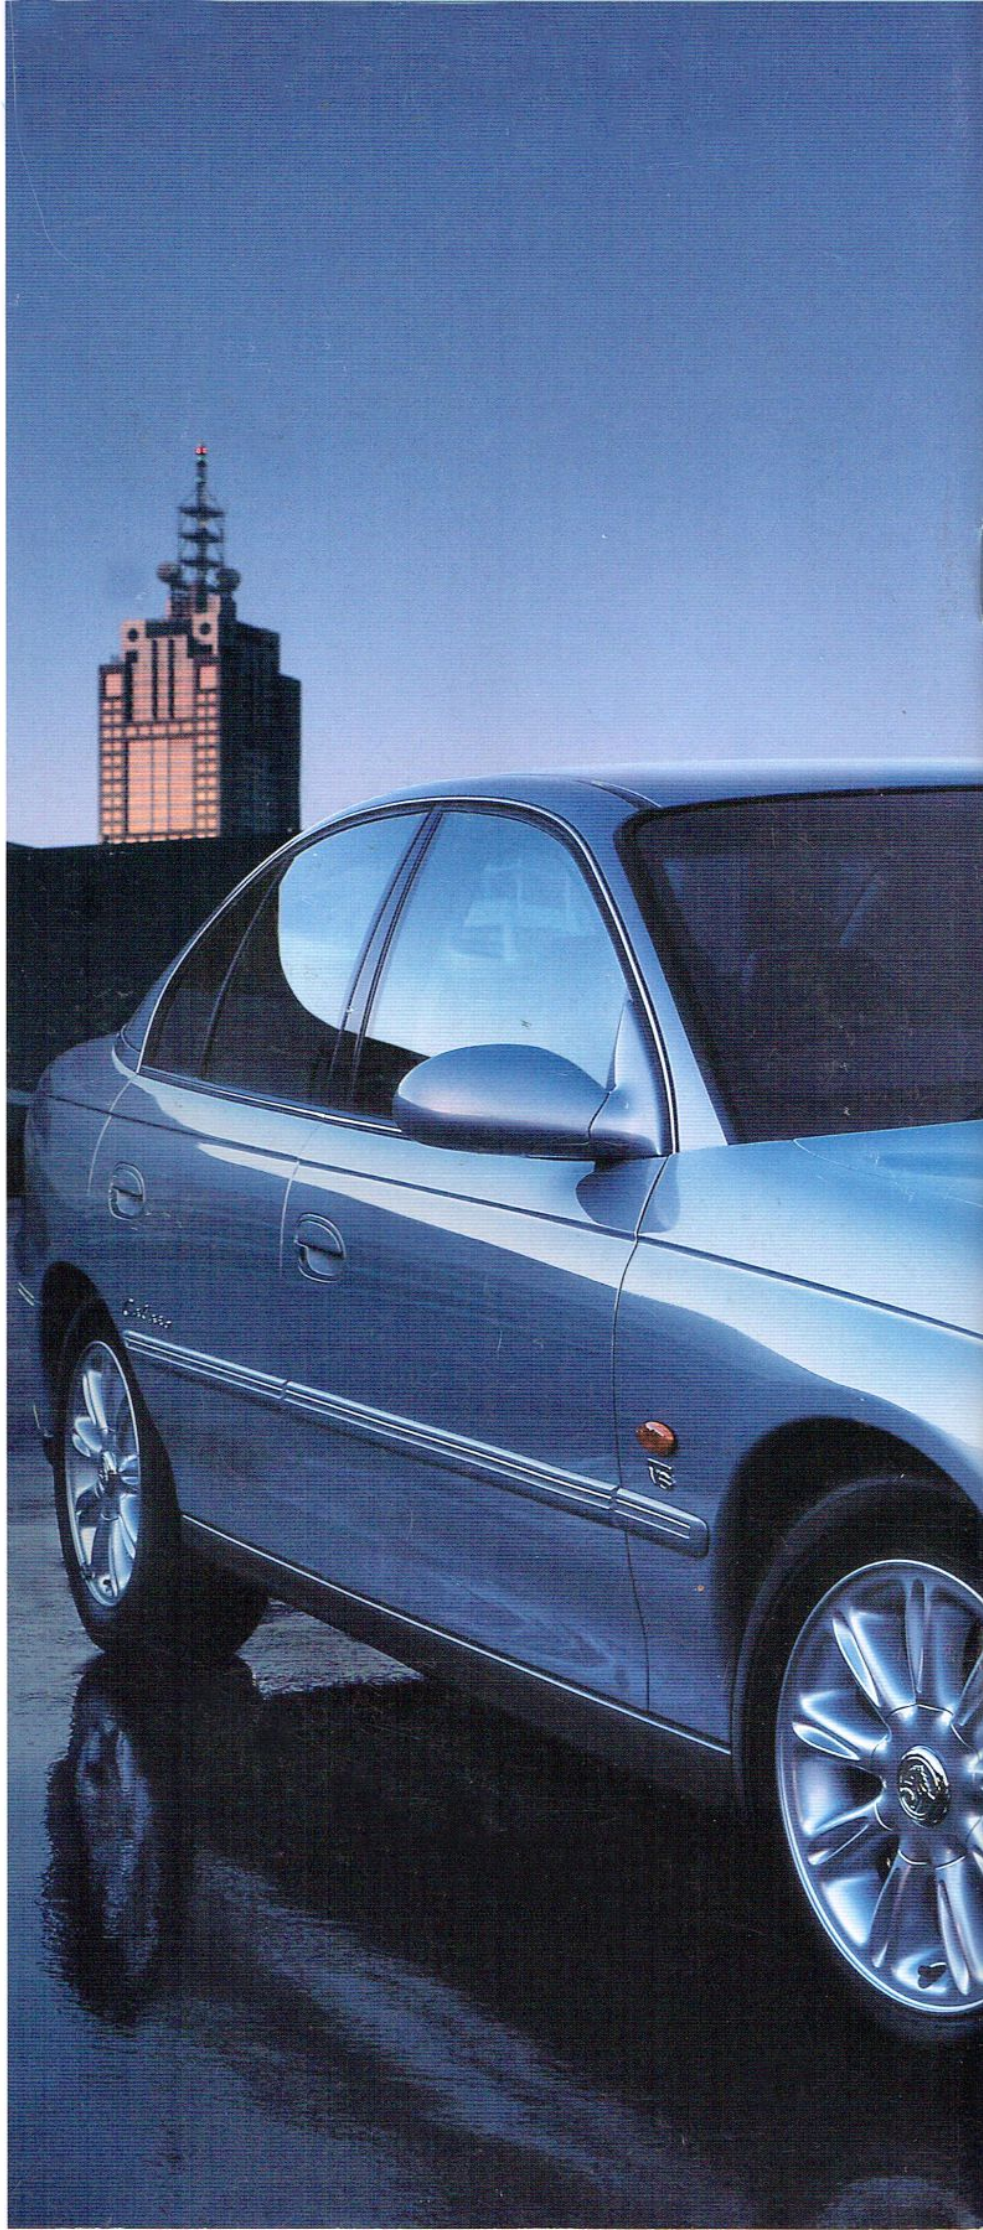

*Not available when Side Impact Airbags are fitted.

DRIVER	
Four spoke leather wrap steering wheel.	S
Steering wheel height & reach adjust.	S
Dual horns.	S
Illuminated ignition.	S
Remote boot release, electric.	S
Remote fuel filler door release.	S
Remote control exterior mirrors, power.	S
Twin jet windscreen washers & intermittent wipers.	S
- Variable intermittent, road speed sensitive wipers.	S
Electric rear window demist. Auto off timer.	S
Electronic cruise control.	S
Digital clock, in radio.	S
Headlamps auto on at twilight.	S
Headlamps auto off after leaving parked car.	S
Trip computer, including: <ul style="list-style-type: none">Average speed. Odometer. Average economy on trip.Elapsed trip time. Trip distance. Fuel used on trip.Audible & visual speed warning (4 adjustable settings). Distance to empty. Instant economy.Trip distance to go. Time to go. Remaining fuel.	S
Service reminder. Appears 1,000km before service is due.	S
Tachometer.	S
Variable instrument dimming.	S
Warning lamps include: Oil pressure. Alternator. Check engine. Brake failure. Parking brake on. Fasten seat belt reminder at engine start. Rear lamp failure.	S
Lamp & chime warning: Parking brake on while vehicle moving. Low fuel. High engine temperature.	S
Mobile phone power point.	S
SOUND SYSTEM	
AM/FM stereo electronic tune radio. Local/distant selector switch. Automatic station store memory.	S
Separate bass & treble control.	S
Sound system remote controls on steering wheel.	S
Cassette player. Auto reverse.	S
Automatic program search. Dolby noise reduction. Metal tape equalisation.	S
Blank tape skip.	S
Compact disc player (10 stack).	S
Ten speaker elements, inc. subwoofers. Total 260 watts.	S
Premium sound system: 2 amplifiers. Upgraded speaker system. Premium control panel. 10 stack CD player. Total 540 watts.	H
Power antenna, fully automatic. Driver adjustable pre-setting for height. Auto retract with remote control Power Key.	S
Rear window 'diversity' FM antenna.	S
SEATING	
Seat trim in woven velour.	S
Seat trim in leather.	O
Sheepskin bucket seat covers.*	A
Bucket seats. High rise centre console armrest.	S
Side support wings on front seat cushion.	S
Front seat head restraints, padded. Height adjust. Fore/aft adjust.	S

Electric adjustment of front seats: Slide fore/aft. Cushion height front & rear. Recline.	S
Driver's seat adjustable lumbar support.	S
Passenger seat adjustable lumbar support.	S
Driver's left footrest, adjustable.	S
Driver airbag (full size).	S
Front passenger airbag.	S
Driver & front passenger side impact airbag.	O
Front lap/sash seat belts have webbing clamps & pyrotechnic pre-tensioners. Lower belt mounts on seat structure for consistent fit when seat slid fore/aft.	S
Concealed front & rear window-seat belt sash guides protect the head with cover over belt anchor mechanism.	S
Seat belt sash height adjust, front.	S
Anti-submarining ramps in all seats reduce risk of sliding under seat belt in a collision.	S
Rear centre seat lap/sash belt, retracting.	S
Rear seat centre fold-away tray.	S
Rear seat centre armrest.	S
Rear seat head restraints. Height adjust.	S
CHILDREN	
Rear seat child restraint anchor points.	S
Childproof rear door locks.	S
Rear power window override switch.	S
CABIN COMFORT	
Air conditioning. Rear outlet vents.	S
- Electronic climate control. Auto/manual mode.	S
- Dual temperature zone: driver & front passenger.	S
Priority Key for 2 people automatically restores, when unlocking car, each person's settings for: Climate control, inc. temp. Radio, inc. station. Trip computer display. Speed alert speeds. Transmission power/economy mode. Instrument dimmer. Antenna height. Headlamps-off time delay.	S
Power windows, front & rear. Express down driver's window. Windows powered until car locked by remote Power Key.	S
Electric sunroof. Auto close when vehicle immobilised.	H
Power socket, cigarette lighter type.	S
Cigarette lighter & ashtray, front. (No extra cost.)	A
Cigarette lighter & ashtray, rear.	A
Vanity mirror, driver & passenger side, illuminated, with cover.	S
Centre dome lamp, time delay on entry. Auto off after 2 hours.	S
Kerb illumination lamps on front & rear doors.	S
Footwell lamps front.	S
Front reading spotlamps.	S
Rear reading lamps.	S
Plush cut pile carpet.	S
Rubber floor mats.	A
Carpeted floor mats, tailored, front & rear.	A
Padded fabric in door trim.	S
Suede style trim on lower instrument panel & door.	S
Console trim inserts. Woodgrain style.	S
Passenger overhead assist handles, folding, front & rear.	S
Aero windscreen sunshade, front.	A

Weathershield, in standard width or slimline, driver & front passenger window.	A
Rear Sunguard.	A
STORAGE, CARGO, TOWING	
Twin cup holders in centre console.	S
Twin cup holders in rear seat centre fold-away tray.	S
