

Ford XR.

Live it.

XR6 Shown in Hot Chili Red with optional 17 inch alloy wheels.

Rated XR. Pure passion.

Here for your pure and

unadulterated pleasure are some of the most sophisticated street machines ever to wear the oval badge. Tickford takes Ford's powerful new age technology and pushes the envelope even further. All XR Falcons move the excitement needle very nicely, and now the

XR experience comes with a choice of three engines:

XR6, XR6 VCT and XR8.

Take a look. And get the feel. The feel of the body

hugging sports seats, with cushion tilt and thigh support for the driver. Soak up the atmosphere of the warm charcoal interior. The instrumentation includes a 240km/h speedometer and distance-to-empty read-out. The leather-wrapped steering wheel feels great. In XR6 VCT and XR8, you have cruise control and four power windows. The 100 watt audio system drives six speakers and includes a single-CD player on XR6 VCT and XR8.

XR6 VCT is equipped with a high output version of Ford's 4.0 litre Intech OHC 6-cylinder engine. The Variable Cam Timing technology adjusts the cam timing according to engine revs to provide greater low speed torque and exhilarating high speed power. It pumps out 172 kW @ 5000 rpm and develops a maximum 370 Nm of torque @ 3500 rpm.

A new age of refined power.

Falcon XR6 gives

you a 164kW version of the new 4.0 litre Intech OHC 6-cylinder engine. It comes with a 5-speed manual transmission, or an adaptive 4-speed automatic that "learns" to make shifts according to your driving style. You get a Tickford sports suspension, 16 inch alloy wheels, air conditioning and ABS brakes.

Moving up, you'll find Falcon XR6 VCT (short for Variable Cam Timing) produces 172 kW of power @ 5000 rpm. The VCT technology does wonderful things for 6-cylinder engine performance. VCT adjusts the camshaft timing according to engine revs for greater torque at low speeds and exhilarating top end power. As great as our 6-cylinder engine technology is, there are some who will settle for nothing less than a V8. We understand perfectly. Today's Falcon XR8 is equipped with a Ford 5.0 litre V8 engine that develops 185 kW of power. The smoothness and refinement of this great power plant prove that Ford V8s keep on getting better with every generation.

Ford V8s just keep getting better and this one is more efficient, more refined and even smoother than the last one. It is also more powerful, developing 185 kW of power @ 4600 rpm and 412 Nm of torque @ 3500 rpm.

Falcon XR6 has a high output version of Ford's 4.0 litre Intech OHC 6-cylinder engine. It develops a maximum 164 kW of power @ 5000 rpm and 366 Nm of torque @ 3150 rpm. It delivers impressive performance, smoothness and refinement.

Harness the exhilarating power of the Falcon XR6 and XR8 engines with a smooth-shifting 5-speed manual transmission (top) or electronic 4-speed adaptive shift automatic that "learns" the shifting pattern that suits your driving style.

Sporty XR interior trim. Momo steering wheel optional.

Tickford. The art of Performance.

If the motor car is a rolling art form, here are the masters. Each Tickford-conceived brush stroke is applied with one sole objective: to enhance your appreciation and enjoyment of the finest stable of sporting Falcons ever produced. From design to manufacture, Ford and Tickford work so closely together that the array of Tickford enhancements

are integrated fully into the design and engineering of the vehicles. It is easy to make a car go fast. But to do it with safety and refinement is an art. The engineers at Tickford

have worked with Ford to develop special high performance versions of Ford's 4.0 litre Intech OHC 6-cylinder and 5.0 litre V8 engines. The Tickford integrated sports suspensions, for the Watts Multilink or the fully independent double wishbone IRS systems, substantially reduce ride height and tilt the ride/performance balance in favour of sportier handling. This teamwork fuelled Ford's return to motor sport.

Tickford engineers have produced a special sports version of the double wishbone IRS suspension that further extends the system's handling capabilities.

Ford and Tickford have united under the Ford Tickford Racing banner to become a powerful team in Australian Motor Sport.

With a car as advanced as the AU Falcon, and with the knowledge and performance expertise of Tickford, Ford Tickford Racing

was a development waiting to happen. And it has. This commitment to build exciting sporting cars is good news for driving enthusiasts because it allows product enhancements and modifications to flow through ultimately to our street cars. To give you the kind of Falcon you've always promised yourself, Ford's styling department and Tickford have created a sensational body kit. With front spoiler, rocker mouldings, rear door panel flares, rear bumper skirt and unique bi-plane spoiler on the deck lid, it makes your XR Falcon look like it's flying even when it's standing still. Other Tickford options include a leather-wrapped Momo steering wheel that feels great to hold and is packed with style, and bitumen-warming 17 inch alloy road wheels with low profile tyres. When fitted to your vehicle prior to delivery, all these Tickford options are covered by the Ford 3 Year 100,000 km New Vehicle Warranty.

When modern styling and ergonomics are married, you get a leather-wrapped Momo steering wheel that looks as good as this. (Optional)

Aggressive 16" five-spoke alloy wheels come standard on Falcon XR.

XR8 Shown with optional body kit and 17 inch wheels.

Genuine Ford accessories and options.

Ford provides the opportunity for you to personalise your XR Falcon with a host of factory fitted options – or with Genuine Ford Accessories that can be fitted by your Ford Dealer. There are also some exciting options developed by Tickford, Ford's partner in performance engineering. In all cases, these options and accessories look right and fit correctly because they're manufactured with the same care and attention as your new Ford. For added peace of mind, if fitted prior to delivery, Genuine Ford Accessories are covered by Ford's 3-year/100,000km 'Bumper to Bumper' warranty*. If fitted later by an Authorised Ford Dealer, they are covered for the remainder of your new car warranty or 12 months/20,000 km, whichever is longer.

Other options available:

Front Sunvisor*

Alarm Kit

Weathershield

Slimline Weathershield

Sump Guard

Bonnet Protector

Bootliner

XR6 shown with optional 17" 5-spoke alloy wheels, 235/45 ZR17 tyres, Momo steering wheel and XR6 body kit.

Cruise Control.
Helps maintain a constant speed on the open road. Disengages when brakes or clutch are applied. (Standard on XR6 VCT and XR6)

CD Changer Kit.
This 6-stacker CD accessory retains the steering mounted audio controls. Forward mounted under passenger seat for ease of access.

Headlamp Guards.
Designed to avoid costly stone damage. Styled with the distinctive XR graphic, these guards follow the XR's contours.

Tow Bars.
1,600 kg or a 1,600 kg heavy duty towbar which can be upgraded to 2,100 kg capacity with the purchase of a load levelling kit.

Rear Louvre.
Keep your XR cool without restricting rear window vision.

Carry Bars.
Carry up to 75 kg. New locking mechanism enables quick 'no tools required' fitting and removal. Aerodynamically designed.

Carpet Mats.
Push carpet mats designed specifically for the XR range. Screw plugs hold the long-life, washable mats firmly in place.

Tickford

Body Kit.
XR body kit includes unique bi-plane spoiler.

Momo Steering Wheel.
Sculpted leather bound steering wheel offers the ultimate in feel and control.

17" Wheels.
Aggressive five-spoke alloy wheels designed by Tickford to add performance with style.

Sunroof.
Precision crafted electric glass sunroof. Pop-up wind deflector reduces wind noise and buffeting.

Footnotes

- (a) These figures are obtained from controlled laboratory tests conducted by Ford Motor Company of Australia Limited to Australian Standard AS2877 - 1986 and are provided to assist you in comparing the fuel consumption of XR6 with other vehicles. The actual fuel consumption you achieve will depend, however, on many factors, including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use.
- (b) Approximate kerb weight for a Falcon XR6 fitted with the High Performance 4.0 litre Intech OHC 6-cylinder engine and 5 speed manual transmission.
- (c) Excludes exterior side mirrors.
- (d) Headroom is reduced by approx. 40 mm when the optional Ford sunroof is specified.

An ownership experience you're going to love.

Fordcare.

Fordcare is a whole range of programs, products and services designed to make Ford owners the most satisfied motor vehicle owners in Australia. The well-being of your Ford is supported by these warranties and services:

New Vehicle Warranty.*

Covers your Ford against defects in factory materials or workmanship for the first 3 years or 100,000 km - whichever occurs first. When fitted at or prior to the time of vehicle delivery, Ford Approved Accessories are also covered by the Ford 3 Year/100,000 km 'Bumper to Bumper' Warranty.

Five Year Perforation Corrosion Warranty.*

Covers the original vehicle's body against perforation corrosion for the first five years of its life.

Lifelong Panel Warranty.*

Covers replacement of outer body panels against perforation corrosion for the life of the vehicle.

Ford Customer Assistance Centre.

We're always happy to hear from you and you will find us responsive to your needs.

Customer Assistance Centre - Telephone 1800 333 306 (TOLL FREE), in Melbourne telephone 9359 7023.

Ford Credit Financial Services.

Ford Leasing and Red Carpet Options are available to approved applicants of Ford Credit Australia Limited. Enquire at your Authorised Ford Dealer.

Fleet Communication Centre.

Our Fleet Communication Centre is available to assist fleet customers with information on Ford products and services. Call 1800 673 207.

Further information on these warranties and services may be obtained from your Authorised Ford Dealer.
