

2001 Explorer Sport Trac

T W O T H O U S A N D A N D O N E

The all-new Sport Trac is the latest addition to the Explorer family and is available as a 4x2 or 4x4. Its unique design combines the interior space of a sport utility vehicle with the cargo carrying capabilities of a pickup truck.

2001 Explorer Sport Trac.
One Vehicle Does It All.
No Boundaries

There's a place where the world slows to a halt. A place beyond the noise and busy world around you. The all-new Explorer Sport Trac can take you there - that place that is a welcome departure from the everyday.

The versatile Explorer Sport Trac provides you with plenty of cargo room plus comfortable seating for up to five, making traveling across the country or to the family cottage a pleasant experience.

Uncompromising Interior Lets You Do It All.

You're heading out for a well-deserved long weekend. With the amount of gear you've got, it looks like you going away for a month. The kids need their stuff, and you need yours.

With the Explorer Sport Trac, there's no need to compromise your comfort when you have a lot of equipment to haul. The extendable rear cargo box can hold up to 839 litres (29.6 cubic feet) of cargo, with an additional 1041 litres (36.8 cubic feet) when the rear seats are folded. That still leaves you with comfortable seating for up to five.

Explorer Sport Trac offers a new kind of versatility that's the result of break-through styling and innovative features. With four full doors and best-in-class front and rear leg room the Sport Trac delivers all the comfort you'd expect from an Explorer, with the added convenience of a pickup box.

Reliable Performance Lets You Explore With Confidence.

Reliable Performance Reliable Performance Reliable Performance

White-faced gauges are stylish and easy to read. The tachometer is standard equipment. (Metric instrumentation is standard in Canada.)

Inside Explorer Sport Trac you'll discover all the comfort and convenience features you'd expect from a member of the Explorer family.

Comfortable front cloth captain's chairs are standard, or can be upgraded to luxurious low-back leather seats (a feature within the Leather Comfort Group option). You can listen to your favourite tunes with the 60 watt AM/FM stereo that includes a CD player – a standard feature, of course. And although you love adventures, you enjoy convenience too. That's why we've added power windows, power door locks and power exterior side mirrors, just to make things easier.

Like water off a duck's back. Low-back cloth front bucket seats (a feature within the optional Cloth Comfort Group) are water-resistant for an additional durable touch.

A standard floor console includes cup holders for front and rear passengers plus a couple of unexpected features – a handy flip down writing surface with a note pad, and a removable soft carrying pack. (shown here)

The optional AM/FM stereo with clock and 6-disc in-dash CD player includes 4 speakers and 80 watts of sound.

power rear window

Explorer Sport Trac's unique design includes a power rear window that provides you with refreshing flow-through ventilation and access to cargo in the rear. Tap the dash mounted control knob and the window opens just a bit. Twist it, and the window opens all the way.

rubber flooring

Rubber flooring provides excellent sound insulation and durability. Tough and removable Berber floor mats are standard equipment, letting you easily clean up from the outside fun you may have inadvertently tracked in.

sport trac

Performance Restricted Only	
By Your Imagination.	

Pavement and painted white lines don't suit your style.

You like the unexpected pleasures that come with taking the back roads —or no roads at all.

Explorer Sport Trac's 4.0L, single overhead cam V6 engine and 5-speed automatic transmission gives you the power you need – and deserve. A 2-speed electric shift-on-the-fly system is standard on Explorer Sport Trac 4x4 letting you enjoy four-wheel drive performance with the touch of a button. Its rugged suspension includes front and rear stabilizer bars, gas pressurized shock absorbers and 2-stage rear springs all working together to help give you a smooth, confident ride.

The electronic shift-on-the-fly 4x4 system (standard on 4x4 only) lets you quickly adjust to any driving condition. For the city, keep it set on 2WD. For the trail, shift into 4WD HIGH, and for the deep woods, shift to 4WD LOW.

Two powerpoints are standard. One is located on the instrument panel and the other is in the cargo bed.

The all-composite surface of the moulded plastic cargo area was tested by having a front loader dump huge chunks of concrete into it. The result? Not a scratch. And, it's so durable and rustproof, you'll never need a bedliner.

cargo cage

For extra cargo carrying capabilities, add the optional cargo cage. The sturdy U-shaped tubular construction hinges to the side of the bed. The cargo cage can be rotated 180° over the tailgate, extending the bed to nearly 1.8 meters (6 feet), as shown here. Or when rotated back into the cargo area, it can create a storage area measuring 635 mm by 1143 mm (25" x 45"). Moulded-in dividers help to keep things organized and contained.

powerpoints

roof rails

The black roof rails let you carry additional cargo on the roof easily and safely.

Explorer Your Dreams Safely.

Any smart explorer knows to be prepared for the unexpected. That's why Explorer Sport Trac is equipped with safety features to help keep you and your passengers safe.

Standard power 4-wheel anti-lock brakes (ABS) give you better steering control when you have to stop on slippery or wet roads. Should a collision occur, Explorer Sport Trac's standard driver and front passenger Second Generation air bags are there to help protect you. Side impact beams on the front and rear doors are always on guard. And, the SecuriLock™ anti-theft system helps to stop would-be thieves by needing a specially encoded key to start the engine.

Rear cargo can be safely secured with one of the 10 standard tie-downs. Six are on the top rails, and four are located along the inner panels.

Page 11

Explorer Sport Trac 2001 Explorer Sport Trac

Rear cargo can be safely stowed under the optional two-piece, foldable tonneau cover that's also lockable.

tow hooks

The available front tow hooks (a feature within the Premium Sport Group option) give you the equipment you need to help pull someone out of a bind.

The Ford Consumer Commitment

24-Hour Roadside Assistance

You can count on Ford Quality now and down the road. That's because every new Ford of Canada car and light truck includes the assurance of an emergency no-cost Roadside Assistance Program during the 3-year/60,000 km warranty period. Help is just a toll-free phone call away - 24 hours a day anywhere in Canada or the continental United States - should you ever need trip planning, towing assistance, fuel delivery, a tire change, a jump start, emergency travel reimbursement or even help when you're locked out of your vehicle.

36-Month Warranty

The 36-month/60,000 km limited warranty covers the complete vehicle (except tires, and other items listed in the Warranty Guide) against defects in factory-supplied materials or workmanship. Ford of Canada's corrosion warranty covers against corrosion perforation on body sheet metal panels for 5 years/unlimited distance. Each vehicle is protected with an enhanced corrosion protection system.

The Ford Community Commitment

Ford & The Environment

Ford of Canada is dedicated to sound environmental practices and is an industry leader in supporting a cleaner environment.

- Ford is continuing to develop alternative fuel and electric-power vehicles. In fact, Ford offers more alternatives in alternative fuel vehicles than any other automaker.
- Ford Motor Company has made a major investment in Canada's Ballard Power Systems and their revolutionary new hydrogen fuel cell.
- This catalogue is printed on recycled paper which contains 10% de-inked post-consumer materials and uses vegetable inks.

At Ford, we believe that by investing in these types of environmental programs and technologies we are investing in a cleaner environment for our country and for those who will inherit it.
