T W O   T H O U S A N D   A N D   O N E

Outstanding strength and stamina are nothing more than a birthright for the latest and greatest F-Series. "Built Ford Tough" isn't just a slogan, it's a promise we keep with every owner, every day, year in and year out.

That's why, F-Series has been the best selling full size pickup in Canada for the past 34 years. In fact, after more than half a century on the job, this truck just keeps gaining a step. Today, F-Series offers 60 different models, the most complete lineup on the market. When you're covering that much territory, you're bound to come up with something as epic and all-encompassing as the new F-150 SuperCrew. Go ahead, take a look inside.

The new F-150 SuperCrew is the latest addition to the F-Series family and delivers outstanding performance and a rugged attitude that easily gets you to all your work or play destinations.

2001 F-150 SuperCrew  
**Work Or Play, It's Tough Enough To Be An F-Series.**

## The Pleasant Part Of Your Drive.

On the outside, F-150 SuperCrew's bold design is a monument to Canadians who like to take to the highways. Relax in the most spacious rear bench seat in its class and enjoy the standard AM/FM stereo with CD player (Lariat only) and the optional moonroof. And, with four full-size doors and space for six adults, the SuperCrew's interior is something that's easy for everyone to get into.

Entering and exiting SuperCrew is easy with its standard four full-size doors.

Inside SuperCrew you'll find a comfortable sanctuary. Optional leather captain's chairs and rear bench seat, standard air conditioning, power door locks and power windows, offer the luxury you and your passengers deserve (Lariat shown).

### power adjustable pedals

Since people come in all different shapes and sizes, SuperCrew comes with the class-exclusive power adjustable accelerator and brake pedals. Whether you're short or tall, they adjust a full 76 mm (3 inches), to make you more comfortable behind the wheel.

Page 5

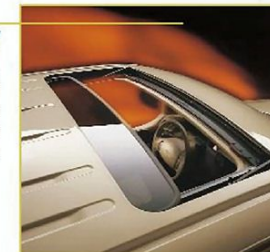

## Flexibility Is SuperCrew's Middle Name.

Driving the family to the cottage, or the work crew to the job site is easy in SuperCrew.

Up front, a 40/60 split bench seat is standard equipment (optional front captain's chairs shown left) along with a second split bench seat in the rear, giving you plenty of room to seat six adults comfortably. And, that's just the beginning.

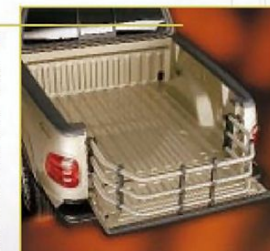

### moonroof

The optional, class-exclusive power glass moonroof lets the fresh air and sunshine inside.

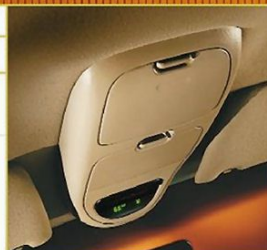

### bed extender

A class exclusive, the optional pickup bed extender is a stainless steel cage that flips out onto the tailgate to make a 2.13 meter (7 foot) cargo bed. It can also flip inside to create a space to securely haul smaller items like beach chairs and gardening tools.

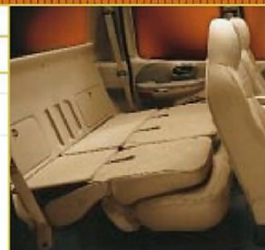

### overhead console

The overhead console includes a compass and outside temperature indicator, plus storage for sunglasses and a garage door opener.

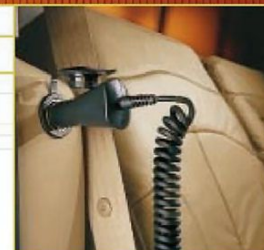

### rear seat

The 60/40 split rear bench seat is the most spacious rear seat in its class and doubles as a flat load area when the seats are folded forward.

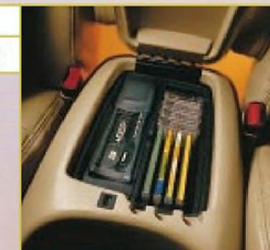

### rear powerpoint

The auxiliary rear seat powerpoint compliments the in-dash unit and lets you run several pieces of equipment – like your cell phone and the kids' portable video game unit – at the same time.

### centre console

The optional 6-disc CD changer is part of the available Premium AM/FM stereo with cassette. It's stored behind the rear seat with the standard bench seat, and in a centre floor console (shown here) when the optional captain's chairs are added.

# SuperCrew Works And Plays As Hard As You Do.

You need a truck that can handle Canadian highways and back roads when things get rough, and SuperCrew is tough enough to take on the challenge. The standard 4.6L V8 engine pumps out 220 horsepower and generates 290 lbs.-ft. of torque. For even more power, add the optional 5.4L Triton™ V8 engine. When properly equipped, the Triton™'s best in class torque can tow up to 3629 kgs. (8,000 lbs.) without even breaking a sweat. Add to it the standard 2-speed electric shift-on-the-fly 4x4 system (4x4 only) and this truck displays outstanding performance on all types of road conditions.

Although SuperCrew may look like a handful, it has an overall length equal to the F-150 SuperCab – that's a wheelbase of 3527 mm (139 in.). Plus, it has a turning radius tighter than any other full-size crew cab pickup, making it remarkably easy to park in the city.

SuperCrew's tough performance and handling characteristics let you tackle any road with confidence.

	towing
With the optional 5.4L Triton™ V8 engine, the F-150 SuperCrew can tow up to 3629 kgs. (8,000 lbs.), when properly equipped, making it easy to haul equipment to the job site or the family's trailer to the campground.	

Triton™ 4.6L
The standard 4.6L Triton™ V8 engine generates 290 lbs.-ft. of torque at 3,250 rpm. Maximum horsepower is 220 at 4,500 rpm.

 
--

Triton™ 5.4L
The optional 5.4L Triton™ V8 cranks out 350 lbs.-ft. at 2,500 rpm for the most torque in its class. Peak horsepower is 260 at 4,500 rpm.

 
--

## Your Family's Safety Is An Important Element For This Hardworking Truck.

You take safety seriously when enjoying recreational activities, so why should the trip to and from your playground be any different? SuperCrew helps make your commute to the trails or the job site safe.

Four-wheel anti-lock brakes (ABS) are standard, and help you control steering when stopping on wet or slippery roads. Should you be involved in a collision, the driver and front passenger Second Generation air bags help to protect you. A remote keyless entry system (standard on Lariat and optional on XLT) lets you unlock doors from a distance, while the SecuriLock™ stops would-be thieves by needing a specially encoded key to start the engine.

*Safety is important no matter what activity you decide to tackle. That's why F-150 SuperCrew is equipped with many standard safety features to help ensure you get to and from your work or play destination safely.*

# DEALER ACCESSORIES

dealer accessories dealer accessories dealer

Customize your F-150 SuperCrew by adding one of these Dealer accessories. See your local Dealer for availability.

A hood deflector helps protect your SuperCrew's paint finish from chipping.

The Class III receiver-style trailer hitch bolts directly to the frame. It's also available as a Class IV hitch.

Chrome cab steps add style while making it easier to get in and out. They are also available in black.

A high-density bedliner helps protect the inside of your pickup box.

The wood-trimmed instrument panel imparts a classic, high-end look and feel.

The soft snap tonneau cover provides extra security as well as some added protection in bad weather. (Shown here on a Super Duty F-250.)

# The Ford Consumer Commitment

## 24-Hour Roadside Assistance

You can count on Ford Quality now and down the road. That's because every new Ford of Canada car and light truck includes the assurance of an emergency no-cost Roadside Assistance Program during the 3-year/60,000 km warranty period. Help is just a toll-free phone call away - 24 hours a day anywhere in Canada or the continental United States - should you ever need trip planning, towing assistance, fuel delivery, a tire change, a jump start, emergency travel reimbursement or even help when you're locked out of your vehicle.

## 36-Month Warranty

The 36-month/60,000 km limited warranty covers the complete vehicle (except tires, and other items listed in the Warranty Guide) against defects in factory-supplied materials or workmanship. Ford of Canada's corrosion warranty covers against corrosion perforation on body sheet metal panels for 5 years/unlimited distance. Each vehicle is protected with an enhanced corrosion protection system.

## The Ford Community Commitment

### Ford & The Environment

Ford of Canada is dedicated to sound environmental practices and is an industry leader in supporting a cleaner environment.

- Ford is continuing to develop alternative fuel and electric-power vehicles. In fact, Ford offers more alternatives in alternative fuel vehicles than any other automaker.
- Ford Motor Company has made a major investment in Canada's Ballard Power Systems and their revolutionary new hydrogen fuel cell.
- This catalogue is printed on recycled paper which contains 10% de-inked post-consumer materials and uses vegetable inks.

At Ford, we believe that by investing in these types of environmental programs and technologies we are investing in a cleaner environment for our country and for those who will inherit it.
