

HOLDEN UTE

This is passion, melted down and forged into a dream. This is the heartbeat of the country, moulded into a car. This is the legendary Holden Ute.

HOLDEN UTE

The new Holden Ute is practically anything you want it to be. A practical work option that's practically a sports car.

3.8 LITRE V6 ENGINE. V-shape is a short light six cylinder design to promote excellent ute handling. INDEPENDENT REAR SUSPENSION for passenger car ride and tenacious road grip. HEAVY GAUGE, GALVANISED STEEL TRAY for a long service life as a hard-working commercial vehicle. COMPACT DISC PLAYER. Pure CD sound from quality 4 speaker, 40-watt sound system. POWER KEY remotely deadlocks doors to help protect your Holden Ute at every stop you make.

HOLDEN S UTE

The new S Ute is all work and all play, all grunt and just as much yaa-hoo. This is attitude with the dial turned all the way up.

225KW V8 OPTION AND 6-SPEED MANUAL. 5.7 litres of pure performance and the right gear ratio for most on-road scenarios. 16 INCH ALLOY WHEELS. Strong, wide wheels that add traction to the Holden Ute driving experience. FLUSH FITTING TONNEAU SYSTEM with isolated front mount, to reduce vibration and noise into the cabin. POWER WINDOWS include 'express down' windows, and time delay after engine is switched off. CRUISE CONTROL. Features an intuitive twist-switch mechanism for fast, accurate speed adjustment.

INTERIOR FEATURES

Take control. Expect an instant response. The new, driver oriented instrument panel and interior features are totally integrated around the driver's every whim.

COVERED CONSOLE COMPARTMENT

now clears away any mobile phone clutter and provides a dedicated power socket inside. DOOR STORAGE BINS, and a netting pocket on bulkhead between seats, organise your

'office' items, or leisure stuff. PYROTECHNIC SEAT BELT PRE-TENSIONERS reduce unwanted forward movement in a collision. TRIP COMPUTER includes speed warning, distance to empty, trip distance and time to go, and stopwatch. SOUND SYSTEM DISPLAY repeats in main instruments ahead of driver. AUTO TRANSMISSION OPTION has 'gear selected' indicator in instrument cluster.

Nothing, but nothing, fires the imagination like the new SS ute. This is the ute that will drive straight off the page and into your soul.

HIGH OUTPUT 235KW

5.7 LITRE GENERATION III ALLOY V8 ENGINE and a free-flow performance exhaust that makes all the right noises. 17 INCH ALLOY WHEELS. Complete the powertrain package to deliver powerful acceleration, braking and cornering, all with great control. SPORTS SUSPENSION.

Creates an SS Ute rolling chassis to match awesome V8 performance. ALLOY PEDAL CLUSTER. The SS Ute cabin bristles with uncompromising sports design. SIX DISC IN-DASH CD. Load fresh CDs, then shuffle the mix on the move from steering wheel controls. COLOUR INSTRUMENTS, and optional colour leather trim. An information interface to match the attitude under the bonnet. And seat and door trim that integrate the stunning styling package.

HOLDEN SS UTE

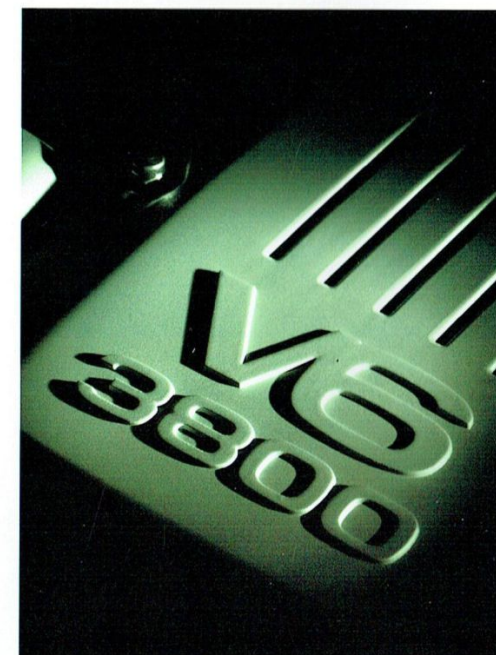

HOLDEN ENGINES

All Utes are powered by passion. How much passion is up to you: ECOTEC V6 passion, or Generation III Alloy V8 passion.

V 8

With a choice of 225kW/460Nm engine (optional on S) or 235kW/465Nm engine (standard on SS) • Aluminium alloy construction creates light weight engine for smooth ride • Lower weight allows softer, more supple front suspension • Agile handling. Less weight in front end allows more precise steering response • One piece induction system made from composite materials for smoother airflow and superior 'breathing' • Inlet manifold has improved air flow for performance and fuel economy.

V 6

152kW of power, 305Nm of torque • V6 engine is compact and light, for excellent ride and handling • High power with outstanding fuel efficiency from use of friction reduction techniques on moving parts, especially pistons, rings and valve train • Faster, more powerful new engine management for individual cylinder spark control, to improve performance, driveability and economy • Die cast inlet manifold smoother for improved air flow to increase power • Stainless steel long life exhaust.

Holden towbars have been specifically designed for the Ute to meet stringent Australian Design Rules.

Only Holden approved towbars are covered by Holden's warranty. Holden also gives you the option of a DUAL FUEL SYSTEM WITH LPG on a V6. This factory fitted system will be totally integrated into your Ute. It will show the level of LPG or petrol, and will even recalculate the 'distance to empty' on the trip computer. This LPG system is covered by Holden's 3 year or 100,000 km warranty.
