

Cadillac

SRX

DON'T JUST CROSS OVER – STEP UP ACHIEVE

For over a century, the Cadillac name has been synonymous with excellence. And, not surprisingly, Cadillac vehicles have been magnets for those dedicated to achieving excellence in their own lives. Case in point: the 2008 SRX Crossover. In a category full of jacks-of-all-trades, SRX is an accomplished master. Forward-looking style. Razor-sharp performance and handling. Sumptuous luxury. Cutting-edge technology. And that's just the beginning. In fact, when *Car and Driver* was comparing luxury SUVs and crossovers recently, the SRX was their unanimous choice for a cross-country road trip.* You demand the best in everything you do. Insist on it in your crossover vehicle. Step up to SRX. Step up to Cadillac.

*Car and Driver, May 2007

Cadillac

WELCOME TO THE UPSIDE
STYLE

SRX

It's a big universe out there. SRX gives you a frame that's almost as big to view it through. Measuring more than half a square metre (over 5 sq. ft.), the available power sliding UltraView® roof provides front and second-row occupants alike with a great view of the sun, the moon and the stars. For those bright days, there's a power retractable sunshade that helps reduce glare. SRX also offers an available UltraView Plus roof that adds a fixed glass panel with a power sunshade over the third-row seat.

SRX

A WHOLE NEW OUTLOOK
PANORAMIC

WHEN YOU'RE HERE — YOU'VE ARRIVED

PREMIUM

SRX

The SRX Crossover is designed to transport you and your favourite people in uncommon comfort and style. At 2958 mm, the wheelbase is one of the longest in the class, a design characteristic that ensures lots of legroom and a controlled, comfortable ride. Moderate seat heights and tiered theatre-style seating mean every occupant enjoys an excellent view of the scenery passing by. Then there are the SRX Crossover's many standard amenities, such as automatic dual-zone climate control, handcrafted leather seating surfaces and, on SRX V8, exquisite real wood trim.

With voice recognition, touch-screen actuation and other advanced features, SRX's available DVD navigation system* makes it a simple matter to find your way in unfamiliar territory.

*At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

SRX is intensely focused on the driver – a fact that becomes clear the instant you ease into the handcrafted interior. Eight-way power seat adjustments, a tilt steering column and available power adjustable pedals help achieve precisely the right driving position. The elegantly styled analogue gauges communicate essential driving information quickly and clearly. They're supplemented by a multi-functional Driver Information Centre capable of displaying messages in a choice of five languages. It's the perfect driving environment for those who only settle for total control.

SRX

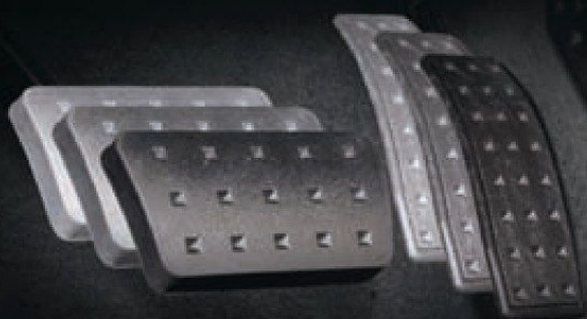

THE AUTOMOTIVE EQUIVALENT OF THE CORNER OFFICE
CONTROL

SRX

THE LEVERS OF POWER ERGONOMICS

The SRX Crossover is a driver's vehicle in which every detail has been exhaustively worked out. Consider, for example, the way the switchgear has been meticulously designed and positioned for easy, intuitive use. Fingertip switches are conveniently placed on the steering wheel for the climate control and audio system, allowing you to make adjustments without taking your eyes off the road. The transmission lever and controls for the power windows, door locks and mirrors are just centimetres away, precisely where you expect to find them. No wonder SRX has generated so much praise in the automotive media.

Available power adjustable accelerator and brake pedals help drivers of varying sizes to achieve a comfortable position behind the wheel.

SRX's standard Driver Shift Control lets you shift the transmission up or down a gear with a touch of the lever.

MAKE A SCENE
SPORT

SRX

Every SRX attracts its share of admiring glances. It's just that some attract a bigger share than others. Choose the dramatic style of the available Sport Package and all eyes will be on you. Highlights include an exclusive body-colour grille, unique front and rear sport fascias and polished 20-inch aluminum wheels shod with massive, low-profile P255/50R20 tires. A limited-slip differential enhances SRX's already-scintillating cornering performance. And Xenon High-Intensity Discharge (HID) headlights – complete with high-pressure headlight washers – ensure you'll see as well as be seen.

A WHOLE NEW TAKE ON THE ROAD SHOW ENTERTAINMENT

SRX

As in so many other areas, when it comes to entertainment, the SRX Crossover performs at a very high level. The standard audio system includes XM Satellite Radio* and a superb eight-speaker Bose® sound system, and SRX V8 adds an in-dash six-disc CD changer in place of the SRX V6's single-disc player. For true concert-quality acoustics, a Bose 5.1 Cabin Surround® sound system is available. There's also an available Theatre Package that will keep your rear passengers entertained via DVD playback through a flip-up LCD colour monitor located at the rear of the centre console.

No matter what your preference in radio entertainment, you'll find plenty to choose from with SRX's standard XM Satellite Radio™.* It offers the largest playlist and the most commercial-free music on the planet – broadcast coast to coast.* Genres range from decades to dance, rock to rap, and country to classical – all with digital-quality sound. There's also news, talk, comedy and sports channels – including more than 1000 NHL games. No wonder more than seven million people subscribe to XM Satellite Radio. Ask your dealer for more information.

*Includes three trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

Equipped with the available power folding third-row seat, SRX offers accommodations for up to seven people. Should you need to carry cargo rather than additional passengers, the seat folds neatly out of the way at the touch of a button. If five-passenger seating is more suited to your needs, the reconfigurable rear cargo management system features side storage bins and large compartments under the cargo floor – all ideal places to secure smaller items out of sight. The reconfigurable cargo management system is standard on SRX V8 and available on SRX V6.

TOP ROW THREE VIEWS

The available power folding third-row seat stows below the floor, leaving a very practical flat cargo area. The switch that controls the seat is conveniently located in the cargo area.

LEFT

SRX accommodates five people and up to 918 L of cargo at the same time. Should you need maximum cargo capacity, there's 1968 L of cargo space with the second-row seat folded away.

SHAPED AROUND YOUR NEEDS VERSATILITY

SRX

APPROACH WINTER ON A FIRM FOOTING TRACTION

When the road gets slippery, it's reassuring to know your SRX is engineered to make the very most of the available grip. ABS, traction control and a standard StabiliTrak™ electronic stability control system all help you keep control in low-traction situations. Then there's SRX's available all-wheel-drive (AWD) system. Not only does it deliver an extra measure of confidence and control in everyday driving, it also helps maintain momentum and balance on snow and ice by automatically redistributing the available torque to the wheel – or wheels – with traction. And, as befits a Cadillac, it's an unobtrusive system that functions with uncommon silence and refinement.

The available all-wheel-drive system adjusts automatically to provide excellent performance in transitions between high- and low-traction surfaces.

An on/off switch on the centre console allows you to disable your SRX's standard traction control system when a certain amount of wheelspin is required, such as when "rocking" the vehicle in deep snow. If so desired, the standard StabiliTrak electronic stability control system can also be disabled by pressing the traction control switch for a period of 5 seconds.

LEAD THE PACK
PERFORMANCE

SRX

Willing performance is an integral part of the SRX experience, thanks to a choice of high-tech engines as refined as they are powerful. SRX V6 models feature a sophisticated 3.6-litre DOHC engine paired with an electronically controlled five-speed automatic transmission, while the SRX V8 is powered by Cadillac's renowned 4.6-litre Northstar V8 teamed with a sophisticated six-speed automatic. Both engines are state-of-the-art powerplants which include such highlights as Variable Valve Timing (VVT), electronic throttle control and an Engine Control Module (ECM) with dual microprocessors. The SRX transmissions are no less advanced. For example, both offer an integrated Driver Shift Control feature, which allows you to select a higher or lower gear with a simple tap on the gearshift lever.

Both SRX engines feature advanced Electronic Throttle Control (ETC), which replaces the conventional throttle cable with an advanced "drive-by-wire" connection for smooth, immediate responses.

The 4.6L Northstar V8 VVT engine is shared with Cadillac's exhilarating XLR luxury roadster. It generates 320 horsepower and 315 lb.-ft. of torque.

The 3.6L V6 VVT engine is a smooth, efficient performer that produces 255 horsepower and 254 lb.-ft. of torque.

SMOOTH AND STABLE – MEET ADDICTIVELY AGILE ROAD MANNERS

SRX

Why is SRX widely recognized as the class benchmark for ride and handling? The answer begins with its computer-designed foundation – GM's global luxury architecture. To that extremely rigid platform, Cadillac's engineers fitted a state-of-the-art fully-independent suspension. Then they created an available Magnetic Ride Control® system capable of reading the road up to 1000 times per second and adjusting the damping of each shock absorber individually. The last step: exhaustive testing and fine-tuning at five racetracks – including Germany's legendary Nürburgring – to ensure just the right balance of agility, stability and smoothness.

With the body and frame engineered as a single unit, SRX's dedicated rear-wheel-drive architecture forms a rigid yet lightweight structure – the perfect starting point for outstanding performance.

MAGNETIC RIDE CONTROL

FLEXIBLE RIDE
LESS FLUID RESISTANCE

PERFORMANCE RIDE
MOST FLUID RESISTANCE

The available Magnetic Ride Control suspension features shock absorbers filled with metal particles and a special fluid that stiffens automatically when exposed to a magnetic field.

1. In the front crush zone, octagonal rails fabricated from ultra-high-strength steel are used to absorb impact energy.
2. At the transition zone, the lower A-pillars and a magnesium cross beam in the instrument panel help to diffuse energy around the passenger compartment.
3. In the safety cage, structural members like the floor pan, rocker panels, centre tunnel and A- and B-pillars redirect energy away from the passenger compartment.

4. At the rear of the vehicle, the moulded multi-layer fuel tank is protected from both rear and off-set impacts.
5. The front seatbacks are made from a special high-strength material that protects occupants by resisting collapse in a rear-end collision. The seats also feature an energy-absorbing crushable pan between the seat frame and cushion.

EXPRESS YOURSELF TO THE MAX ACCESSORIES

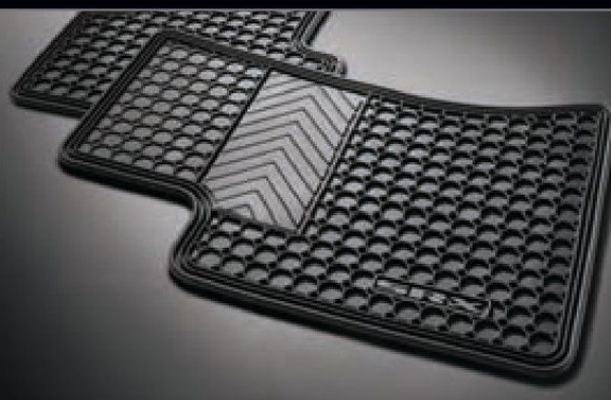

SRX

Show your unique style and endow your SRX with an even higher level of luxury by adding carefully chosen quality accessories. You can delight your rear passengers with a head-restraint-mounted DVD player system with dual players and screens, protect your carpets with a variety of floor mat designs, even equip your SRX to head for the hills with custom carriers for bicycles, skis or snowboards. And that's just for starters. Best of all, genuine GM Accessories are designed especially for your SRX and engineered to the highest standards, ensuring excellent fit, finish and functionality. They're covered under the 4-year/80,000 km Cadillac Limited Warranty.* They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for the new SRX. Or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

▲ The brush guard package is a must for off-roaders. It provides a rugged front-end look and helps prevent damage to the grille and headlights.

▲ Protect your SRX's carpeting from snow, slush and salt with these premium all-weather front floor mats. Their high, raised edges help trap slush, water and debris and allow easy cleaning.

▲ The hitch-mounted bicycle rack mounts and locks directly to SRX's trailer hitch. It can accommodate up to 4 bicycles and is designed for easy loading and unloading.

CADILLAC OWNER PRIVILEGES

By choosing to drive a new 2008 SRX, you automatically enter a world of elite owner privileges, thanks to a host of programs that will enhance your safety and convenience and reduce your overall cost of ownership. For the first 4 years or 80,000 km of ownership*, Cadillac No-Charge Scheduled Maintenance will cover all regularly scheduled maintenance required by your SRX. During the same period, the Cadillac Limited Warranty will cover all parts and labour costs* that may be incurred to correct defects in material or workmanship. You are also covered by GM's Powertrain Limited Warranty, which is in effect for the first 5 years or 160,000 km of ownership.** While the Powertrain Limited Warranty is in effect, you enjoy the support of Cadillac Roadside Service* throughout Canada and the United States should you require towing, fuel delivery, a jump start or help with a flat tire or lock-out situation. In addition, Alternative Transportation* provides you with shuttle transportation for daily service and an alternate car (or reimbursement for rental or other transportation expenses) for overnight service, whenever your SRX requires scheduled maintenance or repairs covered under the Cadillac Limited Warranty. Other Cadillac owner privileges include Trip Planning* assistance and Trip Interruption Protection,* and you may be reimbursed by General Motors of Canada for reasonable hotel, meal and alternative transportation expenses incurred should your trip be interrupted by a repair covered under the Cadillac Limited Warranty. See your Cadillac dealer for complete details on all Cadillac Owner Privileges.

*Program in effect for the first 4 years or 80,000 km (whichever comes first) of ownership. Conditions and limitations apply.
**Whichever comes first, conditions and limitations apply.

ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, Cadillac and General Motors of Canada have created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing or leasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

Purchasing & Leasing:

- **GMAC Express Credit Application** – a convenient way to get pre-approved credit towards the purchase or lease of your next GM vehicle
- **GMAC Purchase Financing** – on-the-spot financing at your GM dealership†
- **GMAC SMARTLEASE®** – a smart alternative to traditional financing†
- **GMAC SMARTWEAR™** – worry-free leasing protecting you against unexpected excess wear costs. Must be purchased when signing a GMAC SMARTLEASE agreement††
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 in GM Card® Earnings toward the total purchase price or lease down payment on selected vehicles.†† For more information on The GM Card please call 1-800-461-3279.

Additional Ownership Programs:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of your sale or lease, or subsequently during the Cadillac Limited Warranty period.††

†Subject to eligibility. ††Conditions and limitations apply.

Information Resources:

You can obtain more information about Cadillac vehicles and programs from your Cadillac dealer, or at these information centres:

- The GM website at gm.ca
- The Cadillac Contact Centre at 1-888-446-2000 or (1-800-263-3830 for TDD users).
- For more information about GMAC visit gmac.ca or call 1-800-616-4622.

A word about this brochure

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A word about corrosion

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

Trademarks

The marks appearing in this Cadillac SRX brochure including, but not limited to: General Motors, GM, the GM Canada emblem, the GM Canada website address, Cadillac, the Cadillac badge, Cadillac Owner Privileges, Cadillac Roadside Service, SRX, and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Magnetic Ride Control, Northstar, Solar-Ray, StabiliTrak, Twilight Sentinel and UltraView are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

GMAC is a registered trademark of the General Motors Acceptance Corporation of Canada, Limited. SMARTLEASE is a registered trademark and SMARTWEAR is a trademark of GMAC.

OnStar, the OnStar logo and the OnStar button are registered trademarks of the OnStar Corporation.

TheftLock is a registered trademark of Delphi Automotive Systems.

Bose and Cabin Surround are trademarks or registered trademarks of the Bose Corporation.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

The XM name and related logos are registered trademarks of XM Canada, Canadian Satellite Radio Inc.

- ▲ The rear bumper protector guards against scratches and other cosmetic damage when you're loading and unloading cargo.

- ▲ Designed and engineered specifically for SRX, these custom moulded splash guards protect against paint damage from gravel and road debris and provide an attractive accent to SRX's styling.

- ▲ The high-quality accessory wheel adds an extra touch of style and distinction to your SRX's exterior appearance.

* Available at extra cost.

1 – ChromaFlair® uses advanced light-interference technology and prismatic metallic pigments to create an intense, deeply lustrous colour.

2 – Tintcoat is a premium two-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.

3 – Tricoat is a meticulous three-layer process that results in a dramatic hue-shifting colour reminiscent of a show-car finish.

EXTERIOR COLOURS 2008

SRX

The exterior colours in this brochure are as close to the actual vehicle production colours as the printing process allows. For more accurate colour samples, ask your sales consultant to see the dealer showroom vehicle colour display.
*Available at extra cost.

TAKING ACTION TODAY. FOR TOMORROW.

At General Motors, our commitment to environmentally friendly transportation starts right at the top:

"What we do at General Motors profoundly affects the lives of many people. As the world's largest maker of cars and trucks, we realize our impact extends beyond those who drive our vehicles, who work here and who live in our communities. We also know that our actions today can positively affect the lives of future generations. It's a huge responsibility, but also a great opportunity. And that's why corporate responsibility is an integral part of everything we do at GM."

We're determined to be part of the solution to the environmental issues that we as a global community are facing. To that end, GM is investing billions of dollars in a broad-based advanced technology strategy to help reduce the world's dependency on oil. This includes everything from biofuels like E85 ethanol, to plug-in hybrids, to electrically driven vehicles powered by advanced batteries and hydrogen fuel cells. We've also made steady and significant progress over the past five years to reduce our own energy use, conserve natural resources and decrease greenhouse gas emissions from GM products and facilities."

Rick Wagoner

Chairman and Chief Executive Officer, General Motors
