

2026

IONIQ 9

Make space for the future. This is the family SUV EVolution.

Here's a new idea: Aerosthetic. Aerodynamic and aesthetically modern. When you see the way IONIQ 9 wears its big, bold presence with smooth, progressive style, you realize it's the perfect new term for the newest member of America's most exciting EV lineup. A commanding three-row SUV, IONIQ 9 handles big families and big lives with ease and efficiency. How efficient? How about more than 300 miles to a charge?¹

The first thing that's sure to capture your attention is IONIQ 9's pixelated lighting, which stretches edge-to-edge across the front fascia. Follow the smoothly sculpted side panels to the crisp crease which accents its rear doors. Then continue the length of its cabin – with its brightly framed rear glass – to the tail. That's where pixelated lighting extends the height of the rear corners to complete a design that is modern from every angle.

Here's another big idea: Space. Inside, the IONIQ 9 welcomes 6 or 7 passengers into an atmosphere designed to feel more like a lounge than a large SUV. Warm, organic textures accent the clean lines of its roomy cabin, creating an ambiance that invites you to relax. Or connect, thanks to USB-C ports for every passenger, wireless charging for your phone and wireless connectivity for Apple CarPlay® and Android Auto™.²

When transporting your family, you'll savor the confidence of driving with Hyundai's SmartSense safety technologies watching out for you. Packing a lot of cargo? You'll appreciate all of the class-leading interior space – third row up or folded.³

IONIQ 9 is the future of family travel. Welcome to the EVolution.

IONIQ 9 Calligraphy in Cosmic Blue Pearl

Charge ahead. And never look back.

It has always been a simple equation: The more people you carry, the more gas you guzzle. Unless, of course, you no longer use any gasoline at all.

With its three rows filled with family, IONIQ 9 silently and efficiently accelerates with quickness that ranges from surprising to squeal-inducing. The single-motor S model offers a range-enhancing 215 hp, while dual-motor All Wheel Drive SE and SEL models seamlessly deliver 303 hp. The AWD Limited and Calligraphy models unleash up to 422 hp from their dual motors – that’s enough to tow up to 5,000 lbs.⁴

All models come with a 110.3 kWh battery that delivers up to 335 miles on a charge.¹ But equally as important as how far you go is how conveniently you charge. Built-in battery heating and pre-conditioning gets your battery ready for optimal charging in any weather. With the included adapter, you have three ways to charge. In addition to home charging, you can use the popular NACS Supercharger network or an ultra-fast 350 kW DC fast charger, which gives you up to 150 miles in only 15 minutes.⁵ And takes you from 10-80% charging in approximately 24 minutes.⁶

It’s just as easy to pay for your charging with the Hyundai Pay feature – it lets you find and complete payments for charging, or reserve parking directly from your vehicle touchscreen.⁷ And in addition to getting a charge, you can also share a charge. The available V2L onboard charger lets you power electric essentials like e-bikes and campsite appliances from your IONIQ 9.⁸ Are you ready for your future?

This atmosphere is electric.

Ever notice how some places are both relaxing and energizing at the same time? This is one of those spaces. Designers started with the longest wheelbase of any Hyundai to create more room. Everyone inside will see and feel IONIQ 9's clean, uncluttered lines. And delight in a lounge-like layout that invites you to either converse or decompress – a task made easy with Relaxation Seats for the first two rows on Limited and Calligraphy trims. They invite you to lean back, recline deeply, and put your feet up on the lower leg rests.

On IONIQ 9's SEL trim level and above, the steering wheel is heated for cold mornings, while front seats are both heated and ventilated to silently warm or cool you. Limited trims and above extend this to the second-row captain's chairs and add One-Touch Walk-in with Motorized Power Return for effortless access to the third row – where the flat floor allows for a more comfortable leg position.

Ambiance comes not only from what's inside the IONIQ 9's cabin, but also what's not: Noise. Combining a quiet electric drivetrain with available Active Noise Control–Road technology and sound-absorbing tires makes the space inside ideal for listening or sharing.

There's plenty of cargo room and smart spaces for storing everything from devices and bags to sports gear, luggage and more. A Universal Island center console between the front seats has an available fore/aft sliding feature to make room where you want it, opening from either the front or rear for easy access. Looking for another surprising space? Open your IONIQ 9's hood, and you'll find a large-capacity "frunk" to store even more.

See safety from new angles.

Protection starts with vision. And our vision takes shape in a suite of advanced safety and driver-assistance technologies known as Hyundai SmartSense. Using an integrated system of cameras, radar sensors and ultrasonic sensors, SmartSense monitors your surroundings from nearly every angle to help avoid potential hazards.⁹ And on IONIQ 9, every SmartSense feature shown below is standard on every trim.

Featuring the highest level of safety technology we offer on any model, IONIQ 9 includes one of our latest innovations – Advanced Rear Occupant Alert. Super-sensitive radar warns the driver if a sleeping child has been left in the 2nd-row seats.¹⁰ Forward Attention Warning is also onboard, which helps alert you to signs of driver fatigue or distraction.¹¹ SmartSense is not only watching what’s around you outside the vehicle – it’s watching out for you inside as well.

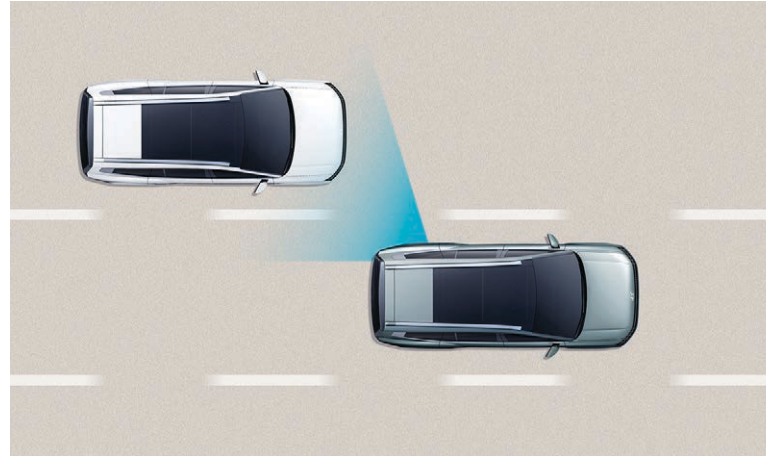

Hyundai SmartSense Technologies

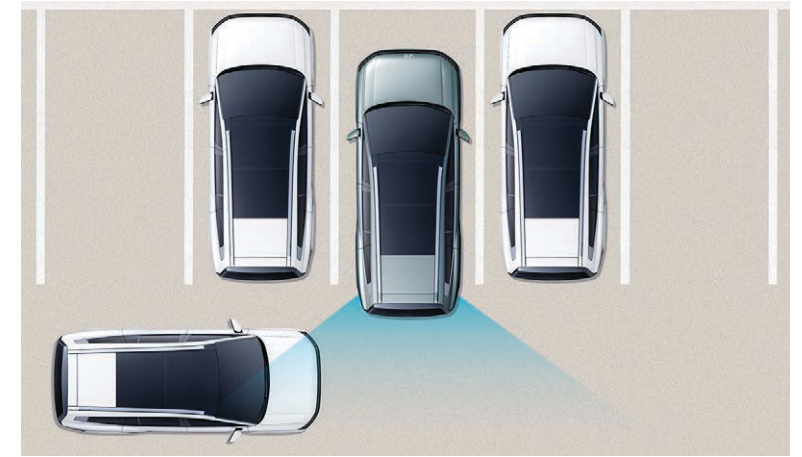

1. Forward Collision-Avoidance Assist

When IONIQ 9's front-facing camera and radar detect a vehicle, pedestrian or cyclist in your path – whether turning left at an intersection, crossing a junction or changing lanes – your Hyundai warns you of a potential collision. If necessary, the system may automatically apply emergency braking or evasive steering to help avoid a collision.¹²

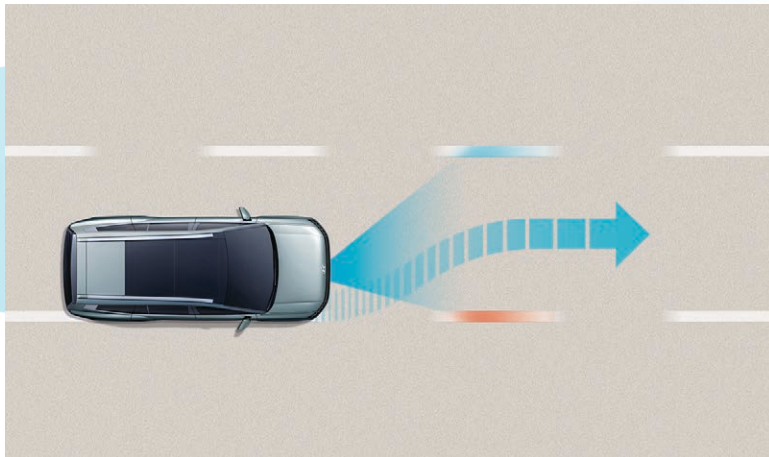

2. Blind-Spot Collision-Avoidance Assist

If your IONIQ 9 detects a vehicle in your blind spot while the turn signal is on, it can alert the driver with audio warnings and steering-wheel vibrations to help avoid a collision during lane changes. It can also detect vehicles as far as two lanes over to help prevent collisions when pulling out of a parallel parking spot.¹³

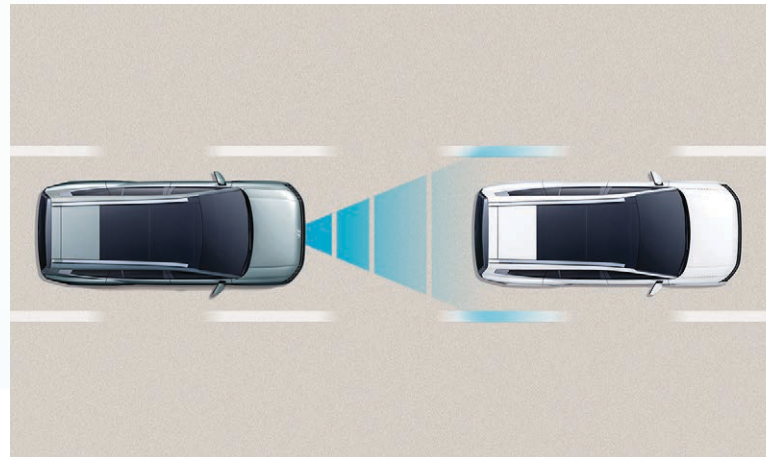

3. Rear Cross-Traffic Collision-Avoidance Assist

Backing out of a parking space and wondering whether there is cross traffic coming your way? This feature helps warn you of another vehicle approaching from the side. If necessary, your Hyundai may automatically apply braking to help prevent a collision.¹⁴

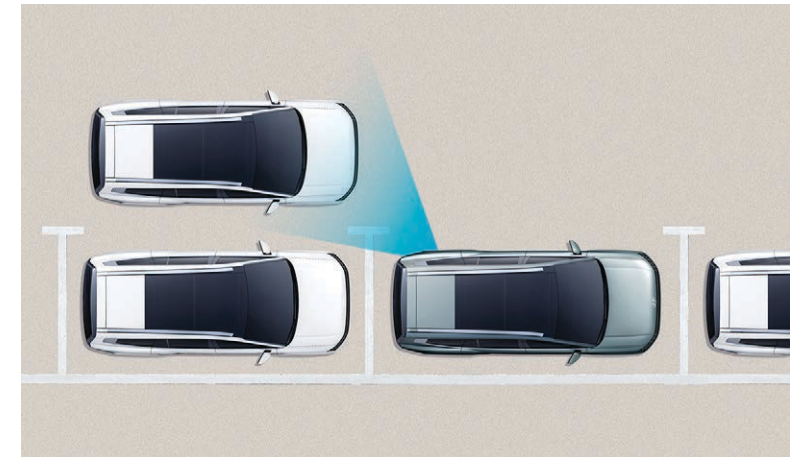

4. Lane Following Assist

Using the vehicle's front-facing camera to detect lane markers on the road, this feature assists the driver's steering to help keep you centered in your lane. It can even help determine a virtual path based on the movements of the preceding vehicle.¹⁵ Meanwhile, haptic feedback through the steering wheel helps remind you to keep your hands on the wheel.

5. Highway Driving Assist 2

Acting as your copilot on freeways, this feature helps keep you centered in your lane while also maintaining a set speed and distance from the vehicle in front. It can use navigation map data to automatically adjust for changing speed limits and reduce your speed when it detects you're approaching a curve in the road. The system can even respond to vehicles that drive too closely in the adjacent lane and assist in making lane changes.¹⁶

6. Safe Exit Assist | Advanced Rear Occupant Alert

After you park, Safe Exit Assist issues an alert when a vehicle is detected to be approaching from behind, letting the driver know it may not be safe for passengers to open the street-side door.¹⁷ The Advanced Rear Occupant Alert feature can help remind the driver to check 2nd-row seats for kids or pets after turning off the vehicle.¹⁰

Wired to unwind.

In our always-on world, we're more relaxed when we're connected. To the latest tech, to our media and to each other. Which is why IONIQ 9 helps you and everyone onboard stay connected as effortlessly as possible – often without needing a plugged-in connection at all.

The moment you activate the ignition, Apple CarPlay® or Android Auto™ wirelessly connects your phone to your IONIQ 9.² Built-in Wi-Fi hotspot capability gets everyone online with faster, more stable data than using your smartphone alone.¹⁸

Keeping everyone's devices charged is just as seamless. In the front seats, a fast wireless charging pad in the center console means you can simply set your device down and top up. Seven USB-C ports throughout the cabin allow everyone to find a charge. Putting out 100 watts of power, they'll even energize a laptop.

Now that everyone's charged and ready to go, look forward. That sleek, dramatically curved screen houses dual 12.3" displays for crystal-clear views of your instruments, navigation and infotainment. Tap or use voice commands to enjoy your music with just as much clarity through an available Bose® Premium Audio system with 14 speakers. You'll also appreciate knowing your maps and multimedia features are always updated as new releases are pushed to your vehicle over the air.

But why wait until you're inside to enjoy the wireless advancements? The available Hyundai Digital Key 2 Premium lets you unlock doors and start your vehicle from anywhere with your smartphone or smartwatch.¹⁹ From the driver seat, IONIQ 9 also lets you start without a key using the available fingerprint scanner. Now you're connected to tomorrow.

Introducing Bluelink+: No fees. No trial. No worries.

With the introduction of Bluelink+, Hyundai became the first automotive brand to offer its suite of connected car features to new car purchasers at no extra cost. Bluelink+ is complimentary with the purchase of your new 2026 Hyundai IONIQ 9.²⁰

Bluelink+ technologies are designed to help keep you safe – ranging from automatic collision notifications to enhanced roadside assistance that sends your location to a roadside assistance associate.²¹ And much more. Bluelink+ also includes helpful maintenance features like remote diagnostics and monthly vehicle health reports. All complimentary with a 2026 IONIQ 9 new vehicle purchase for the life of the supporting wireless network technology.²²

Our MyHyundai with Bluelink app turns your compatible smartphone, smartwatch or home assistant device into a Bluelink remote control that can unlock your IONIQ 9's doors and start the vehicle and climate controls before you leave the house, office or restaurant.²³

Enter your IONIQ 9 using the available Digital Key 2 Premium for your compatible smartphone or wearable device,¹⁹ and your radio and navigation system presets are automatically restored using your Bluelink personal profile. Apple Wallet,[®] Google Wallet[®] and Samsung Pass[®] let you share your digital key with trusted friends and family members²⁴ – as the primary driver, you control when a shared key can be used, and pause or end shared-key access at any time.

Automatic Emergency Assistance

Bluelink+ offers you 24/7 SOS Emergency Assistance as well as Automatic Collision Notification that calls for help if you're in an accident where your vehicle's airbags deploy.²¹

Remote Vehicle Status

Wondering how much charge your IONIQ 9's battery has? If the doors are locked or your liftgate is closed? Your MyHyundai with Bluelink app has the answers to these questions and more.

Remote Charge Access

Now, you can control your Hyundai's charging remotely while it is plugged into an external power source, and schedule charging at specific times to take advantage of low-demand hours and rates.²⁵

Remote Climate Controls

Preheating your Hyundai when it's connected to a power source saves battery power needed to heat your vehicle on the road. On warm days, Remote Climate Control can cool your cabin before you drive.

Surround View Monitor

Keep a close eye on your parked vehicle from your smartphone using the available Surround View Monitor feature. You can access four exterior cameras or an overhead view with a few taps in the app.

Digital Features and Services

Wirelessly add functionality and personalization with downloads like custom visual themes for the display and new expressions of Dynamic Welcome Lighting on the IONIQ 9 Calligraphy trim.²⁶

Electric EPA Estimates (City/Highway/Combined)

103/81/92 MPGe	335 <small>Estimated All-Electric Range</small>	98/78/88 MPGe	320 <small>Estimated All-Electric Range</small>	91/79/85 MPGe	311 <small>Estimated All-Electric Range</small>
Single-Motor Rear Wheel Drive IONIQ 9 S		Dual-Motor All Wheel Drive IONIQ 9 SE / SEL		Dual-Motor All Wheel Drive IONIQ 9 Limited / Calligraphy	

MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only. Mileage may vary with driving conditions, driving habits, the vehicle's condition, the age/condition of the lithium ion battery and other factors. Estimated All-Electric Range reflects fully charged battery and combined MPGe rating.

Footnotes

¹IONIQ 9 RWD S (not shown) equipped with a 110.3 kWh battery rated at a combined 92 MPGe with a 335-mile All-Electric Range. MPGe is the EPA-equivalent measure of gasoline fuel efficiency for electric mode operation. Use for comparison purposes only. Mileage may vary with driving conditions, driving habits, the vehicle’s condition, the age/condition of the lithium ion battery and other factors. Estimated All-Electric Range reflects fully charged battery and combined MPGe rating. ²Apple® is a registered trademark of Apple Inc. Android Auto™ is compatible with Android™ phones running Android 5.0 or higher. Android Auto may not be available on all devices and is not available in all countries or regions. Additional apps may be required. Android and Android Auto are trademarks of Google LLC. ³Class comparison based on primary all electric mid-size SUV competitors as defined by Hyundai Motor America. Competitors within this class are the 2025 Tesla Model X, 2025 Rivian R1S, 2025 KIA EV9. Claim based on comparison of specifications on manufacturer websites. ⁴Towing capability varies by configuration. See the towing guide in the Owner’s Manual for proper use and additional information. ⁵150-mile range based on IONIQ 9 RWD S model (not shown). Approximately 24 minutes to charge from 10% to 80% on a 350-kW, 800V DC ultra-fast charger using included Hyundai CCS Adapter. Actual charging time varies based on a number of factors including current battery charge level, output of the charging unit, vehicle and battery settings, battery temperature and outside temperature. DC fast charging stations are provided by independent companies and availability is not guaranteed. ⁶2026 IONIQ 9 RWD S models can charge up to 150 miles in approximately 15 minutes on a 350-kW DC ultra-fast charger using the included CCS adapter. Based on EPA-estimated 335-mile total driving range for 2026 IONIQ 9 RWD S. Estimated ranges and charging times for other IONIQ 9 trims vary. Actual charging time varies based on a number of factors, including current battery charge level, output of the charging unit, vehicle and battery settings, vehicle temperature and outside temperature. EPA estimates for comparison purposes only. Actual range will vary. Ultra-fast charging stations are provided by independent companies and availability is not guaranteed. ⁷Hyundai Pay is available on select 2021-2026 model year Hyundai vehicles equipped with Bluelink and touchscreen navigation. Requires an active Hyundai Bluelink mobile app account, subject to the Connected Services and Hyundai Pay Terms and Conditions. Cellular and GPS coverage is required. Only use Bluelink features and corresponding devices when safe to do so. Valid Visa, MasterCard or American Express credit card must be linked to Hyundai Pay. Credit card eligibility and terms are determined by the card-issuing bank. Hyundai Pay is currently accepted at select gas stations, charging stations and parking facilities (collectively, “Merchants”) in the U.S. Participating Merchants may not operate in all states or locations. Additional Merchant terms and fees may apply. Features, specifications, fees and availability are subject to change. Visit Owners.HyundaiUSA.com for more information. ⁸Vehicle-to-Load (V2L) two-way charging will deplete the battery and become inoperable once battery discharge limit reaches 20 percent. Not all electrical appliances will operate properly when using this feature. Do not use products that require a continuous power supply, and only use appliances under 16 amps. Additional limitations may apply. See Owner’s Manual for details and limitations. ⁹Safety features vary by model and trim level. For details, refer to the Features chart in the back of this brochure or visit HyundaiUSA.com. ¹⁰When the vehicle is parked and the motor has been turned off, Advanced Rear Occupant Alert (AROA) can help alert the driver if it detects movement from a child or pet. Upon exiting and locking the vehicle, the AROA may provide visual, audible and/or Bluelink+ alerts if the interior sensors detect movement. AROA is not a substitute for driver attentiveness. Never leave a child or pet unattended in a vehicle. Bluelink+ notification requires a properly equipped vehicle with an active Bluelink+ account. See Owner’s Manual for details and limitations. ¹¹Forward Attention Warning helps monitor the driver’s eye position using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver’s responsibility to remain alert at all times. See Owner’s Manual for details and limitations. ¹²Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect vehicles, pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. Junction Turning helps the driver avoid collisions involving turning left at an intersection by applying the opposing front brake only when an oncoming vehicle is detected in the opposing lane. There are limitations to the function, detection, range and clarity of the system. Junction Turning may not function correctly if one or more of the sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner’s Manual for details and limitations. ¹³Blind-Spot Collision-Avoidance Assist (BCA) assists the driver by warning of other cars in the blind-spot region. It senses the rear side territory of the vehicle when traveling over 20 mph. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Its operation depends on the size, distance, angle and relative speed difference between your vehicle and other vehicles. BCA may not operate if sensors are obscured in any way. Do not rely exclusively on BCA. BCA is a supplemental system, and the driver must still be attentive and exercise caution when driving. It is the driver’s responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner’s Manual for details and limitations. ¹⁴Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind the vehicle. When another vehicle is detected while your car is backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when your car is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner’s Manual for details and limitations. ¹⁵Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, helps keep your vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist and does not replace the need for extreme care and attention by the driver. See Owner’s Manual for details and limitations. ¹⁶Highway Driving Assist (HDA) and Highway Driving Assist 2 (HDA 2) are for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from the vehicle ahead only when the lane markings are clearly visible on the road. HDA and HDA2 should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA and HDA 2 will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner’s Manual for details and limitations. ¹⁷When the vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit the vehicle when another vehicle is approaching from behind. SEA does not work in all situations and is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and attentive of approaching vehicles. See Owner’s Manual for details and limitations. ¹⁸Wi-Fi Hotspot + Streaming is available on select 2026 and newer Hyundai models. Requires trial or paid data plan, active Hyundai Bluelink account and acceptance of Hyundai Motor America Connected Services Terms and Conditions. Coverage and service are not available in all areas. Cellular and GPS coverage is required. Streaming services are provided by third parties and subject to their fees, terms and conditions. Wi-Fi Hotspot + Streaming trial begins on activation date and expires at the end of three months or after 3 GB of data is used, whichever comes first. Activation may take up to 24 hours. Paid data plan required upon end of Wi-Fi Hotspot + Streaming trial. Limit one trial per vehicle. Up to 5 devices can be supported using in-vehicle connectivity. Only use Wi-Fi and connected devices when safe to do so. See https://www.verizon.com/support/hyundai-connect-legal/ for terms and conditions. ¹⁹Near Field Communication (NFC) digital key requires a compatible iPhone,® Apple Watch,® Google Pixel or Samsung Galaxy® phone. Not all Android, Apple or Samsung devices are compatible. Digital key sharing requires an active Bluelink Advanced subscription (complimentary for the original owner). See your Owner’s Manual for details and limitations. ²⁰Bluelink+ is available to purchasers and lessees of new 2026 and newer Bluelink-equipped Hyundai models. Bluelink+ requires an active Bluelink subscription agreement subject to the Connected Services Terms and Conditions. Only use Bluelink features and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. ²¹Bluelink agents will contact existing emergency service responders. ²²All Bluelink services rely on digital wireless telecommunications technology outside of our control and in the control of the wireless carriers who provide the telecommunications technology. 4G LTE cellular networks are controlled and maintained by third-party wireless carriers. Telecommunication technologies have been known to change over time. If and when these networks change and discontinue services, or the underlying technology required to support Bluelink is obsolete, then the connected services will not work and we will be forced to cancel impacted subscription services. ²³Requires active Bluelink Advanced subscription (complimentary for the original owner). Remote climate control available on properly equipped models with fully automatic temperature control. Remote stop only available when in remote start mode. ²⁴Apple® is a registered trademark of Apple Inc. Samsung® is a registered trademark of Samsung Electronics Inc. Google Wallet® is a trademark of Google LLC. ²⁵Requires Bluelink Advanced package (complimentary for the original owner). For remote charging, vehicle needs to be plugged into an electrical socket. See Owner’s Manual for details and limitations. ²⁶Digital Features and Specifications are only presently available on 2026 IONIQ 9 vehicles and are available for the life of the vehicle. Requires MyHyundai mobile app and an active Bluelink account. Subject to the Connected Services Terms and Conditions. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. For additional information, please contact the Bluelink Customer Care Center at (855) 225-8354.

Hope comes standard on every Hyundai.

Each time we sell a Hyundai, a portion goes to Hyundai Hope On Wheels® to help find a cure for childhood cancer. Over the last 27 years, Hyundai Hope On Wheels has donated \$275 million to pediatric cancer research. Hope is our greatest feature. And it comes standard on every Hyundai.
