

# AU Falcon Ute

Transportation Solutions

## The AU Falcon Ute

*The strength of the Falcon Ute has always been it's tough 'work horse' credentials with its ability to carry greater loads and with more working options than its competitors. The new AU Falcon Ute gains the benefits of its sedan cousin with all of the quantum improvements in driveability, refinement and performance. The introduction of the 1-tonner delivers versatility and flexibility that comes with chassis cab models. This brochure introduces some examples of different solutions to customers transportation needs through the fitment of special application bodies. It also showcases the versatility of the 'High density Polyethelene' load bed that is fully integrated into the design of the Styleside Box models.*
