

Nothing gives you performance
and savings like a Falcon with E-Gas.

> The green rocker cover clearly distinguishes the Falcon E-Gas engine.

> The new 156kW BF Falcon E-Gas engine is guaranteed to set your senses tingling. Gone are the days of compromise. With a Falcon featuring E-Gas, not only will you experience superb driving dynamics and outstanding performance, you'll also reap exceptional savings on fuel costs.

[E-Gas gives you sensational savings.]

> With E-Gas, you'll save up to 47% compared with petrol when travelling over the same distance. That's a saving of approximately \$40.83* per tank. To find out how economical the Falcon E-Gas engine really is just log on to our internet site at ford.com.au/e-gas and use our Cost Saving Calculator. You'll be surprised just how much this lean, green machine will save you. And with LPG readily available at service stations around Australia, cutting fuel costs has never been so easy.

*Calculated using fuel consumption figures of 15.9L/100km (E-Gas) and 10.9L/100km (petrol) and average Sydney and Melbourne capital city fuel costs of LPG (43.09) and unleaded petrol (118.98), August 1 to August 31 2005. Source: Informed Sources Pty Ltd. The actual fuel consumption you achieve will depend, however, on many factors including your driving habits, the prevailing conditions and your vehicle's equipment, condition and use. Figures based on sedan with automatic transmission.

[E-Gas gives you thrilling performance.]

> Cutting back on costs doesn't mean cutting back on performance. That's because the Falcon E-Gas engine is completely LPG compatible and fully integrated with Falcon's engine management system and instrumentation. Falcon E-Gas vehicles are purposely designed and built on the same production line as the rest of the Falcon range. As a matter of fact, Falcon is the only Australian built car with a dedicated LPG engine. And unlike some vehicles with dual fuel systems, the E-Gas engine is tuned to run specifically on LPG to maintain a high level of driving performance. Plus E-Gas vehicles have a large capacity LPG tank for increased mileage, so you're guaranteed a thrilling drive again and again. But it doesn't stop there, Falcon E-Gas is available in a choice of sedan, wagon and ute models.

[E-Gas gives you peace of mind.]

> By driving a Falcon E-Gas vehicle, you can take pride in knowing you're doing your part to help reduce pollution. That's because all Falcon E-Gas vehicles meet the stringent Euro III emissions guidelines without compromising performance. An on-board diagnostics system even alerts the driver should the emissions exceed the required levels. You'll also be happy to know that every Falcon E-Gas vehicle is covered by the Ford 3 year/100,000km factory warranty. Plus in an emergency, there's the reassurance of the Ford 3 year, 24-hour Roadside Assistance Plan*. For more information see your authorised Ford Dealer, visit us on the internet at ford.com.au or call our Customer Relationship Centre on 13 36 73.
