

The new Sportage HEV

Movement that inspires

Do-it-all attitude meets hybrid power

The new Kia Sportage HEV takes a do-it-all approach to daily life, delivering comfort, roominess, advanced safety technology and all-wheel drive capability with a gasoline/electric hybrid powertrain for enhanced fuel economy and reduced emissions. It's everything you want in an adventure-seeking SUV.

The available LCD/TFT heads-up display (HUD) projects key driving information directly onto the windshield, just below your eyeline. The system adapts to ambient light, so the information you need is clearly visible, even on bright days or dark nights.*

The available Digital Key lets you use your smartphone as a secure key, allowing you to lock and unlock the doors and start the engine without the need for a keyfob.*

Sportage HEV features a 1.6L turbocharged gasoline engine paired with a 64kW lithium-ion battery-powered electric motor that kicks in automatically, based on driving conditions, to save on fuel and reduce emissions.

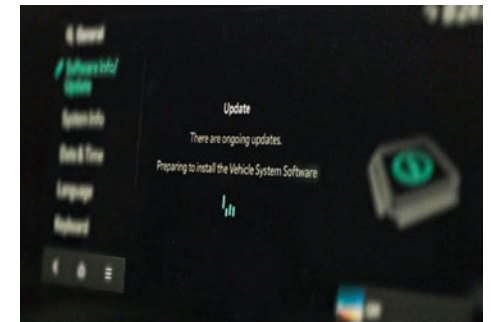

* Available feature. Visit kia.ca for full details.

The centrepiece of the new Sportage HEV's flowing interior design is a panoramic instrument panel featuring available dual 12.3" digital displays. Each screen, system control and convenience is perfectly placed for maximum visibility and easy reach.

An available dashboard display switches instantly between infotainment features and climate control functions with the touch of an on-screen icon.*

Kia Connect with over-the-air updates lets all Sportage models receive automatic over-the-air (OTA) updates to many of their electronically controlled systems, including the powertrain.

The available Surround View Monitor provides a 360-degree view of the area around the vehicle. And it works with the Kia Connect app to send images from around your vehicle when you want to check on it remotely.*

The panoramic sunroof lets the sunshine in for a brighter and airier cabin.*
