

# Laser LIVE WIRE

All the extra equipment you get in a Laser Livewire is enough to put a smile on anyone's face.

First of all, it's a Laser. And that's tons of fun already.

With a nippy, powerful and economical high tech sixteen valve, four cylinder 1.6 litre engine, the choice of sedan or hatch, manual or automatic, Laser GL is plenty of fun to drive.

And it's fun to ride in, too. Passengers get lots of space to stretch out, and plenty

of room for their gear.

And they enjoy this space in comfort and quiet due to extensive use of sound proofing techniques and materials.

No wonder Laser is Australia's top-selling small car.

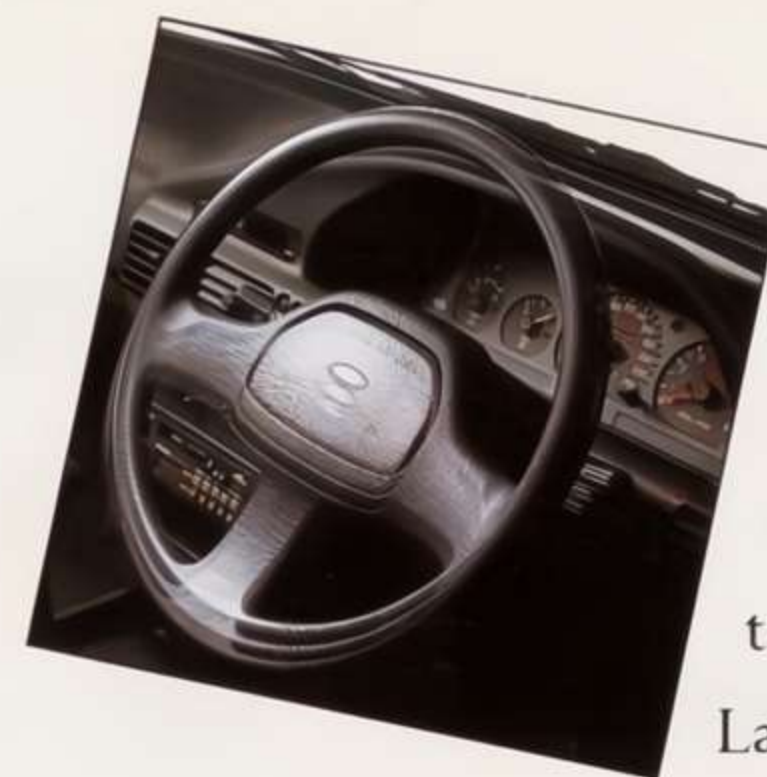

But Livewire gives you even more fun for your dollar.

You get to choose from four distinctive colours. There's Aquamarine and Monza Red, Malibu and White.

And to set off these colours, Laser Livewire comes with specially designed all white wheel covers.

The sporty seats are attractively trimmed and are very comfortable.

Plus the driver gets an adjustable lumbar seat support and tilt-adjustable steering wheel.

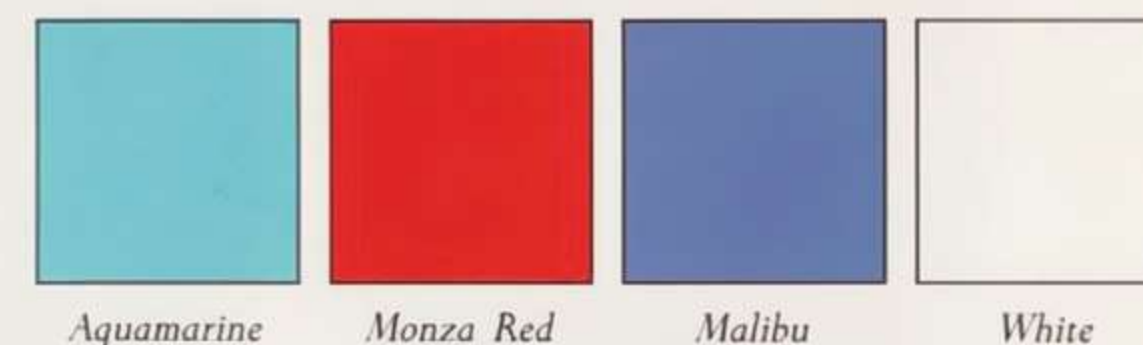

Every Laser Livewire comes equipped with sports instrumentation including tachometer.

Laser Livewire has power steering that makes city driving and parking in those tight spaces a breeze.

All these great extras are worth over a thousand dollars.

But on Laser Livewire you get them at no extra cost.

That's why owning a Laser Livewire is simply so much fun.

**Have you driven a Laser... lately?**
