

1999 Mitsubishi

Galant

THE ALL-NEW GALANT

The way we see it, four doors are twice the opportunity for fun. It's this philosophy that inspired the all-new Mitsubishi Galant—a sophisticated driver's sedan that looks sharp, feels comfortable and has more moves than an athlete. And because it's a Mitsubishi, it's made to last, and rewards you with luxury-car qualities without luxury-car cost. No matter if you're headed straight to the gym, straight to the office or straight for the fast lane out of town, the all-new Galant is one sedan that keeps your heart rate up—even if you settle down.

PROOF THERE IS LIFE AFTER FOUR DOORS.

PERSONAL COMFORT

High-Fidelity Sound Your music may never sound better than when it's streaming from one of Galant's quality sound systems. Like the 7-speaker Mitsubishi/Infinity® premium stereo cassette system with separate amplifier in the LS and GTZ. Of course, if you want even more music options, a 10-disc CD changer is optional on Galant ES, LS and GTZ models.

Infinity

Material Wealth Whether you choose the Galant DE with deluxe fabric, the value-packed ES with premium fabric (shown in gray) or the high-living LS and GTZ with leather trim, the interior welcomes you with comfortable, rich-feeling seating surfaces.

Considering the amount of time you spend in your car, shouldn't it feel just right? If you look for the long route home or you're content to sit in traffic, it's easy to get comfortable in the all-new Mitsubishi Galant. As you search out your next favorite road, the controls-at-your-fingertips layout makes it simple to manage your car's functions. While the exceptional visibility provided by the low-profile dashboard makes it easy to spot the next curve — or the car in the next lane. Settle in for a long commute, and the 8-way adjustable front seats welcome your stay. Thanks to extensive noise-reduction engineering, like adding sound-absorbant foam to the roof rails and pillars, there should be few interruptions. If you travel with company, the new Galant comes with a list of standard features you can really brag about. Like dual trip meters, an extra power outlet, UV-resistant solar glass and a built-in air filtration system that helps wipe out most dust and pollen down to a mere 10 microns

in size. If you travel heavy, a cubic foot-and-a-half more trunk space has been added. And if you like to travel in luxury, a power sunroof, elegant woodgrain accents and luxurious leather seating surfaces are all available.* Is your commute starting to seem a little too short?

*See Features chart for availability by trim level.

Galant LS interior shown with tan leather trim

Ergonomic Instrument Panel Think about what makes a good dashboard, and see how the Galant's redesigned dash matches up. It has a low profile for a clear view. Controls are grouped into zones to make them simple to find and use. Big, legible gauges are placed in plain sight. And there's even more room for your knees.

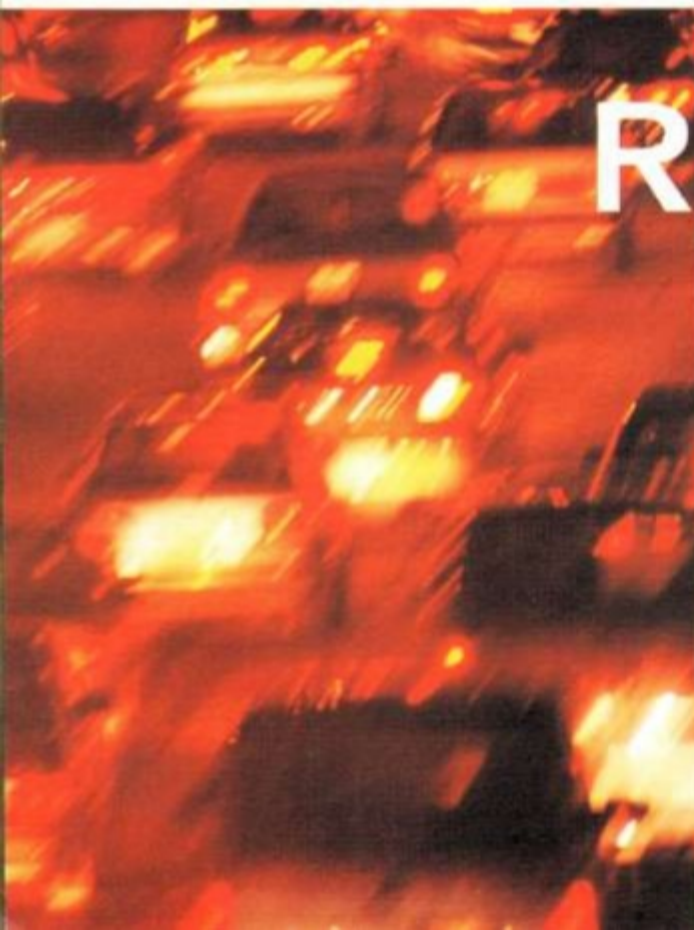

Cup Holders What good are cup holders that can only hold one size cup? Galant's front cup holders can hold cups, cans, bottles, even juice boxes. So you can always have your favorite refreshment.

Contoured Comfort Sculpted to fit your physique, Galant's plush front bucket seats adjust eight ways to achieve your desired seating position. Helping to hold you comfortably in place through tight corners and energetic driving are soft but supportive side bolsters. Meanwhile, rear-seat passengers are cradled in a subtly contoured bench seat, with a trunk-expanding fold-down pass-through† that lets you carry extra cargo or essential sporting equipment.

†Except on DE.

RELISH RUSH HOUR.

Most people drive because they have to. The design team at Mitsubishi's California Research and Design center would like to change that. They spent over three years creating Galant's airier, more ergonomic interior, ensuring it has the space, comfort and all the amenities you'd want in a sedan. Whether you're looking to get away from it all, get in touch with the road or just get home in time for the game.

Galant LS interior shown with tan leather trim

V6

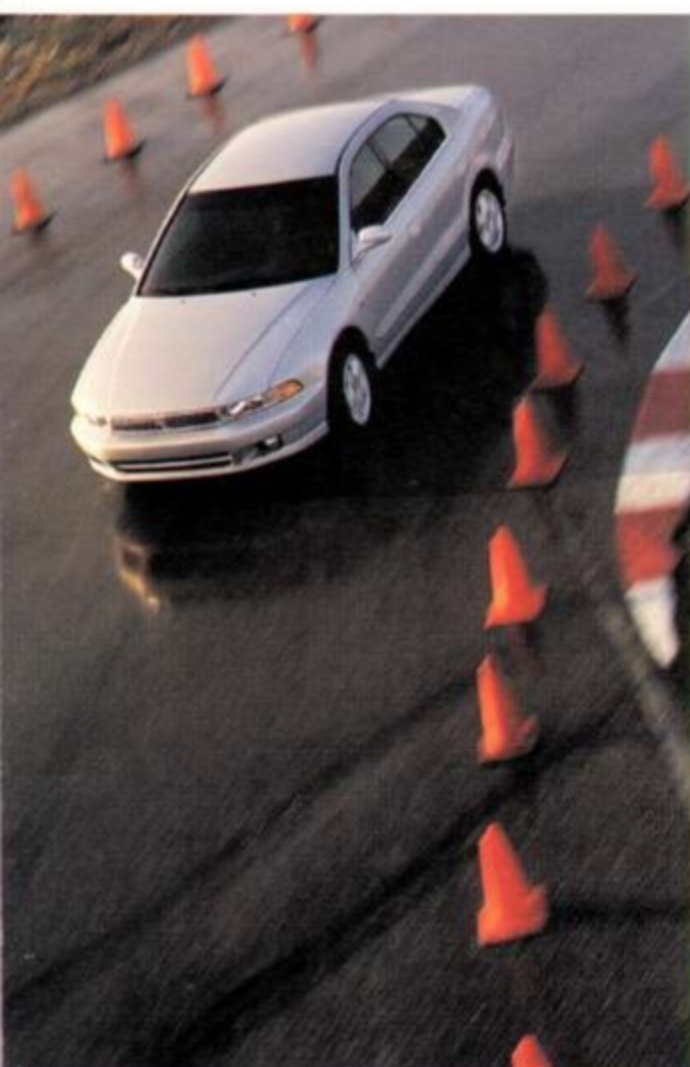

Powerful V6 Engine

Boost the fun factor with the available 3.0-liter V6 engine.² It has loads of pickup to pass and merge, 195 hp¹ and 205 lbs.-ft. of torque to be specific. And like the 4-cylinder, a cold-air induction system draws the cool, dense air from outside the engine compartment for swifter kick.

RESPONSIVE PERFORMANCE

When it comes to the fun-to-drive test, most sedans struggle to make the grade. The new Mitsubishi Galant, however, is likely to ace the exam. Try it on a curvy road, and you'll enjoy the deft balance of the precise steering and independent front strut, multi-link rear suspension. Extensive on-road testing revealed the right combination of a smooth ride and nimble handling to get you around corners and out of tight spots. A pop quiz in the passing lane rewards you with swift acceleration from the 145-hp¹ 16-valve engine, not to mention exceptional smoothness thanks to dual engine stabilizers. Choose the available 3.0-liter V6 engine,² and you'll have 195 horsepower¹ to answer any questions

GRADE IT ON A CURVE.

Overhead Cams For more of the zip you want with low-emission efficiency that's easy on the environment, Galant engines use single-overhead-cam, 4-valve-per-cylinder technology. Easier, more efficient breathing means fuel burns more completely, so you get fewer emissions and more excitement per gallon.

about Galant's ability to outrun the mundane. Of course, after roughly half-a-million miles of testing on the new Galant alone, we think we've answered all the questions. Take your own test drive, and you'll find we really did our homework.

Galant ES in Bodega Beige Metallic shown with premium package

What makes a Mitsubishi Galant so much fun? Mitsubishi engineers love to drive. And they test the cars vigorously. On the test track. On the road. On the rally circuit. Just about anywhere they can refine Galant's responsive power and handling. In the process, they learn a lot about how to make a car more captivating. And that Galant can handle all the abuse the test drivers can dish out.

Fine-tuned Suspension Combined with added stability and a smoother ride, the new Galant's suspension was refined for more agile handling. A lower roll center and stiffer cross-members allow springs to be tuned for a smooth ride without losing crisp handling precision. And V6 models sport big 16-inch wheels with low-profile tires for snappier steering response.

Disc Brakes For sure, fade-resistant stopping power, every Galant features ventilated front disc brakes. On V6 models, 4-wheel disc brakes with twin-piston front brake calipers slow you even quicker. While a 4-wheel Anti-lock Braking System helps you keep steering around hazards when you're braking hard.

Adaptive Automatic With advanced electronics, the automatic transmission³ can learn your habits and select a shift program suited to your driving style. It also adjusts engine power to achieve super-smooth shifting while easing stress on the drivetrain for long-term, trouble-free performance.

¹Except CA-emission vehicles. Four-cylinder: 140 hp; V6: 190 hp.
²See Specifications chart for availability by trim level.

Galant GTZ in Kalapana Black

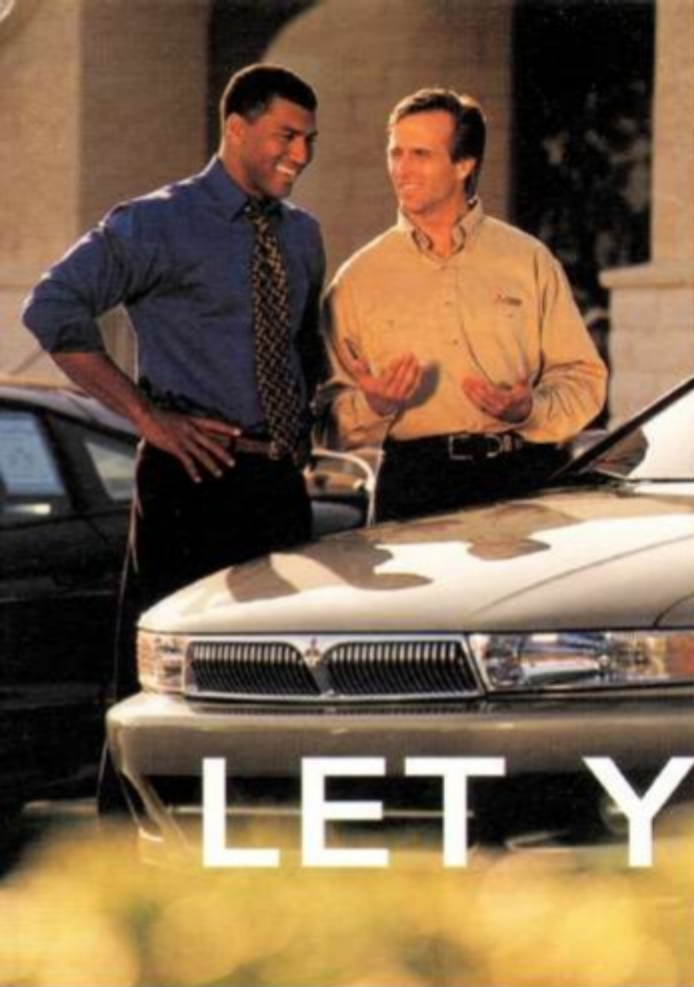

CAFFEINATE YOUR COMMUTE. GALANT GTZ.

Introducing the Galant GTZ. It's a high-octane version of our latest sedan, displaying engineering know-how garnered while winning international rally championships. With a powerful V6 engine, crisp-cornering suspension featuring sport-tuned shocks and springs, high-visibility white-face gauges, and spoilers inspired by the Mitsubishi rally racer, it will really move you.

Leave it to Mitsubishi Motors to create a sedan that can replace that second cup of java.

Specially race-prepared vehicle shown.

LET YOUR CONSCIENCE REST.

You'll enjoy the confidence of owning a Galant. Not just because engineers spent years enhancing its safety features. Not just for its reliable reputation. But also because your Mitsubishi Motors Dealer will take time to tell you all about your Galant and its warranties, and stand behind it with attentive service long after the purchase. Okay, the advanced safety-cage construction helps, too.

REASSURING QUALITY

Driving the all-new Galant can really bolster your emotional state. For one thing, it was designed specifically to take advantage of the advanced robotic assembly techniques employed at Mitsubishi Motor Manufacturing of America's Illinois facility. So every Galant is put together as precisely and error-free as possible, which should make you feel good about its ability to stick with you over time. For another, Galant is loaded with crash-avoidance features like available anti-lock brakes¹ that help you keep clear of trouble, along with impact-protection measures such as an all-new energy-absorbing body structure in case trouble finds you. They're the kind of thoughtful engineering details that put your mind at ease every time you drive.

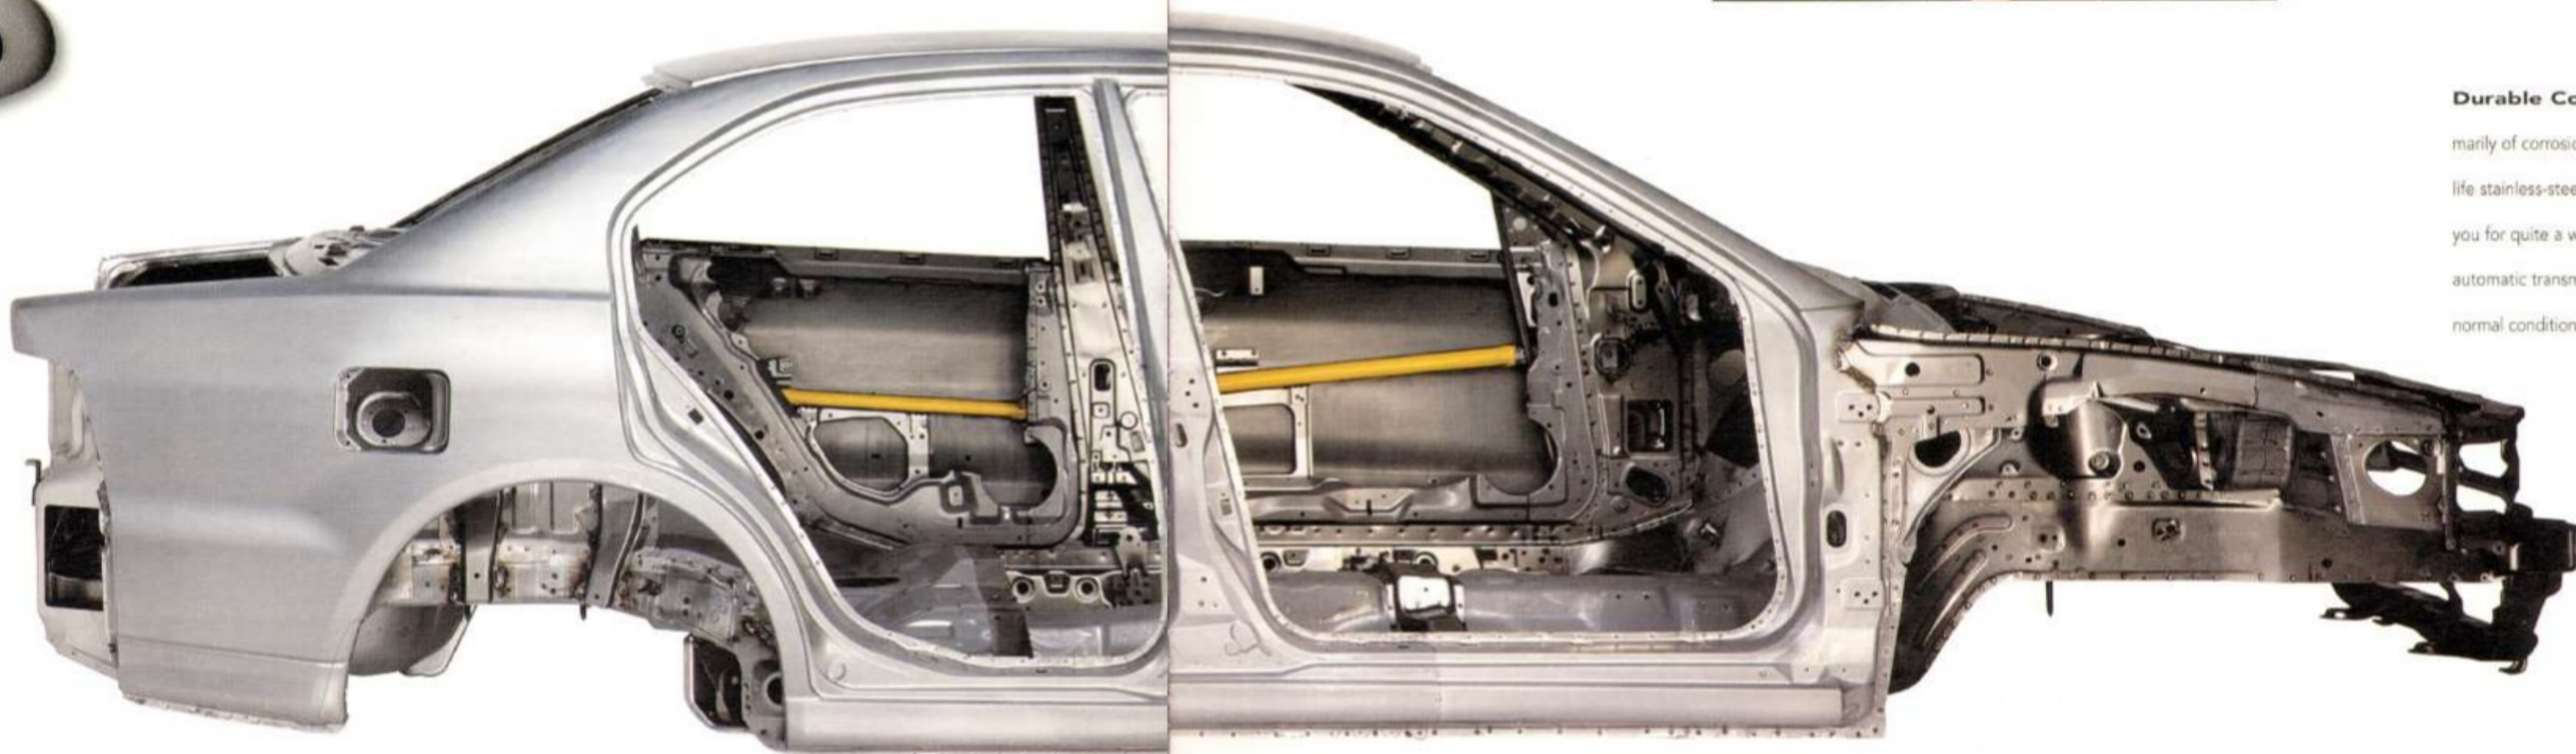

Extra Security For an added bit of personal assurance, Galant is available with a keyless entry security system² that lets you lock and unlock the doors by remote control. A panic button sets the horn honking and lights flashing to draw attention. Also available is the Mitsubishi HomeLink[®] Universal Transmitter,³ a built-in 3-channel system that lets you work gates, garage doors, entry door locks, home security systems and even house lights¹ from the driver's seat.

RISE Chassis Standing for Refined Impact Safety Evolution, it means Galant's entire body and frame were redesigned to help further protect you and your passengers. Structurally, it includes a reinforced roof, dual-reinforced floor, and high-rigidity pillars and side sills, all engineered to help deflect impact forces from the cabin. Note: Door panels modified to show side-impact door beams.

¹See Specifications chart for availability by trim level.
²See Features chart for availability by trim level.
³With optional HomeLink[®] Lighting Package.

Side Air Bags We've raised the level of safety in the event of a side impact with the Galant's available side air bags.⁴ They are mounted to the seats, not the doors, and help cushion side impacts for the driver and front passenger. In addition, every Galant offers the security of tough side-guard door beams and doors packed with energy-absorbing material.

Dual Front Air Bags Working in conjunction with 3-point safety belts, air bags are proven to reduce the risk of serious injury in certain frontal collisions.⁵ We've taken that protection a step further with new, force-limiting safety belts that adjust tension to restrain the occupants more gradually.

Durable Construction With a body structure made primarily of corrosion-resistant two-side galvanized steel and a long-life stainless-steel exhaust system, your Galant is likely to be with you for quite a while. And thanks to a self-adjusting valvetrain and automatic transmission fluid that lasts up to 100,000 miles under normal conditions, it's bound to be a low-maintenance relationship.

⁴Sit well back and upright without leaning against the window or door.
⁵Always place an infant in a rear-facing infant seat in the back seat. Always transport children 1 to 12 years old in the back seat and use appropriate child restraints. Always buckle your safety belt. Keep 10 inches between the center of the front air bag cover and your breastbone.

The motto at Mitsubishi Motor Manufacturing's Illinois facility, where every Galant in America is built, simply states, "Integrity in the workplace. Quality in the process. Satisfaction on the road." We think that sums up the new Galant quite well.

Wind Deflector Enjoy the sunshine with less wind, noise and buffeting. The accessory wind deflector smooths the flow of air over an open sunroof and even reduces glare.

Rear Spoiler You like Galant's sophisticated style, but you're looking for more of an edge. Add this racy rear spoiler. Painted to match the body, it offers stabilizing downforce at highway speeds and a highly visible third stoplight, too.

Gold Trim Package Those looking for an extra mark of distinctiveness can have the Galant's badging trimmed in 24-karat gold plate. Ask your Mitsubishi dealer for information on this and other genuine Mitsubishi accessories.

Mudguards Made of durable thermoplastic and shaped to form-fit your car, these mudguards will help protect the side sills from damage due to debris kicked up by the tires.

WAKE UP AND DRIVE.

It seems a lot of people think that to buy a good, reliable car, they have to trade in any chance of having a good time. As if quality and fun are like oil and water. How else do you explain all those millions of boring, cookie-cutter vehicles out there? Oh, they're perfectly fine for getting from Point A to Point B and back. But have you ever heard of someone, at the end of their days, wishing they'd had a more *sensible* car? Perhaps your thinking is a little more like Mitsubishi's: A quality vehicle is more than just durable, well-crafted and reliable. It doesn't just satisfy your mind. It kick-starts your heart as well. For over 80 years, the people at Mitsubishi Motors have been build-

www.mitsucars.com
When you click on our web site, you can build your dream Mitsubishi with the options and accessories you'd like and get the Manufacturer's Suggested Retail Price, too.

Plus estimated monthly payments from the many flexible financing programs available, as well as the location of the Mitsubishi Motors Dealer nearest you. And there's lots more for you to explore on the site, including Mitsubishi Motors' winning efforts in motor sports.

www.mitsucars.com

NINE QUALITY WAYS TO ESCAPE DULLSVILLE.

Community Involvement Mitsubishi Motors provides funding for more than 25 traffic-safety programs and organizations annually. We also sponsor educational partnerships for children, promote cultural diversity and environmental awareness, and support our employees' volunteer efforts in the communities we serve. For over 16 years, we've been going the extra mile to make our world a better place to drive.

ing exceptional vehicles to take drivers everywhere they want to go, day in and day out. Vehicles packed with eye-opening performance and your favorite features for reasonable prices, all to keep you smiling along the way. And to make sure it measures up, Mitsubishi tests passenger-car engineering not only on some sterile test track, but in the breathtaking, kidney-bashing World Rally Championships, too. And they evaluate sport utility vehicles by racing in, and usually winning, Africa's wild and grueling 18-day Dakar Rally. Now, there's probably a more sensible and scientific way to check out these designs. But if it isn't lively or exciting or great fun, it simply isn't Mitsubishi quality.

THE MITSUBISHI COMMITMENT

Warranties¹ — Every 1999 Mitsubishi comes with extensive coverage to ensure your satisfaction, including a 3-year/36,000-mile New Vehicle Limited Warranty; a 5-year/60,000-mile Powertrain Limited Warranty; and a 7-year/100,000-mile Anti-Corrosion/Perforation Limited Warranty.

Concierge Service² — During the first three years or 36,000 miles of ownership, we'll arrange a free loaner or rental car for up to five days (up to \$30 per day) if warrantable repairs can't be completed in one day.

Diamond Care™ — This program ensures your new Mitsubishi vehicle is thoroughly prepared, inspected and explained to you prior to delivery. Plus for three years or 36,000 miles you'll have access to 24-hour emergency road service as well as free towing to the nearest Mitsubishi Motors Dealer in the event your vehicle requires warrantable repairs.

Extended Service — Your Mitsubishi Motors Dealer can show you how to obtain service coverage up to six years or 100,000 miles after your purchase with the Mitsubishi Triple Diamond Protection Portfolio.

Leasing and Financing — Many affordable leasing and financing programs are available to meet your needs through Mitsubishi Motors Credit of America, Inc. See your Mitsubishi Motors Dealer for all the details.
