Lincoln Customer Relationship Centre 800.387.9333 Ford Credit Customer Service Centre 877.636.7346

Be all of you.
Not one of them.

Available equipment shown.

We are not all things to all people. Therein lies the beauty. Character stands the test of time. It's what makes certain individuals curious even though they're experienced. Modest in spite of success. Open in a narrow-minded world. We understand. We've known dignitaries, been in the movies, and rubbed elbows with the stars. Yet we still thrive on reinventing our very singular interpretation of luxury. Here's the latest in our long lineage of original thinking: the all-new 2013 Lincoln MKZ. Its classic split-wing grille, inspired by an eagle's outstretched wings, and beautiful flowing curves are merely indications of its unique inner workings. Will you take flight with us? You'll be in good company.

Ingot Silver Metallic. Available equipment.

¹Class is Luxury Midsize Sedans vs. 2012/2013 competitors.

► The 2013 MKZ includes 8 class-exclusive¹ features, 5 of which are standard. Not surprising. Innovation is nothing new to us. Back in 1938, when we introduced the split-wing grille, we not only set a new design trend, we also devised a brilliant way to enhance airflow to the engine: open, horizontal ribs. Today, we continue to improve aerodynamic efficiency with our Active Grille Shutters.

Share your drive
with the sky.

A two-page spread showing the interior of a car with a light beige leather interior. The left page shows the front passenger seat and a large panoramic sunroof that is partially open, letting in bright sunlight. The right page shows the rear passenger area with similar seating and the sunroof. The sunroof is a large, curved glass panel that slides back. The interior has a clean, modern design with visible stitching on the seats. Outside the windows, tall city buildings are visible.

► Cityscapes, blue skies, moonbeams. You can take them with you. In as little as 10 seconds, the enormous 15.2-sq.-ft. (1.4 sq.-m) roof slides to let them all in.

No other car opens minds like this. To give you an incredibly appealing sense of spatial freedom that rivals top-down travel, we offer this class-exclusive, fully retractable panoramic roof.² At the push of a button, the solid glass panel glides back to create a wide space that is the largest effective opening of any modern sedan.³ For those in front, it's like a full view into the future. For those in the rear seats, it's a refreshing sense of unconfined comfort.

¹Class is Luxury Midsize Sedans vs. 2012/2013 competitors. ²Available feature. ³Based on effective roof opening as measured by Webasto.

To shift your perspective,
just press the button.

Tactile responses are so much more fulfilling and intuitive. Simply use your fingertips. We've eliminated the ignition key and shift knob. Start the car and select a gear by pressing a button on the integrated centre stack. This unique design frees up the console area for a beautifully flowing instrument panel. We've replaced traditionally designed audio and climate control knobs as well. Instead, set your sound and temperature with beautiful lighted slider bars and a vivid LCD touch screen or simple voice commands. From front to rear, we've surrounded you in rich woods and contemporary aluminum finishes that create a visually stunning environment. And advanced 10-way, front heated seats are trimmed in premium leather and finished with elegant, double-stitched seams. They embrace you with contours shaped specifically to your form.

Available equipment shown.

4-cylinder efficiency? Or exhilarating V6 power?

You choose.

Performance must *feel* right – in every sense. If rewarding power with fewer fill-ups appeals to you, choose the standard 2.0L 4-cylinder EcoBoost® turbocharged direct-injection engine. It offers 5.9L/100 km hwy fuel efficiency, 240 hp¹ and 270 lb.-ft. of torque¹ – the performance you'd expect from a 6-cylinder. (FWD: 9.2L/100 km city/5.9L hwy.²) If you prefer even more of a rush, opt for the available 3.7L Ti-VCT 24-valve aluminum V6³ with standard Intelligent AWD. It increases output to 300 hp and 277 lb.-ft. of torque, and still offers impressive fuel efficiency, thanks in part to shutters in the front grille that automatically close at speed to help you slip through the air with less resistance. (AWD: 11.5L/100 km city/7.6L hwy.²)

Available equipment shown. ¹Figures achieved using premium fuel. ²Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. ³Available feature.

A hybrid, for the select few who appreciate it. And... no additional cost. This is indeed a rare sight: At 4.2L/100 km city/4.3L hwy, it's Canada's single most fuel-efficient luxury vehicle! The all-new 2013 MKZ Hybrid uses a new state-of-the-art lithium-ion battery for more power and less weight. In electric mode, it can run up to 100 km/h. The new 2.0L Atkinson-cycle 4-cylinder engine and electric traction motor recharge the battery while you drive. To help get the highest fuel efficiency, the unique SmartGauge® with EcoGuide instrument cluster coaches you. Its vibrant vine grows more lush the more efficiently you drive.

Available equipment shown. *Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. Class is Luxury Midsize Hybrid Sedans vs. 2012/2013 competitors.

► With a starting price that's the same as our standard 2.0L EcoBoost®, Lincoln MKZ Hybrid doesn't have a price premium. Why should you spend money to save money?

Bright and brilliant. All around. Lincoln MKZ is surrounded by dramatic LED lighting. In the rear, the distinctive tail lamp bar gets the attention of other drivers, and not merely for its eye-catching design. LEDs are quicker, rising to full intensity 10 times faster than incandescent bulbs. When on, they illuminate with unexpected vibrancy. In the front, adaptive LED headlamps actually turn to follow curves as you steer into them for enhanced vision at night. Elegant LED accent lamps give MKZ a distinctive face that sets it apart from the crowd. Tasteful chrome accents bring subtle but spectacular sparkle to the sculpted door handles, pedestal-mounted sideview mirrors, rear decklid and dual bright exhaust outlets.

Available equipment shown.

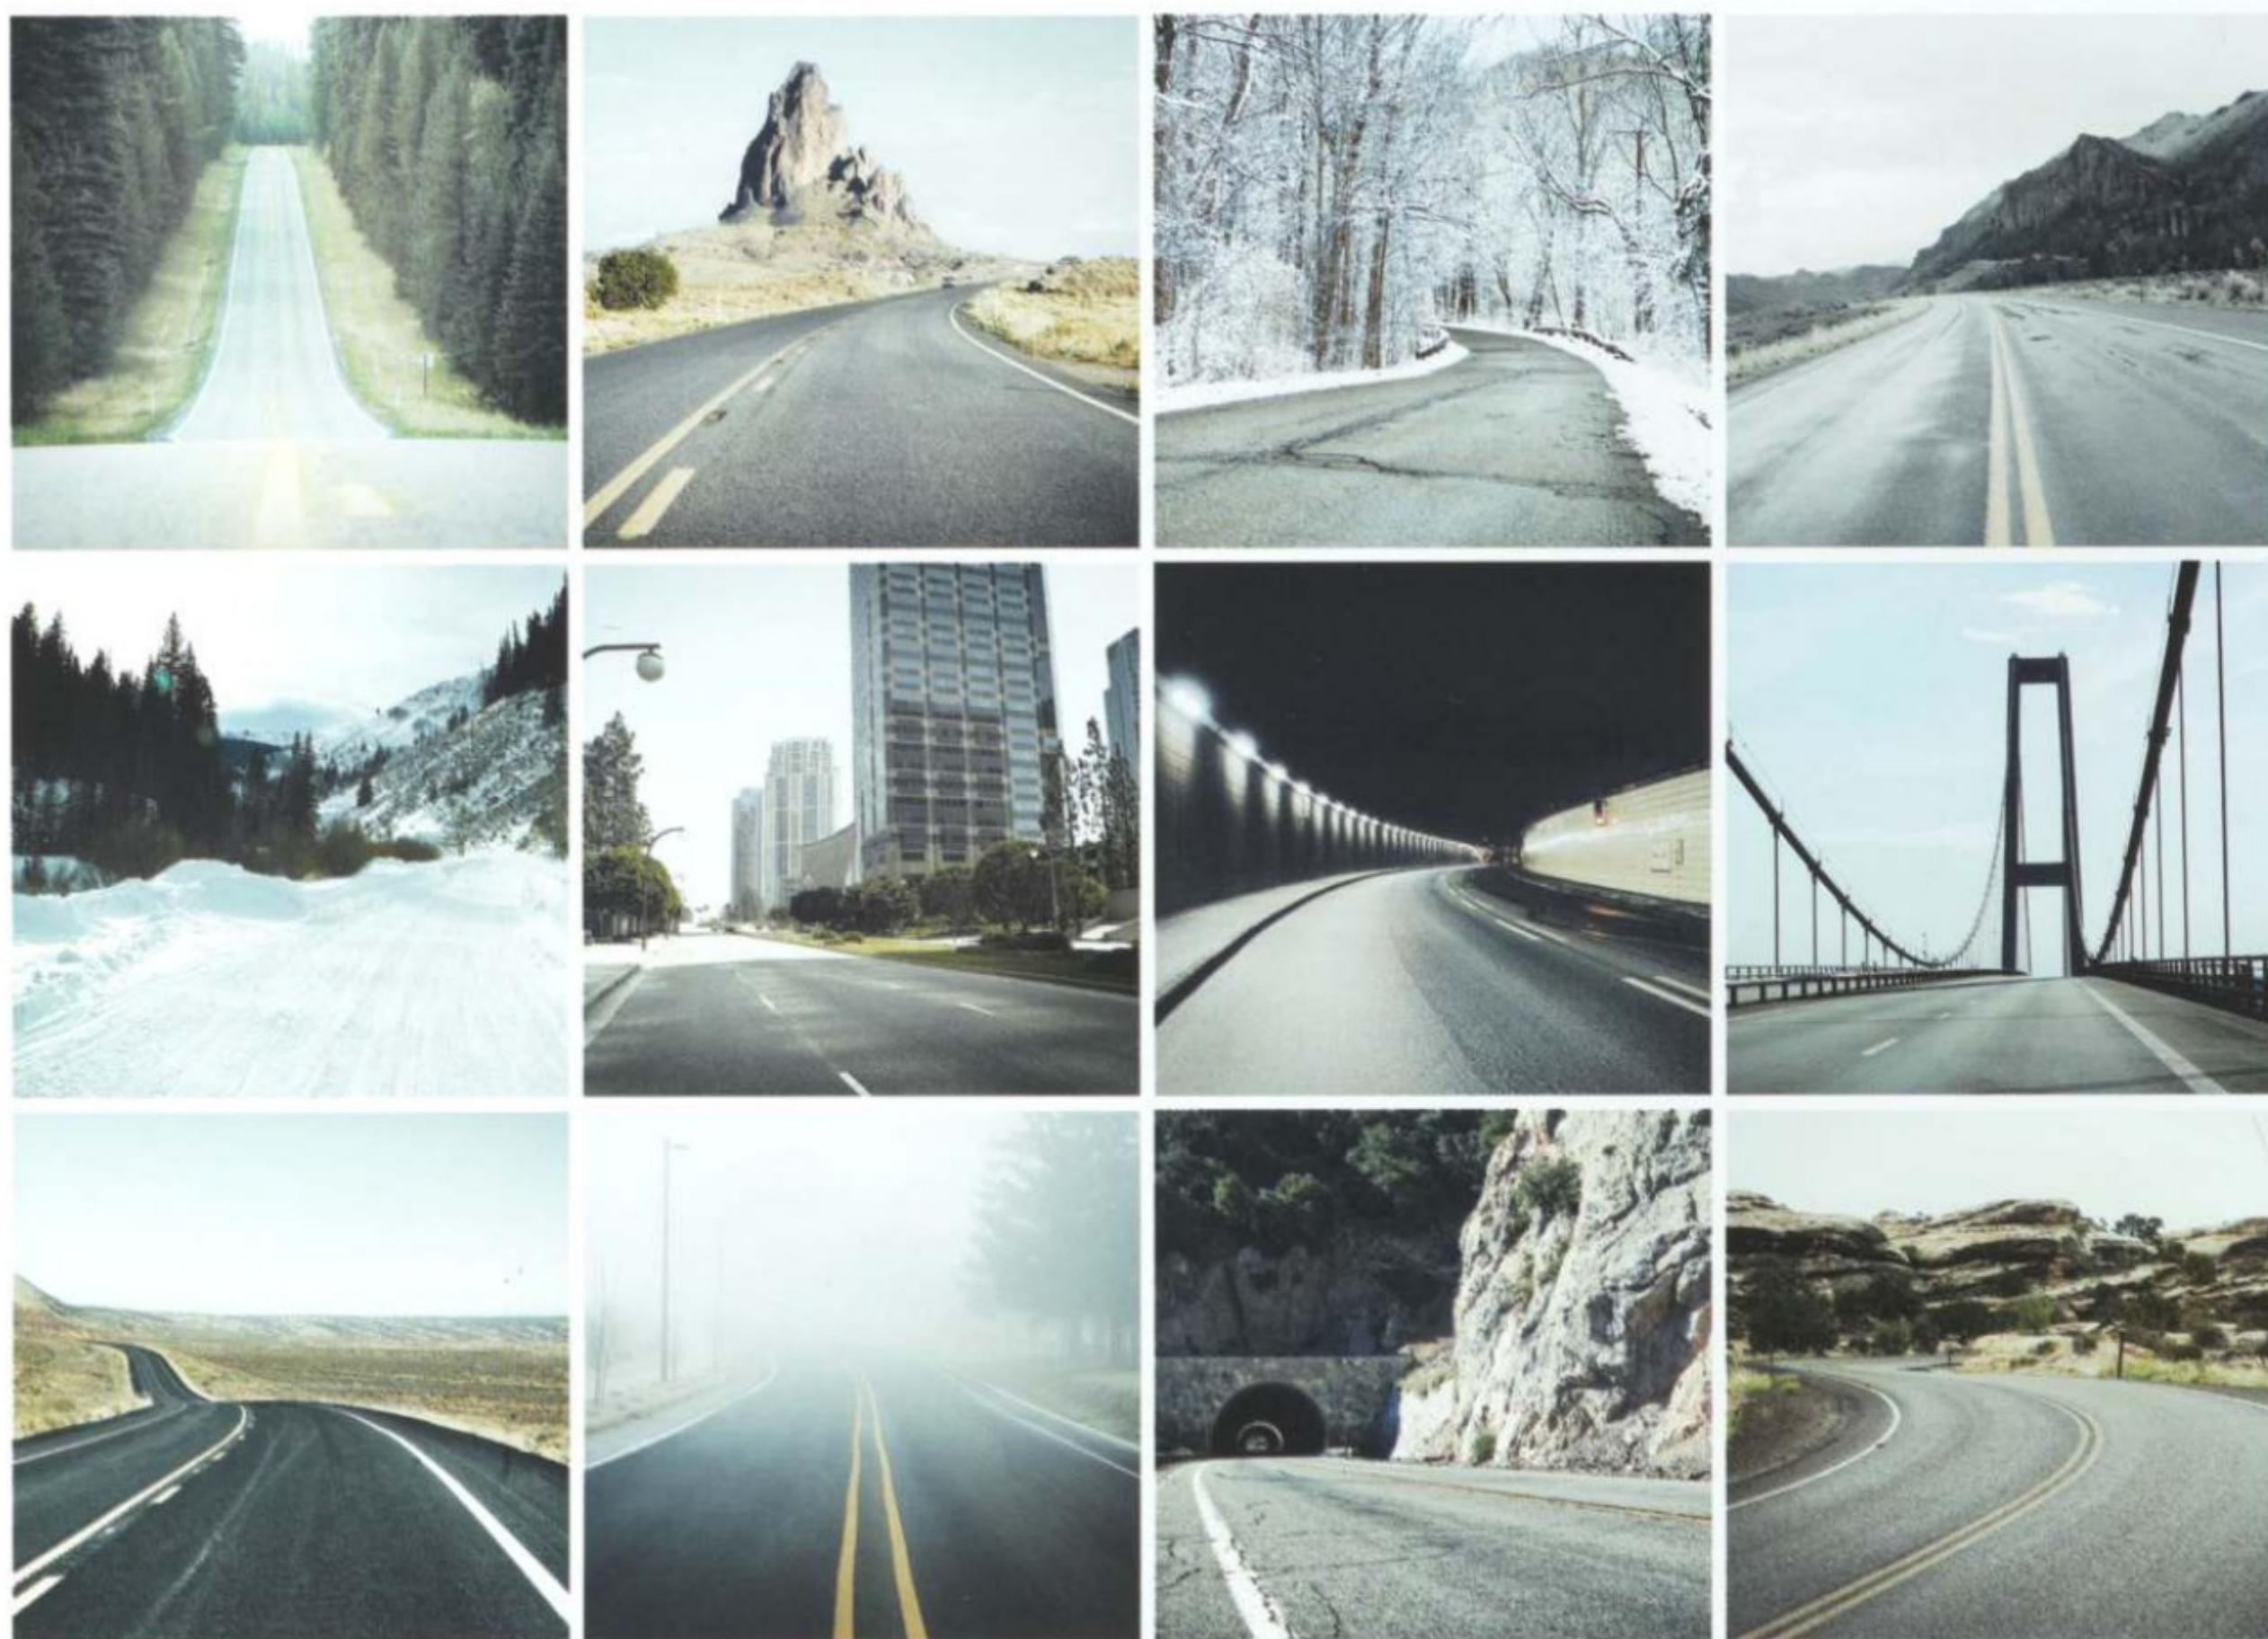

Just talk or touch. It responds brilliantly in here, too. SYNC® with MyLincoln Touch™¹ driver-connect technology puts you in control of life in your car. It operates via simple voice commands or your touch, so your hands stay on the wheel and eyes on the road. This system dials numbers or answers calls, so you don't have to pick up your phone; and it mutes other audio sources, so you won't miss a call. Just say the name of your destination and the voice-activated Navigation System² plots your route. Simple 5-way controls on the steering wheel, along with vibrant LCD gauges and a vivid 8" LCD screen in your centre stack, put everything in full view.

Available equipment shown. ¹Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyLincoln Touch/other devices, even with voice commands, when it is safe to do so. SYNC with MyLincoln Touch offers voice recognition and screens in English, French and Spanish. Some features may be locked out while the vehicle is in gear. ²Available feature.

► You've experienced THX® at world-class cinemas, but you won't find it in any other vehicle line: The THX II Certified Audio System² is specifically designed for the MKZ interior. With 14 strategically placed speakers and 700 watts of maximum power, feel free to drive to audio nirvana.

Its highly variable suspension adapts
to highly variable roads.

Lincoln Drive Control takes ride, handling and steering from tight-and-agile to smooth-and-forgiving in a split second, depending on what the road serves up and how you like to drive. You'll carve corners with exhilaration *and* travel comfortably over bumps. Sensors constantly read the road and your driving input. In the blink of an eye, the suspension adjusts the firmness and damping at all 4 wheels independently. It also compensates in steering response, tightening in turns and even adjusting for crosswinds and crowned surfaces. In addition, 3 driving modes tailor the driving experience to your liking. Select the Sport mode if you decide to push your limits.

Available equipment shown.

► Intrigued? MKZ offers an abundance of advanced technologies. For a complete discussion of these available systems, turn to the "Lincoln Technology, Defined" page.

Enhances even the most spectacular view. It's all about being aware of your surroundings. The driver-assist technologies in here extend the senses, even beyond your own. For instance: Cruise on a long road or a crowded highway. Lincoln MKZ detects the speed of the vehicle ahead, then smoothly adjusts *your* speed to maintain a preset gap from it.¹ Change lanes with the assurance that your blind spot is clear.¹ Stay focused and centred, knowing that if you drift, the steering wheel can gently shudder to alert you, and then nudge you back toward the middle of your lane if necessary.¹ In tight spots and parking lots, MKZ helps you back up with guidelines and full-colour images from the rear view camera.¹ An alert system can even warn if traffic is crossing the path behind you.¹ And when you pull forward toward a curb to park, front sensors can advise you when it's time to stop.¹ Everywhere you look, and even where you can't, Lincoln MKZ instills confidence.

¹Available feature. Driver-assist features are supplemental and do not replace the driver's judgment.

We're here to impress you.
And express you.

Shown here are a few of the many standard and available features on Lincoln MKZ. Which ones will you choose? Try them all on, and see what suits you most. After all, it's your car.

THX® II Certified Audio System
 with 14 speakers and 700 watts¹

110-volt power outlet¹

Inflatable outboard rear safety belts¹

Single-panel moonroof¹

Multicontour front seats
 with Active Motion®¹

Privacy power rear sunshade¹

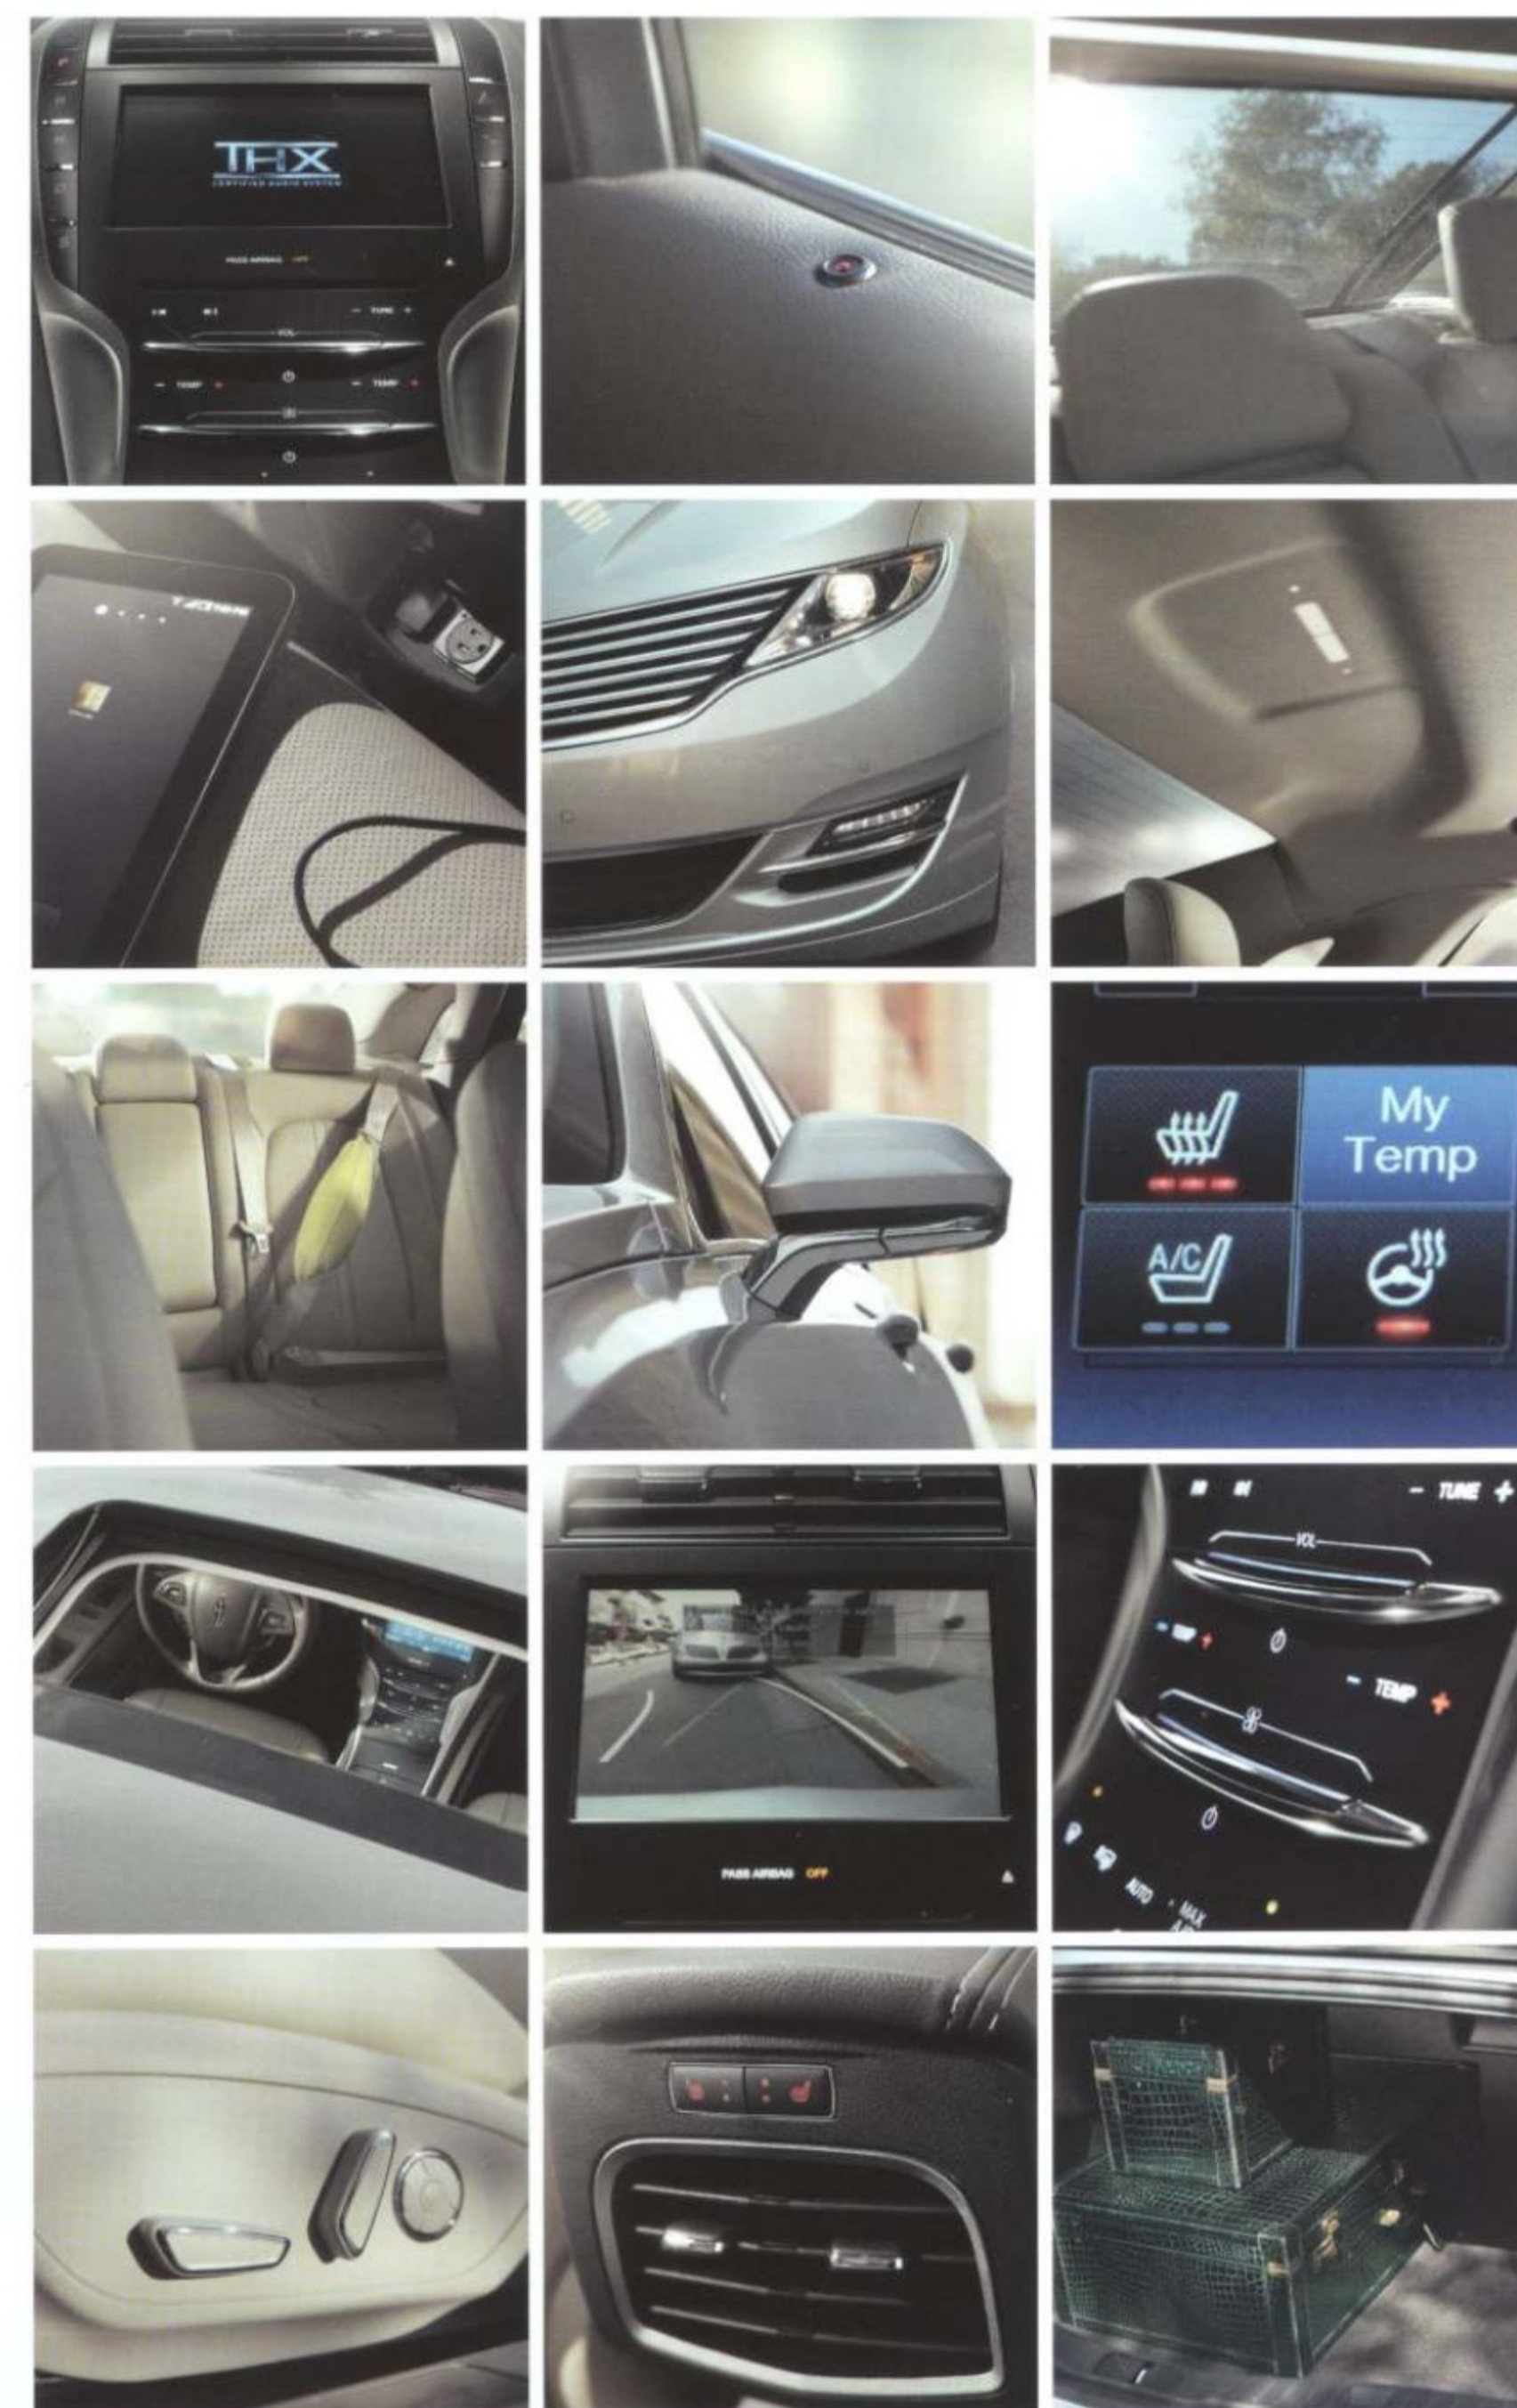

Gentle-glow rear reading lamps

Cooled¹ and heated front seats,
 and heated steering wheel¹

Lighted slider controls for audio
 and climate

Soft-close trunk with removable
 pile carpet

¹Available feature.

Lincoln Technology, Defined

ACTIVE NOISE CONTROL (ANC)	Refines the cabin's sound quality experience by reducing unwanted engine noises with the use of a series of microphones and the vehicle's speaker system. Opposing sound waves are sent to cancel unwanted engine noise, or additional powertrain sound enhancement is provided in Sport mode. ¹
ACTIVE PARK ASSIST ²	Automatically steers the vehicle into the space, without the need to touch the steering wheel. The driver controls the accelerator, gear shift and brakes. The system uses ultrasonic sensors and electric power-assisted steering (EPAS) to identify a space and position the vehicle for parallel parking. The system calculates the optimal steering angle and steers the vehicle into a parking spot, while providing chimes and simple visual instructions on the message centre to coach the driver during the manoeuvre.
ADAPTIVE CRUISE CONTROL ²	Maintains a preset speed without having to work the brake or accelerator pedals, and uses advanced radar technology to scan ahead and adjust the speed to adapt to the vehicle in front. The desired gap can be set through the steering wheel to 4 unique gap settings.
BLIS® (BLIND SPOT INFORMATION SYSTEM) ²	Helps detect a vehicle entering the blind spot with sensors in the rear quarter panels. A warning light in the corresponding sideview mirror illuminates and remains on until a vehicle is no longer detected in that blind spot.
CROSS-TRAFFIC ALERT ²	Monitors a space up to 14 metres (45') from either side of the vehicle whenever it is in Reverse. When cross traffic approaches, an audible alert sounds, a message is displayed in the message centre, and a warning light illuminates in the corresponding sideview mirror.
INFLATABLE REAR SAFETY BELTS ²	Located on the rear outboard seats, the inflatable rear safety belts combine attributes of traditional safety belts and airbags. Using cold, compressed gas, the inflated torso belt helps distribute crash-force energy across more of a passenger's chest than a traditional belt in the event of certain frontal or side crashes.
INTELLIGENT ACCESS WITH PUSH-BUTTON START	Senses when the key fob is in range to unlock the driver's door. Simply pull the door handle to unlock the vehicle. Once inside, to start the vehicle, press and hold the brake pedal while pushing the Engine Start/Stop button. To turn the vehicle off, shift into Park and push the Engine Start/Stop button.
LANE-KEEPING SYSTEM ²	Can alert the driver, day or night, if the vehicle is leaving its intended lane. Utilizing a forward-facing camera that reads lines on the road, Lane-Keeping System alerts the driver through 2 modes when unintentional lane departure is detected: Lane-Keeping Alert sends vibration pulses to the steering wheel to alert the driver. Lane-Keeping Aid applies steering torque to help direct the driver to steer the vehicle back into its lane.
LINCOLN DRIVE CONTROL	A suite of 3 technologies: 1. Continuously controlled damping suspension uses advanced sensors that constantly monitor and adjust the vehicle's suspension motion, body movement, steering and braking. 2. EPAS measures steering input, adapts to changing road conditions and helps compensate for slight directional shifts caused by factors such as crowned roads and strong, steady crosswinds. 3. ANC (see above).
MULTICOLOUR FRONT SEATS WITH ACTIVE MOTION ²	To help reduce muscle fatigue and enhance blood flow in the legs and lower back, 11 air cushions change the contour of the seat back, bottom and bolsters, and subtly roll when activated.
PUSH-BUTTON SHIFT	Allows gear selection by pressing a button located on the centre stack. The button for the selected gear turns amber and the gear selected is also highlighted in the instrument cluster. The vehicle automatically shifts into Park when the ignition is shut off, or if the driver's door is opened with the driver's safety belt unbuckled.
SMARTGAUGE® WITH ECOGUIDE	Hybrid information instrument cluster features 2 configurable LCD screens that offer access for driver control and detailed driving and hybrid data intended to help promote more efficient driving. Seven display modes (Inform, Enlighten, Engage, Empower, MyView, Vehicle Range and Energy Use) are available based on the level and detail of information desired.
SYNC® WITH MYLINCOLN TOUCH™	Voice-activated, in-vehicle connectivity system recognizes voice commands to control audio, vehicle climate, entertainment, phone information and more. Consists of a configurable 10.1" colour LCD screen located in the gauge cluster, an 8" LCD touch screen in the centre stack, a media hub with 2 USB ports, SD card reader and audio/video input jacks, and steering wheel-mounted 5-way controls.
TORQUE VECTORING CONTROL	Helps hold the vehicle to the road when accelerating through a corner by adjusting the speed between the front wheels, while enhancing cornering agility and helping to reduce understeer.
	In its class, ³ only Lincoln MKZ offers: standard push-button shift, 10.1" LCD instrument cluster screen, LED headlamps, SecuriCode™ invisible keypad, and Easy Fuel® capless fuel filler; available retractable panoramic roof, inflatable rear safety belts, and multicolour front seats with Active Motion.

Lincoln MKZ

STANDARD ENGINE FWD

2.0L 4-cylinder EcoBoost® turbocharged direct-injection
240 hp @ 5,500 rpm⁴
270 lb.-ft. of torque @ 3,000 rpm⁴
Estimated Fuel Consumption⁵
FWD 9.2L/100 km city/5.9 hwy
(31 mpg city/48 hwy)

AVAILABLE ENGINE AWD⁶

3.7L Ti-VCT 24-valve aluminum V6
300 hp @ 6,500 rpm
277 lb.-ft. of torque @ 4,000 rpm
Intelligent AWD
Estimated Fuel Consumption⁵
AWD 11.5L/100 km city/7.6 hwy
(25 mpg city/37 hwy)

TRANSMISSION

6-speed SelectShift Automatic® transmission with paddle activation

Standard Features *Lincoln MKZ Premiere | Lincoln MKZ Hybrid Premiere*

POWERTRAIN	Hill start assist, Battery Management System, and engine block heater (optional on MKZ Hybrid and 3.7L)
BRAKES	Anti-Lock Brake System (ABS), electronic brakeforce distribution (EBD), electronic parking brake, and power 4-wheel disc brakes with ventilated rotors
DRIVING DYNAMICS	Lincoln Drive Control featuring continuously controlled damping (CCD), electric power-assisted steering (EPAS), and active noise control on MKZ (active noise cancellation on MKZ Hybrid); and Torque Vectoring Control
EXTERIOR	18" premium painted aluminum wheels and P245/45R18 all-season tires; adaptive light-emitting diode (LED) headlamps; LED accent lamps; LED tail lamps; Lincoln split-wing grille; stainless steel dual exhaust system with bright outlets; power, heated, body-colour sideview mirrors with integrated blind spot mirrors, security approach lamps and integrated turn signals; chrome inserts on door handles; solar-tinted laminated front-door and windshield glass; soft-close trunk; and Easy Fuel® capless fuel filler
INTERIOR DESIGN CONVENIENCES	5-passenger seating; 12-volt powerpoints (3); 10-way power, heated driver and front-passenger seats with 2-way power lumbar and driver's side memory feature; 60/40 split fold-flat spring-assisted rear seat; accessory delay for power features; dual-zone electronic automatic temperature control; front centre floor console with armrest, storage and 2 cupholders; genuine wood accents on the instrument panel in brown swirl walnut or Prussian burl; Illuminated Entry System with theatre-dimming feature; leather-wrapped steering wheel; and map pockets on front seat backs
AUDIO COMMUNICATION SYSTEMS	Lincoln Premium Sound System with AM/FM stereo, single-CD player, MP3 capability and 11 speakers; and SiriusXM Satellite Radio®, which includes SiriusXM Satellite receiver, low-profile antenna and 6-month prepaid subscription
INSTRUMENTATION DRIVER CONTROLS	Push-button shift; auto-dimming rearview mirror with compass and microphone; Intelligent Access with push-button start (2 integrated key transmitter remotes); SYNC with MyLincoln Touch voice-activated, in-vehicle connectivity system with configurable 10.1" colour LCD screen (two 4.2" LCD screens on MKZ Hybrid), 8" LCD touch screen in centre stack, and media hub with 2 USB ports, SD card reader and audio/video input jacks; power windows with global open and one-touch -up/-down; Remote Start System; and steering wheel-mounted controls for cruise, audio and MyLincoln Touch
SAFETY SECURITY	Personal Safety System™ for driver and front passenger with dual-stage front airbags, ⁷ safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver's seat position sensor, crash severity sensor, restraint control module and Front-Passenger Sensing System; AdvanceTrac® ESC (electronic stability control) with Curve Control; anti-theft perimeter alarm; Belt-Minder™ front safety belt reminder; brake-actuated traction control; child-safety rear door locks; driver and front-passenger knee airbags; ⁷ emergency glow-in-the-dark, in-trunk release handle; front-seat side airbags; ⁷ LATCH (Lower Anchors and Tether Anchors for Children); MyKey®; power door locks; SecuriCode™ invisible keypad; SecuriLock® Passive Anti-Theft Engine Immobilizer System; side-curtain airbags ⁷ with roll-fold technology; SOS Post-Crash Alert System™; and Tire Pressure Monitoring System (excludes spare)

Lincoln MKZ Hybrid

STANDARD ENGINE FWD

2.0L iVCT Atkinson-cycle 4-cylinder engine with permanent-magnet AC-synchronous electric motor
188 total system net hp
129 lb.-ft. of torque @ 4,000 rpm
State-of-the-art lithium-ion battery
Estimated Fuel Consumption⁵
FWD 4.2L/100 km city/4.3 hwy
(67 mpg city/66 hwy)

BRAKES

Regenerative Braking System

INTERIOR ADDITIONS

110-volt power outlet
SmartGauge with EcoGuide instrument cluster

TRANSMISSION

Electronically controlled continuously variable transmission (eCVT)

¹Not available on MKZ Hybrid. ²Available feature. ³Class is Luxury Midsize Sedans vs. 2012/2013 competitors. ⁴Figures achieved using premium fuel. ⁵Fuel consumption ratings based on Government of Canada approved test methods. Actual fuel consumption will vary. ⁶Not available on Premiere. ⁷Always wear your safety belt and secure children in the rear seat.

Competitive comparisons are based on 2012/2013 competitive models, publicly available information and Ford data at the time of printing. Some features discussed may be optional. Vehicles shown may contain optional equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions shown may vary due to optional features and/or production variability. Following publication of this catalogue, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your local Lincoln Dealer is the best source of up-to-date information. Ford Motor Company of Canada, Limited, reserves the right to change product specifications at any time without incurring obligations. Colours may not be exactly as illustrated due to restrictions of the printing process. Please see your sales consultant for specific colour and model availability.

Available Packages *Lincoln MKZ Premiere | Lincoln MKZ Hybrid Premiere*

SELECT	Includes content of Premiere, plus: Rear view camera; leather-wrapped steering wheel with genuine wood accent in brown swirl walnut or Prussian burl; ambient lighting; Reverse Sensing System; and auto-dimming driver's sideview mirror
RESERVE	Includes content of Select, plus: Voice-activated Navigation System; BLIS® (Blind Spot Information System) with cross-traffic alert¹; power decklid with full up/down functionality; cooled, perforated driver and front-passenger seats; and power-tilt/-telescoping steering column
PREFERRED REQUIRES SINGLE-PANEL POWER MOONROOF OR RETRACTABLE PANORAMIC ROOF	Includes content of Reserve, plus: 3.7L Ti-VCT V6 engine and all-wheel drive (AWD) (MKZ only); 19" polished aluminum wheels with painted pockets; heated steering wheel; heated rear outboard seats; premium floor mats; 110-volt power outlet (standard on Lincoln MKZ Hybrid); and THX® II Certified Audio System with AM/FM stereo/single-CD player, MP3 capability, 14 speakers, 700 watts of maximum power and a 14-channel amplifier
TECHNOLOGY	Requires Reserve or Preferred: Adaptive cruise control and forward collision warning with brake support, active park assist with Forward Sensing System, Lane-Keeping System, auto high-beam headlamps, and rain-sensing windshield wipers
ALUMINUM TRIM	(Not available on Premiere; requires Charcoal Black interior)

18" Premium Painted Aluminum
Premiere

19" Polished Aluminum with Painted Pockets
Preferred

Irrefutably Lincoln.

Respectably, all new.

You've already seen who we are. Now see what defined us years ago – and how that's led to the way we've redefined ourselves today. And, while we may look different on the outside, the essence of Lincoln still resonates on the inside. Go ahead. Experience Lincoln.

This catalogue image from 1959 captured the essence of Lincoln: confidence and sophistication for distinguished drivers. Just like the new 2013 Lincoln MKZ.

The Chairman of the Board of the Bank of the Commonwealth chose the 1965 Lincoln Continental. Lincoln is still preferred by entrepreneurs, artisans, influencers and, most of all, individuals.

Here, the 1960 Lincoln was ready to take flight. Its reverse slant glass rear window folded to store the frame and top in front of the trunk, leaving enormous room for luggage. Today's modern interpretation: the retractable glass roof.

With its new Turbo-Drive V8, the 1955 Lincoln lineup touted exceptional performance. Now you can choose from three powertrains: the 4-cylinder EcoBoost,[®] V6 and Hybrid.

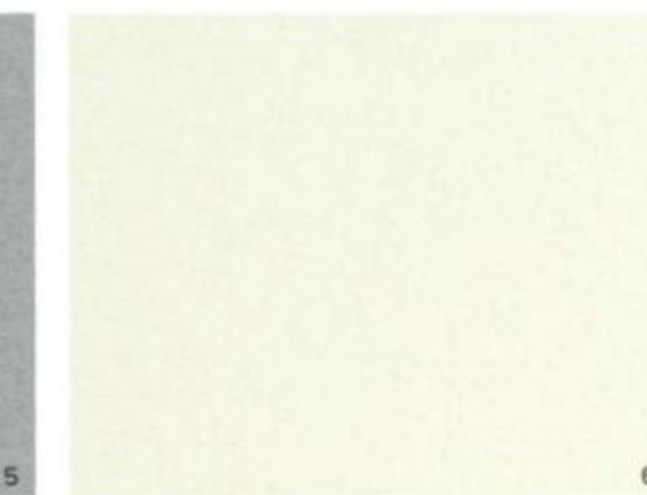

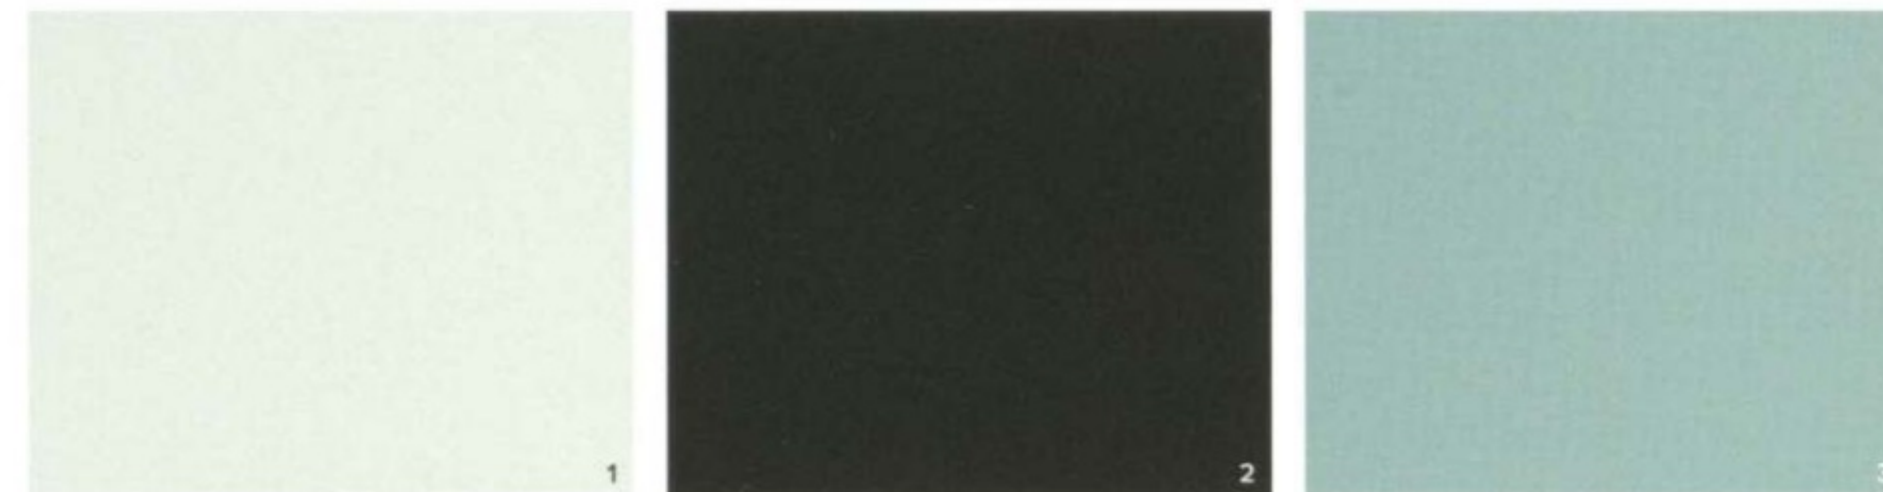

The 1961 Lincoln Continental was designed to fit into more compact spaces, and revolutionized luxury as Canada's only 4-door convertible. The 2013 Lincoln MKZ Hybrid revolutionizes luxury as Canada's most fuel-efficient midsize sedan.

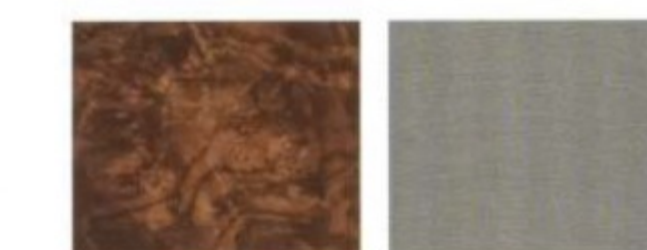

This catalogue image from 1940 captured the glorious Lincoln-Zephyr Continental Cabriolet in its natural habitat: the majesty of the open road.
