SPECIFICATIONS

Engine		
Type	2.4L Atkinson-cycle Theta II, Interior-permanent magnet synchronous motor – electric	
Configuration	Inline 4 cylinder, DOHC	
Material	All aluminum	
Valve train	4-valves per cylinder chain drive, dual-cam variable valve timing	
Horsepower	159 hp @ 5,500 rpm: gasoline 46 hp @ 1,630–3,000 rpm: electric 199 @ 5,500 rpm : combined performance	
Torque	154 @ 4,500 rpm: gasoline. 151 @ 0 – 1,630 rpm: electric	
Intake	Composite intake manifold	
Fuel System	Multi Port Injection (MPI)	
Fuel Management	Hybrid, Active ECO	
Recommended Fuel	Regular unleaded	
Compression ratio	13:1	
Transmission	6-speed Sportmatic automatic	
Dimensions, mm (in.)		
Wheelbase	2,795 (110)	
Length	4,845 (190.7)	
Width	1,830 (72)	
Height	1,450 (57.1)	
Head room (front/rear)	1,015/955 (40/37.6)	
Shoulder room (front/rear)	1,455/1,415 (57.3/55.7)	
Leg room (front/rear)	1,155/880 (45.5/34.6)	
Hip room (front/rear)	1,388/1,384 (54.6/54.5)	
Curb Weight, kg (lb.)		
Automatic transmission	1,586–1,643 (3,496–3,622)	
Body & Chassis		
Layout	Front engine, front wheel drive	
Body type	High-tensile steel unibody	
Front suspension	Independent, MacPherson struts, dynamic dampers, coil springs, anti-roll bar	
Rear suspension	Independent, multi-link, dynamic dampers, coil springs, anti-roll bar	
Steering	Electric motor power assist	
Brakes		
Type	4-wheel disc	
ABS	4 sensor, 4 channel	
Front (rear)	11.8" disc (11.2" solid disc)	
Capacities, L (cu. ft.)		
Interior passenger volume	2,893 (102.17)	
Trunk volume	305 (10.77)	
Fuel tank capacity, L (imp. gal.)	65 (14.3)	
Fuel Economy, ² Highway/City, L/100km		
LX	EX & EX Premium	
Automatic transmission	5.9/6.6	6.1/6.7

The Power to Surprise

2015

OPTIMA
HYBRID

¹ Based on Natural Resources Canada's Fuel Consumption Guide for Optima Hybrid base model. Your actual fuel consumption may vary. ² Starting with the 2015 model year, Natural Resources Canada in conjunction with the automotive manufacturers, have introduced a new testing procedure that will result in higher fuel consumption ratings that are more representative of everyday driving. ³ Microsoft is a registered trademark of Microsoft Corporation in Canada and/or other countries. Operate the UVO system, even with voice commands, only when it is safe to do so. ⁴ SIRIUSXM logo and related marks are trademarks of SIRIUSXM Satellite Radio Inc. Service available in the 10 provinces and 3 territories of Canada, and the 48 contiguous states of the U.S. Monthly subscription sold separately after 3 trial months. ⁵ The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. A compatible Bluetooth wireless technology-enabled cell phone is required to use Bluetooth hands-free wireless technology. ⁶ When equipped with the navigation system, French voice commands may be limited. ⁷ Infinity® is a registered trademark of Harman International Industries, Incorporated. ⁸ The rearview camera, rear parking sonars and Blind-spot detection system are not substitutes for proper and safe driving procedures. Always drive safely and use caution. ⁹ Based on battery state of charge. ¹⁰ Some restrictions apply. For more information on our Total Care Ownership Coverage, call us at 1-877-542-2886. NOT YOUR AVERAGE HYBRID

The award-winning Optima Hybrid is the nexus of elegant automotive design and cutting-edge hybrid technology. Aerodynamic bumper and trunk lid designs help reduce wind resistance and combine for a more luxurious and balanced look. There are no compromises here, evidenced by Optima Hybrid's wide array of standard features including UVO™ infotainment system,³ rearview camera⁸ and automatic climate control.

WHERE DESIGN AND PERFORMANCE MEET

Optima Hybrid seamlessly integrates one of the most advanced hybrid powertrains in the world with the acclaimed handling dynamics of the conventionally powered Optima sedan. The results are as stunning as its design: fuel economy of 6.6 litres/100 km in the city and 5.9 litres/100 km on the highway^{1,2} combined with a driving experience that rivals the finest performance sedans.

ELECTRIC MOTOR DESIGNED FOR EFFICIENT PERFORMANCE

At low speed, the Optima Hybrid uses innovative transmission technology to run in EV-electric only-mode.⁹ It consists of an electric motor and a clutch mounted in place of the conventional transmission's torque converter. Additionally, active air flaps behind the grille control air flow to cool or warm the engine as needed to increase efficiency and aerodynamics.

REGENERATIVE BRAKING

To help charge the lithium polymer battery, a Regenerative Braking System uses the electric motor to convert kinetic energy from braking to electricity.

ADVANCED SAFETY SYSTEMS

Optima Hybrid models come with a full complement of standard safety systems, including six airbags, four-wheel anti-lock disc brakes, Electronic Stability Control (ESC) and a panic Brake Assist System (BAS).

INNOVATIVE TECHNOLOGY

Optima Hybrid EX Premium is equipped with the convenience of an 8" multimedia interface with voice-activated navigation⁶ and the comfort of heated and air-cooled front seats, heated rear seats and heated steering wheel.

SPORTMATIC TRANSMISSION

Optima Hybrid's 6-speed Sportmatic automatic transmission includes a clutchless manual-shift mode for a more performance-oriented driving experience – something that's definitely missing from most other hybrid vehicles.

SLEEK STYLING

Optima Hybrid's sculpted bodywork features a contemporary design and enhanced aerodynamics, while unique alloy wheels help define it as the Hybrid.

THE LITHIUM POLYMER BATTERY

The 270-volt lithium polymer battery is more powerful than most hybrid batteries. It's also light and compact, so it takes up less space.

POWER RATIO GAUGE

The power ratio gauge lets you know when the vehicle is operating with the electric motor, with the gas engine, or with both. It also provides information about the regenerative battery-charging system and is standard on Optima Hybrid EX Premium.

HORSEPOWER AND EFFICIENCY

With a total combined horsepower of 199 (electric motor and gas engine), the Optima Hybrid provides excellent performance and delivers exceptional highway fuel efficiency.

eco dynamics

ECO CAR WITH DYNAMIC PERFORMANCE. Kia Motors is always looking for ways to reduce the environmental impact of its vehicles and bring new, cleaner and more fuel efficient products to drivers around the world. We have employed a phased approach to guiding our eco-friendly technology developments, with the ultimate goal being zero-emissions.

Kia Motors has ascended in the rankings among the 50 Best Global Green Brands according to Interbrand, the world's leading brand consultancy agency. Interbrand's 50 Best Global Green Brand 2014 rankings measure the sustainability and environmental performance of the world's 100 most valuable brands.
