

MKT

Progress and pleasure – in equal measure.

Every now and then, a vehicle strikes a perfect balance between inspiring technology, thoughtful design cues, and effortless performance. That vehicle is the 2015 Lincoln MKT.

Its beauty is both in form and function.

MKT is a beautiful example of what can happen when you fuse stunning design with purposeful function. Take a seat inside, and experience an open space made more graceful by a push-button start and a power panoramic Vista Roof[®] that opens the cabin to let in fresh air and abundant light. Front and rear power sunshades help keep the temperature in your vehicle comfortable — as do heated and cooled 1st-row seats, heated 2nd-row outboard seats, and a 2nd-row refrigerated console[†]. Outside, a signature Lincoln grille and adaptive HID headlamps are seamlessly integrated into the vehicle's exterior and add to the already sculptural design cues. Beautiful. Functional. MKT.

More power than you imagined.

Whether you're looking for the thrill of quick, turbocharged power, or something more efficient, MKT has it all – and all in one engine. The 365-horsepower¹ 3.5L EcoBoost® twin-turbocharged, direct-injection V6 engine gives you the performance, exhilaration and fuel efficiency you deserve.

¹Figure achieved using 93-octane fuel.

This level of control leads to a different kind of confidence.

MKT believes the first step in taking control is making the right choice. That's why Lincoln Drive Control with continuously controlled damping lets you select between 3 drive modes – Comfort, Normal or Sport – to match your driving style. Because road surfaces are always changing, the system reads inputs 500 times per second, then quickly adjusts to make sure that your vehicle is one with the road. Intelligent AWD uses sensors to constantly monitor and predict traction, and delivers torque to the front and rear wheels when needed to enhance traction and handling. When a sharp curve unfolds before you, the 6-speed SelectShift® automatic transmission offers the excitement of a manual, letting you change gears quickly using the paddle shifters on your steering wheel. Choice. Control. And Confidence. That's MKT.

ELECTRIC POWER-ASSISTED STEERING (EPAS) adapts to your speed and the changing road conditions, then provides just the right amount of steering assistance to give you more confident steering and handling.

ADVANCETRAC® WITH RSC® (ROLL STABILITY CONTROL™) can apply the brakes and reduce engine power to give you more grip on the road and help you stay on your intended path. While Curve Control detects if you are entering a curve too fast, and applies 4-wheel braking and throttle reduction to help you control your speed.¹

¹Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

The comforts of open space are found on the open road.

Taking a break is as easy as taking a seat.

Take it all in. The roomy interior – with space for 7 – is complemented by a leather-wrapped, heated steering wheel¹ and Bridge of Weir™ leather-trimmed seats in the 1st and 2nd rows. To keep you comfortable, there are several 2nd-row seating configurations – including the standard 60/40 split bench, and heated and cooled bucket seats.¹ Best-in-class² 2nd-row leg room gives you plenty of room to stretch out. A PowerFold® split bench¹ in the 3rd row accommodates 2 people and can easily be folded down for more cargo space, while a simple press of a button on your key fob or inside your vehicle effortlessly opens or closes the power liftgate. Please, take your seat.

¹Available feature. ²Class is Luxury Large Utilities.

Connections are made seamlessly.

With the sound of your voice – or a simple touch – Lincoln MKT connects you to the world around you. Voice-activated, turn-by-turn directions and 3D maps¹ are brought to life through the Navigation System.¹ A 6-month prepaid subscription to SiriusXM[®] lets you enjoy commercial-free music, world-class news, sports, comedy and entertainment.² And, thanks to SYNC[®] with MyLincoln Touch,^{TM3} a simple touch of the signature 8" colour LCD screen will start your favourite song from your MP3 player piping through your vehicle's speakers. Don't worry – it will fade just enough so you don't miss a call or incoming text message. Here, staying in touch is effortless.

EXPERIENCE EVERY NOTE IN PERFECT HARMONY. The THX[®] II Certified Audio System¹ gives every passenger a front-row seat to the concert. Patented sound-processing technology distributes your music evenly throughout the interior and, together with 14 speakers, brings the rich, full sound of the studio to your everyday commute.

¹Available feature. ²SiriusXM subscriptions sold after 6-month prepaid period expires. Subscriptions are governed by SiriusXM Customer Agreement; see siriusxm.ca. ³Some mobile phones and some digital media players may not be fully compatible. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyLincoln Touch/other devices, even with voice commands, when it is safe to do so. SYNC with MyLincoln Touch voice recognition and screens available in English, French and Spanish. Some features may be locked out while the vehicle is in motion.

| SYNC ((SiriusXM))

Finding a space is as simple as fitting into it.

MKT makes sure of that. With active park assist,¹ there's no guesswork when it comes to parallel parking. Ultrasonic sensors measure open spaces, and help find a parking spot as small as 1.2 times the length of your vehicle. Then, the system guides you into it, while you control the brake, shifter and accelerator.

HINDSIGHT IS 20/20. When you are backing out of – or into – a parking spot or garage, the Reverse Sensing System on MKT uses sensors on the rear bumper and a warning sound to help alert you if something is behind you. A rear view camera projects an image of the scene onto the 8" colour LCD screen. Peace of mind – with the confidence to back it up.

Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle.
¹Available feature.

Working with traffic, not against it, gets you ahead.

BE AWARE. Lincoln MKT has features that are designed to help you see things that otherwise might be out of view. BLIS® (Blind Spot Information System)¹ uses radar sensors to help you detect when a vehicle is in your blind spot, and then alerts you with a light in your corresponding sideview mirror. Cross-traffic alert¹ lets you know when a vehicle is crossing behind you as you slowly back out of a parking spot, and alerts you with a glowing icon in your sideview mirror and an audible alert.

STAY FOCUSED. MKT can help you stay centered. The Lane-Keeping System^{1,2} can alert you with a steering wheel vibration if it senses you drifting out of your lane, and can then apply steering wheel torque to help direct you to steer back into it. And the Driver Alert System¹ displays a coffee cup icon in your gauge cluster if it detects that you need to take a break from driving.

BE PREPARED. Adaptive cruise control and collision warning with brake support¹ adjusts to fit your driving style. Using radar to constantly scan for slowing vehicles in front of you, it can automatically change your speed to maintain your preset gap – and can even pre-charge the brakes to help prepare you for a sudden stop.
