

INFINITI I30

---

OUR LATEST TRIUMPH

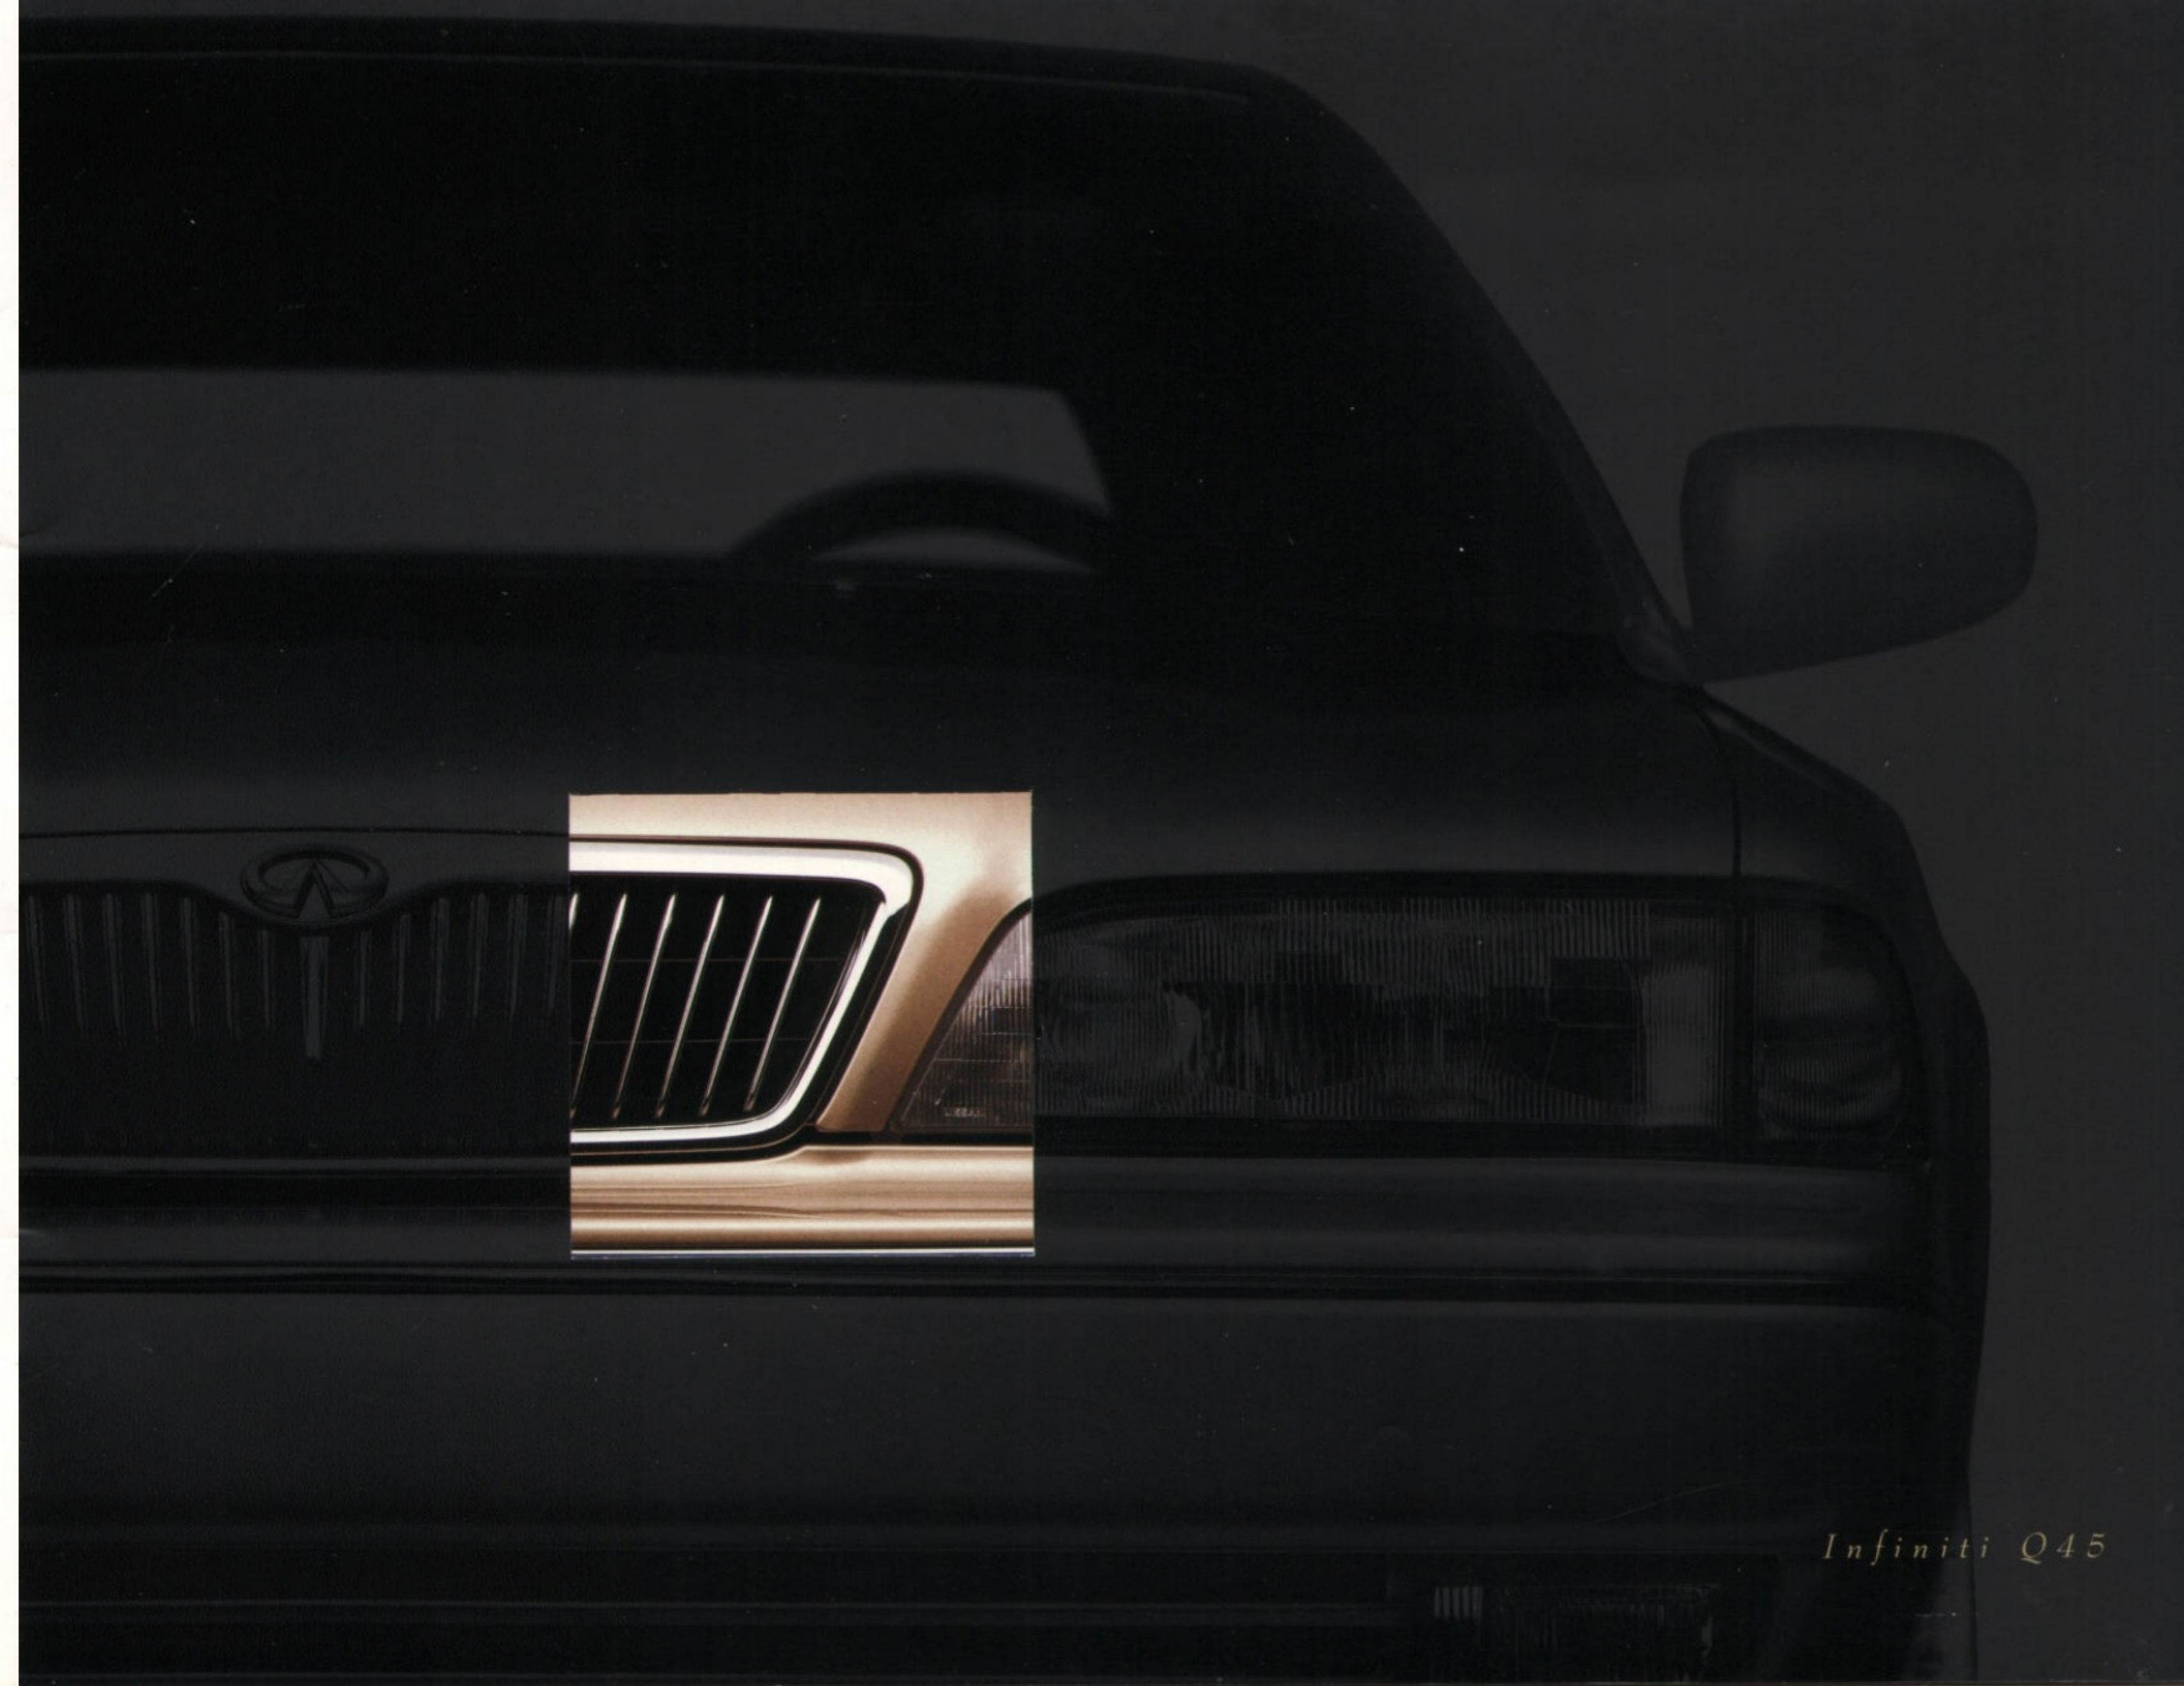

## Guess which car the I30 takes its Q from?

### INTRODUCTION

When Infiniti created its flagship model, the Q45, the mission was to design an automobile that would deliver excellence in every category. A car that wouldn't sacrifice luxury for performance, or styling for safety, but would, instead, demonstrate superiority in all of them. The end result was an automobile that redefined the luxury car category.

When Infiniti began creating the I30, they adopted the same comprehensive goal. From its inception, the engineers strove to design a luxury sedan for around \$30,000 with the well-balanced excellence of the Q45. After years of intense research and development, Infiniti arrived at its destination. And arrived in style.

Introducing the I30 from Infiniti.

### INFINITI

There's more behind every I30 than this emblem. There's the entire Infiniti Division. So, if you're ever driving and you feel like there is someone behind you, don't worry. It's just us.

*Infiniti I30*

## Good looks run in the family.

EXTERIOR

**STYLING** The I30 is a perfect example of automotive heredity. One look and you can tell it comes from a prestigious family of luxury cars. Elegant lines. Distinguished styling. No wonder the I30 bears a striking resemblance to its brother, the Q45®. And like its bigger brother, the I30 shares the intelligence of the Infiniti line. To understand more, let's start at the surface.

**LASER-ETCHED STEEL** If luxury cars had emotions, they'd definitely be envious of the I30's incredible form. This is due, in part, to the body panels that are made from DURASTEEL®. This patented metal features 50% more rust-resistant plating thickness than conventional galvanized steel. Before the primer and paint are applied, these panels are laser-etched to remove any imperfections in the surface of the metal. The result is an ideal medium, free of rough spots that could spoil the integrity of the I30's finish.

**EXTERIOR FINISH** After the panels are laser-etched, they undergo Infiniti's 3-coat/3-bake painting process. During this process, the entire body of the I30 is dipped into enamel and baked to a hard finish. This process is repeated three times. After the third coat has hardened to a beautiful luster, the entire car is sprayed with a cross-linking clearcoat\* paint. This clearcoat gives your new I30 that classic "wet look." The end result is one of the most beautiful and durable finishes around. Which is appropriate to the I30 story, because we haven't even scratched the surface.

\*Cross-linking clearcoat available on dark colors only.

### PAINT FINISH

Infiniti's 3-coat/3-bake painting process assures the I30 will not only be beautiful, but beautifully durable.

## The inside story on the new I30.

INTERIOR

### POWER CONTROLS

The I30 gives you a taste of power with power windows and locks, an eight-way adjustable power driver seat and a four-way power passenger seat.

### FINE GRAIN LEATHER

For the height of elegance, the seats are trimmed in leather as part of the Leather-Appointed and Touring Models.

**INTERIOR CONCEPT** In designing the interior of the I30, the engineers at Infiniti set their sights on two goals: enhanced functionality and openness. Large gauges create a roomy feel while improving readability. Convenience controls, like the radio and the climate control system, were moved closer to the driver for easier reach. Even a thinner sunroof design was created to increase headroom. All these little improvements add up to one big improvement in the world of luxury cars: the Infiniti® I30™.

**QUIET CABIN** One of the first things you might notice while driving the Infiniti I30 is nothing at all. Because that's pretty much what you'll hear inside the cabin. A feat due, in part, to the I30's electronically controlled, fluid-filled (hydraulic) engine mount.\* As the engine increases in rpm's, it produces vibrations in a variety of frequencies. A controller unit senses whether the engine is in the idle or cruise position and instructs the I30's electronically controlled, fluid-filled

(hydraulic) engine mount to adjust the dampening accordingly. The result of all this technology is really something to hear. Or rather, not to hear.

**SPACIOUSNESS** With 99.6 cubic feet of sophisticated cabin luxury, the Infiniti I30 is not only more spacious than its nearest competitor, the Lexus ES300, it's even more spacious than a Rolls Royce Silver Spur III.

**ERGONOMIC STYLING** In designing the I30, Infiniti videotaped the eye movements of several test-drivers. By studying where their eyes fell most, Infiniti could determine the most comfortable placement for instruments and controls. The less time your eyes have to travel looking for controls, the more time you can spend watching where you're going.

\*Available only on models with automatic transmission.

**POWER SUNROOF** For those who like to feel the wind in their hair, the I30 features an optional power sunroof (standard on the Leather-Appointed and Touring Models). At the touch of a button, you can retract it to let the sun in or tilt it slightly to let the breeze in.

**INTEGRATED HOMELINK™ TRANSMITTER** The I30 not only gives you control of the road, it gives you control of your home. Because integrated into the visor of the I30's Leather-Appointed and Touring Models are three remote buttons that can work with many radio frequency controlled devices. They can be programmed to operate your radio operated garage doors or gates. Even your home alarm or lighting systems.

**KEYLESS REMOTE ENTRY SYSTEM** For those who desire the command of their Infiniti I30, even when they're not in it, Infiniti designed the keyless remote entry system. The perfect companion to your key ring, it allows you to lock and unlock your doors, pop the trunk, illuminate interior lights and more. All from an unobstructed distance of up to 45 feet. And in the event you detect some foul play, your keyless remote entry system also allows you to activate a special panic alarm. Simply hold down your door lock button for 1.5 seconds and your anti-theft horn will sound and your headlights will flash.

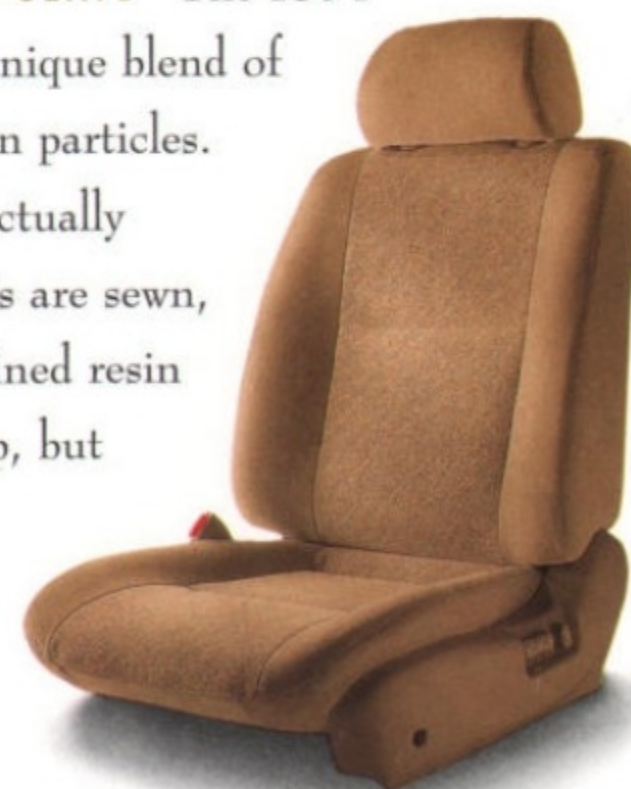

**AUDIO SYSTEM** Even though the I30 has an incredibly quiet cabin, occasionally you may want to fill it with sound. That's why Infiniti worked directly with Bose® to design a six-speaker audio system that perfectly matches the acoustics of the I30's interior. The result is a 200 watt Bose® CD and cassette audio system with two A-pillar tweeters and four amplifiers that surround you in sound. So, if you have to break the silence, you can do it in style.

**ADJUSTABLE POWER FRONT SEATS** The I30 features an eight-way adjustable power seat for the driver and a four-way adjustable power seat for the front passenger. Both let you get comfortable at the touch of a button. And the driver is provided with adjustable lumbar support for an added measure of comfort and convenience.

**STATIC AND STAIN RESISTANT CLOTH SEATS** The I30's seating surfaces are constructed of a unique blend of conductive fibers, base yarn and carbon particles. Together, they create a material that actually inhibits static build-up. Once the seats are sewn, they are sprayed with a fluorine contained resin that not only causes liquids to bead up, but prevents stains from setting.

**CLOTH SEATS**  
The seats of the I30 are constructed of a luxurious but durable fabric that actually reduces the build-up of static electricity.

**DUAL ILLUMINATED VISOR VANITY MIRRORS** Look behind both visors of the I30 and you'll find your face basking in the glow of warm cosmetic lighting. We think you'll find it an attractive feature. The vanity mirrors, too.

**STORAGE** Besides offering a spacious trunk, the I30 offers a variety of places to store your valuables. A lockable glove compartment. Map pockets behind the front seats and in the front doors. A sun visor

pocket to hold your registration. A push-open storage tray on the instrument panel. A large storage area for a cellular phone, CDs and cassettes under the armrest in the center console. Even a cup holder. And for those over-sized

items, like skis\*, the I30 also features a pass-through door to the trunk, located behind the backseat armrest.

\*Cargo shown for display only. Always secure cargo when driving.

**AUTOMATIC TEMPERATURE CONTROL** The I30's automatic temperature control system allows you to set your desired interior temperature and forget about it. The automatic temperature control system will do the rest. And because it features an environmentally-friendly non-CFC R134a refrigerant, you can forget about harming the ozone too.

**ARMRESTS**  
Under the front seat armrest you'll find a large storage space for tapes and CDs. The rear fold-down armrest (pictured above) conceals a pass-through door to the trunk.

**LEATHER-APPOINTED MODEL** For those of you who prefer to drive down Easy Street, the I30's Leather-Appointed Model offers the convenience of an automatic transmission. And because you'll want to make that journey in style, it also offers leather seating surfaces, a power sliding glass sunroof, an automatic anti-glare rearview mirror, and the Integrated HomeLink™ Transmitter we mentioned on page ten. All standard. In fact, the only decision you need to make is whether you want the Heated Seats Package with or without the Traction Enhancement System.

**HEATED SEATS PACKAGE** With the I30 Heated Seats Package, you've got everything you need to tame the elements. Heated seats and heated outside mirrors. A heavy-duty battery. And a low windshield wiper fluid warning light.

**SECURITY SYSTEM** To engage your security system, simply lock your I30. In the event of certain break-ins, an anti-theft horn will sound, your headlights will flash, and the I30's starter motor will be disabled. Once the system is triggered, it can be deactivated with your keyless remote entry system or it will reset itself in 60 seconds.

With the I30's V6 engine...knowledge is power.

PERFORMANCE

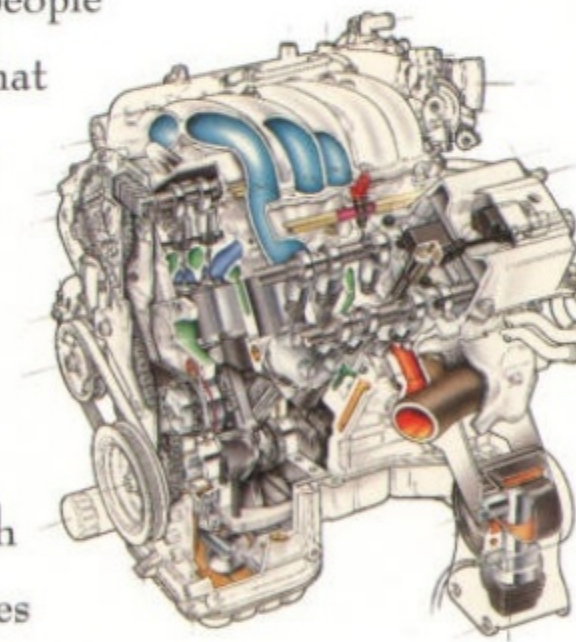

**V6 ENGINE**

By reducing friction, the I30's V6 engine can outrun many of the competition's flagship V8s.

**BASE WHEEL**

Every Standard or Leather-Appointed I30 model is equipped with precision crafted cast alloy wheels and all-season steel-belted radial tires.

**ENGINE** When it comes to engines, most people think that bigger is better. Infiniti knows that smarter is better. The I30's V6 engine is a perfect example. It's smaller and lighter than many others, resulting in a compact powerhouse of an engine. In fact, with a manual transmission, the I30 can outrun some of the competition's flagship V8s with their automatic transmissions. Which makes you wonder what those other two cylinders are for.

**FRICTION REDUCING TECHNOLOGIES/MICRO-FINISHING** In order to design an amazingly fuel efficient V6 engine, Infiniti set out to find new ways of eliminating an engine's worst enemy: friction. By reducing the size of the crankshaft, the piston skirt area, and the thickness of the piston rings, unnecessary contact areas were reduced. And

through a process known as micro-finishing, crucial parts are polished and coated with a friction-reducing element called molybdenum. On engine valve stems, this coating can reduce wear to increase engine longevity. All this technology creates an engine that runs like clockwork, which you'll discover the minute you take it out on the road and wind it up.

**HORSEPOWER** The I30's 3.0 liter V6 boasts an impressive 190 horsepower at 5,600 rpm. But then, reading about it isn't nearly as exciting as experiencing it.

**FUEL EFFICIENCY** The I30, with an automatic transmission, averages an impressive 21 mpg city and 28 mpg highway EPA. And with an 18.5 gallon gas tank, you have a cruising range of over 500 miles. (EPA-estimated figures are for comparison purposes only. Actual mileage may vary depending on driving conditions.)

**ELECTRONICALLY CONTROLLED TRANSMISSION** When you drive the I30, you'll notice a seamless transition between gears. This is accomplished through Infiniti's Interactive Transmission Control System. A system that actually learns your driving style and hydraulically adjusts to maintain transmission performance over time.

**I30 TOURING MODEL** For those who prefer a sportier I30, Infiniti offers the I30t. Featuring a five-speed manual (or an optional automatic) transmission.

A sport-tuned suspension. Performance forged alloy wheels. Lower/wider 215/60R15 all-season tires. A rear deck lid spoiler. Plus all the features that are included with the Leather-Appointed Model. The

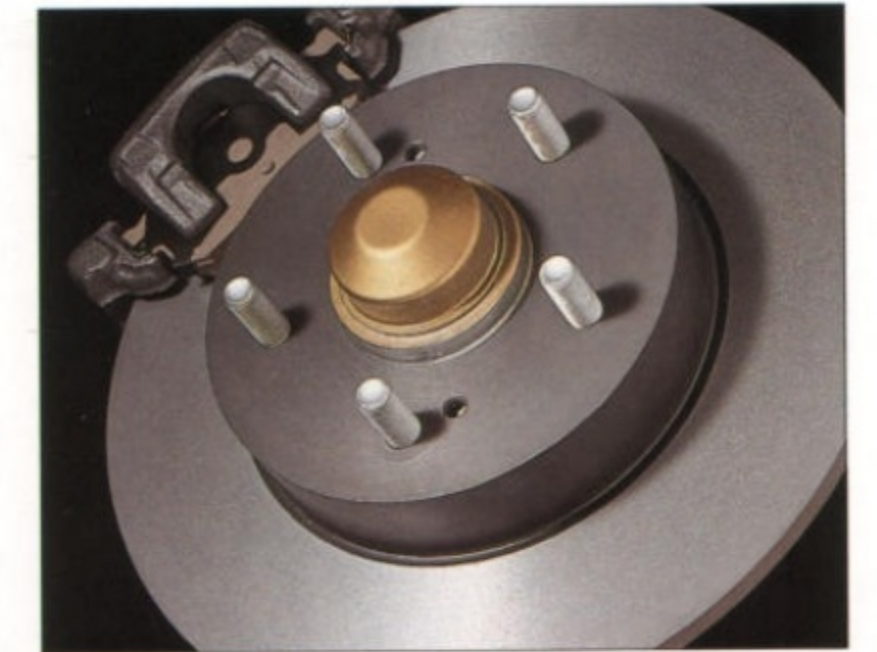

I30t also comes with the Traction Enhancement System which includes a Viscous Limited Slip Differential and the Heated Seats Package. All of which not only make the I30t look a little hotter, but drive a little hotter.

**FRONT/REAR STABILIZER BARS** In the front and rear of every I30 are stabilizer bars that help maintain stability, especially during tight cornering maneuvers.

**PERFORMANCE ALLOY WHEELS**  
The I30t features performance forged alloy wheels (pictured above) that not only look great, they're constructed from high-test aluminum. Which makes them strong as steel, only much lighter.

**FOUR-WHEEL POWER DISC BRAKES WITH ABS**

If you're impressed with the way the I30 goes, you'll be equally impressed by the way it stops. The I30's four-wheel power-assisted disc brakes, combined with an

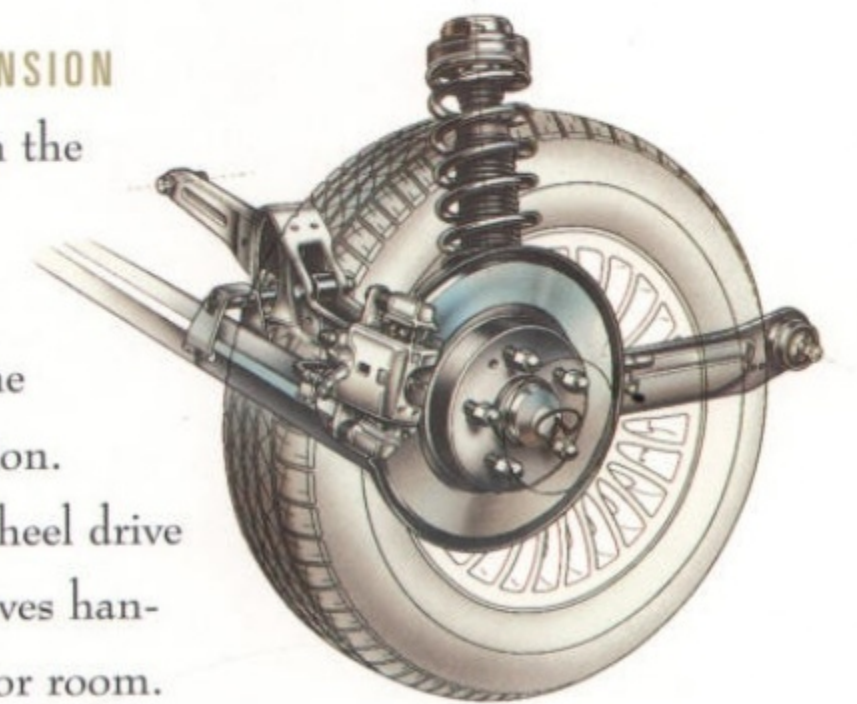

anti-lock braking system (ABS), helps you maintain steering control while braking, which can be a crucial advantage in an emergency situation. And to make a safe system safer for the environment, all of our brake pads are asbestos-free.

**TWO-STAGE COOLING SYSTEM** Instead of one cooling system to cool the entire engine, Infiniti developed separate cooling systems for the cylinder heads and the cylinder block. The new two-stage system not only uses less water, it provides more uniform cooling, as well as better transfer of heat to the interior of the I30. So you'll not only notice your engine warming up faster, you'll notice your body warming up faster too.

**REAR MULTI-LINK BEAM SUSPENSION**

The goal was to create a car with the ride and comfort of a luxury sedan and the performance of a sports sedan. The result was the rear Multi-Link Beam™ suspension. Designed specifically for front-wheel drive cars, this system not only improves handling, but allows for more interior room.

## In the I30, safety is no accident.

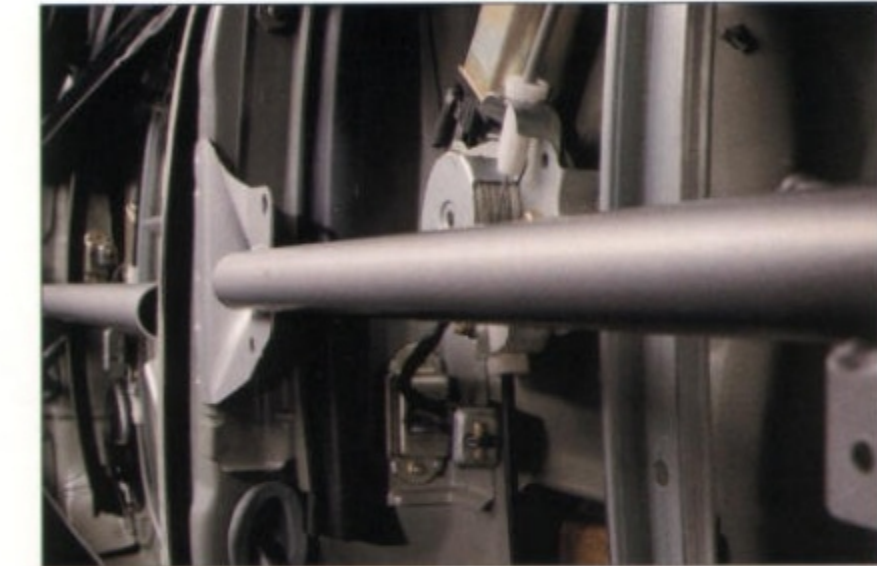

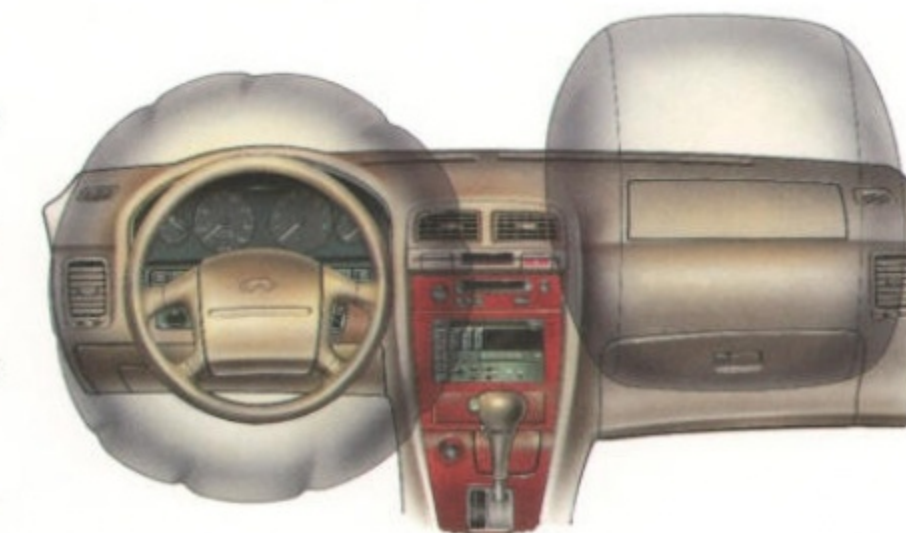

### SAFETY

**SAFETY** To the engineers at Infiniti, there's only one thing as important as being prepared for an accident: having the ability to avoid one altogether. That's why each I30 comes equipped with active safety features, like engine speed-sensitive steering and an anti-lock braking system (ABS). But just in case you run into the unavoidable, the I30 also features a host of passive safety features. Like dual air bags, side door guard beams and crumple zones.

**CRUMPLE ZONES** In the front and rear of every I30, you'll find the peace of mind we call "crumple zones." During certain collisions, these crumple zones are designed to absorb crash energy, helping to protect you and your passengers.

**DUAL AIR BAGS** In the event of certain head-on collisions, the Infiniti I30 will inflate air bags\* for both the driver and the front seat passenger. To help ensure the operation of this system, every collision sensor is plated in 24-karat gold. This gold coating, however attractive it may sound, has a much more practical function, which is to resist corrosion of crucial parts. Protection like this is literally as good as gold.

\*With a passenger side air bag, please be aware that a rear-facing child restraint must not be placed in the front-passenger seat and should only be used in a rear seat. Always follow the child restraint manufacturer's instructions. See the vehicle Owner's Manual for details on proper seat belt and child restraint use.

**SIDE DOOR GUARD BEAMS**  
To protect passengers in the event of a side collision, every door in the I30 features side door guard beams. An improvement that helps the I30 meet 1997 federal standards.

**ANTI-LOCK BRAKING SYSTEM** During abrupt braking situations, the I30's ABS pulses several times per second, allowing you to stop while maintaining your ability to steer around an obstacle. In certain emergencies, that could make a big difference.

**ADJUSTABLE FRONT SHOULDER BELTS** One of the biggest complaints about shoulder safety belts is how uncomfortable they can be. With the I30's adjustable driver's and front passenger's shoulder belt anchors, you can adjust the height of the belt to suit your size.

**ENGINE SPEED-SENSITIVE STEERING** In order to give you a heightened sense of the road, Infiniti developed a system that adjusts the amount of power steering you experience relative to the engine speed of the I30. At low speeds, when more delicate maneuvering may be necessary, the system gives you more power steering. At higher speeds, the power steering is regulated to give you better steering control.

The driving force behind every Infiniti: Service.

THE TOTAL OWNERSHIP EXPERIENCE

**THE TOTAL OWNERSHIP EXPERIENCE** It begins the moment you enter an Infiniti showroom. The environment. The courtesy. The respect. In short, The Total Ownership Experience®. An idea that's more than just the services listed below. It's a way of doing business.

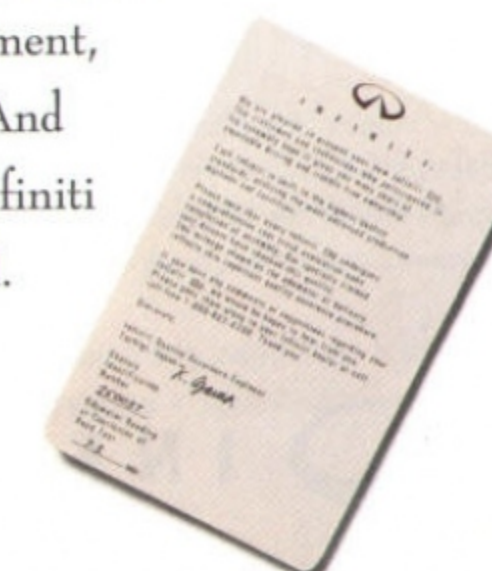

A philosophy where each customer is treated as an honored guest. And this idea doesn't disappear the moment you drive off the lot. It continues for as long as you own or lease your Infiniti. If you're saying, "That could be forever," you're to understand the concept of Infiniti.

**TRIP INTERRUPTION BENEFITS** Should your Infiniti become mechanically disabled more than 100 miles from home, and the problem is covered under the Basic New Vehicle Limited Warranty, we'll do everything we can to keep it from spoiling your trip. Including meals, lodging, and if necessary, alternate transportation.

**FREE SERVICE LOAN CAR** Anytime you bring in your Infiniti for a scheduled maintenance appointment, you'll drive out in a free Service Loan Car\*. And when you return, you'll not only find your Infiniti in working order, you'll find it cleaned as well.

**COMMITMENT TO QUALITY**  
In the glove compartment of every I30 you'll find a signed check list from an Infiniti Quality Inspection Engineer certifying your I30 has met Infiniti's strict standards of excellence.

**OWNERSHIP PACKAGE**  
When you leave an Infiniti dealership with your I30, one of the best owner packages in the industry goes with you.

**24-HOUR ROADSIDE ASSISTANCE\*\*** On the outside chance you encounter a problem with your I30, help is only a phone call away. Simply dial the toll-free number found on your owner's card and a service vehicle will come to your rescue. Even if you run out of gas, get a flat tire or accidentally lock your keys inside. As a member of the Infiniti family, we're not going to leave you out in the cold. If the problem can't be fixed on site, we'll take you to the nearest Infiniti repair facility, where there's always a cup of hot coffee waiting.

**OUTSTANDING WARRANTY PACKAGE** Like every Infiniti, the I30 features one of the best warranty packages in the industry:

- A 4-year/60,000 mile Basic New Vehicle Limited Warranty.
- A 5-year/50,000 mile Federal Emission Defect Warranty.
- A 6-year/70,000 mile Powertrain Limited Warranty.
- And a 7-year/unlimited mileage Corrosion Limited Warranty.

\*Subject to availability. At participating dealers. Must be 21 years of age or older with a valid U.S. driver's license and must provide proof of primary insurance. Available during Basic New Vehicle Limited Warranty (4 years/60,000 miles).  
\*\*Available during Basic New Vehicle Limited Warranty (4 years/60,000 miles).

## SPECIFICATIONS

### ENGINE

Type:	DOHC 24-Valve, V6
Displacement:	3.0 Liters/2,988 cc
Horsepower (SAE Net):	190 hp @ 5,600 rpm
Torque (SAE Net):	205 ft-lbs @ 4,000 rpm
Engine Redline:	6,550 rpm
Compression Ratio:	10.0:1
Bore and Stroke:	93.0mm x 73.3mm
Fuel Delivery System:	Sequential multi-point fuel injection
Recommended Fuel:	Premium unleaded
Emissions Control Equipment:	Closed-loop alpha control, EGR with three-way catalyst

### ELECTRICAL

Direct ignition system with individual coils for each cylinder

### DRIVETRAIN

Front engine/front-wheel drive  
Five-speed manual transmission (standard)  
Electronically controlled four-speed automatic transmission with lock-up torque converter (optional)  
Gear ratios: (manual/auto) First—3.285/2.785 ■ Second—1.850/1.545  
Third—1.272/1.000 ■ Fourth—0.954/0.694  
Fifth—0.795 ■ Reverse—3.428/2.272  
Final Drive Ratio—3.823/3.619  
Traction Enhancement System (optional) consisting of Viscous Limited Slip Differential

### BODY/SUSPENSION

Laser-etched DURASTEEL® construction  
Independent MacPherson strut front suspension with stabilizer bar  
Rear Multi-Link Beam suspension with stabilizer bar

### STEERING AND BRAKING

Engine speed-sensitive, power-assisted rack-and-pinion steering  
Turning circle diameter (curb-to-curb): 34.8 ft  
Overall Steering Ratio: 16.7:1  
Brake rotor size (diameter/thickness.): Front:10.9" x 0.9" Rear:10.8" x 0.4"  
Front vented power-assisted four-wheel disc brakes with anti-lock braking system (ABS)

### WHEELS AND TIRES

Standard/Leather-Appointed Model:	Cast-alloy 6.5" x 15" wheels and all-season 205/65R15 radial tires
Touring Model:	Performance forged alloy 6.5" x 15" wheels with all-season 215/60R15 radial tires

### WEIGHTS AND CAPACITIES

Curb Weight: (Manual/Auto)	Standard Model—3,090/3,165 pounds Leather-Appointed Model—3,165 pounds Touring Model—3,147/3,215 pounds
Fuel Tank:	18.5 gallons
Passenger Compartment:	99.6 cubic ft
Trunk Compartment:	14.1 cubic ft

### COEFFICIENT OF DRAG

Standard/Leather-Appointed Model:	(I30) .32
Touring Model:	(I30t) .31

### FUEL CONSUMPTION

City/Highway*:	Five-speed manual: 21mpg/26 mpg
	Four-speed automatic: 21mpg/28 mpg

*\*EPA-estimated figures are for comparison purposes only. Actual mileage may vary depending on driving conditions.*

## FEATURES

### MECHANICAL

Front engine/front-wheel drive ■ 3.0-liter DOHC 24-Valve V6 aluminum block and heads engine ■ Two-stage engine cooling system ■ Electronically controlled, liquid-filled front engine mount for reduced Noise Vibration Harshness (automatic transmission only) ■ Liquid-filled rear engine mounts ■ Five-speed manual transmission ■ Electronic sequential multi-point fuel injection ■ Platinum tipped spark plugs ■ Speed-sensitive, power-assisted rack-and-pinion steering ■ Front vented four-wheel power-assisted disc brakes with anti-lock braking system (ABS) ■ Independent MacPherson strut front suspension with stabilizer bar ■ Rear Multi-Link Beam suspension with stabilizer bar

### EXTERIOR

Laser-etched DURASTEEL® construction ■ Energy absorbing, body-color front and rear bumpers ■ Body-color dual power remote-control outside mirrors ■ Tinted glass ■ Bright door handles and side window moldings ■ Body color bumpers with chrome strip ■ Cast alloy wheels ■ Flush-mounted halogen headlights ■ Integrated fog-lamps and cornering lamps ■ Bright exhaust finisher

### SEATING AND INTERIOR TRIM

Five passenger seating ■ Driver's eight-way power seat with adjustable lumbar support ■ Front passenger's four-way power seat ■ Luxury velour seat cloth ■ Leather-wrapped steering wheel, parking brake and shift knob ■ Four-way adjustable front head restraints ■ Two-way adjustable rear head restraints ■ Fold-down rear center armrest ■ Plush, cut-pile carpeting with matching carpeted floor mats ■ Front seatback map pockets ■ Simulated wood appointments ■ Chrome inside door handles

### COMFORT AND CONVENIENCE

Automatic temperature control with non-CFC air conditioning ■ Cruise control with steering wheel-mounted controls ■ Manual-tilt steering ■ Instrument panel push-open storage tray ■ Keyless remote entry system with two transmitters ■ Rear center armrest pass-through ■ Two-speed intermittent variable wipers ■ Dual illuminated visor vanity mirrors ■ Center console with integrated armrest and large storage area ■ Power door locks ■ Power windows with "one-touch down" driver's window ■ Power trunk release (with cancel switch) and remote fuel-filler door release ■ Illuminated power window and door lock switches ■ Front door map pockets ■ Rear window defroster with timer ■ Side window defoggers ■ Illuminated entry system with time delay fade-out ■ Dual or single overhead map lights ■ Assist grips over three doors ■ Fully carpeted and illuminated trunk with cargo net ■ Cup holder ■ Coin tray

### INSTRUMENTATION

140 mph analog speedometer ■ 8000 rpm analog tachometer ■ Analog trip odometer ■ Digital clock ■ Warning lights ■ Analog coolant temperature/fuel level gauges ■ Low fuel warning light ■ Door ajar warning light ■ Stop/tail lamp out warning light

### AUDIO SYSTEM

200 Watt Bose® AM/FM Audio System with six speakers, two A-pillar tweeters and four amplifiers ■ In-dash CD player and cassette deck ■ Automatic power antenna with diversity antenna ■ Pre-wiring for Infiniti Communicator Series™ cellular phones

### SAFETY/THEFT PREVENTION

Three-point front seat belts with adjustable front seat belt upper anchors (passenger with ALR/ELR) ■ Driver's and front passenger's air bags ■ Three-point rear outboard ALR/ELR seat belts with two-point center belt ■ Front and rear crumple zones ■ Energy absorbing steering column and knee bolsters ■ Protective steel side door guard beams ■ Child safety rear door locks ■ Anti-theft system ■ Keyless remote entry system

*Every I30 is equipped with driver and front passenger side air bags. Used in conjunction with the three-point seat belts, they help reduce the risk or severity of injury in certain frontal impacts. Please keep in mind, however, that air bags are a supplementary restraint system designed to work in conjunction with your seat belt. With passenger side air bag, please be aware that a rear-facing child restraint must not be placed in the front-passenger seat and should only be used in a rear seat. Always follow the child restraint manufacturer's instructions. See the vehicle Owner's Manual for details on proper seat belt and child restraint use.*

### DEALER INSTALLED ACCESSORIES

Choice of two Infiniti Communicator Series™ cellular phones: Compact Communicator™ and Mobile Communicator™ ■ Splash guards ■ Sunroof wind deflector ■ Wheel locks ■ Engine heater ■ Battery warmer ■ Rear spoiler ■ Gold badging (available Summer 1995) ■ Trunk mat ■ Ski bag ■ Six-disc CD autochanger (trunk-mounted) ■ Car cover

### MODEL OPTIONS/AVAILABILITY

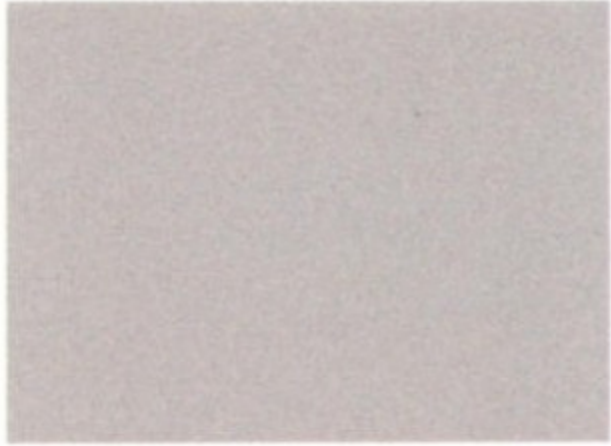

- **Standard Automatic Model includes:** Automatic transmission
- **Standard Automatic Model options:** Power sliding glass sunroof
- **Leather-Appointed Model includes:** Automatic transmission, leather seating surfaces, Integrated HomeLink™ Transmitter (remote control system that can be programmed to control radio frequency operated garage doors, gates, and your home or office lighting systems), power sliding glass sunroof, automatic anti-glare rearview mirror
- **Leather-Appointed Model options:** Heated Seats Package which includes heated front seats, heated outside mirrors, heavy duty battery, and low windshield fluid warning light; Traction Enhancement System consisting of Viscous Limited Slip Differential (requires Heated Seats Package)
- **Touring Model includes:** Five-speed manual transmission, leather seating surfaces, Integrated HomeLink™ Transmitter, Heated Seats Package, Traction Enhancement System, power sliding glass sunroof, automatic anti-glare rearview mirror, sport tuned suspension, lower/wider 215/60R15 all-season tires, performance forged alloy wheels, rear deck lid spoiler, unique I30t badging
- **Touring Model options:** Automatic transmission, Delete Heated Seats Package
