

**ALL NEW!**

# Jeep® *Fleetvan*

**DOES ANY LIGHT-DUTY JOB... *BETTER***

Fast moving Fleetvan is highly maneuverable in traffic and loading areas. Takes up less parking space than most cars. Great for light, gas and phone company uses.

Easy driving and comfortable. Fleetvan has all-points visibility... sliding weather-proof doors... efficient heating and ventilating system.

Fleetvan has no excess weight to carry... only payload! Ideal for laundries, cleaners and dyers, bakeries—any light pickup-delivery operation.

YOU GET MORE WITH A...

**Jeep®**

**Fleetvan**

### **MORE CARGO CAPACITY**

Only the 'Jeep' Fleetvan is designed to load so much cargo on so little wheelbase. You get a big 170 cu. ft. cargo capacity . . . on only 81 inches of wheelbase!

### **MORE PAYLOAD**

The Fleetvan hauls 1,000 lb. payloads — one third of its curb weight! Other vans need an extra half-ton of curb weight to carry the same payload!

### **MORE RELIABILITY**

You can depend on a Fleetvan because you know 'Jeep' vehicles. You've been hearing about them for twenty years, and you know the reputation they've built up. The 'Jeep' trademark on your Fleetvan is a guarantee of that reputation.

### **MORE MANEUVERABILITY**

Its 81-in. wheelbase coupled with a short turn radius give the Fleetvan the edge on maneuverability. Its overall length of only 154 in. means greater handling ease . . . in and out of traffic.

### **MORE STYLE**

No comparable van looks so trim as the Fleetvan. Or so individual. It's the stand-out vehicle that gives your business an air of distinction. The smart van is the Fleetvan.

### **MORE DRIVER COMFORT**

The Fleetvan was built with its driver in mind. Doors slide open and shut with ease. Completely ventilated and weatherproofed. Easy to get into or out of on either side. Has an efficient heater . . . an all-steel body for greater safety, more stability and extra strength.

### **MORE ECONOMY**

The famous 'Jeep' Hurricane F-Head powers the Fleetvan with the kind of economy only a 4-cylinder can give. You save, too, on oil, anti-freeze, plugs and garage space. And the Fleetvan is one of America's lowest-priced compact vans!

### **MORE ROAD VISIBILITY**

Only people who live in glass houses can see more than the driver of a 'Jeep' Fleetvan. Front, back or side — you always know what's coming. You can see the road only three feet from the front bumper.

### **MORE RESALE VALUE**

When the time comes to trade, you'll discover what traditionally high resale value means in a 'Jeep' vehicle. You'll get your money's worth while you drive the Fleetvan — and when you trade it. Contact your 'Jeep' Dealer or Fleet Representative soon!
