STAR CAR OF THE 80's

Laser

STAR CAR OF THE 80's

New Ford Laser – Star Car of the 80's.
New Ford Laser – the new Star Car for the demands of the future is here.
It combines all Ford's traditional strengths with the latest in world automotive technology.

New Laser is fuel efficient, responsive, roomy, reliable, inexpensive to maintain, superbly styled and supremely comfortable.

Never before has responsible motoring meant so much efficiency – or so much fun.

If you like what you're driving now you'll love Laser.

Ford Laser 1.3/1.5: 51.4 mpg (5.5 L/100 km) Highway Cycle – 35.3 mpg (8.0 L/100 km) City Cycle. Results of Australian Standard 2077-1979 Test Procedures. Actual fuel consumption depends upon many factors including driving habits and conditions and the vehicles equipment and condition.
