

**1987 GENERAL MOTORS
MILITARY SALES**

PASSING IN REVIEW

CHEVROLET PONTIAC OLDSMOBILE BUICK CADILLAC GMC TRUCK

READY FOR INSPECTION!

Throughout your military career, you have been required to be in a state of readiness, around the clock, because the military demands no less of you. You know how important it is to be ever on the alert and also ready for inspection at any given time. Not unlike the military, General Motors too must be in a state of readiness and prepared for inspection...your inspection...ready to serve your personal transportation needs and to do it with confidence. We at

General Motors demand no less of ourselves than the military does of you.

The technology...the advanced engineering...the quality and designs of General Motors products, reflect our dedication to offer the best possible transportation available. That is why we proudly present our 1987 product lineup for the inspection of the military community.

As you examine these exciting new vehicles, we are confident you will find one

to meet any requirement you may have in an automobile or light-duty vehicle. Whether it be an exciting, high performance, sporty vehicle, a personal luxury car, an off-road or utility vehicle, or something to accommodate the family, General Motors offers a vehicle in every price range.

Coupled with General Motors' unique combination of value, performance and economy, we also offer the military community additional values such as

The vehicles illustrated throughout this brochure are only a few select models available for your consideration. See your authorized GM military sales representative for availability of other models.

The General Motors Military Sales Program has been specifically developed for U.S. military customers serving overseas and is conducted under the direction of the General Motors Overseas Distribution Corporation (GMODC).

attractive military prices, competitive GMAC financing, guaranteed price protection and no additional stateside dealer courtesy delivery fees. All of which could result in substantial savings to you. In addition, each vehicle is backed by factory limited warranties, with approximately 16,000 General Motors dealers worldwide standing by to service your vehicle...should the need arise.

One out of every five new vehicle buyers will decide on a General Motors vehicle. Clearly, the world has given us an overwhelming vote of confidence. We hope you will too.

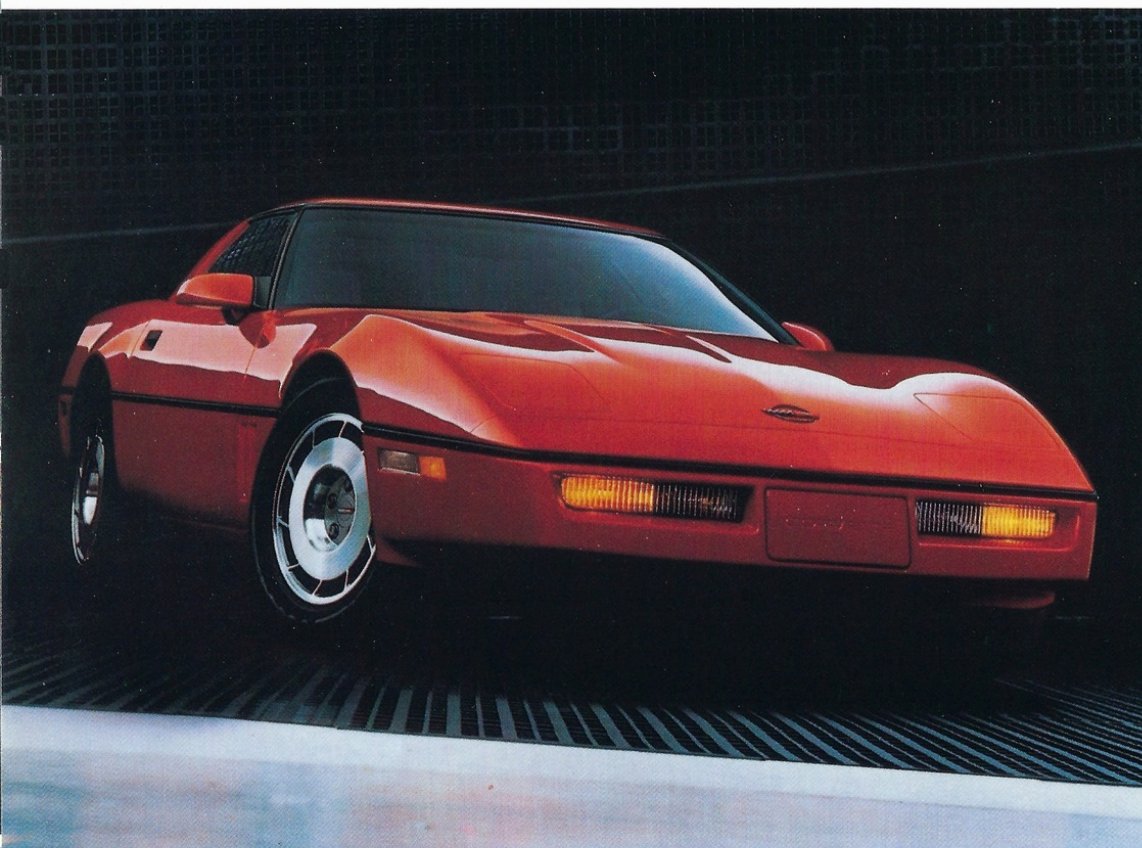

CHECKLIST OF VALUES

- ☒ Many diverse passenger car models and light duty vehicles to choose from.
 - ☒ Ease of ordering through service exchange sales outlets.
 - ☒ Attractive military prices.
 - ☒ Competitive GMAC financing to qualified buyers on U.S. deliveries.
 - ☒ Price protection (up to 180 days from date of order, but no later than 1988 new model announcement).
 - ☒ Availability of immediate delivery from dealers stock, upon arrival in the United States.
 - ☒ No additional stateside dealer courtesy delivery fees.
 - ☒ Service and warranties through a worldwide network of franchised General Motors dealers.
- Dressed in excellence, General Motors is ready for your inspection.

Feel the difference General Motors makes.

However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available at extra cost. Your General Motors dealer has details, and before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications and models. Check with your dealer for complete information.

A word about assembly, components and optional equipment in these General Motors products. The cars and trucks described in this catalog are assembled at facilities of General Motors Corporation operated by GM Assembly Divisions. These vehicles incorporate thousands of different components produced by various divisions of General Motors and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce General Motors products with differently sourced components than initially scheduled. All such components have been approved for use in General Motors products and will provide the quality performance associated with the General Motors name.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your vehicle is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your vehicle includes the optional equipment you ordered or if there are changes, that they are acceptable to you.

A word about engines. General Motors cars and trucks are equipped with engines produced at facilities operated by GM car and truck groups, subsidiaries or affiliated companies worldwide.

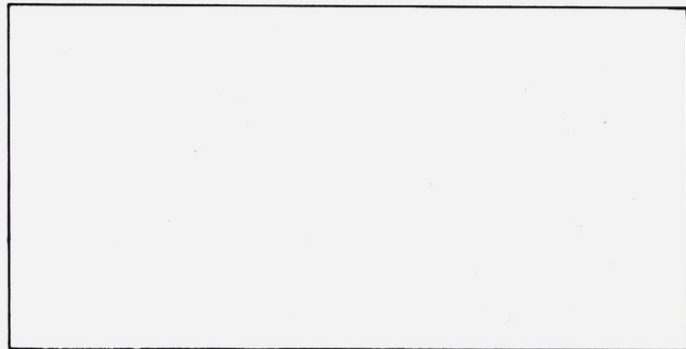

The GM Protection Plan. It offers service protection in addition to that provided by GM's new-vehicle limited warranty. Coverage is currently available only in the U.S.A. and Canada for the 1987 model year. See your General Motors dealer for details.
