

PLYMOUTH
ACCLAIM

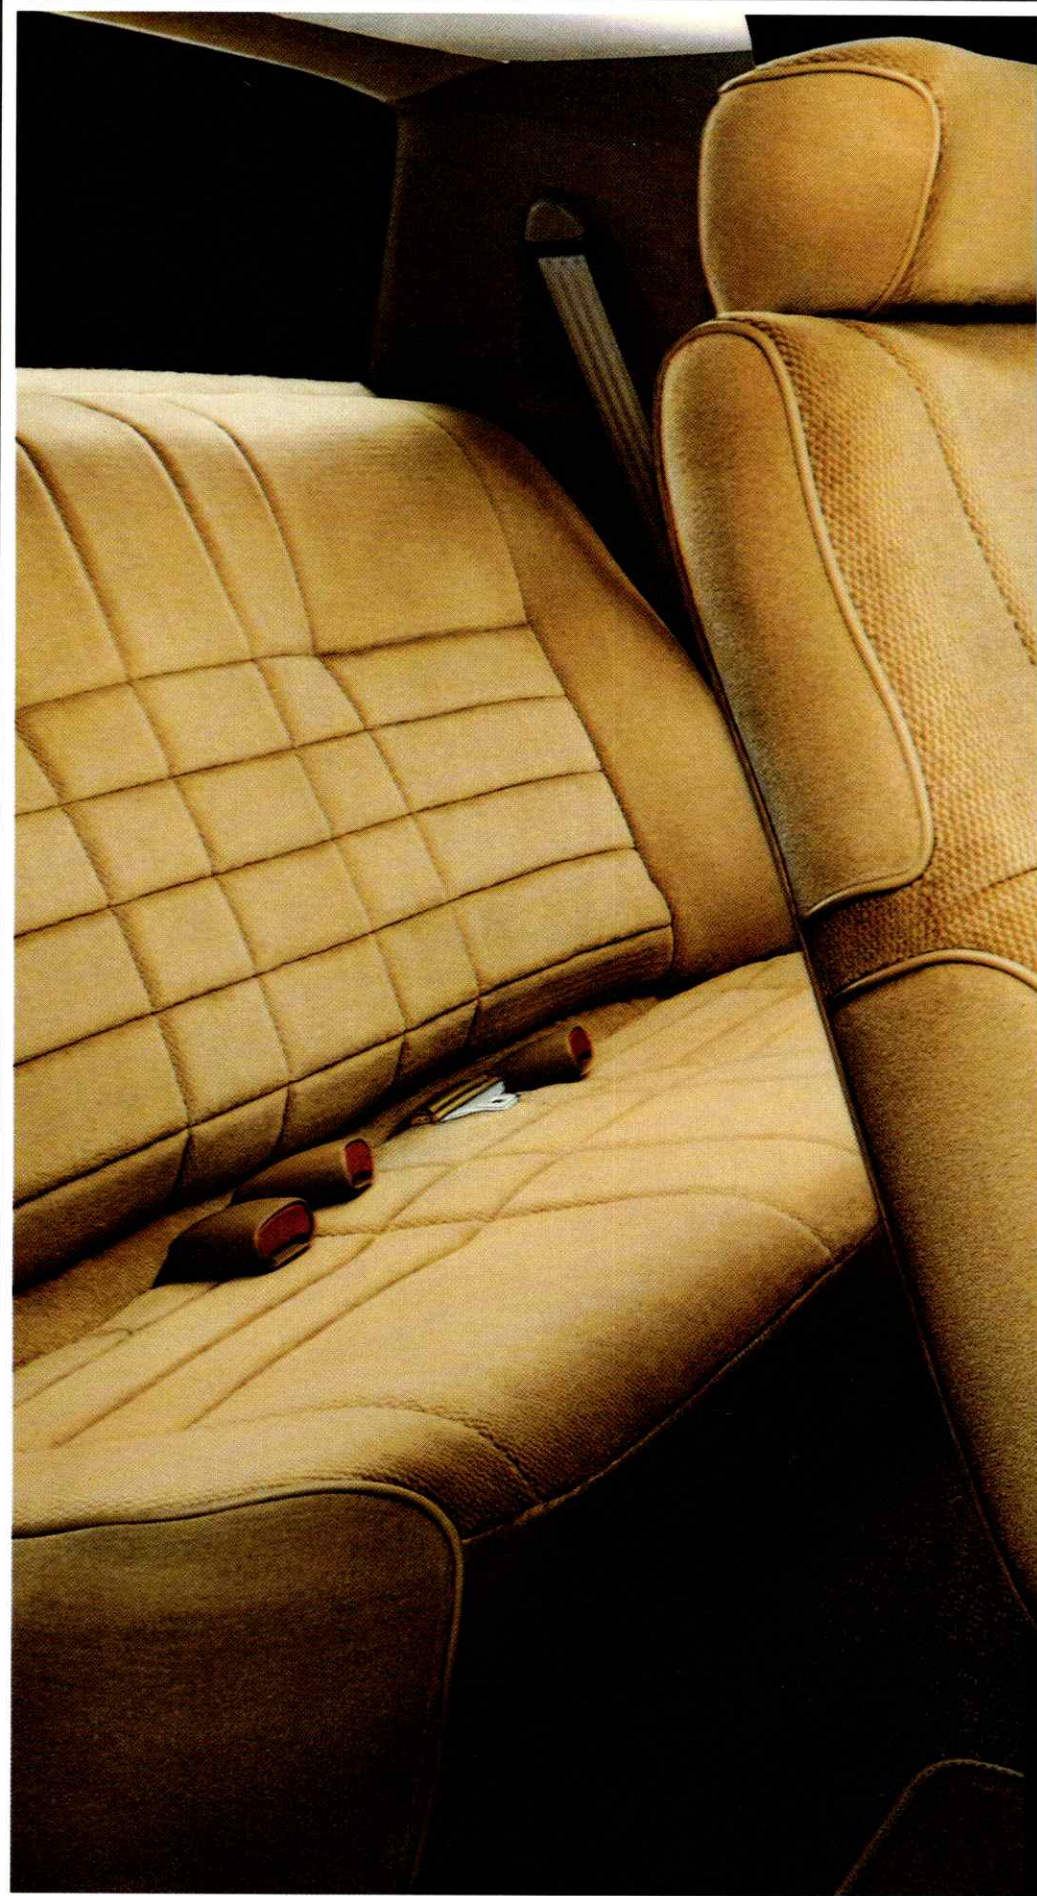

1992

POPULAR ACCLAIM

The Plymouth Advantage:
advanced engineering for the
family car. 1992 Acclaim continues

the Plymouth tradition of value combined with flair. This is the most distinctive Acclaim yet, blending engineering excellence, comprehensive equipment, smooth styling and comfort, plus there's the availability of optional seating for six. At a price that's more than merely competitive, it's little wonder why Acclaim has become such a popular choice among Canadian buyers.

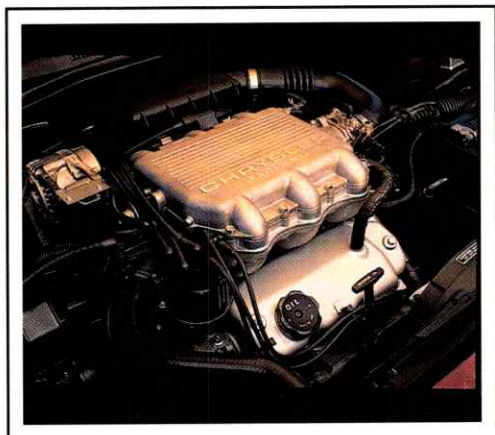

About this catalogue: Since the time of printing, some of this information may have been updated. Ask your Dealer for details before ordering. Some of the equipment shown or described throughout this catalogue is available at extra cost.

ACCLAIM

SPORTY PERFORMER

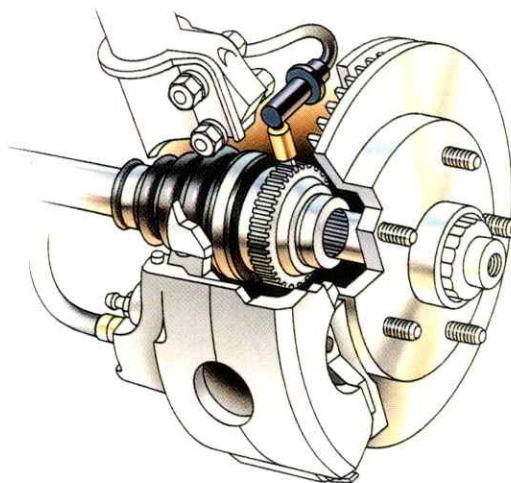

Chrysler extensively researched and tested Acclaim to meet customers' high demands for quality, durability and reliability. Sensibly legible full instrumentation, including tachometer and trip odometer, characterizes the Acclaim instrument panel. A driver's side air bag, to supplement the standard shoulder/lap belt, is optional. There's a standard 2.5-litre 4-cylinder, with balance-shaft technology for exceptional smoothness, either with 5-speed manual or optional 3-speed automatic. And there's the choice of a three-speed or sophisticated four-speed automatic transmission with the optional 3.0-litre V6 engine. This smooth, powerful yet compact engine

includes features such as overhead camshaft design (OHC) and new sequential Multi-point electronic fuel injection (SMPI). Front-wheel drive and a refined touring suspension offer superior handling and excellent ride, even on harsh road surfaces. Standard position-sensitive gas-charged front struts and gas-charged rear shock absorbers make for excellent road manners; to suit differing driving tasks a Firm Ride/Handling suspension is offered as an option.

ADVANTAGE: SAFETY

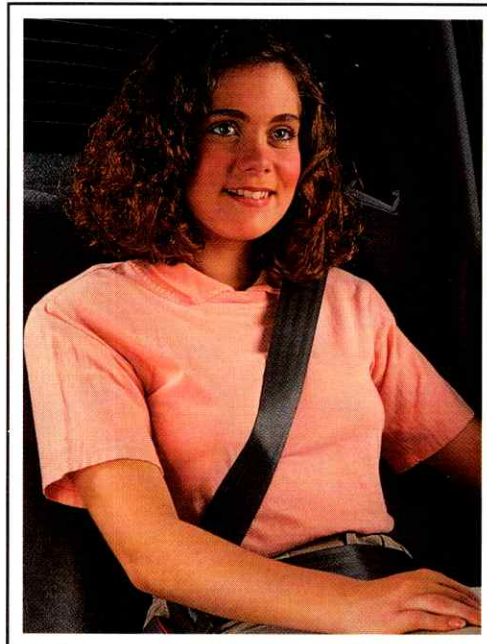

The Chrysler tradition of leadership in safety and engineering is upheld by the 1992 Acclaim. Consider, for instance, the optional driver's side air bag that helps protect you in a frontal impact; the optional four-wheel anti-lock disc brake system (ABS) that helps maintain optimum braking and steering control; the

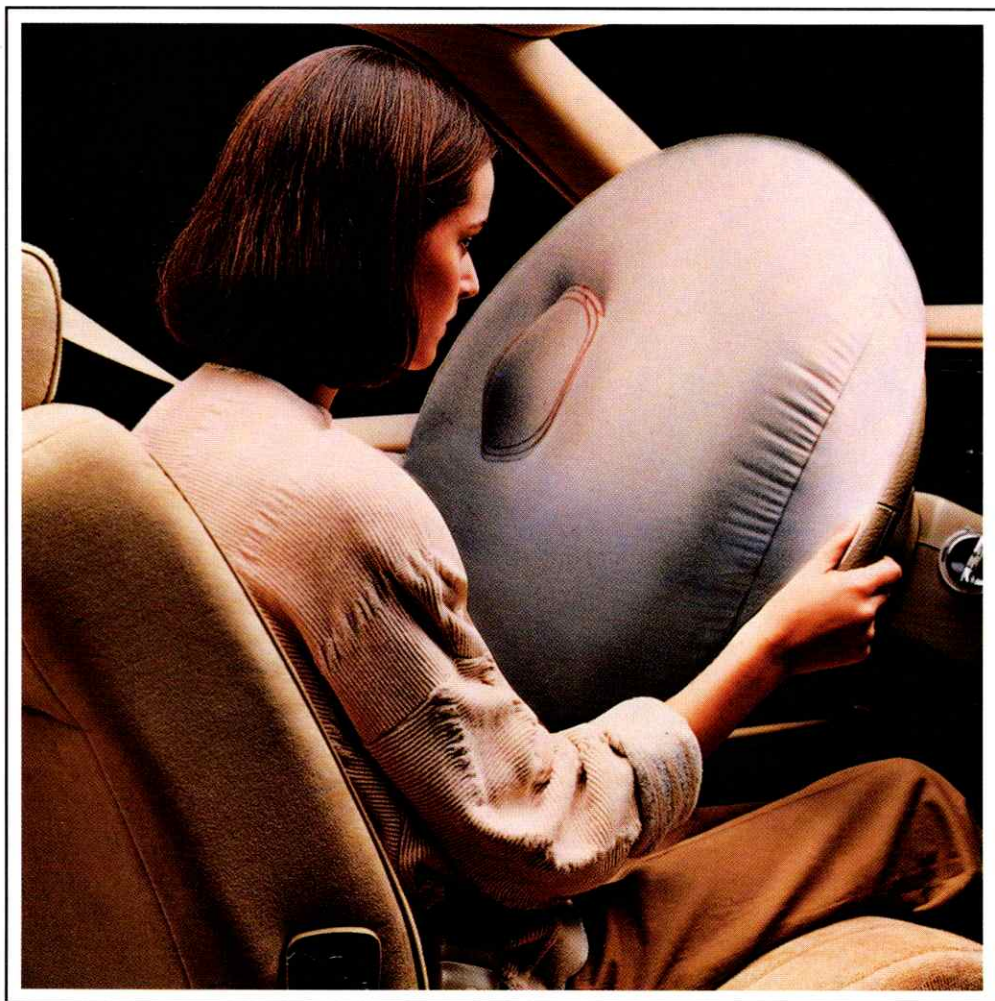

stability of front-wheel drive; and the performance of optional V6 power. Just some examples of Chrysler-engineered features that

offer added security.

Some further examples: a new optional illuminated entry system will light the interior before you enter, and a standard separate valet key, which will not open the trunk, offers protection for valuables. New cinching latchplates, used on

shoulder/lap belts at front and rear outboard seating positions, hold child seats and passengers in the proper position for increased safety, and standard child-protection door locks prevent accidental opening of the rear doors from inside. Major engineering emphasis has been placed on driver comfort and ease-of-operation. Controls are located to be as user-friendly as possible. Optional is a driver's side air bag, to supplement the shoulder/lap belt; in front-end

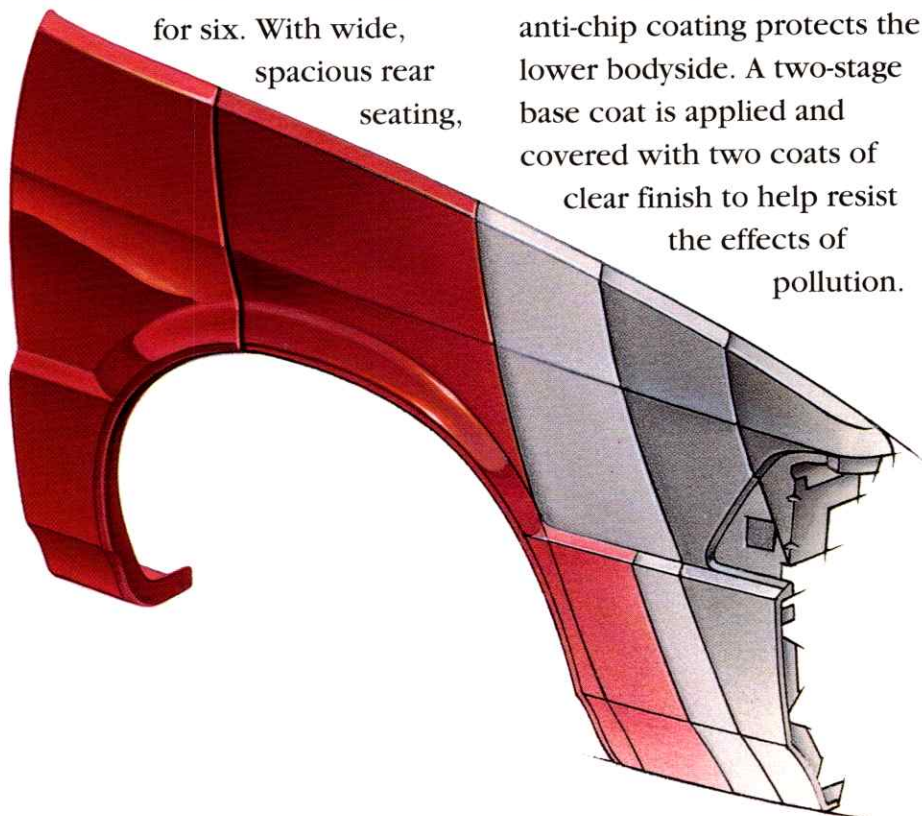

collisions over 18 km/h, this device fills up in about 1/10th of a second, helping to absorb impact, then deflates again, all this in about half the time it takes to blink an eye. Enter the quiet and refined world of Plymouth Acclaim. Standard reclining front bucket seats are teamed with a full front storage console. Choose the optional 50/50 split bench front seat and Acclaim has room for six. With wide,

spacious rear seating,

there's generous legroom, while the optional split fold-down rear seatbacks provide added cargo-carrying versatility. And a low liftover trunk design eases loading and unloading, whether bulky shopping bags or heavy objects.

On the outside, Chrysler protects the beauty of Acclaim for miles to come. The comprehensive anti-corrosion measures begin with use of corrosion-fighting galvanized steel for almost all body panels. Zinc-iron alloy-coated steel is zinc-phosphated as part of a nine-step pretreatment which cleans and prepares the metal surface. The entire body is fully immersed in a coating of corrosion-resistant epoxy, and an anti-chip coating protects the lower bodyside. A two-stage base coat is applied and covered with two coats of clear finish to help resist the effects of pollution.

SEATING

Standard on Acclaim. Cloth front bucket seats. Both seats feature an adjustable head restraint and seatback recliner. The rear bench seat has a fixed back. Also available with optional 55/45 split fold-down rear seatbacks.

Optional on Acclaim. Cloth 50/50 individually adjustable front seats. Both seats feature a folding centre armrest, adjustable head restraint and seatback recliner. The rear bench seat has a fixed back. Also available with optional 55/45 split fold-down rear seatbacks. Requires optional automatic with column shift.
