WE DIDN'T REINVENT THE
WHEEL. JUST EVERYTHING
ABOVE IT.

Breeze Expresso
shown in Stone White.

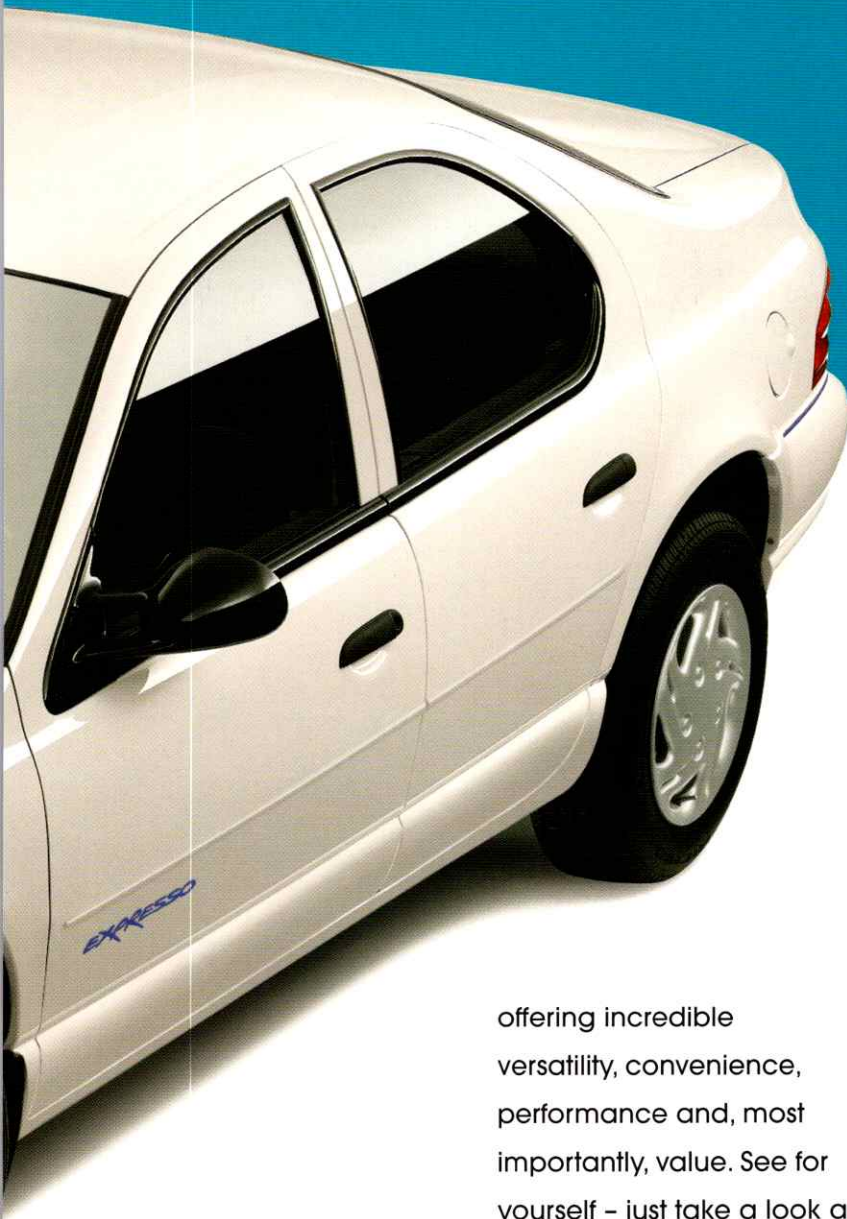

Neon

Grand Voyager

Plymouth Breeze voted 1997
Carguide **"Best Buy"**

offering incredible versatility, convenience, performance and, most importantly, value. See for yourself – just take a look at our family-friendly Plymouth Breeze, shown here in the stylish new Expresso package. Or the quick and sporty Plymouth Neon. Our ingenuity is equally evident in the popular award-winning Plymouth Voyager and Grand Voyager

At Plymouth, we create new vehicles with one guiding principle: when it comes to innovation, there are no limits. With that kind of philosophy, it's no wonder Plymouth vehicles are filled with all sorts of clever ideas,

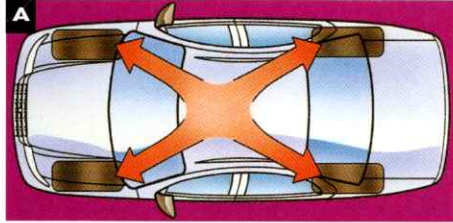

minivans. And, last but not least, the unforgettable Plymouth Prowler, an uncompromising homage to the classic roadster that is sure to stir the soul as easily as it turns heads. In each of these vehicles, you'll find that innovative thinking comes as a standard feature. As far as not reinventing the wheel goes? Well, that may be true, but we did reposition them. That's Plymouth.

Prowler represents Plymouth innovation in its most audacious form.

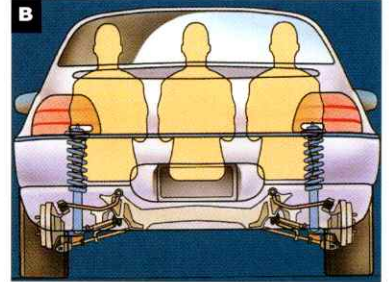

ABOUT THIS CATALOGUE: Since the time of printing, some of this information may have been updated. Ask your dealer for details before ordering. Some of the equipment shown or described throughout this catalogue is available at extra cost.

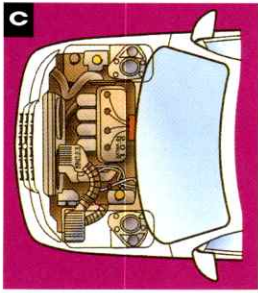

WITH THIS MUCH ROOM,
BREEZE IS A BREATH OF
FRESH AIR.

A few years ago, the introduction of Cab-Forward architecture hit the automotive world like a breath of fresh air. Today, it continues to set the standard for innovative design. This approach cleverly pushes all four wheels further out toward the corners (A), making

Breeze feel more like a midsize sedan than a compact. In fact, Breeze offers one of the most spacious interior cabins in

its class (B), with substantial leg, hip and shoulder room for five adults. By positioning the engine and transmission compartment

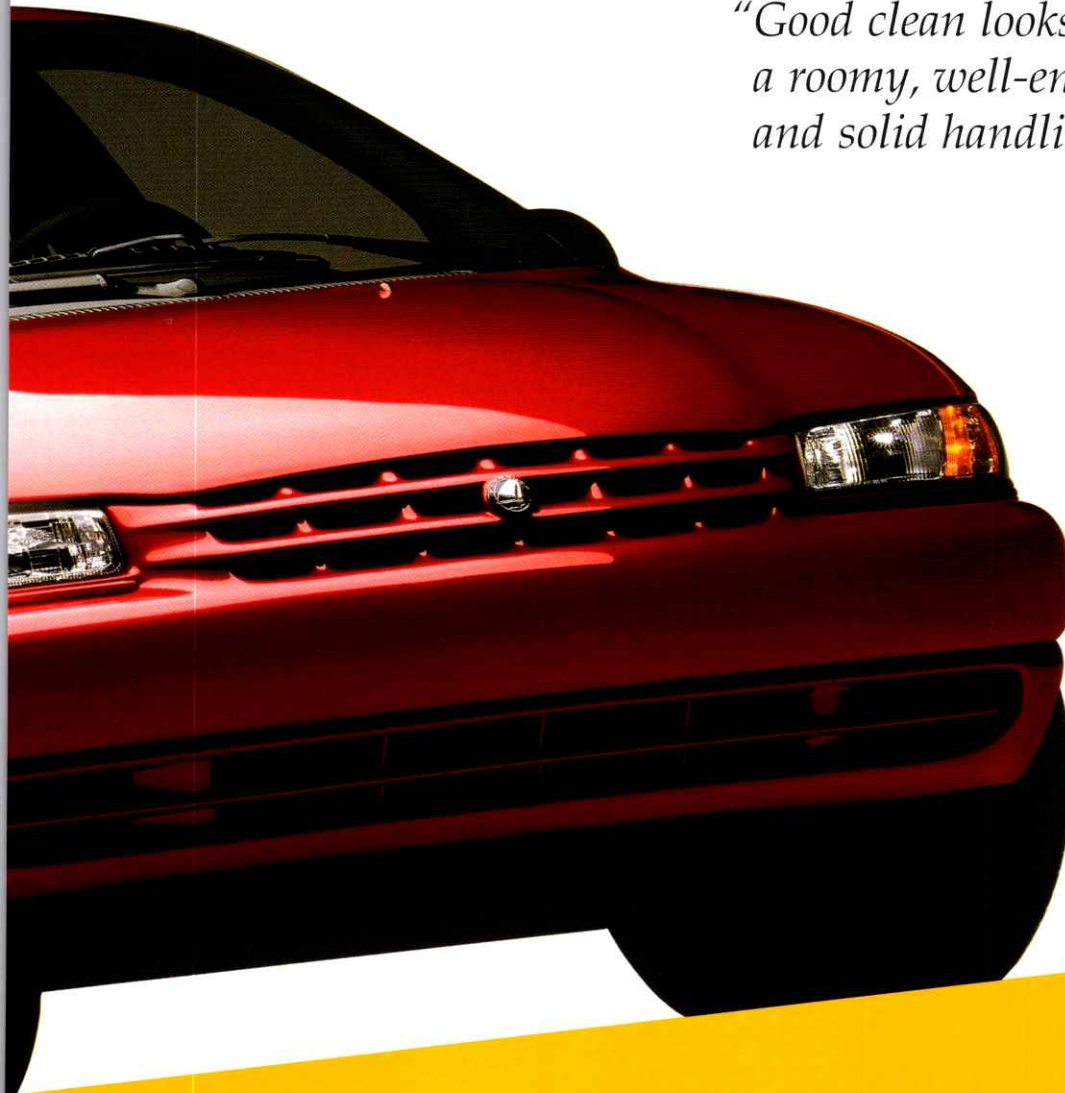

more space-efficiently (C), driver and passenger room is further enhanced. In terms of performance, Cab-Forward gives Breeze a wider road-gripping stance. Cornering is tight, confident and controlled, while a longer wheelbase helps deliver a smoother ride. It also lends Breeze a

dramatically aerodynamic shape that looks unlike anything else in its class (D). And, the larger windshield area provides commanding road visibility.

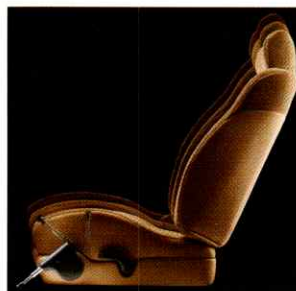

"Good clean looks, a tight body, a roomy, well-engineered interior, and solid handling..."

– Motor Trend

Breeze shown in Candy Apple Red.

**BREEZE ALLEVIATES
FAMILY GROWING
PAINS FAST.**

Shown is the optional manual four-way driver's seat, with a telescoping handle for easier adjusting.

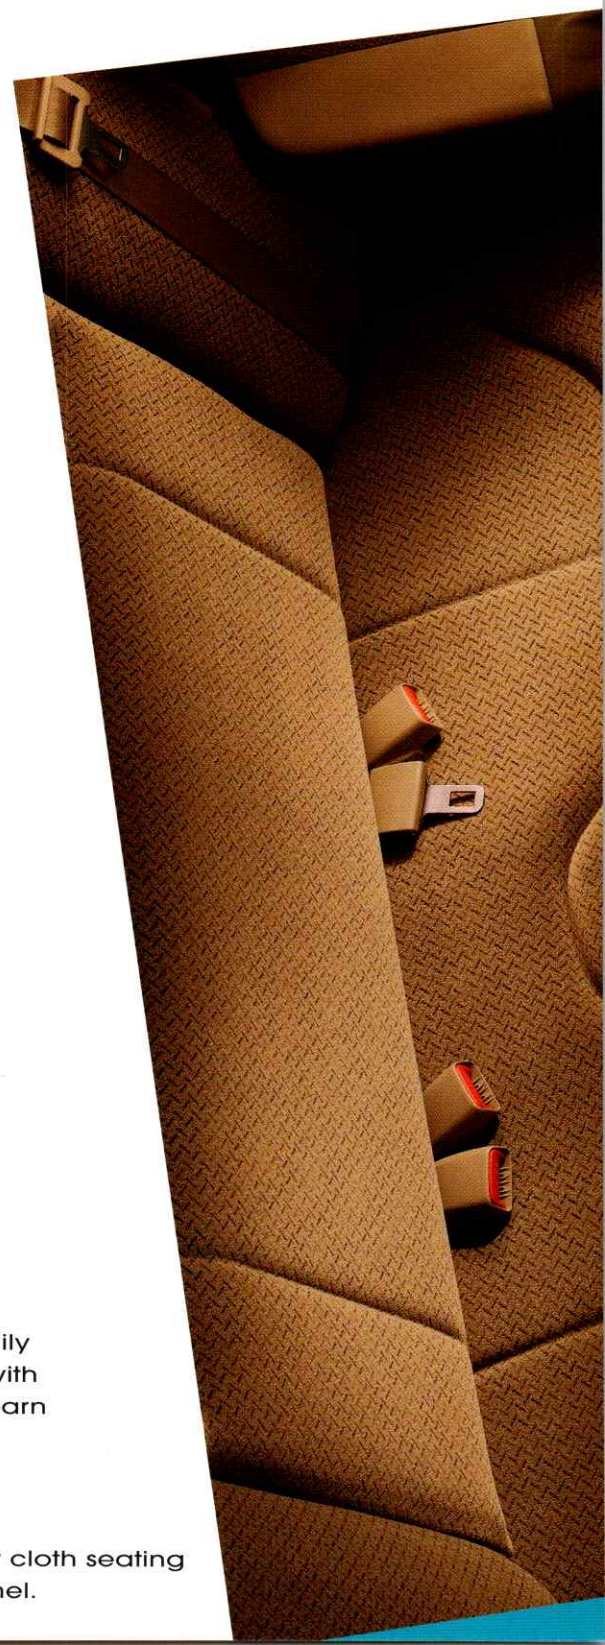

"...its roomy aspect seems slightly like a magician's trick..."

— Motor Trend

Thanks to a spacious interior that can easily accommodate five adults, Breeze is able to keep pace with the demands of growing families. And to help make everyone even happier, Breeze provides comfortable ergonomic seating. It's specially designed to eliminate fatigue-causing pressure points, making those long car trips a lot more

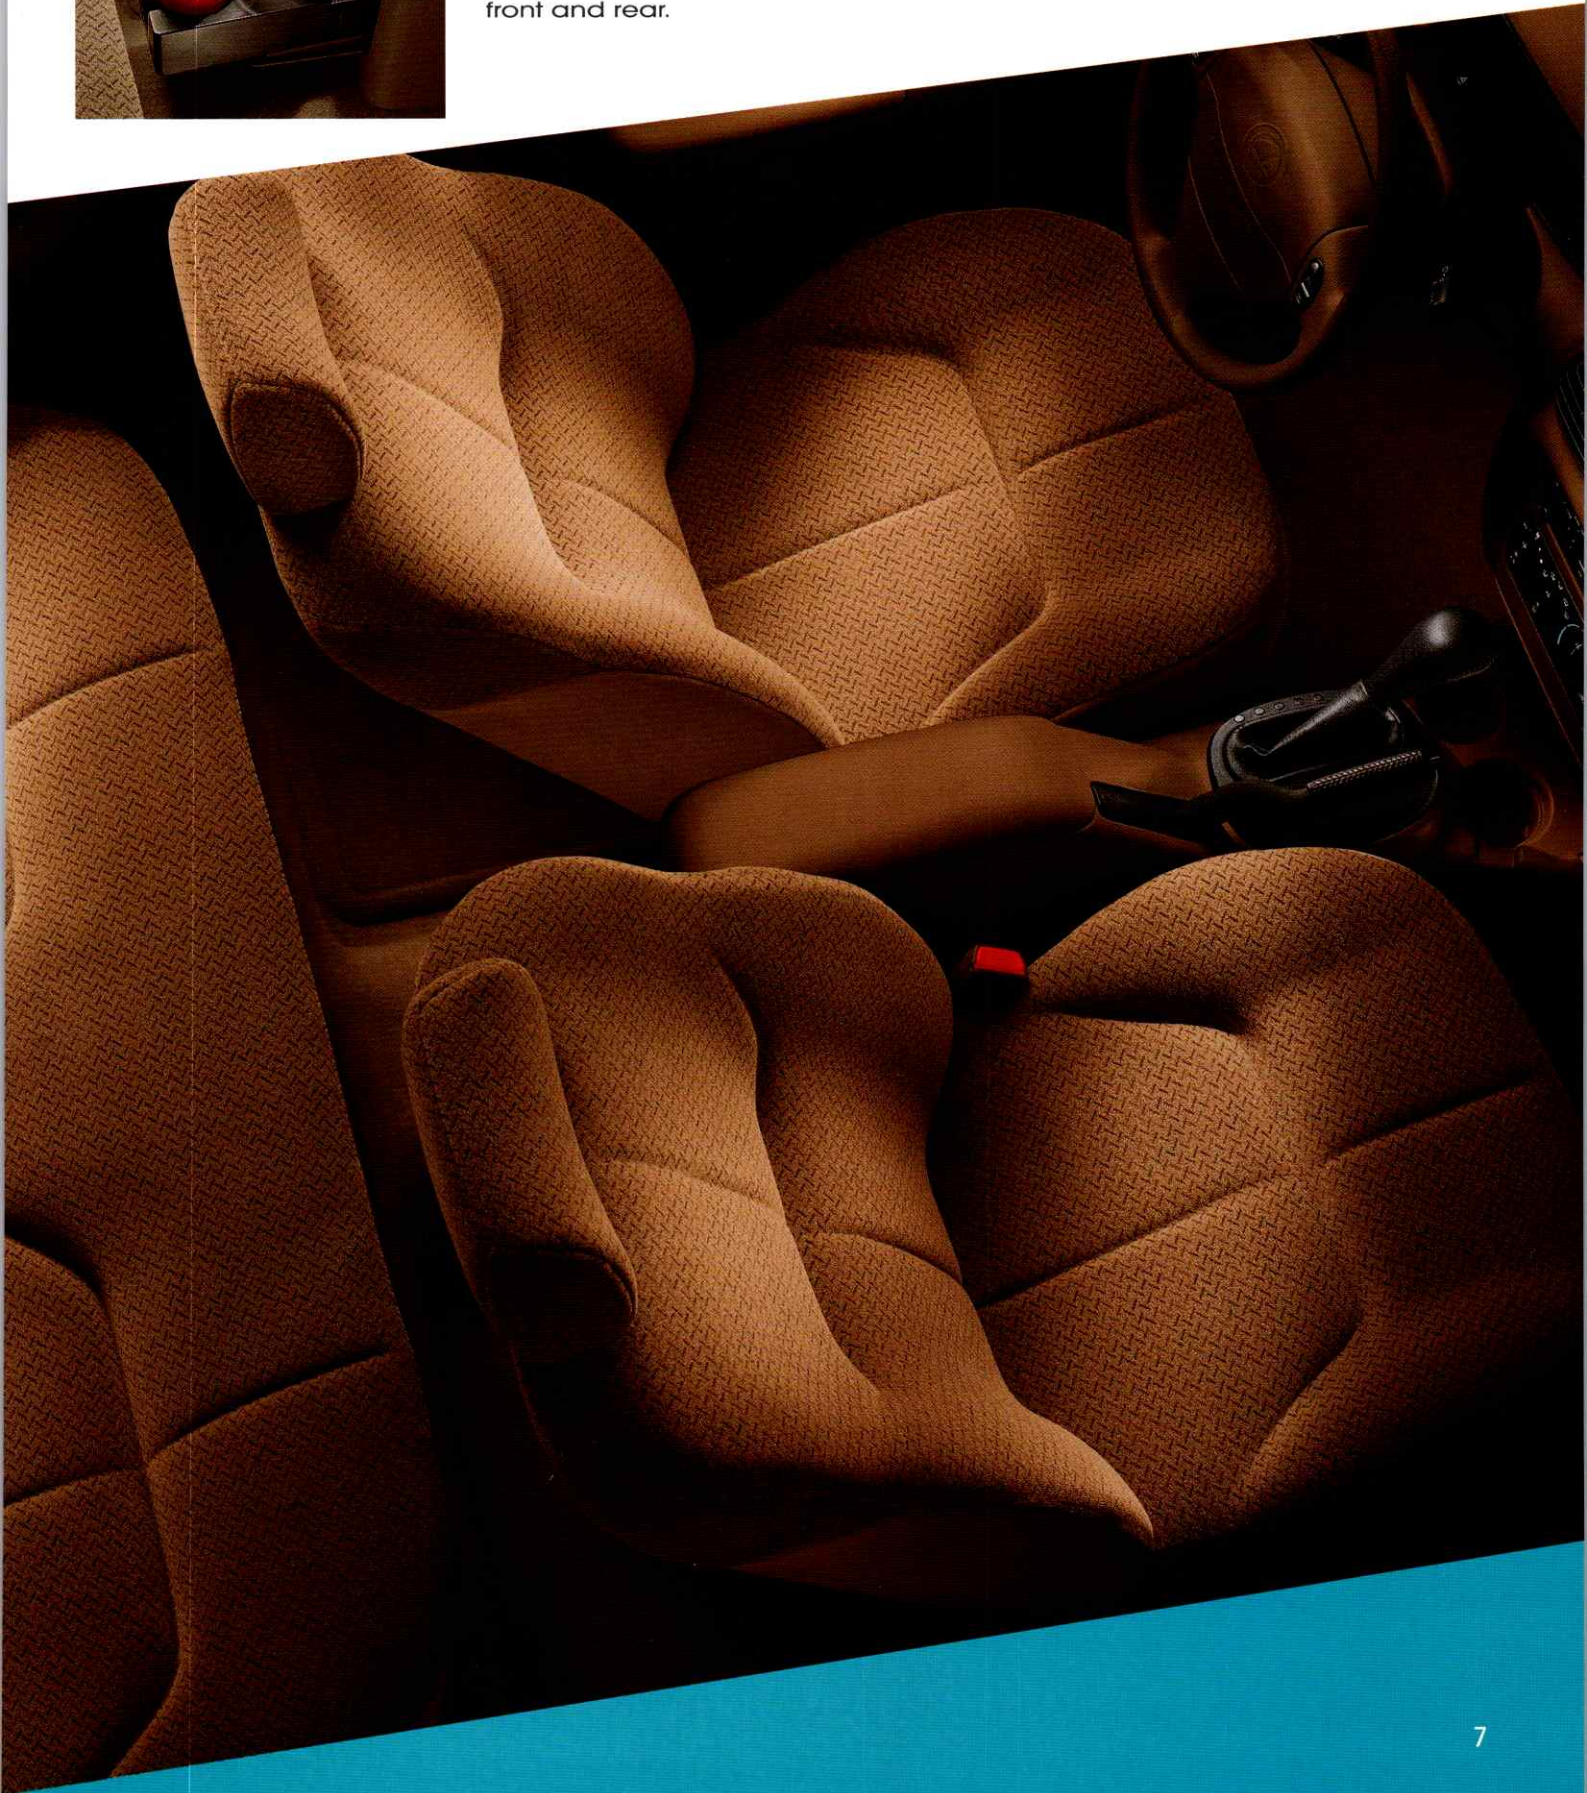

enjoyable. Up front, cloth low-back bucket seats with adjustable head restraints, and comfort-enhancing height-adjustable shoulder belts are standard, while a manual four-way driver's seat is optional. A standard centre floor console offers an armrest and convenient covered storage area. When you need to carry more cargo than passengers, you can take advantage of a standard full-folding rear seatback. Should you prefer, an optional fixed bench with Built-In Child Seat is available.

Breeze accommodates the family budget very nicely, especially with Chrysler Gold Key Leasing. To learn more about this flexible option, please see the back cover.

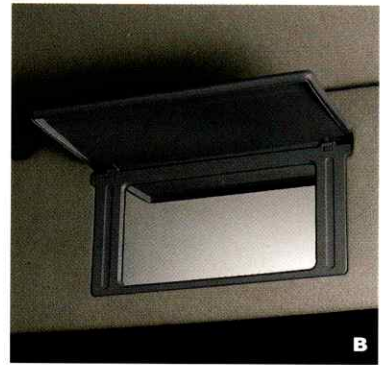

Breeze console
features two cup
holders for the
front and rear.

YOU'LL FIND EVERYTHING
YOU NEED AT YOUR
FINGERTIPS.

*"In addition to sheer
interior volume, the Breeze
coddles its occupants with
well-sorted ergonomics..."*

– Motor Trend

When you're behind the wheel, distractions are the last thing you need. That's why we focused on convenience and clarity in designing Breeze. A large windshield gives you a panoramic view of the path ahead. All switches, levers and control knobs have been smoothly sculpted and placed within easy reach. The analogue instrument cluster is easily read at a glance, while the available electronic speed

controls are cleverly integrated in the steering wheel for instant access. Other thoughtful amenities: standard air conditioning (A) with rear-seat heating/cooling outlets, dual visors with covered vanity mirrors (B), tinted glass all around and tilt steering column. Optional conveniences include power heated exterior mirrors, power windows and door locks, as well as power sunroof that lets the sunshine in. For your listening pleasure, there are five available sound systems.

The optional premium AM/FM stereo (shown below) features auto reverse cassette, twenty-four station presets, and a dash-mounted six-disc CD changer.

Other optional sound systems include: a premium AM/FM stereo with cassette and CD changer controls; an AM/FM stereo with full-logic auto-reverse cassette player, seek function and twenty station presets; and an AM/FM stereo with CD player and graphic equalizer.*

Standard on Breeze is an AM/FM stereo radio with seek function and twenty station presets.

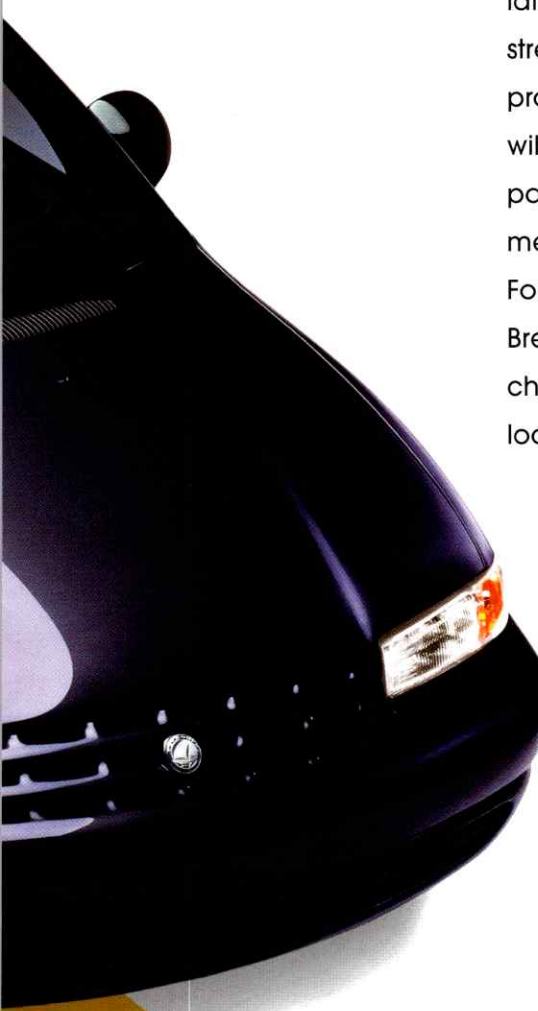

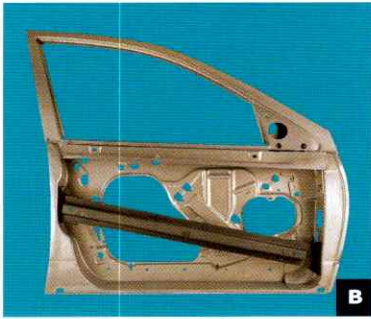

*CD system does not include cassette player.

Breeze instrument panel.

YOU'VE MET THE FUN,
CAREFREE SIDE. NOW
MEET THE STRICT,
UNCOMPROMISING
SIDE.

Pleasure, freedom and enjoyment are what Breeze is all about. But for our engineers, that meant taking a very serious look at vehicle safety features. To help provide protection in frontal impacts at speeds of 23 kilometres per hour (14 mph) or more, they gave Breeze standard Next-Generation driver and front passenger air bags* (A). In the event of a lateral collision, high-strength steel side-intrusion-protection door beams will give you and your passengers an added measure of security (B). For younger travellers, Breeze offers standard child-protection rear door locks, and an optional

Built-In Child Seat.**

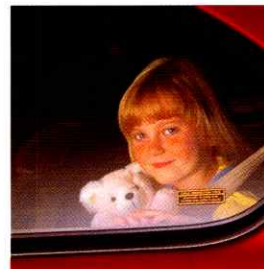

Meanwhile, you'll be able to get a better view of the road ahead, thanks to standard speed-sensitive and variable intermittent windshield wipers. Options include a power-assisted four-wheel anti-lock brake system (ABS) that helps you maintain control in wet and slippery road conditions, and a Personal Security Package featuring remote keyless entry, illuminated entry and panic alarm.

*Certified to the new Transport Canada Regulations that allow less forceful air bags. Always use seat belts. Remember a back seat is the safest place for children.
**Requires fixed rear seatback.

"It's a whole lot of car for the money..."

– Motor Trend

You can take comfort in knowing that Breeze offers standard child-protection rear door locks. The convenience and security of a Built-In Child Seat** is optional.

Breeze shown in Deep Amethyst.

WHETHER YOU'VE SETTLED DOWN OR NOT, BREEZE WILL STIR THINGS UP.

Engineered for the young-at-heart, Breeze blends energy and economy with its standard 2.0-litre four-cylinder SOHC 16-valve engine.

Matched to a standard five-speed manual transmission, this power plant produces an invigorating 132 horsepower. Craving more? An optional 2.4-litre four-cylinder DOHC 16-valve dual-balance-shaft engine (A), linked to a four-speed automatic transmission with lock-up torque converter (for improved fuel economy), produces 150 horsepower. Breeze adds advanced prowess to this power with a four-wheel independent

double-wishbone suspension (B).

Incorporating unequal-length control arms, this

system gives Breeze tight contact with the road, resulting in crisp and responsive handling. And with its wide wheel stance, Breeze stability is also enhanced.

Great vehicle innovations don't just happen. Developing them requires significant investment in people and state-of-the-art technology. That's what the University of Windsor/Chrysler Canada Ltd. Automotive Research and Development Centre in Windsor, Ontario, is all about. This facility features road simulators, a vehicle experimental laboratory and the amazing CATIA computer application, which allows our designers to create and test virtually every component of a new vehicle right on their computer screens.

Breeze incorporates two high-strength steel underbody rails that run uninterrupted from front to rear. This helps provide a stiffer vehicle body, further enhancing handling.

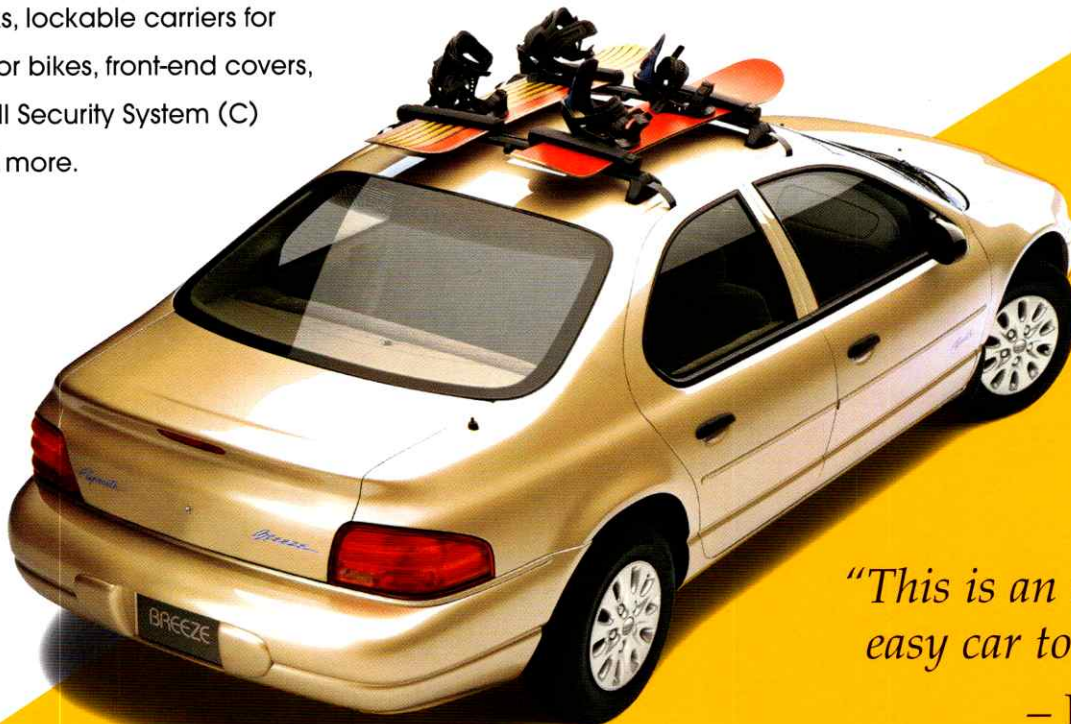

ALL THAT'S MISSING IS YOUR PERSONAL TOUCH.

With genuine Mopar Accessories, you can tailor Breeze to fit your lifestyle perfectly. Approved by Chrysler engineers and designed specially for Chrysler vehicles, the Mopar Accessories list includes roof racks, lockable carriers for skis or bikes, front-end covers, EVS II Security System (C) and more.

C

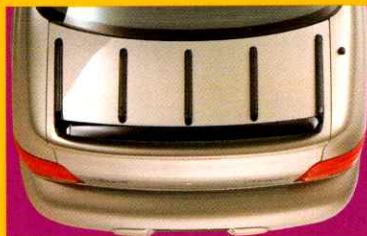

They're all available through your dealer and, when installed at the time of your vehicle purchase or lease, fully covered by your new-vehicle warranty.

"This is an exceptionally easy car to drive..."

— Motor Trend

The Chrysler Ownership Experience

It starts with Customer One.

Your Chrysler Canada dealer is committed to providing you with the most satisfying ownership experience. To help achieve that goal, Chrysler Canada dealership staffs are participating in an ongoing initiative called Customer One, which establishes one unbreakable rule: treat each customer with honesty and respect. Through and through, Customer One is aimed at making your needs as a customer the first priority of each employee at every Chrysler Canada dealership.

Chrysler Five Star Service

We strive to honour our commitment to Customer One every day with a Five Star

standard of quality maintenance and repair service. When you come in for service, we'll listen to you to better understand your needs, and we'll do everything we can to maintain your trust. With Chrysler-trained technicians, Mopar Replacement Parts, personalized service, a commitment to convenience, and competitive prices, Chrysler Five Star Service is your key to a satisfying service relationship and a rewarding ownership experience. Customer One and Chrysler Five Star Service. They're both just part of our efforts to make your Chrysler ownership experience as rewarding as the Chrysler Canada vehicle that you select.

Trans Canada Trail

Chrysler Canada is proud to be a Founding Sponsor of Trans Canada Trail, a non-profit charitable organization dedicated to building a coast-to-coast trail for walking, cycling, horseback riding, cross-country skiing, and snowmobiling (where possible and/or desired). A trail made by and for all Canadians.

Leasing for Today's Lifestyles

Leasing is one of the most popular ways to drive a new vehicle. Chrysler Canada's Gold Key Lease has the flexibility to fit your vehicle choice and your lifestyle. If the idea of getting the type of vehicle you really want, more often, and paying less for it per month sounds great, ask about Gold Key Lease.

The Gold Key Difference:

Because you only pay for the portion of the vehicle's life you'll use, a Gold Key Lease can offer many great advantages, all of which help you drive the vehicle you've always wanted.

- **Lower Monthly Payments**

Gold Key Lease payments are typically lower than conventional finance payments.

- **Shorter Term**

With a Gold Key Lease, you can drive a brand-new vehicle as often as every 24 months.

- **Flexibility**

Gold Key Lease terms and payments can be tailored to fit your driving habits and lifestyle.

- **Three Great Options**

A Gold Key Lease offers you three great options at lease end: 1) Turn the vehicle in and lease a new one. 2) Buy the vehicle and keep it. 3) Buy it and sell it for a possible profit.

Auto Debit Option

Gold Key Lease customers have the option of participating in Auto Debit – a convenient system that electronically deducts your monthly lease payment from your chequing or savings account.

Warranty

Warranty coverage is an important part of the ownership experience. Chrysler Canada's 1998 warranty is designed to be simple and straightforward, while providing protection that meets the needs of Canadian drivers. It's this simple – almost everything is covered for 3 years or 60,000 km,* except for tires and a few wear items. All body sheet metal panels have rust-through coverage for 3 years, regardless of distance driven, and outer body panels are covered for 5 years or 160,000 km.* In addition, Chrysler Canada will provide a 24-hour roadside assistance plan for 3 years or 60,000 km.* See your dealer for details. *Whichever occurs first.

Corrosion Protection

The vehicle corrosion protection and paint processes are backed by the Chrysler 5/160 Anticorrosion

Limited Warranty. Galvanized or galvanized steel is used for almost all major body panels and structural components. Two high-lustre colour coats are applied over the primer coats and are protected by two clear coats that provide resistance to abrasion, weathering, and chemicals.

Chrysler Service Contracts

Optional Chrysler service contracts can provide owners with additional peace of mind. They are available in a variety of time and distance combinations to meet your particular ownership needs.

Financing Assistance

Chrysler Credit offers qualified buyers a wide variety of new vehicle purchase financing plans, including Retail Financing, Gold Key Lease and College/University Graduate Plans.

Mopar Parts

When replacement parts are needed, be sure to specify genuine Mopar parts – the first choice of Chrysler engineers. Warranties range from 12 months unlimited mileage to lifetime. Ask for details.

Physically Challenged Assistance Programme

A programme which provides assistance towards the cost of purchase and installation of adaptive driving aids or passenger equipment on new 1998 vehicles. For further information, contact your dealer.
