Breeze instrument panel.

A close-up, high-angle photograph of a vehicle's interior, focusing on the front and rear seats. The seats are upholstered in a brown fabric with a subtle, repeating geometric pattern. The lighting is warm and directional, coming from the upper left, which creates strong highlights on the seat cushions and headrests, while casting deep shadows in the creases and under the seats. A seatbelt with a tan-colored buckle is visible on the left side of the frame. The overall composition emphasizes the texture and contours of the seating area.

Breeze uses Cab-Forward architecture to deliver one of the roomiest five-passenger interiors in its class and true three-across seating in the back. Cloth low-back front bucket seats and height-adjustable front shoulder

belts are standard on Breeze. So is a centre console with padded armrest, covered storage and two convenient cup holders. Both Breeze models feature a versatile, folding rear seatback for increased cargo carrying capacity.

Feel the Power of Breeze.

Breeze is engineered to put wind in your hair and a smile on your face. A 2.4-litre DOHC 16-valve four-cylinder engine delivers 150 horsepower for plenty of get-up-and-go. Paired with a smooth-shifting four-speed automatic transmission, this combination delivers a great balance of performance and

efficiency. Fully independent modified double-wishbone suspension and rack-and-pinion power steering team up to provide smooth manoeuvrability at low speeds, and precise control on the highway. And, for greater confidence in emergency braking situations, four-wheel anti-lock brakes (ABS) are also available.

Breeze shown in
Inferno Red Tinted Pearl Coat.

Two high-strength steel underbody rails contribute to a remarkably stiff structure, giving Breeze a solid feel and a hushed ride.

Four-wheel independent double-wishbone suspension gives Breeze crisp, responsive handling.

Optional personal security package includes remote keyless entry, panic alarm and illuminated entry.
