

PONTIAC 1987

BONNEVILLE 6000

GRAND PRIX SAFARI

THE NEW PONTIAC BONNEVILLE SE

Welcome to the state of the art. The all-new Bonneville SE sports sedan is the latest expression of Pontiac's road car philosophy. A superb example of advanced styling and engineering combined for the singular thrill of driving.

This Bonneville is all new from nose to tail. Front-wheel drive, a new 3.8 litre powerplant with sequential-port fuel injection, power rack-and-pinion steering, and 4-wheel independent suspension with gas-pressurized struts and Eagle GT radials are all standard.

Inside, SE comes equipped with 45/45 split seating and floor console. Complete analog instrumentation and Driver Information Center.

THE NEW PONTIAC BONNEVILLE LE

The fluid shape of the new Bonneville LE invites you to enjoy the open road. With split reclining 45/55 seats for firm, comfortable support. Plus standard power windows and available air conditioning to make the trip even more enjoyable. And you can add even more to your driving pleasure with available Electronic Ride Control and a power sunroof. And with the available Delco UT4 or Delco/Bose music systems, there's the added convenience of having the most important radio controls duplicated on the steering wheel hub.

Instruments in Canada are metric where required.

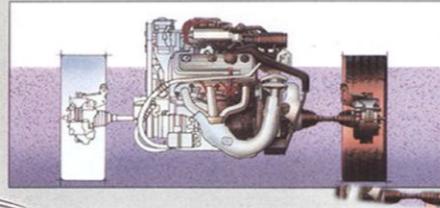

BONNEVILLE PERFORMANCE & ENGINEERING HIGHLIGHTS

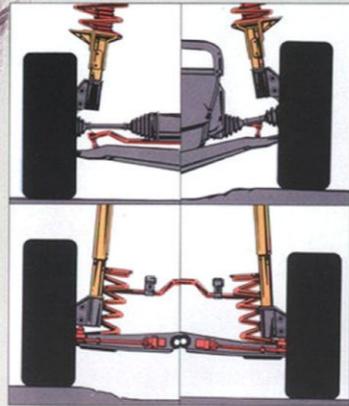

With a name like Bonneville, there's a lot to live up to. That's why this sports sedan packs horsepower, handling and sleek good looks into one serious and sophisticated road car.

You don't have to tell a soul that our front-wheel-drive Bonneville has the most powerful V6 in the whole Pontiac line. When you need all 150 hp., they'll know.

Remember how "form follows function"? That's why Bonneville looks this sleek while turning in a drag coefficient of .392 and a 0-60 (96 kph) time of 11.5 on the test track. Something to ease your mind as you pull out to pass.

Want more going for you than Bonneville's road-holding four-wheel independent suspension! Just say, "Y99, please" and get beefier stabilizer bars and springs, 16.1 quick-ratio steering and more!

1987 PONTIAC BONNEVILLE FACTS AND FIGURES

There's plenty of excitement in every new Pontiac. Take time to study Bonneville's long list of standard and available equipment. Then ask your dealer about the Group Packages and the

many other features not indicated below. Your dealer will also advise you of the availability of the various items on the model of your choice.

PONTIAC 6000 STE

Pontiac 6000 STE is power and agility in very civilized attire. It is high technology for the sake of pure driving excitement, with exceptional road car qualities and comfort.

It is North America's Performance Sedan.

The 6000 STE powertrain is a 4-speed automatic matched to a fuel-injected 2.8 litre high-output V6. Standard are new anti-lock brakes that offer improved wet and dry-pavement stopping. While inside, hi-tech electronics keep you in touch with STE's mechanical systems, air conditioning, and a very sophisticated sound system.

Instruments in Canada are metric where required.

PONTIAC 6000 S/E

Pontiac 6000 S/E Sedan is much more than functional and clean looking. With 2.8 litre V6 power, full analog instrumentation, performance suspension and big Eagle GT radials, its is also a very worthy road car.

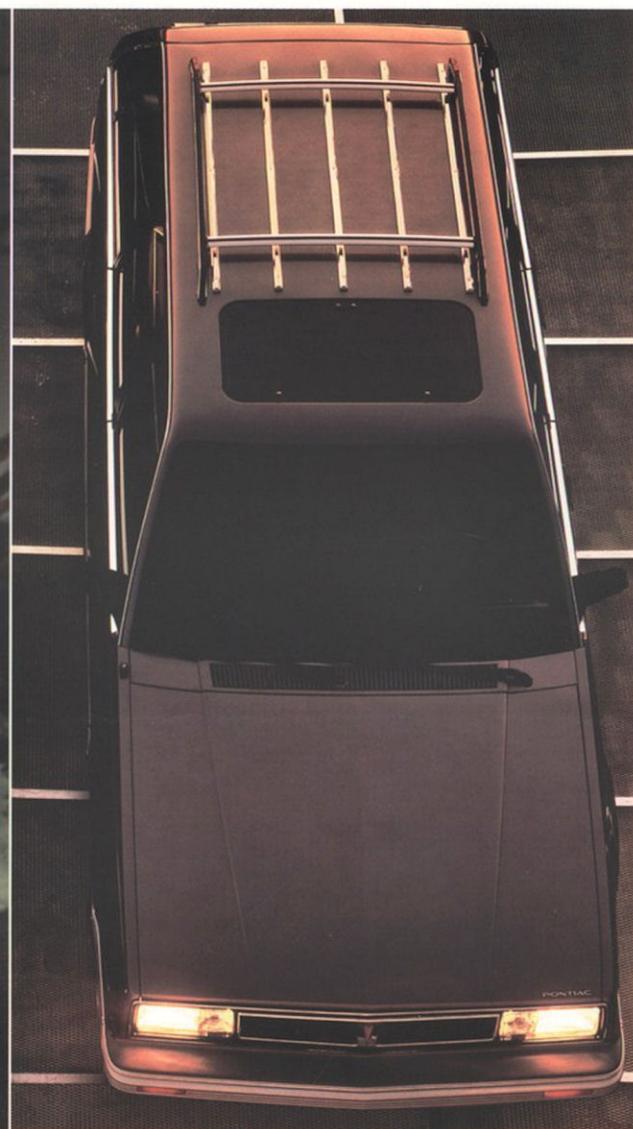

Want practical hauling capacity without giving up the thrill of driving? Simple. Just opt for the S/E Wagon.

PONTIAC 6000 LE

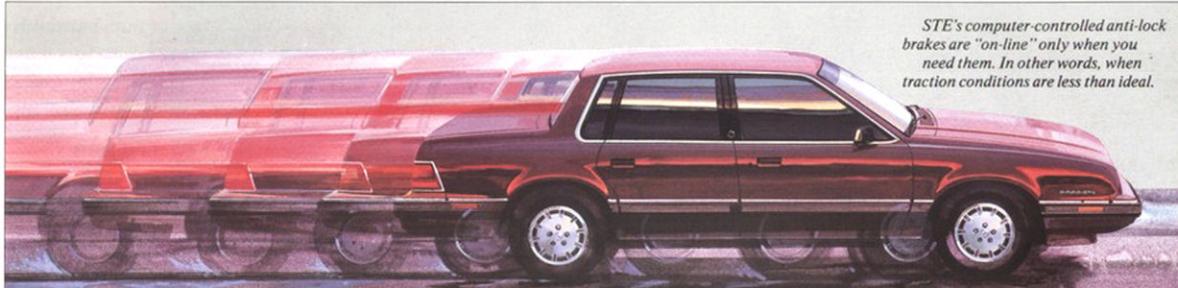

Pontiac 6000 LE combines fluid lines, driver-oriented interior appointments and proven front-wheel-drive technology. New for 1987 are flush-mounted composite headlamps, two-tone paint, and wide body side mouldings. Standard features include MacPherson strut front suspension and power rack-and-pinion steering.

Then, there's Pontiac 6000 Safari with front-wheel drive and available V6 engine. Plus all Safari wagons offer available analog instrumentation, electric rear-window standard defoggers and rooftop luggage carriers.

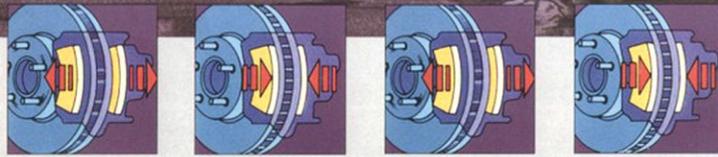

PONTIAC 6000 PERFORMANCE & ENGINEERING HIGHLIGHTS

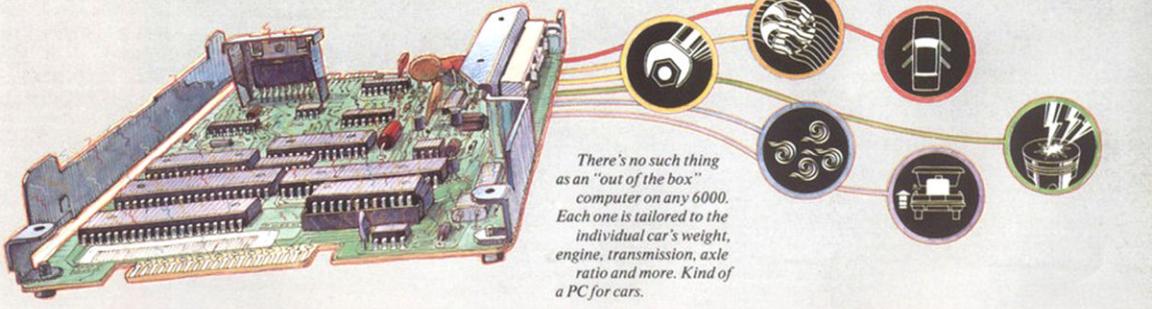

When we talk high-tech engineering, we're talking Pontiac 6000. Things like anti-lock brakes, electronically controlled engine functions and crank-triggered ignition are just some of the reasons why Pontiac 6000 is on the cutting edge.

STE's computer-controlled anti-lock brakes are "on-line" only when you need them. In other words, when traction conditions are less than ideal.

Traction's worst enemy is brake lock-up. Your best ally is STE's anti-lock brakes that apply and release pressure at each wheel up to seven times per second to help prevent brake lockup.

There's no such thing as an "out of the box" computer on any 6000. Each one is tailored to the individual car's weight, engine, transmission, axle ratio and more. Kind of a PC for cars.

STE's on-board computer has microchips that monitor service intervals, regulate engine cooling, tell you the door's ajar, balance manifold air temperature for altitude and climate, even adjust timing, prevent knock.

1987 PONTIAC 6000 FACTS AND FIGURES

There's plenty of excitement in every new Pontiac. Take time to study 6000's long list of standard and available equipment, some of which are shown below.

Then ask your dealer about the Easy Option Packages (shown below) that group a selection of popular options into one easy-ordering package for your convenience.

PONTIAC SAFARI WAGONS

If you need to haul people as well as a lot of cargo, look into a Pontiac Safari wagon.

Choose the full-size Safari if you're looking for spacious comfort, with standard air

conditioning, distinctive appearance and graceful ride and the pulling power of a

V8 with standard load-carrying springs.

1987 PONTIAC SAFARI WAGON FACTS AND FIGURES

There's plenty of excitement in every new Pontiac. Take time to study Safari Wagon's long list of standard and available equipment. Then ask your dealer about the Group Packages and the

many other features not indicated below. Your dealer will also advise you of the availability of the various items on the model of your choice.

PONTIAC SOUND SYSTEMS FOR 1987

Delco/GM provide high performance sound because Delco engineers work with Pontiac when a vehicle is still on the drawing board to scientifically design a music system that optimizes the sound that surrounds you. There is a state-of-the-art music system for every taste. Ask your dealer about one for you.

RADIOS

- AM • AM/FM stereo • ETR AM/FM stereo with seek-scan
- ETR AM/FM stereo with seek-scan, digital clock
- ETR AM/FM stereo with seek-scan, auto reverse cassette
- ETR AM/FM stereo with seek-scan, auto reverse cassette and digital clock
- ETR AM stereo/FM stereo with seek-scan, auto reverse cassette with search replay, graphic equalizer and digital clock
- ETR "Touch Control" AM stereo/FM stereo with seek-scan, auto reverse cassette with search replay, graphic equalizer and digital clock
- ETR AM stereo/FM stereo with Delco/Bose, seek-scan, auto reverse cassette with search replay and digital clock.

Radio may not appear exactly as illustrated.

FEATURES

- ETR**—Electronically tuned receiver provides drift-free automatic fine tuning and electronic memory for precise recall of pre-set station.
- Seek-scan**—Automatically scans or locates and retains the next listenable station on the band.
- Auto-reverse cassette**—When the end of the tape is reached, automatically plays the other side of the tape.
- Search replay**—Allows repeat of last listened to selection or skips to next selection on tape.
- Graphic equalizer**—Allows adjustment of five distinct frequency bands to suit personal taste.
- Delco/Bose**—Amplifiers/speakers acoustically tailored to each vehicle, deliver up to 100 watts total power.

STANDARD FEATURES ON ALL PONTIACS

- ACCIDENT AVOIDANCE** • Safety belts for driver and right front passenger, driver side includes visual and audible warning system • Lap belts at each rear seat position, (and centre front, when applicable) • Energy absorbing steering column • Energy absorbing instrument panel • Energy absorbing front seat back tops • Laminated safety windshield glass and tempered safety side and rear window glass. (Also, Inner Shield windshield—Pontiac STE) • Safety interlocking door latches • Passenger guard inside door lock handles • Inertia locking, folding front seat backs on two-door models (locking with manual release on Firefly) • Safety armrests • Head restraints, driver and right front passenger (adjustable/integral).

- Side marker lights and reflectors
- Parking lamps that illuminate with headlamps • Four-way hazard warning flasher • Back-up lights • Centre high mounted stop lamp • Directional signal control with lane change feature • Windshield defroster, washer and dual speed wipers; pulse type on Pontiac STE • Inside rear view mirror with vinyl-bonded glass • Outside left rear view mirror • Brake system with dual master cylinder and warning light • Starter safety switch • Dual action hood latch system (except rear opening Firefly) • Low glare finish on instrument panel top, inside windshield moldings, wiper arms/blades, metallic steering wheel surfaces • Illuminated heater and defroster controls • Illuminated windshield wiper and washer controls (if on instrument panel) • Tires with built in tread wear indicators.

- THEFT DETERRENCE** • Audible reminder for ignition key removal • Theft deterrent steering column lock • Visible vehicle identification number.

COMMITMENT TO

General Motors recognizes that taking delivery of your new vehicle is a significant event. To ensure that your delivery experience contributes to your overall satisfaction, we have implemented a "Commitment to Excellence" Delivery Procedure.

This procedure includes a thorough new vehicle inspection by both the service technician and salesperson, a full tank of fuel, and a follow-up survey to determine your satisfaction with the delivery experience.

General Motors "Commitment to Excellence" is yet another excellent reason to "Look at GM Today."

All new GM cars and trucks come with a comprehensive GM New Vehicle Limited Warranty. And for those who desire even greater coverage during and after the limited warranty period, the GM Protection Plan is available.

Plans are available that provide additional protection against the cost of many unexpected repairs for up to five years. It even offers allowances toward the cost of towing and a rental vehicle, if necessary. And unlike other extended repair protection plans, only GMPP is a direct agreement between General Motors and GM owners.

The list of GMPP benefits goes on, and your authorized General Motors dealer will be pleased to provide complete details.

5-year unlimited kilometres corrosion perforation warranty. On all 1987 GM passenger cars. Ask your dealer for details.

FOR YOUR PROTECTION*

1. New Vehicle Limited Warranty—12 months or 20,000 kilometres, whichever comes first.
2. Powertrain Coverage—36 months or 60,000 kilometres, whichever comes first on gasoline engines (\$100 deductible).
3. Owner Assistance Program.
4. Special Policy Adjustment Program.

*Ask your dealer for details.

A WORD ABOUT THIS CATALOGUE

The vehicles described in this catalogue incorporate components produced by General Motors of Canada Limited and related companies and suppliers. During manufacturing, different components than initially scheduled may be used.

All illustrations and specifications contained in this catalogue are based on the latest product information at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost or can be ordered in conjunction with the other optional equipment. Some options may not be available when your vehicle is built. Check with your dealer for complete information.
