# COMPLETING THE COMFORT ZONE

The development of new Falcon involved a total design concept that ensured that each part was integrated into Falcon's sleek new form.

Accessory development followed the same formula. A new exterior windscreen sunvisor and rear exterior sunshade were devised in Ford Australia's Design Centre, using the original vehicle clay models, to ensure that they offered practical protection, were aerodynamically efficient and above all complemented Falcon's flowing lines. Traditional accessories are also offered for rear seat sun protection; a rear external louvre and an internal venetian shade.

To add extra stability and road-holding and that additional touch of style, there's a brand new, fully sculptured soft-feel rear spoiler, finished in your choice of body or accent colours.

To complete the comfort zone, Ford Selectaire accessory air-conditioning can be fitted at any time after new car purchase.
