

G20

YOU FEEL, AS A DRIVER, A TRUE UNITY

WITH THE CAR AND WITH THE ROAD.

SINCE INCEPTION, INFINITI AUTOMOBILES HAVE BEEN NOTED FOR THEIR UNIQUELY PLEASURABLE,

MULTI-FACETED APPEAL: FINELY TAILORED LUXURY, UNCOMMONLY SMOOTH YET EXHILARATING

PERFORMANCE, REFINED COMFORT AND CAREFULLY DETAILED CRAFTSMANSHIP. ♦ THIS

EXTRAORDINARY ACHIEVEMENT IN PERFORMANCE/LUXURY AUTOMOBILES IS NOW AVAILABLE IN A

NEW LUXURY SEDAN, THE INFINITI G20. ITS DISTINCTIVE HARMONY OF ADVANCED DESIGN AND

ENGINEERING, OUTSTANDING ROOMINESS AND MANAGEABLE OVERALL SIZE, PROVIDES THE

LUXURY, SECURITY AND ULTIMATE DRIVING ENJOYMENT THAT IS INFINITI.

P E R F O R M A N C E

THE BEST LUXURY OF ALL AWAITS YOU WHEN YOU DRIVE IT.

Dealer-installed splash guards shown.

S T Y L I N G

A SHAPE THAT FEELS SMALL TO THE WIND,
YET EXCEPTIONALLY ROOMY TO THOSE TRAVELING INSIDE.

C O M F O R T

WITH ITS UNIQUE BALANCE OF COMFORT AND CONTROL,
DRIVING BECOMES AN EXCITING NEW EXPERIENCE.

THE INFINITI G20 BRINGS INTO BALANCE the elements of performance, comfort and style in a new and unique way. Its exceptional dynamic qualities, combined with an extraordinarily roomy interior, offer a combination of attributes and a unity between car and driver once thought unobtainable in luxury sedans in its class.

Along with an exceptional driving experience, the G20 offers the Infiniti Total Ownership Experience – an unmatched level of support for as long as you own your Infiniti.

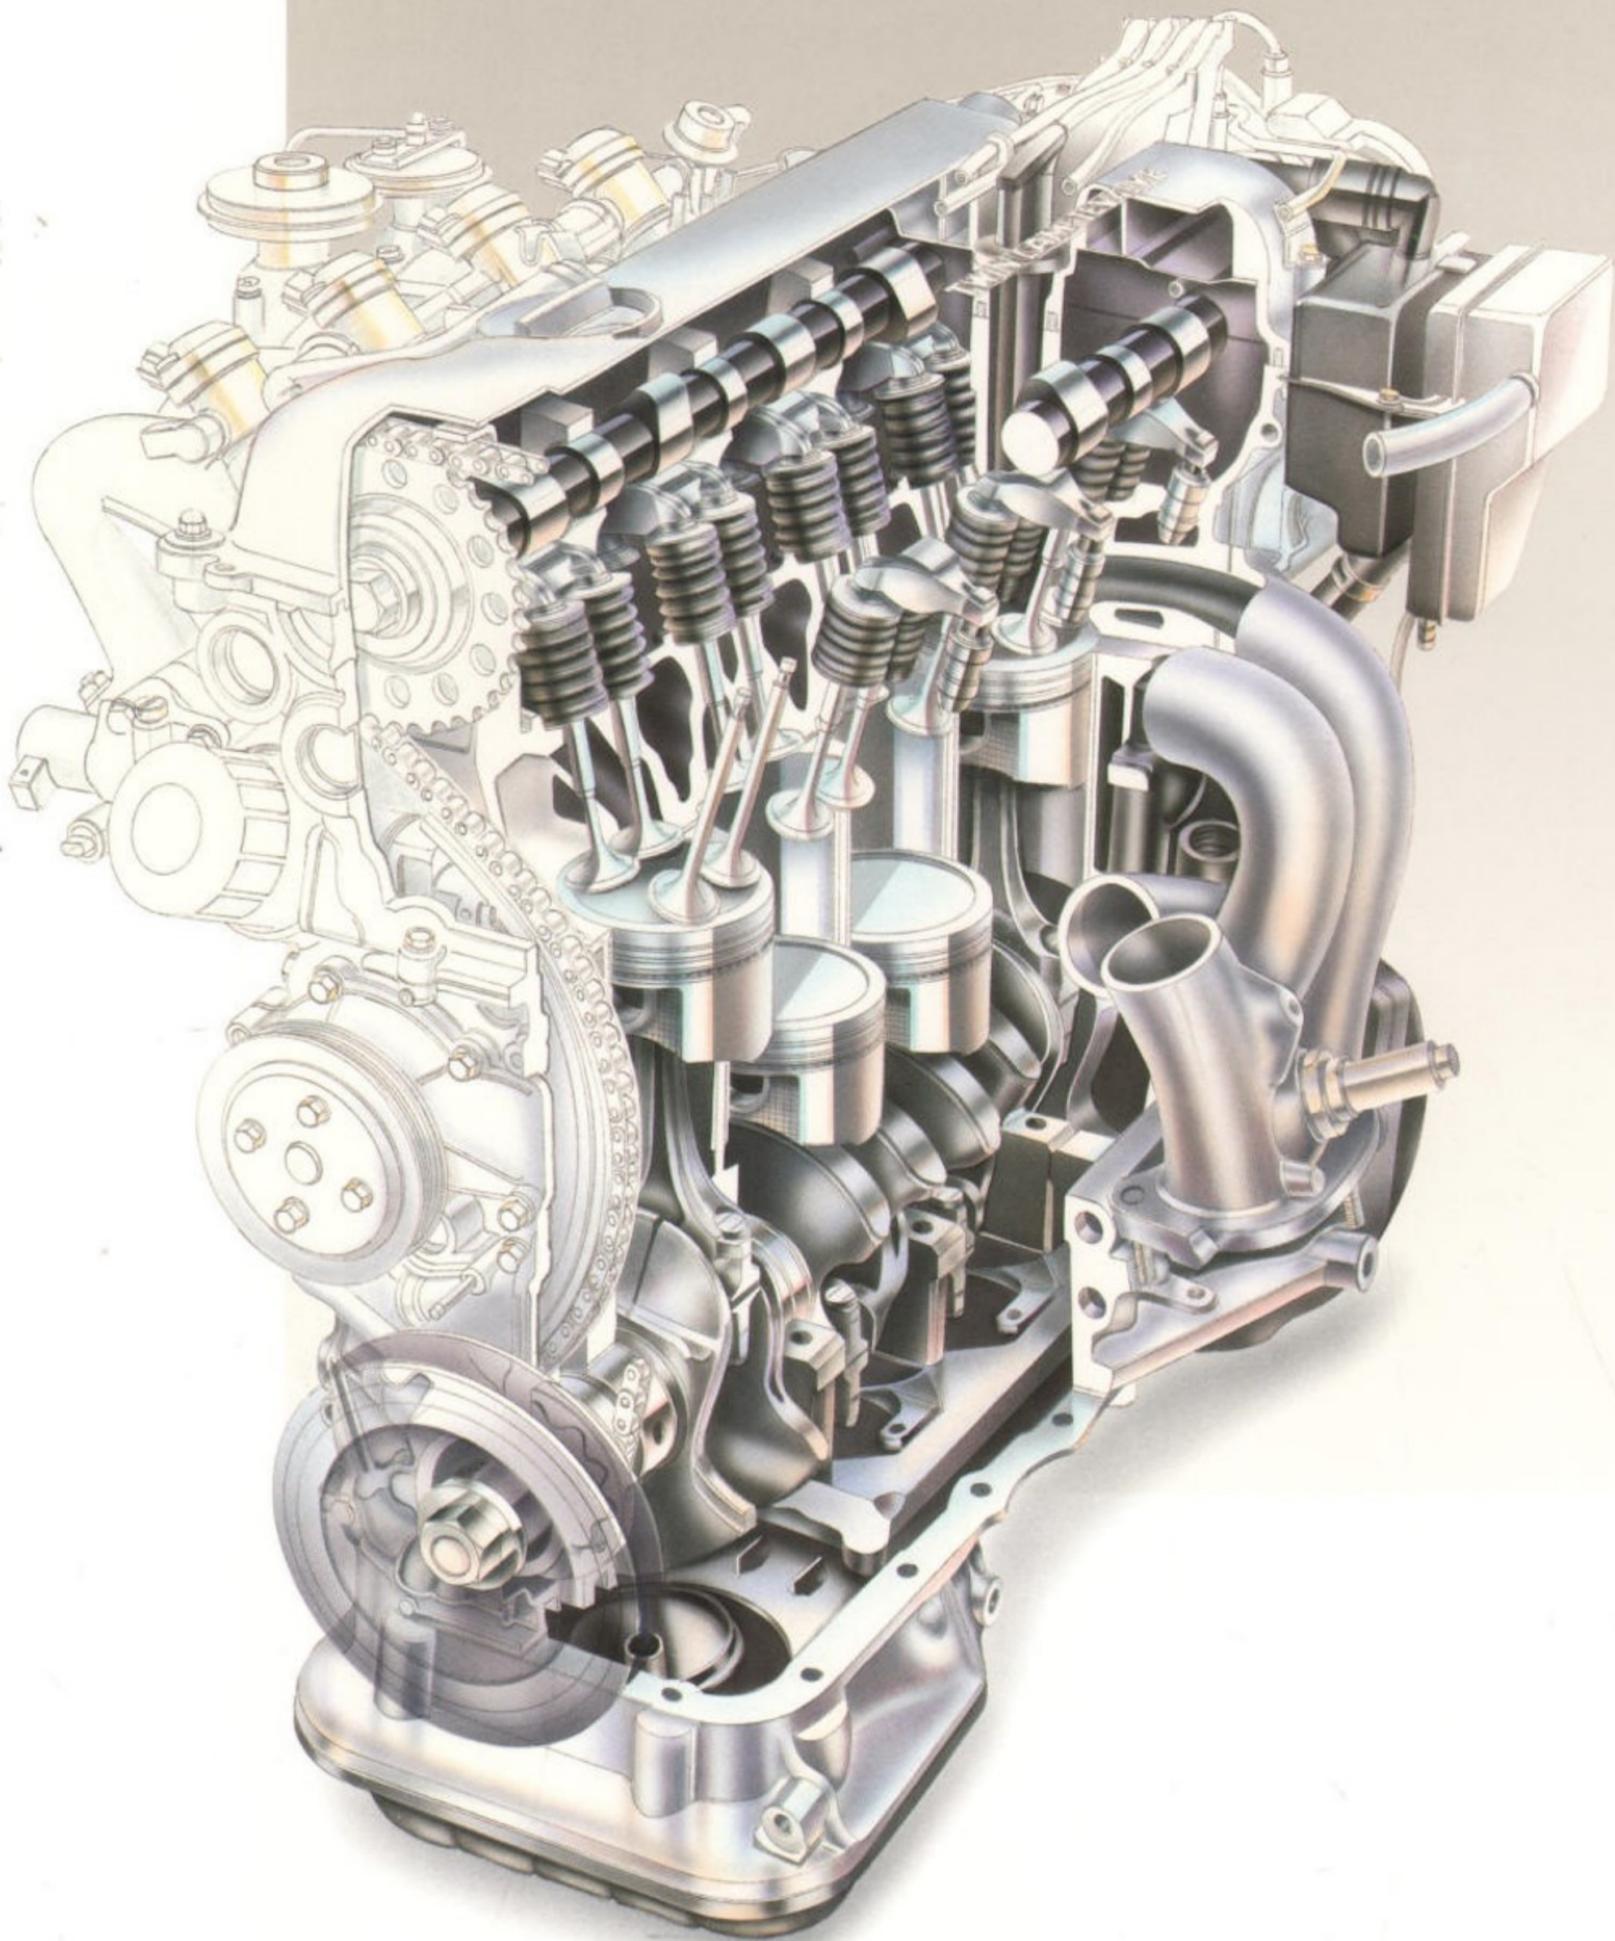

You'll be treated with courtesy and respect whenever you visit an Infiniti showroom or service center. And programs such as 24-hour emergency roadside assistance with towing and designated trip interruption benefits, service loan car eligibility, a comprehensive 4-year/60,000-mile limited warranty with 7-year/unlimited mileage corrosion perforation protection, are offered at no extra cost.

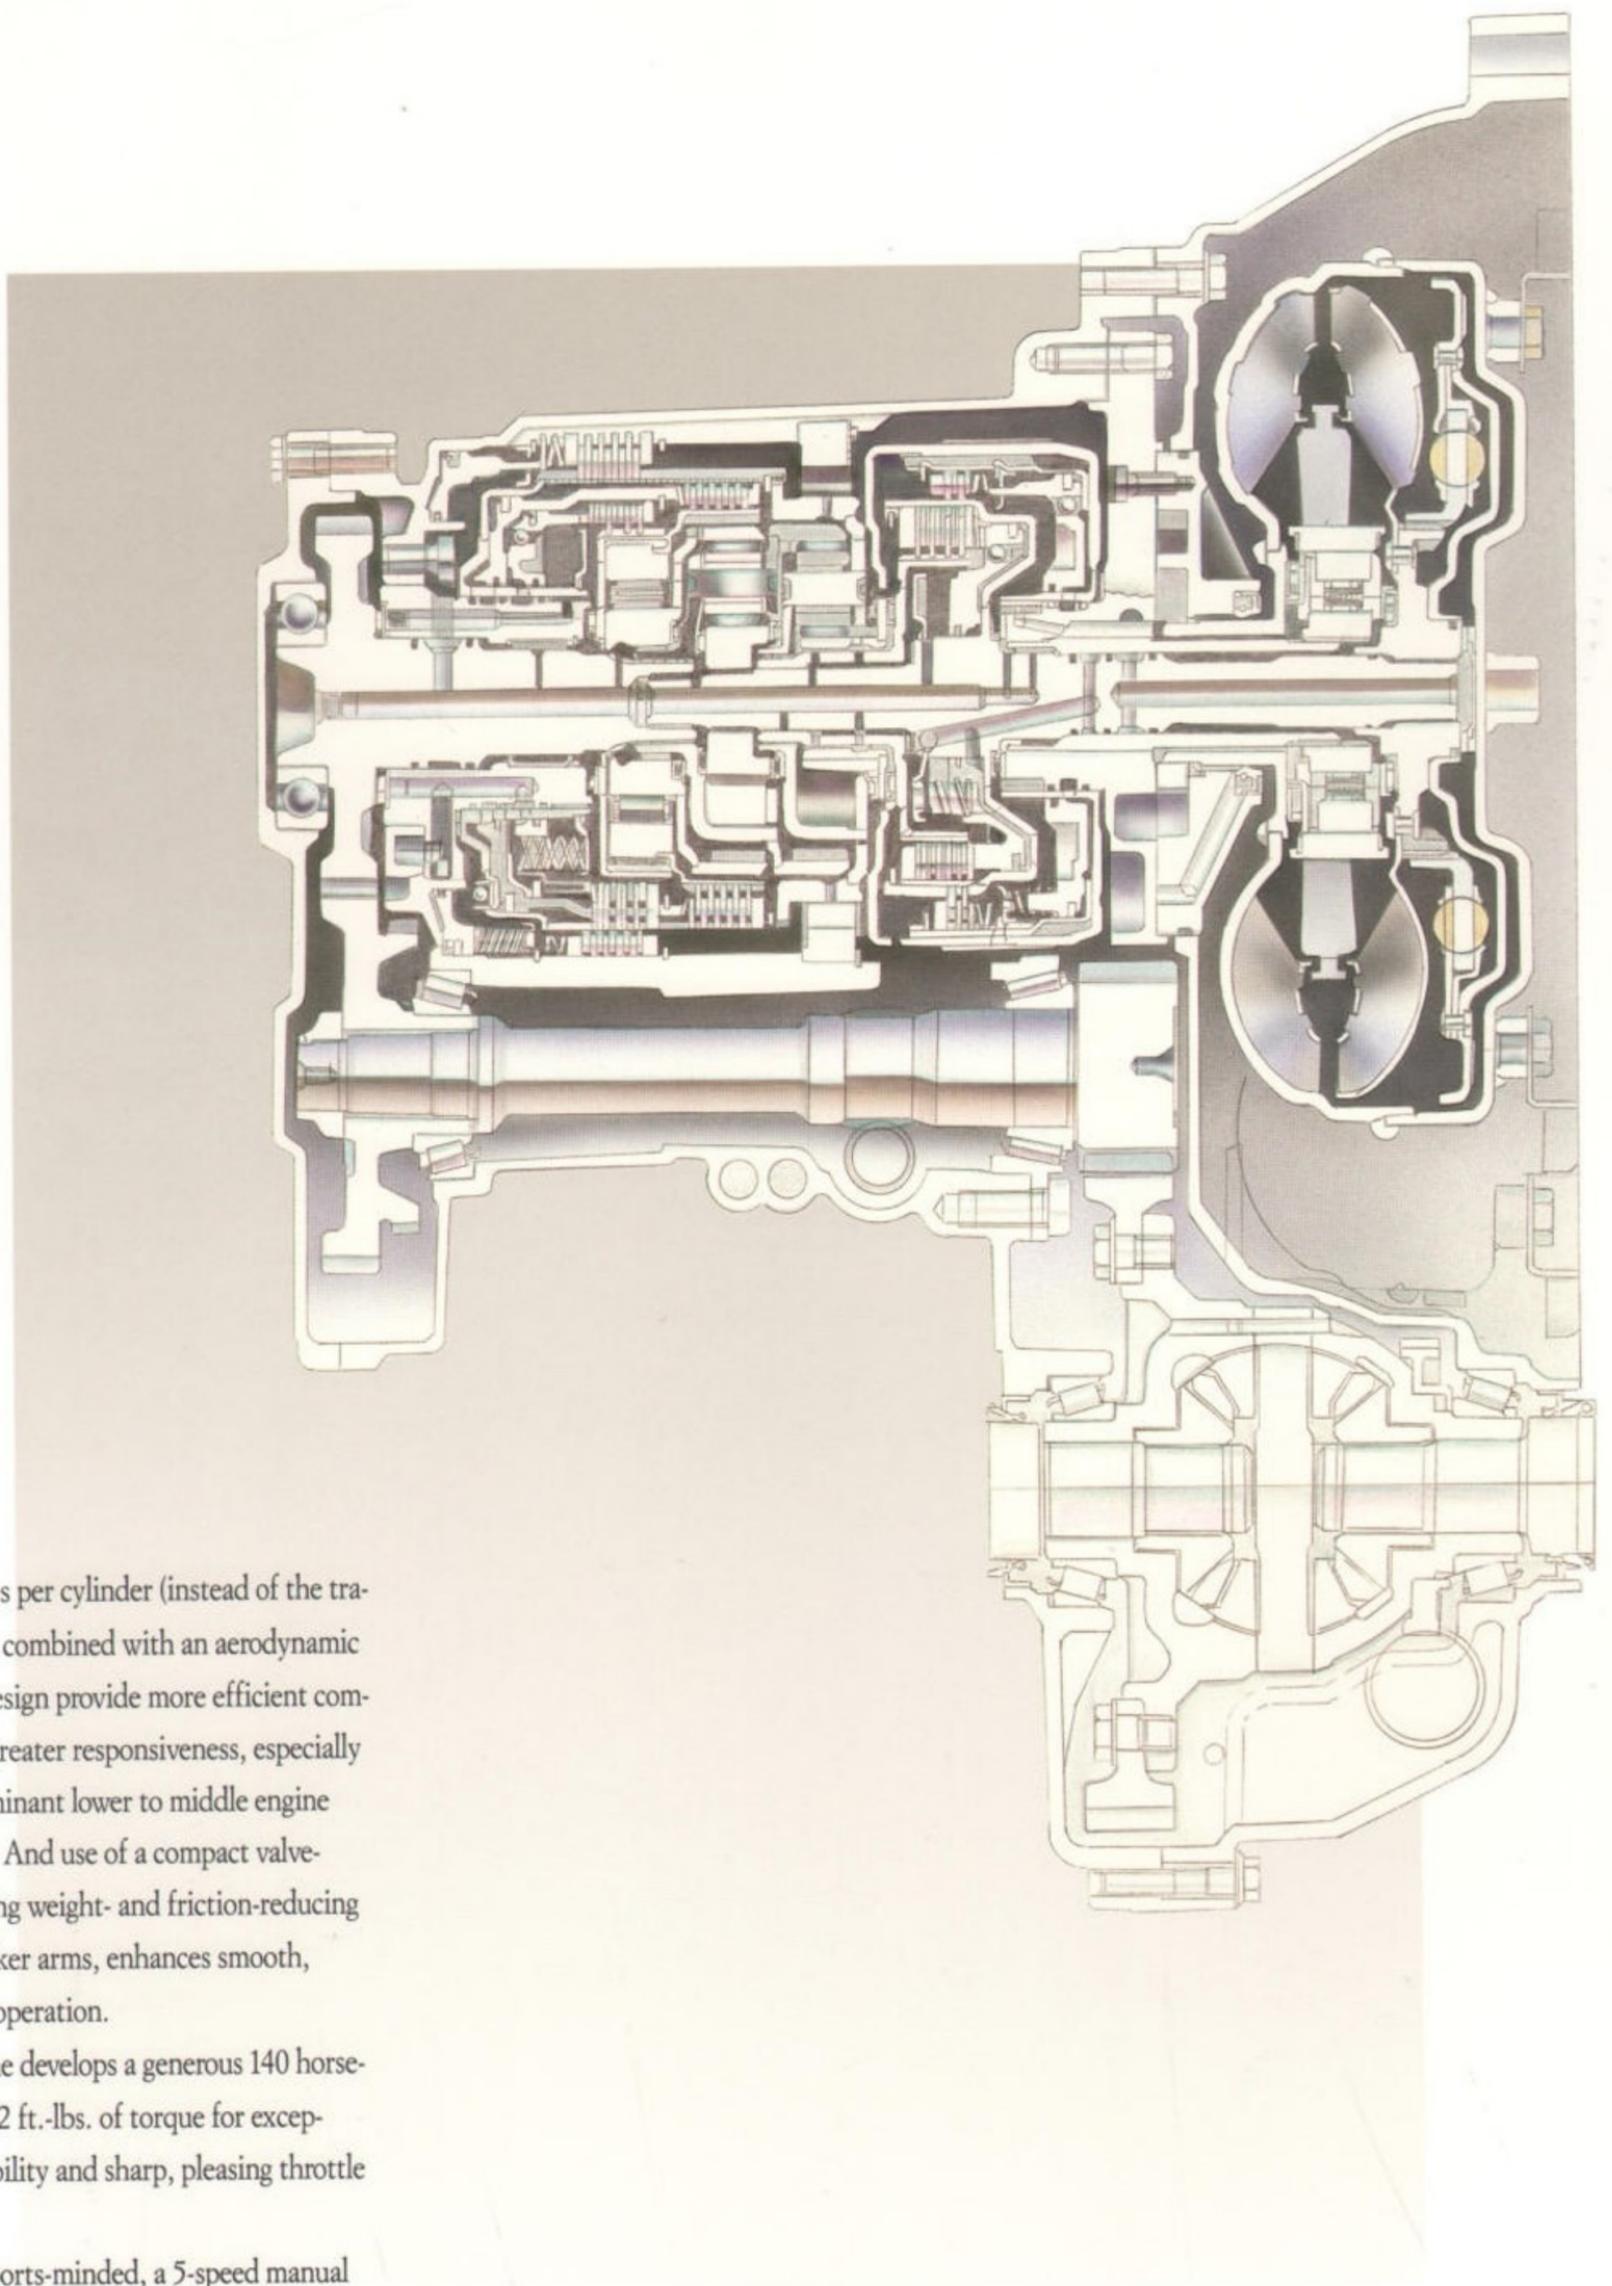

THE G20 WILL ACCELERATE FROM 0-60 MPH IN JUST 8.6 SECONDS (MANUAL TRANSMISSION MODEL) AND REACH AN IMPRESSIVE TOP SPEED OF 130 MPH. BUT WE BELIEVE A TRUER MEASURE OF A LUXURY SEDAN'S ABILITY LIES IN ITS DYNAMIC PERFORMANCE - THE CAREFULLY CALIBRATED BALANCE OF NIMBLE HANDLING, SHARP ACCELERATION AND STABLE BRAKING. THE LONG-SOUGHT COMBINATION OF SPORTS CAR AGILITY WITH THE SOLID, SUBSTANTIAL RIDE OF A MUCH LARGER CAR WHICH ALLOWS YOU TO ARRIVE AT YOUR DESTINATION QUICKLY, CONFIDENTLY AND WITH GREAT PLEASURE.

THE G20'S HIGH-OUTPUT 16-VALVE 2.0-LITER DOHC ENGINE represents a major advancement in 4-cylinder smoothness and refinement. Designed for sustained use under the most demanding conditions, the engine was subjected to months of on-road development on high-speed European superhighways. The result is outstanding power and ample torque throughout all speed ranges.

The engine's lightweight aluminum construction contributes to the G20's excellent weight balance and supple handling. A deep-skirt cylinder block, die-cast aluminum oil pan and large transmission mounting flange enhance engine/transmission coupling rigidity for reduced vibration and quieter operation. Beyond mere noise reduction, great effort has been taken to create a pleasant engine sound, which provides a less fatiguing and ultimately more enjoyable driving experience.

Four valves per cylinder (instead of the traditional two), combined with an aerodynamic intake port design provide more efficient combustion and greater responsiveness, especially in the predominant lower to middle engine speed ranges. And use of a compact valve-train, including weight- and friction-reducing Y-shaped rocker arms, enhances smooth, quiet engine operation.

The engine develops a generous 140 horsepower and 132 ft.-lbs. of torque for exceptional driveability and sharp, pleasing throttle response.

For the sports-minded, a 5-speed manual transmission featuring advanced double-cone second and third gear synchronizers comes standard. Also available is a silky 4-speed automatic (shown above) with a compact, low-profile lock-up torque converter designed with reduced internal inertia for enhanced performance.

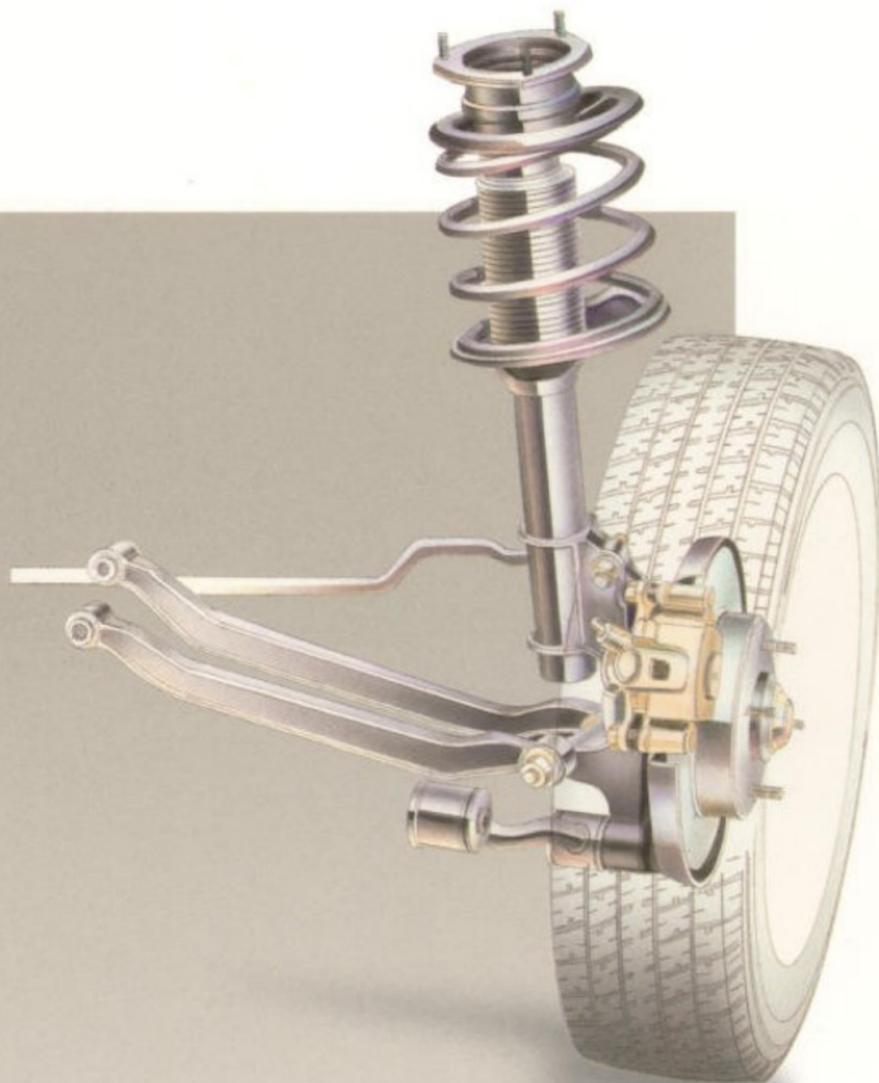

WELL-MATCHED TO THE G20'S ADVANCED DRIVETRAIN is a chassis that provides exceptionally high limits of performance and control. Its unique combination of stable handling and sporty maneuverability provides a comfortable, involving driving experience.

The G20 utilizes, for the first time ever, an advanced patented front multi-link suspension (like that found on the Infiniti Q45 performance luxury sedan) with compact front-wheel drive.

The multi-link design smoothly controls changes in suspension geometry, keeping the tires perpendicular to the ground for enhanced traction and steering control. It also offers the ride quality and smoothness of a larger, heavier car without penalizing fuel efficiency or agile, responsive handling.

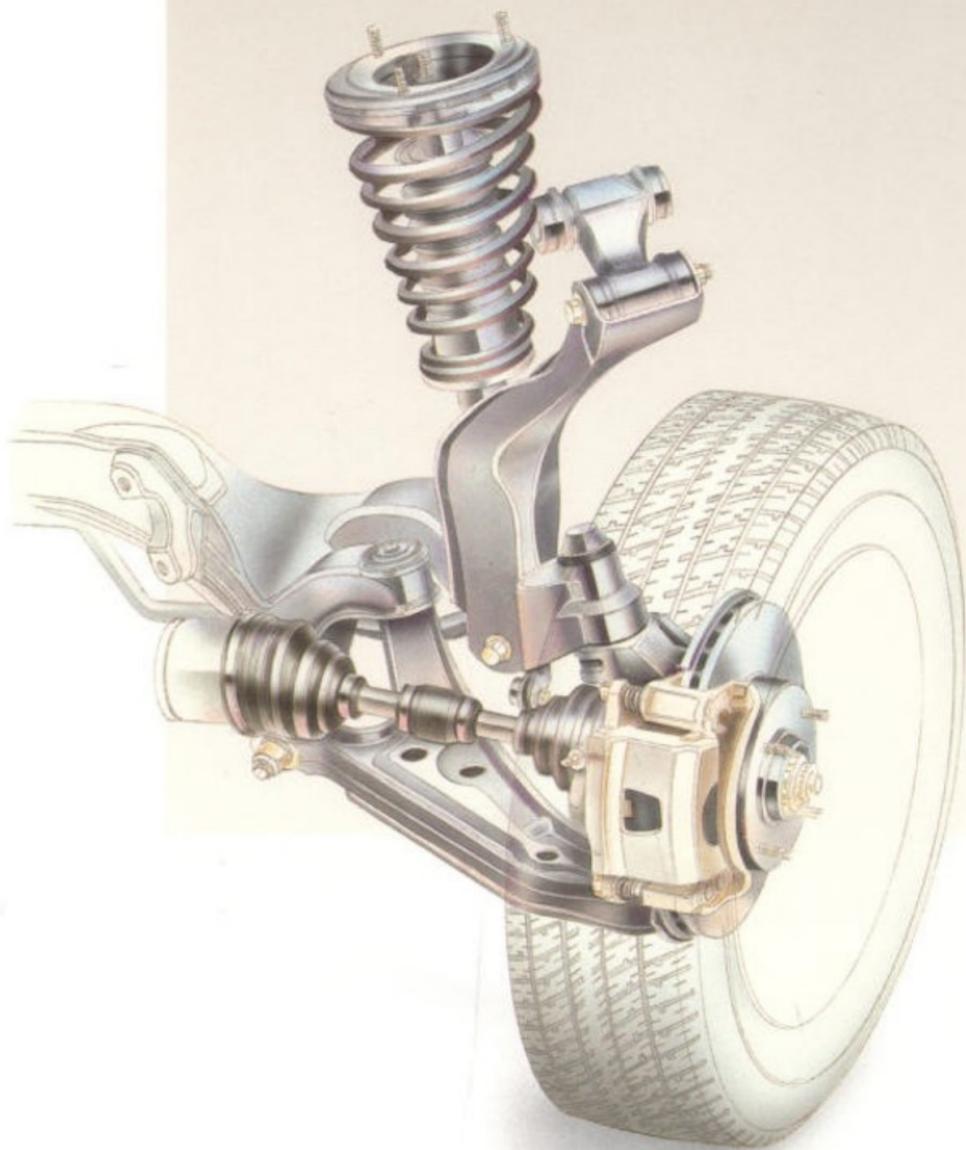

The system also uses an innovative 2-valve front shock absorber design for a more progressive, linear shock damping and better ride control over both smooth and rough pavement.

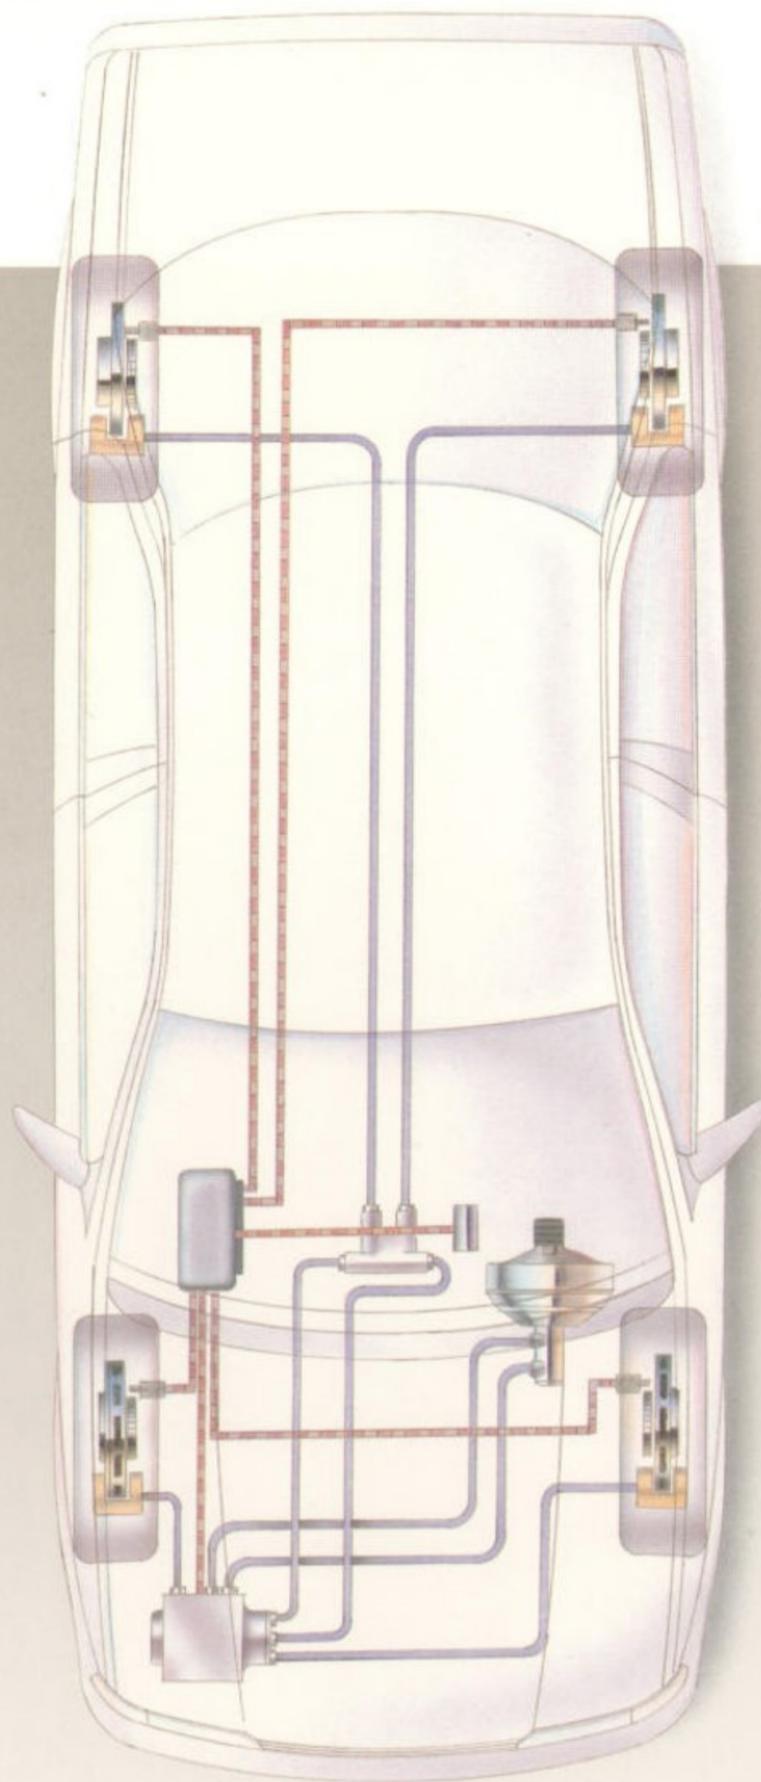

Combined with a proven parallel-link strut rear suspension, the G20 provides a level of refined handling and poise previously unavailable in its class. Manual transmission-equipped vehicles take the sporty standard suspension one step further with the addition of larger front and rear stabilizer bars and performance-calibrated shocks.

The G20's superb road holding is also enhanced by an advanced power-assisted rack-and-pinion steering system that you'll find to be quick, communicative and responsive. The steering gear itself is mounted on the front lower suspension member for improved vibration isolation.

Power-assisted four-wheel disc brakes with vented front rotors provide sure stopping power, with an excellent balance between braking power and pedal feel. The addition of a standard four-channel anti-lock braking system (ABS) gives delicate brake control, and helps the driver retain steering control, even under severe braking in inclement weather.

THE CONCEPT OF SAFETY TAKES ON TWO IMPORTANT ASPECTS – the car's ability to protect the occupants should an accident occur, and the driver's ability to avoid potential accidents in the first place. Which, for example, is why an advanced four-channel anti-lock braking system (ABS) is standard (shown above).

Attention to active safety also meant designing the G20 to be easy to operate (the switches and controls fall instinctively to hand), with excellent driving stability, responsiveness and cornering performance.

At the same time, the G20 includes such important design features as high strength body construction, front passive shoulder belts with active lap belts, three-point rear out-board seatbelts, childproof rear door locks, and energy absorbing steering column and bumpers.

Even items such as your view of the road in inclement weather are important to the designers of the G20. To improve the driver's view in rainy weather, an innovative water flow control system directs water away from the windshield and side windows. The back edge of the roof also channels water away from the rear glass.

THE FRESH, FINELY-SCULPTED SHAPE IS BOTH BEAUTIFUL AND POWERFUL.

ITS INNOVATIVE "CABIN FORWARD" APPROACH IS A BREAKTHROUGH
IN DESIGN AND SPACE UTILIZATION, REDEFINING LUXURY SEDAN STYLING

BY CONSIDERING THE DRIVER AND PASSENGERS FIRST. THE RESULT

IS MAXIMUM INTERIOR AND TRUNK SPACE, ALONG WITH EXCEPTIONAL
AERODYNAMICS AND ALL-AROUND VISIBILITY.

EXTENSIVE WIND TUNNEL TESTING of the G20's super computer-aided designed body offers outstanding aerodynamic efficiency as well as high speed and cross-wind stability.

Along with refinement of overall aerodynamics (the G20 achieves a low coefficient of drag of just 0.30), attention to air management helps utilize the air flowing over, under and around the car to hold it firmly to the road.

In addition to contributing to the G20's attractive, contemporary styling, the use of a

high deck lid and steeply sloping rear window increases both cargo capacity and rear head room – without compromising aerodynamics.

Additional refinement of areas such as the shape of the fenders, side sills and outside mirrors, a floor pan that is designed to be as flat as possible and super-flush mounting of headlights and all glass surfaces, contribute to the reduction of wind resistance and wind noise, providing stable handling and a quiet ride.

BY MINIMIZING THE SIZE OF THE ENGINE COMPARTMENT (through the use of the G20's compact, high-output 2.0-liter aluminum alloy engine), the designers were able to maximize both interior roominess and cargo capacity.

The cabin forward design, which "stretches" the passenger compartment, provides an exceptional amount of front and rear head room and leg room. Interior roominess is measured at 105 cubic feet, with true 5-passenger seating in comfort, even for long journeys.

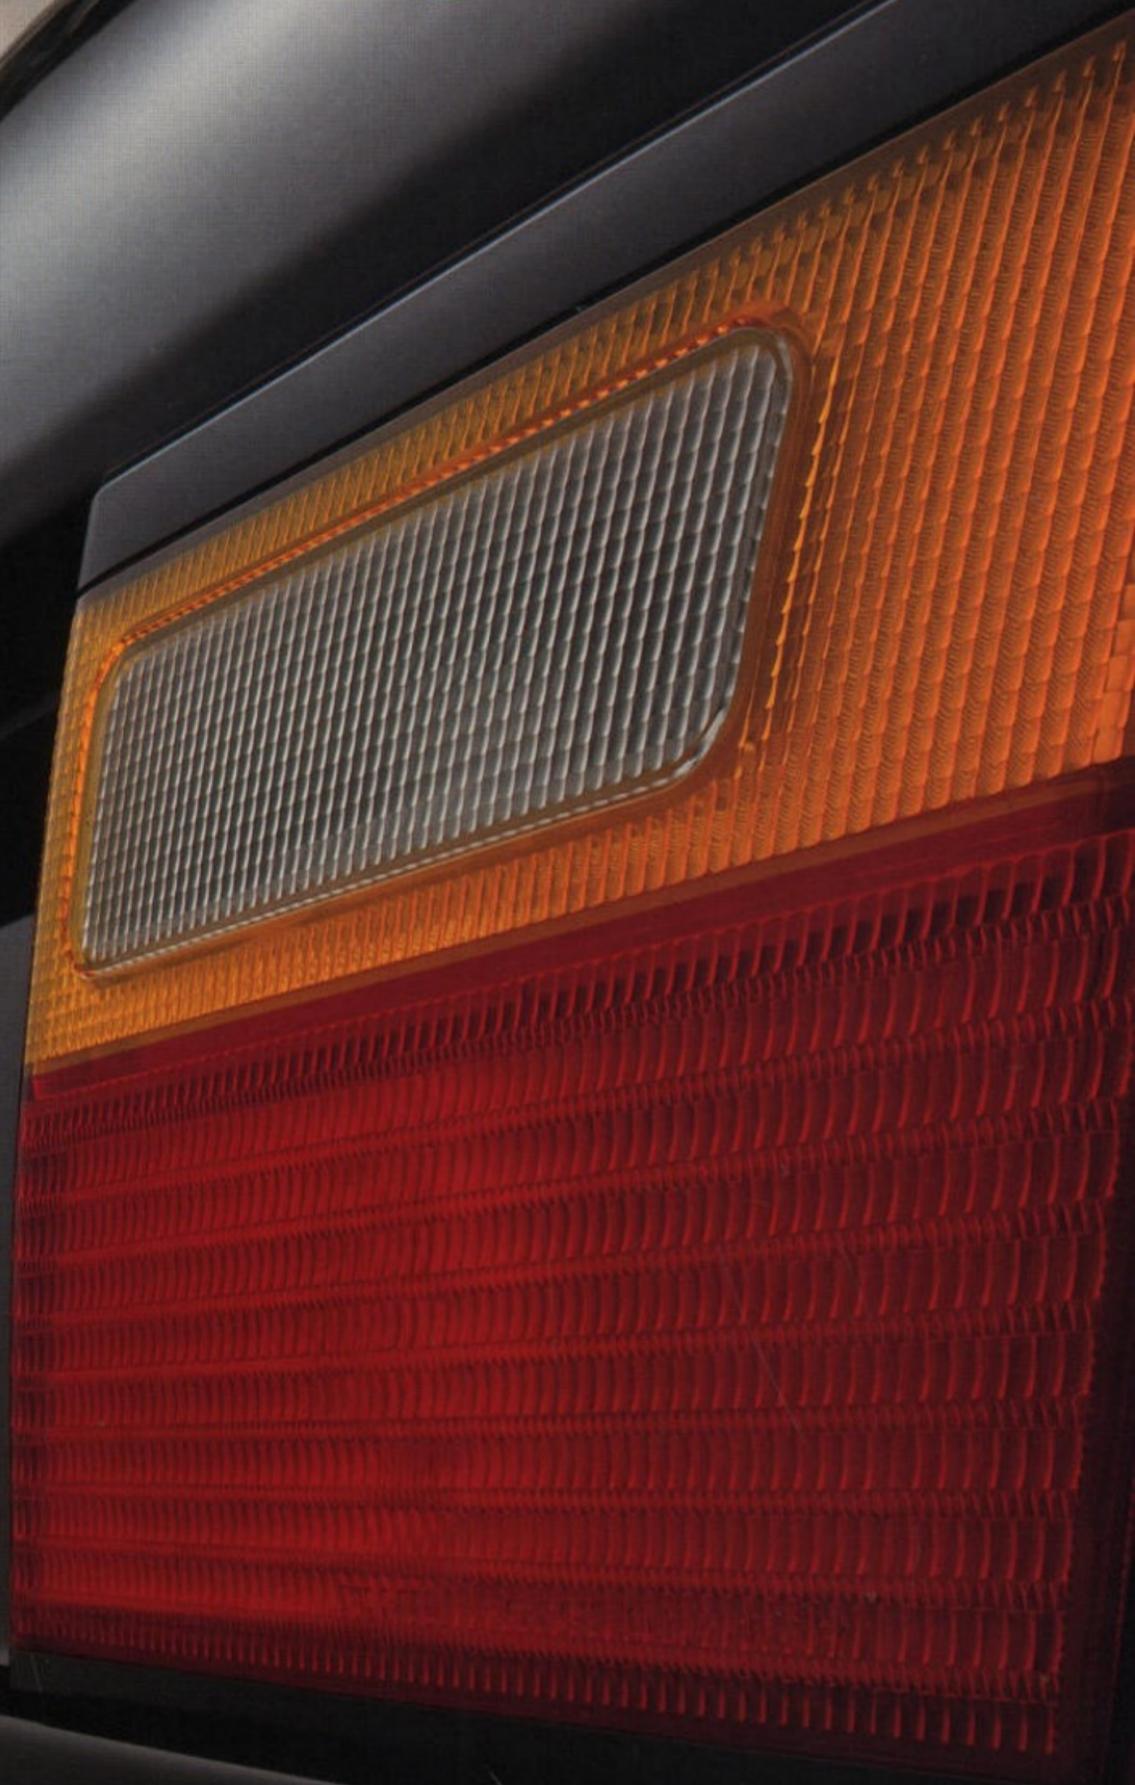

Similarly, careful proportioning of the cargo area provides ample luggage space for all passengers - a feature lacking in many luxury sedans. The extra-wide, bumper-level trunk opening offers ease of loading large items, while its double-link hinges swing the trunk lid well out of the way for superior accessibility. Cargo capacity is rated at over 14 cubic feet, more than that of many larger sedans.

G20

ESR 270

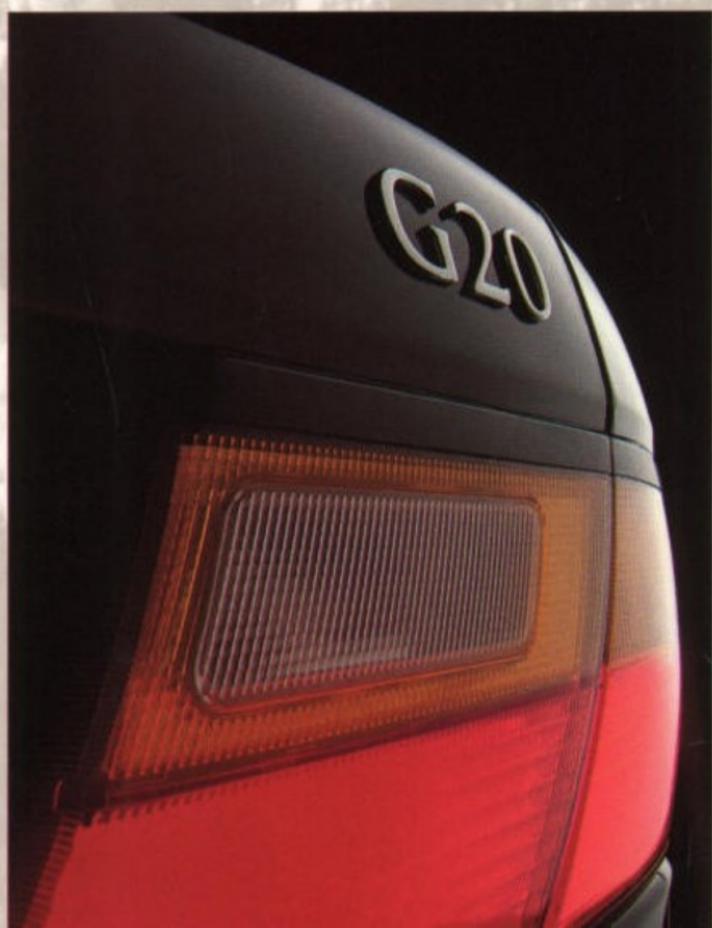

GREAT CARE HAS BEEN TAKEN TO ENSURE THAT THE G20 REFLECTS the exceptional quality and luxury standards that you've come to expect from Infiniti. Its excellence is measured not only in terms of leading-edge performance and comfort, but in outstanding finish and durability.

Like every Infiniti, the G20 body is precision-formed of specially-treated steels, including extensive use of corrosion-resistant Durasteel™ panels. The surface is laser-etched to a mirror-like smoothness to create a more perfect bonding of paint to metal. A three-coat/three-bake paint process provides excellent corrosion resistance, as well as outstanding depth, clarity and reflectivity.

The G20 is available in a variety of rich colors and four paint finishes: solid color, metallic, pearl and pearlgloss.

Along with continual assembly line monitoring and inspection, specially-trained engineers take every G20 through a comprehensive road test evaluation upon completion of assembly to ensure each vehicle meets Infiniti's strict sound and vibration, performance, and braking standards.

Dealer-installed front center armrest shown.

AS BEFITTING A CAR DESIGNED TO PUT THE DRIVER AND PASSENGERS
FIRST, THE G20'S LUXURIOUS INTERIOR ENVIRONMENT WAS DEVELOPED
IN CONJUNCTION WITH THE DRIVETRAIN AND SUSPENSION.

EXTRA ATTENTION WAS PAID TO SEAT DESIGN AND CONSTRUCTION IN
RELATION TO DYNAMIC CHASSIS DEVELOPMENT, TO PROVIDE
EXCEPTIONAL COMFORT EVEN WHEN DRIVING LONG DISTANCES.

Dealer-installed compact disc player shown.

THE ELEGANT COCKPIT HAS BEEN DESIGNED TO ENHANCE DRIVER PERFORMANCE by combining advanced ergonomic design with a soft, welcoming comfort. The gauges are analog for easy readability day or night. All switches and controls are positioned by priority of use within easy reach of the sculpted four-spoke, leather-wrapped steering wheel. Even the center console points slightly towards the driver's seat for ease of use.

The heating and ventilation system features reduced internal airflow resistance for quicker heating and cooling, as well as providing exceptional fresh air volume. The system even allows you to separate defogging and passenger compartment temperature control. For example, warm air can be directed at the windows while passengers receive cooler air through the instrument panel vents.

Every G20 also comes with standard leather-wrapped steering wheel and gear selector knob, adjustable steering column, center console, dual visor vanity mirrors, dual map lights and lockable glove box. A power sunroof with rear tilt feature is also available.

The G20's standard premium sound system includes an ETR AM and FM stereo with cassette (including auto reverse and Dolby® Noise Reduction), diversity antenna system, four active speakers with amplifiers and an automatic power antenna.

AS YOU'D EXPECT OF A LUXURY SEDAN CREATED BY INFINITI, the G20's full-feature interior provides the tranquility and relaxation of a roomy family sedan with the advanced ergonomics and control of a true driver's car.

A choice of Moquette cloth upholstery or optional supple leather seating surfaces are available in a number of rich colors. Standard luxury items include air conditioning, power windows with "one-touch down" driver's window, power mirrors, cruise control, 2-speed

intermittent wipers, rear window defroster with timer, power trunk and fuel releases, and an anti-theft system.

The multi-adjustable front seats are shaped to provide natural, comfortable support, minimizing fatigue over long distances. Seat cushions and side supports have different degrees of firmness, to hold you securely in place without compromising comfort. And the driver's seat features an adjustable lumbar support and cushion height adjustment, to help you fine-tune the perfect comfort position.

Unlike most luxury sedans of this size, in which the rear seat seems like an afterthought, the G20's cabin forward styling eliminates intrusion of the wheel arches into rear seat accessibility and roominess. A long cushion provides excellent comfort and thigh support, and even the rear floor has been lowered to provide additional leg room. A rear center armrest is standard.

S P E C I F I C A T I O N S

ENGINE

Displacement	2.0 Liters
Configuration	DOHC 4-cylinder, Aluminum alloy block and head
Power	140 horsepower @ 6400 rpm
Torque	132 foot-pounds @ 4800 rpm
Redline	7500 rpm
Compression Ratio	9.5:1
Valvetrain	4 valves per cylinder
Induction system	Sequential multi-point fuel injection
Recommended fuel	Unleaded

ELECTRICAL SYSTEM

Alternator	12V, 80A
Battery	12V, 48 amp/hr.

DRIVETRAIN

5-speed manual transmission with double-cone second and third gear synchronizers

Optional 4-speed overdrive automatic transmission with lock-up torque converter

PERFORMANCE

Acceleration 0-60 mph	8.6 seconds (5-speed) 9.6 seconds (automatic)
Maximum speed	130 mph
Coefficient of drag	0.30
Lateral acceleration (maximum G force)	0.81 (49.2 ft. values)

SUSPENSION

4-wheel independent
Front multi-link suspension
Rear strut, parallel-link suspension
Front and rear stabilizer bars

STEERING AND BRAKING

Power-assisted rack-and-pinion steering
Power-assisted four-wheel disc brakes, front vented
Anti-lock braking system (ABS)
Turning circle diameter, curb to curb: 35.4 feet

WHEELS

Type	Alloy wheels
Wheel size	6.0JJ x 14"
Tire size	195/60HR14 steel-belted radials*

EXTERIOR

Optional power sliding glass sunroof with rear tilt feature
Flush-mounted halogen headlamps
Dual power remote control outside mirrors

SEATING & INTERIOR TRIM

Multi-adjustable reclining front bucket seats
Adjustable height driver's seat with built-in lumbar support
Leather-wrapped steering wheel and gear selector knob
Moquette cloth seating surfaces
Optional leather-covered seating surfaces
Cut-pile carpeting
Lockable glove box
Fully carpeted and illuminated trunk
Rear seat center armrest
Carpeted floor mats with embroidered G20 logo

**Infiniti specifies summer tires on all G20's to provide superior performance on dry roads. Summer tire performance in snow and ice will be substantially reduced. All-season or snow tires will have better snow traction than summer tires and may be more appropriate in some areas.*

COMFORT & CONVENIENCE

Air conditioning
Automatic cruise control
Power windows with "one touch down"
driver's window
Power door locks
Power trunk release
Power mirrors
Power fuel filler door opener
Tilt steering column
Front center console
Dual visor vanity mirrors
2-speed wipers with variable intermittent feature
Rear window defroster with timer
Side window defoggers

STEREO SYSTEM

ETR AM and FM stereo tuner with auto reverse
cassette deck
Four active speakers with amplifiers
Automatic power antenna
Diversity antenna system

INSTRUMENTATION

Analog speedometer and tachometer
Digital quartz clock
10-point warning message display

SAFETY FEATURES

High structural integrity body construction
Front passive shoulder belts with active lap belts
3-point rear outboard seatbelts
Energy-absorbing steering column
Energy-absorbing color-keyed front and rear
bumpers
Protective side-intrusion steel door beams
Anti-theft system
Child safety rear door locks

*Infiniti Division of Nissan Motor Corporation in U.S.A. and your
Infiniti dealer strongly encourage you to use your seatbelt/
shoulderbelt whenever you drive.*

EXTERIOR DIMENSIONS

Wheelbase 100.4 in.
Overall length 174.8 in.
Overall width 66.7 in.
Overall height 54.7 in.
Track, front/rear 57.9 in./57.5 in.

INTERIOR DIMENSIONS

Head room, front/rear 38.8 in./37.3 in.
Leg room, front/rear 42.0 in./33.2 in.
Shoulder room, front/rear 54.9 in./54.2 in.
Hip room, front/rear 52.1 in./54.2 in.
Interior volume 105.0 cu. ft.

Fuel tank 15.9 gallons
Trunk capacity 14.4 cu. ft.

FUEL CONSUMPTION

5-SPEED
City* 24 mpg
Highway* 32 mpg
AUTOMATIC
City* 22 mpg
Highway* 29 mpg

**EPA-estimated figures are for comparison purposes only. Your actual
mileage may vary, depending on driving conditions.*

INFINITI WARRANTY

Four-year, 60,000-mile new vehicle limited warranty covering all components including engine, transmission and driveline parts. A lifetime warranty for seatbelts. A 7-year limited warranty on perforation from corrosion. Other limited warranty terms apply to tires, batteries and emission control systems. See your Infiniti dealer for details.

ROADSIDE ASSISTANCE

As part of the Infiniti Total Ownership Program, Roadside Assistance is available 24 hours a day, 365 days a year for emergency roadside assistance. You may contact the toll-free Customer Assistance telephone number and obtain lock-out assistance, delivery of gas, change a flat tire, jump start, etc. In the event of an unforeseen mechanical disablement, the Roadside Assistance Representative will arrange to have the vehicle towed to the nearest authorized service facility. Should the breakdown occur due to the failure of a mechanical part covered by the Infiniti New Vehicle Limited Warranty, the Roadside Assistance Representative may authorize Trip Interruption benefits which include alternate transportation, lodging, meals and transportation costs to reunite the vehicle and owner. Please contact your Infiniti dealer for additional details.

DEALER INSTALLED ACCESSORIES

Armrest, battery warmer, car cover, Sony® compact disc player (in dash), Sony® compact disc player/auto changer (trunk mounted), engine block heater, fog lights, locking lug nuts, infant/child safety seat, splash guards.

KEY TO THE INFINITI PHILOSOPHY IS A LASTING OWNERSHIP EXPERIENCE - THAT YOU

DERIVE AS MUCH PLEASURE FROM YOUR G20 IN YEAR FIVE AS THE DAY YOU DRIVE IT HOME.

◆ FOR THAT REASON, WE TAKE EXCEPTIONAL CARE IN THE DESIGN, DEVELOPMENT AND

MANUFACTURING THAT THE G20 BE BUILT RIGHT THE FIRST TIME, OF THE HIGHEST QUALITY

MATERIALS, SO ITS BEAUTY AND PERFORMANCE WILL NOT DIMINISH OVER TIME. ◆ IN THE

SAME WAY, OUR SELECT NETWORK OF INFINITI DEALERS IS COMMITTED TO PROVIDING AN

EXCEPTIONAL BUYING AND OWNERSHIP EXPERIENCE. EACH STATE-OF-THE-ART SHOWROOM

AND SERVICE FACILITY HAS BEEN DESIGNED TO ENSURE IMMEDIATE ATTENTION TO YOUR NEEDS.

◆ WE INVITE YOU TO TEST DRIVE THE INFINITI G20 TO EXPERIENCE ITS UNIQUE HARMONY

OF PERFORMANCE, COMFORT AND LUXURY.
