When you purchase any new Chevrolet, you get more than a car. You get Chevrolet's commitment to make your ownership experience the best you've ever known. That means outstanding reliability and durability, because Chevrolet knows you need a vehicle you can count on. Day in and day out. Year after year. It means state-of-the-art safety features - such as standard anti-lock brakes on every model - to give you and your family the security and peace of mind you deserve. It means room, and comfort, and convenience, because you need a car you can really live with. It means a price you can afford. And it means a promise to treat you as a valued customer and a friend, through a comprehensive owner protection program that includes a 3-year/60,000 km TOTAL™ Warranty with no deductible, a 24-Hour Roadside Assistance Program, and the security of the largest dealer network in North America. That's the Chevrolet commitment, and it's standard equipment on every model in our 1994 lineup, from Cavalier to Caprice.

**TOTAL™ Warranty**  
 GM's exclusive TOTAL™ Warranty provides no-deductible coverage for repairs to all 1994 Chevrolet passenger cars, including labour and parts, to correct any defects in material or workmanship occurring during the first 3 years or 60,000 kilometres of ownership. Additional warranty features include 6-year/160,000 km body sheet-metal rust-through protection and 5-year/80,000 km emission control system protection. See your dealer for complete details on the GM TOTAL™ Warranty.

As a Chevrolet owner, you'll enjoy the support of the largest dealer network in North America. No matter where you drive, you're never far from a Chevrolet dealer.

**The Last Thing We Want Is To Leave You Stranded**

*When you drive away in your new 1994 Chevrolet, it's not the conclusion of a sale. It's the beginning of a partnership, in which our obligation is to see that every kilometre is as pleasing as the first. So we've developed the Chevrolet Roadside Assistance Program, a 24-hour-a-day emergency service with a toll-free number useable anywhere in Canada or the United States.*

*It could be as simple as losing your keys, or locking them in the car. Or perhaps you need a jump start because you left the lights on. You're hopelessly stuck in snow or a tire's gone flat. And who among us hasn't run out of fuel, with never a gas pump in sight? When minor inconveniences like these occur, Roadside Assistance will get you on the road again, usually without charge.*

*In the unlikely event that a serious problem occurs and you're far from home, we'll tow your car to a Chevrolet dealer and if necessary, find food, lodging, transportation, even help with the costs. And since every trip should have a happy beginning, Roadside Assistance also offers a trip routing service suggesting the best roads, time and distance travelled, maps and other useful information.*

*We believe there's more to life than selling you a car. So we hope you'll take a moment to ask your Chevrolet dealer for the Chevrolet Roadside Assistance booklet. Because in this imperfect world, the last thing we want is to leave you stranded.*

General Motors is an acknowledged world leader in automotive safety. GM scientists and researchers publish more articles than all the European and Japanese carmakers put

**CHEVROLET SAFETY.** together.

**STANDARD ANTI-LOCK BRAKES** And GM has given away more safety-related patents to the automotive

**ARE JUST THE START.** industry than anyone else.

That's the kind of safety leadership you'll find in every 1994 Chevrolet.

For just one example, an anti-lock braking system (ABS) is standard on every model this year, regardless of price. ABS enhances the normal brake systems on Chevrolet cars, helping to improve both controllability - the ability to stop the vehicle in a straight line - and steerability, the ability to steer around obstacles while braking.

And there's much more to Chevrolet safety than ABS.

Air bags - pioneered on production automobiles by General Motors - are standard on Corsica, Beretta, Lumina Van, Camaro and Caprice. These systems complement the lap-shoulder safety belt system by helping to restrain occupants in the event of a

*Driver- and passenger-side air bags are standard equipment on the 1994 Camaro and Caprice. Driver-side air bags are standard on Corsica, Beretta and Lumina Van. Remember, always wear your safety belt, even in cars equipped with air bags.*

moderate to severe frontal collision.

Other designed-in safety features in every 1994 Chevrolet include side-guard door beams that help to preserve structural integrity in the event of a side impact and front and rear "crush zones" which absorb energy in a collision.

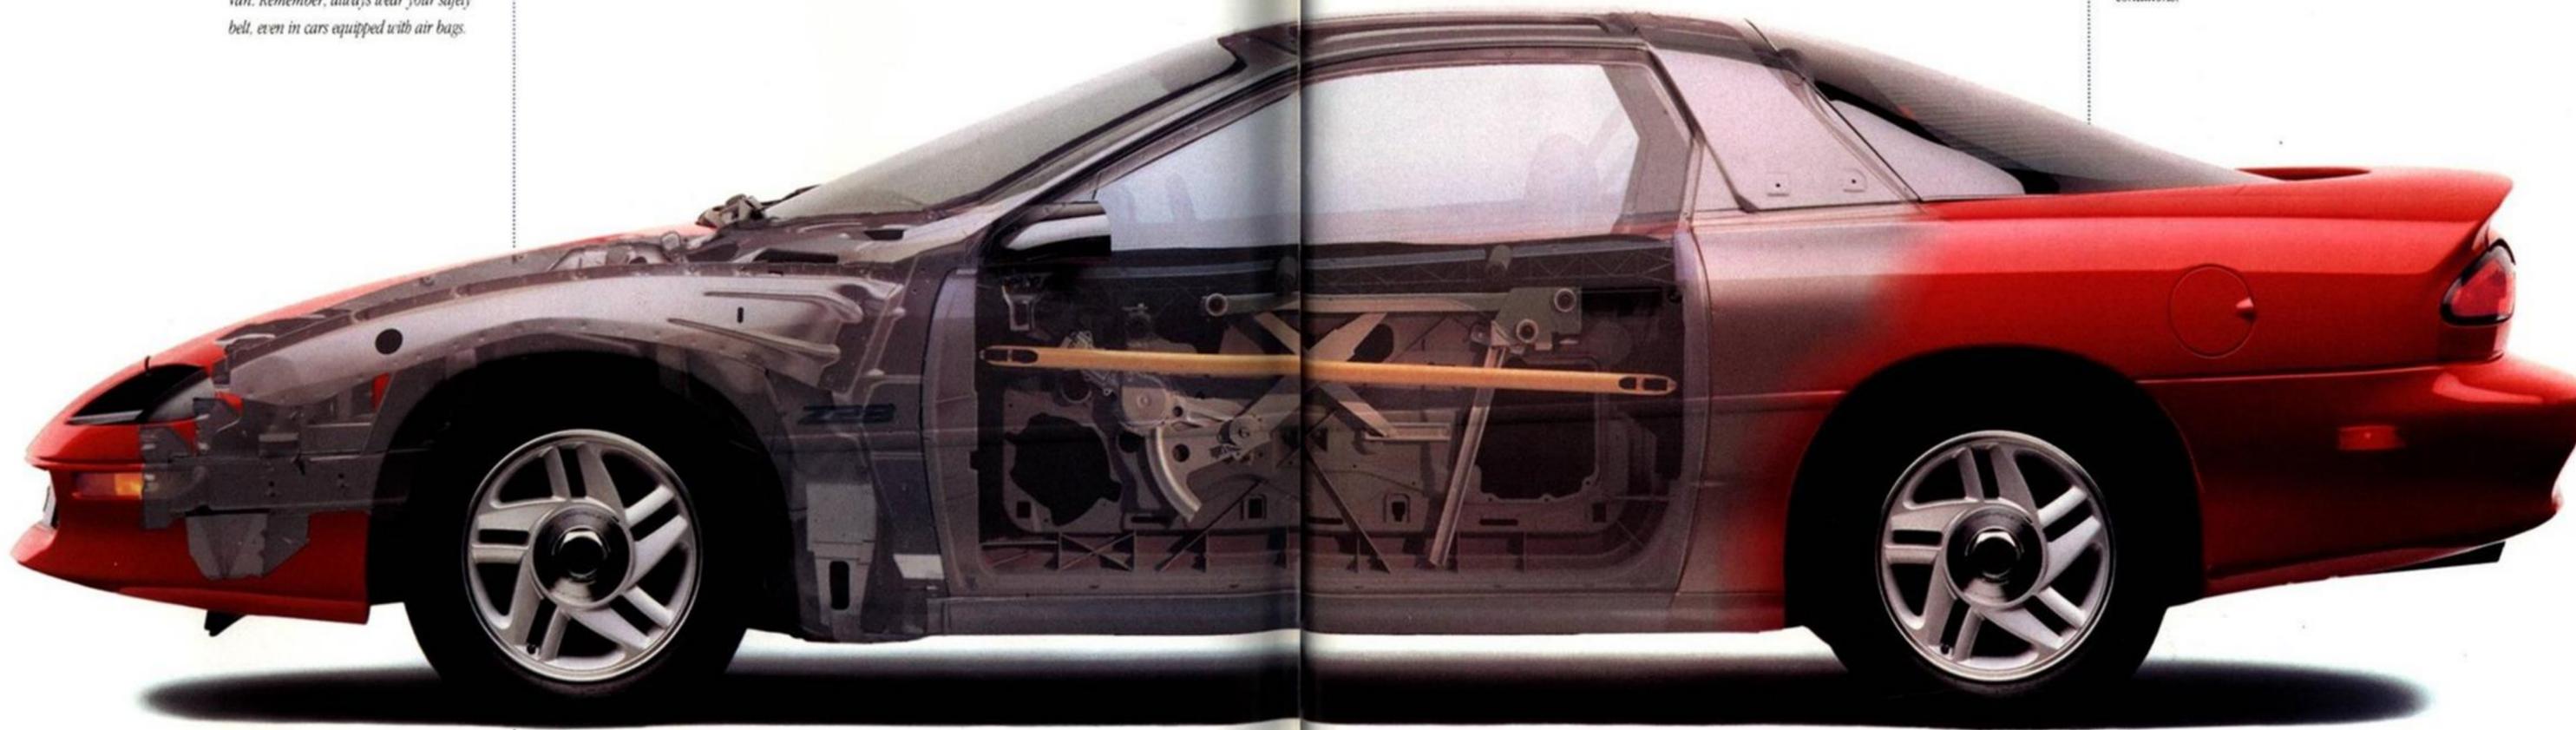

And because we're Chevrolet, we've paid special attention to the safety of the most important members of your family. With features like special guides that make rear shoulder belts more comfortable for children and child-security rear door locks that add to parents' peace of mind.

And standard power door locks which lock automatically and can be programmed to unlock (or stay locked) when the ignition is turned off enhance both safety and convenience.

The list goes on. In all, every Chevrolet model incorporates more than 100 features specifically developed for your safety - and your family's.

*Anti-lock brake systems (ABS) are standard on all Chevrolet passenger cars for 1994. ABS helps provide the driver with the ability to steer around obstacles under severe braking, even in slippery driving conditions.*

C A V A L I E R

C A V A L I E R

*Cavalier VL Coupe.*

Year after year, Cavalier is Canada's best-selling car.

And no wonder. Cavalier is extremely affordable. And equally important, it's the kind of

**CAVALIER.** car you just want to own.

**EASY TO BUY.** Take your choice of coupe, sedan, wagon or convertible models. No

**GREAT TO OWN.** matter which you pick, there's a standard 4-wheel anti-lock brake system for

an extra measure of safety. A choice of powerful fuel-injected 4-cylinder or V6 engines.

Standard automatic power door locks. A long-lasting stainless steel exhaust system.

Rust-resistant galvanized steel for most exterior body panels. Great-looking base-coat/clear-coat paint.

And as if all that wasn't enough, Cavalier also offers a comprehensive 24-Hour Roadside Assistance Program. And a terrific 3-year/60,000 km TOTAL™ Warranty with no deductible.

So what are you waiting for? Come drive a '94 Cavalier. It could be the beginning of a beautiful relationship.

*The Cavalier instrument panel features easy-to-read analogue gauges and a standard slide-out cupholder with room for 2 large soft-drink cups or cans.*

**Standard Four-Wheel ABS**  
Cavalier's standard anti-lock brake system (ABS) prevents wheel lockup during severe braking and helps you maintain steering control even in a panic stop in rain or snow.

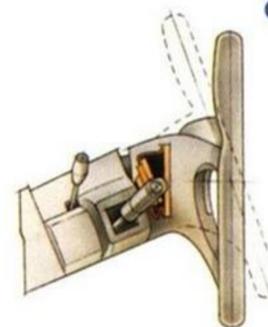

**A Special Note to Parents**  
All 1994 Cavaliers are equipped with rear-seat safety belt comfort guides. These guides make wearing safety belts more comfortable for children who have outgrown child restraints.

**Scotchgard™ Fabric Protector**  
Scotchgard™ Fabric Protector resists soiling and staining and makes cleanups easier, helping keep Cavalier's interior looking new.

**Two-Sided Galvanized Steel**  
Excellent corrosion protection is provided by the use of galvanized steel for all body panels, and 2-sided galvanized steel for hood (except Z24, which features a rustproof composite hood), front fenders and deck lid.

**Soft-Ray Tinted Glass**  
Standard on all Cavaliers, tinted glass cuts down on glare and assists the available air conditioning system's cool-down time.

**Self-Aligning Feature Safety Steering Wheel**  
Every 1994 Cavalier is equipped with a GM-exclusive Self-Aligning Feature (SAF) safety steering wheel – designed to fold flat against the driver's chest in case of frontal impact, thereby helping to minimize internal injuries.

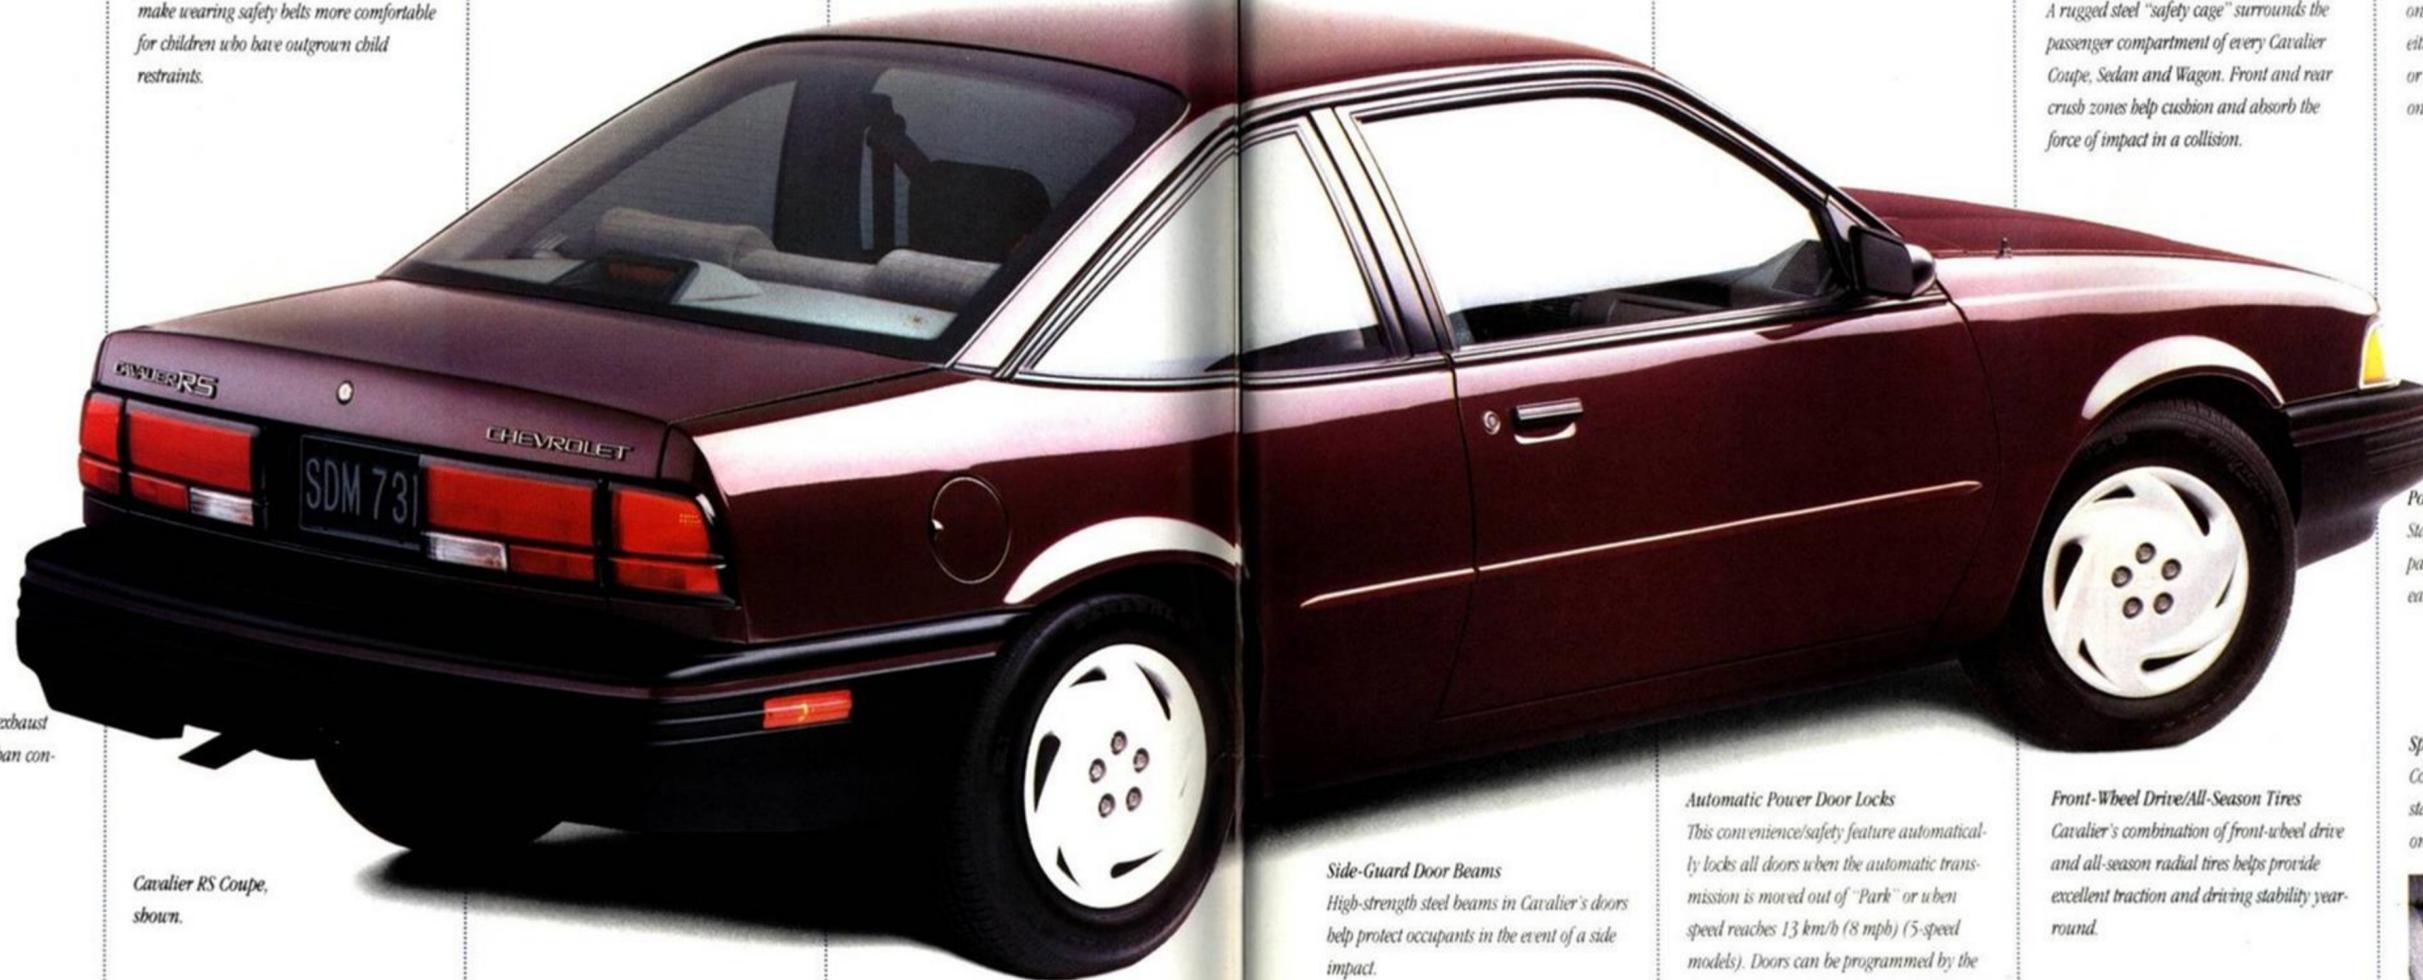

**Base-Coat/Clear-Coat Paint**  
All 1994 Cavaliers feature a durable base-coat/clear-coat paint finish that helps shrug off airborne chemicals, including acid rain, for long-lasting good looks.

**Safety-Cage Construction**  
A rugged steel "safety cage" surrounds the passenger compartment of every Cavalier Coupe, Sedan and Wagon. Front and rear crush zones help cushion and absorb the force of impact in a collision.

**More Powerful 2.2 Litre Engine**  
Cavalier's revised 2.2 litre 4-cylinder engine delivers 120 hp at 5200 rpm, a 9% increase over 1993. Features include Multi-Port Fuel Injection for excellent driveability and a single-belt accessory drive designed never to need adjustment. The available high-torque 3.1 litre V6 engine delivers 140 hp (standard on Z24, available on other models). Both engines are available either with standard 5-speed manual shifter or optional 3-speed automatic, depending on model selected.

**Power-Assisted Rack-and-Pinion Steering**  
Standard power-assisted steering makes parking and manoeuvring in tight traffic easier.

**Split-Folding Rear Seatbacks**  
Convenient split-folding rear seatbacks are standard on Cavalier Wagon and available on RS Coupe and Sedan and Z24 Coupe.

**Stainless Steel Exhaust**  
Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

Cavalier RS Coupe, shown.

**Side-Guard Door Beams**  
High-strength steel beams in Cavalier's doors help protect occupants in the event of a side impact.

**Automatic Power Door Locks**  
This convenience/safety feature automatically locks all doors when the automatic transmission is moved out of "Park" or when speed reaches 13 km/h (8 mph) (5-speed models). Doors can be programmed by the driver to remain locked, or to unlock automatically when the ignition is turned off.

**Front-Wheel Drive/All-Season Tires**  
Cavalier's combination of front-wheel drive and all-season radial tires helps provide excellent traction and driving stability year-round.

CAVALIER**

CAVALIER

CAVALIER

**CAVALIER SEDAN.**  
**RECOMMENDED FOR**  
**FAMILIES OF ALL AGES.**

Your family is calling for 4 doors and room for 5, but your family budget is calling for restraint? Presenting Cavalier VL Sedan, Chevrolet's lowest-priced sedan. Standard equipment for 1994 includes ABS, a 120-hp engine, automatic power door locks, power steering, tinted glass and a stainless steel exhaust system. Not to mention a 369 litre (13.0 cu. ft.) trunk, one of the largest in Cavalier's class.

Move up to RS Sedan and the equipment list gets even longer. An automatic transmission, air conditioning, luxury-level interior trim and distinctive exterior mouldings are all standard. All of which makes Cavalier RS Sedan a very attractive car at a very attractive price.

*Cavalier RS Sedan comes equipped with a long list of standard features, including air conditioning and an automatic transmission.*

*Cavalier VL Sedan.*

When it comes to comfort and convenience, you'll find that Cavalier is full of pleasant surprises.

## THE CAVALIER

### INTERIOR.

After all, who would expect automatic power door locks at this low price? Or Scotchgard™ Fabric Protector on the seats, door panels, carpets and floor mats? Or an illuminated entry system that turns on the interior dome light as soon as you lift the door handle and keeps it on for 45 seconds or until you turn the ignition key?

The uplevel Cavalier RS interior (shown at left) features its own distinctive Custom Cloth fabric. Split-folding rear seatbacks with a trunk pass-through are an option.

*For extra safety, Cavalier's doors lock automatically when the automatic transmission is moved out of "Park" or when the car reaches 13 km/h (8 mph) (manual transmission cars). The doors can be programmed to remain locked, or to unlock automatically when the ignition is turned off.*

*Cavalier VL, front reclining bucket seat.*

If you're looking for the perfect family car, look into the high-value Cavalier Wagon.

You'll find it's a **THE CAVALIER** rather remarkable **WAGON.**

automobile. It's trim on the outside. Yet it seats five people in comfort or can handle more cargo than the biggest full-size sedan.

Inside, a Custom Cloth luxury interior is standard for 1994. Also standard: air conditioning and an automatic transmission.

This Wagon's a lot of fun to drive, too, thanks to the improved 2.2 litre engine. And for even more power, try the optional 3.1 litre V6. It's 140 horses strong.

*Cavalier Wagon with available roof rack.*

*A swing-up rear gate and a low liftover height make for easy loading. And split-folding rear seatbacks add remarkable versatility to the Cavalier Wagon interior. Total cargo space is an amazing 1801 L (63.6 cu. ft.) with the 2nd row seatbacks folded flat.*

C  
A  
V  
A  
L  
I  
E  
R

*Cavalier RS (shown above) and Z24 Convertible models feature the convenience of a power-operated top. A glass rear window — with a standard electric defogger — provides superior visibility to the rear.*

*An optional Arctic White all-vinyl interior with perforated seating areas complements the style of RS and Z24 Convertibles. (Z24 shown at left.)*

C  
A  
V  
A  
L  
I  
E  
R

Tired of boring, plain, vanilla cars? Look no further. Cavalier offers three flavours of pure driving pleasure.

**SERIOUS FUN.** Z24 Coupe is a car with a well-earned reputation for performance.

Under the hood there's a hard-charging 140-hp 3.1 litre V6 coupled to a smooth-shifting 5-speed manual transmission with overdrive. A Sport suspension and fast-ratio rack-and-pinion steering deliver razor-sharp handling. And of course, cast-aluminum wheels, a front air dam and a rear spoiler are standard.

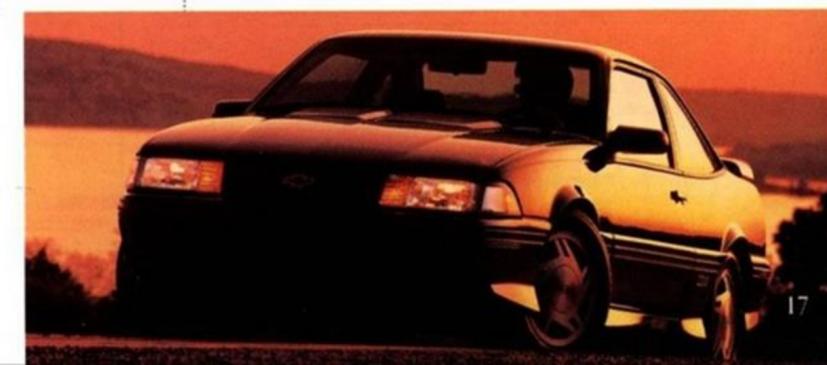

*Cavalier Z24 Coupe and Convertible feature easy-to-read analogue instrumentation, including tachometer, trip odometer, fuel gauge, coolant temperature gauge, oil pressure gauge and voltmeter.*

Perhaps top-down driving is more to your taste. Try Cavalier RS Convertible on for size. The top - with a glass rear window - is power-operated. And air conditioning, an AM/FM stereo and power windows are all standard.

You say you want the performance of Z24 and the style of the Convertible? We've put it all together for you in one very special automobile: the aggressively-styled, V6-powered Cavalier Z24 Convertible.

*Z24's tuned Sport suspension features front and rear stabilizer bars and delivers an impressive blend of ride and handling. Quiet-riding Goodyear Eagle GA tires and 15" cast-aluminum wheels are standard. (Z24 Coupe shown below.)*

## Exterior Colours

Please see your sales representative for model exterior colour availability.

C O R S I C A

Corsica's impressive style is obvious at a glance. But it's the substance of this well-equipped 5-passenger sedan that makes it such a popular choice.

Take safety, for example. An anti-lock braking system (ABS), a driver-side air bag and a steel safety cage surrounding the entire passenger compartment are all standard equipment.

Take comfort and convenience. Corsica's interior offers room for 5 and features like standard air conditioning and an automatic transmission.

Most of all, take value. Because a surprisingly affordable price is another feature you'll find standard on every 1994 Corsica.

**CORSICA.**  
**WHAT YOU GET IS MUCH MORE**  
**THAN WHAT YOU SEE.**

*Corsica is built to look great for a long, long time, with durable base coat/clear-coat paint, stainless steel exhaust, front and rear bumpers designed to shrug off minor impacts and many body panels made from corrosion-resistant 2-sided galvanized steel.*

C O R S I C A

#### A Special Note to Parents

All 1994 Corsicas are equipped with rear-seat safety belt comfort guides. These guides make wearing safety belts more comfortable for children who have outgrown child restraints.

#### Driver-Side Air Bag

A standard driver-side air bag complements the standard safety belt by helping to restrain the driver in the event of a moderate to severe frontal collision. Always wear your safety belt, even in cars equipped with air bags.

#### Front-Wheel Drive/All-Season Tires

Corsica's combination of front-wheel drive and all-season radial tires helps provide excellent traction and driving stability year-round.

#### Soft-Ray Tinted Glass

Standard on Corsica, tinted glass cuts down on glare and assists the air conditioning system's cool-down time.

#### Optional 3.1 Litre Engine

A new 3.1 litre 3100 V6 engine with Sequential-Port Fuel Injection delivers 155 hp. This engine is teamed with a new electronically controlled 4-speed automatic transmission for exceptionally smooth, quiet gear shifting.

#### Composite Headlamps

With replaceable tungsten-halogen bulbs and chip-resistant acrylic lenses, Corsica's composite headlamps provide excellent illumination for night driving.

#### More Powerful 2.2 Litre Engine

Corsica's redesigned 2.2 litre 4-cylinder engine delivers 120 hp at 5200 rpm, a 9% increase over 1993. Features include Multi-Port Fuel Injection for excellent driveability and a single-belt accessory drive designed never to need adjustment. A 3-speed automatic transmission is standard.

#### Base-Coat/Clear-Coat Paint

All 1994 Corsicas feature a durable base-coat/clear-coat paint finish that helps shrug off airborne chemicals, including acid rain, for long-lasting good looks.

## USE THIS GUIDE TO "WALK AROUND" CORSICA.

#### Automatic Power Door Locks

This convenience/safety feature automatically locks all doors when the automatic transmission is moved out of "Park". Doors can be programmed by the driver to remain locked, or to unlock automatically when the ignition is turned off.

#### Stainless Steel Exhaust

Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

#### Spacious Trunk

A large 38.3 L (13.5 cu. ft.) trunk adds to Corsica's family car appeal. For added convenience you can order a remote trunk lid release and an in-trunk cargo convenience net.

#### Battery-Saver System

This new-for-1994 GM-developed system automatically shuts off beedlamps should you forget to do so after the car has been sitting with the ignition off for 20 minutes. It also cuts power to accessories after 24 days to help alleviate battery rundown problems. Placing the key in the ignition reactivates the power.

#### Four-Wheel ABS

Corsica's standard anti-lock brake system (ABS) prevents wheel lockup during severe braking and helps you maintain steering control even in a panic stop in rain or snow.

#### Side-Guard Door Beams

High-strength steel beams in every door help protect occupants in the event of a side impact.

#### Two-Sided Galvanized Steel

Excellent corrosion protection is provided by the use of 2-sided galvanized steel for all exterior body panels except the roof. The zinc coating actually eliminates surface rust on the outside due to minor chips and scratches and helps prevent holes which start from the inside. That's double coverage.

#### Safety-Cage Construction

A rugged steel "safety cage" surrounds the passenger compartment of every Corsica. Front and rear crush zones help cushion and absorb the force of impact in a collision.

#### Scotchgard™ Fabric Protector

Scotchgard™ Fabric Protector resists soiling and staining and makes cleanups easier, helping keep Corsica's interior looking new.

*Corsica interior.*

*The standard slide-out cupholder is designed to accommodate 2 large soft drinks cups or 2 cans.*

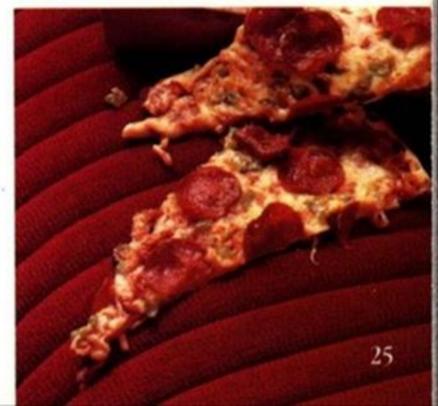

Are you looking for an affordable sedan that's roomy and comfortable on the inside, but not too large on the outside? With its

**THE CORSICA  
INTERIOR.**

spacious 5-passenger interior and trim overall size, Corsica is your car.

Corsica is also exceptionally well equipped. Standard appointments include air conditioning, front reclining cloth bucket seats, driver-side air bag, a Delco AM/FM stereo, a headlamps-on reminder tone and tinted glass for all windows. Split-folding rear seatbacks with a convenient trunk pass-through feature is optional, for excellent cargo carrying convenience.

*Scotchgard™ Fabric Protector - on seat fabrics, door panels and floor carpeting - is standard in every Corsica, for stain resistance and easy cleanup.*

B E R E T T A

Beretta's appeal starts with aggressive coupe styling that would stand out in any crowd.

Then it continues with the safety of a driver-side air bag and an anti-lock braking system (ABS). And heats up with a new Beretta Z26 model that features Sport suspension, a choice of 2 high output engines, and dramatic exterior styling.

Finally, there's the price. Even with all this equipment, Beretta is one of Canada's most affordable sporty coupes.

Beretta. We don't expect you to buy it just for its looks. But who could blame you if you did?

**Beretta Z26. This one cooks.**

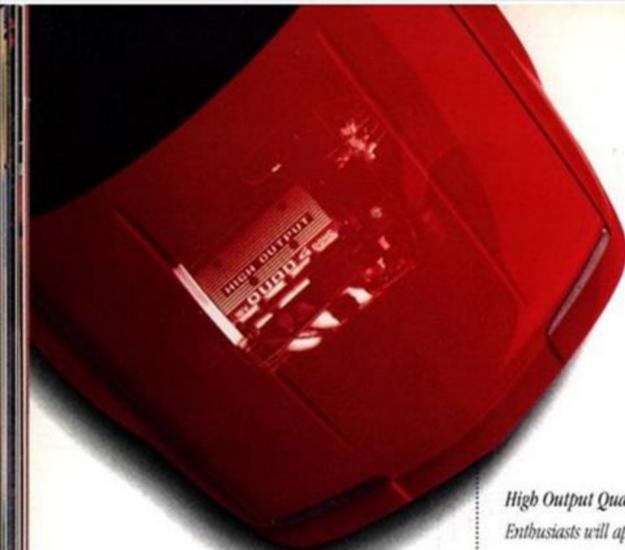

Z26 lets you have your performance your way. Choose the standard 170 hp 2.3 litre HO Quad 4 engine with 4 valves-per-cylinder and you get a slick-shifting 5-speed manual transmission. Or select the available 155 hp high-torque 3.1 litre 3100 V6 and enjoy the smooth, precise shifting of an electronically controlled 4-speed automatic.

**THIS CAR COULD GET BY  
ON LOOKS ALONE.**

*Beretta Z26 Coupe with standard  
16" cast-aluminum wheels.*

E  
R  
E  
T  
T  
A

#### High Output Quad 4

Enthusiasts will appreciate the performance of Beretta Z26's standard 170 hp HO Quad 4 engine. Features include four valves-per-cylinder and double overhead camshafts for excellent response through a wide rpm range.

#### Optional 3.1 Litre Engine

A new 3.1 litre 3100 V6 engine with Sequential-Port Fuel Injection delivers 155 hp. This engine is teamed with a new electronically controlled 4-speed automatic transmission for exceptionally smooth, quiet gear shifting.

#### Two-Sided Galvanized Steel

Excellent corrosion protection is provided by the use of 2-sided galvanized steel for all exterior body panels except the roof. The zinc coating actually eliminates surface rust on the outside due to minor chips and scratches and helps prevent holes that actually start from the inside. That's double coverage.

#### Battery-Saver System

This new-for-1994 GM-developed system automatically shuts off headlamps should you forget to do so after the car has been sitting with the ignition off for 20 minutes. It also cuts power to accessories after 24 days to help alleviate battery rundown problems. Placing the key in the ignition reactivates the power.

#### A Special Note to Parents

All 1994 Berettas are equipped with rear-seat safety-belt comfort guides. These guides make wearing safety belts more comfortable for children who have outgrown child restraints.

#### Automatic Power Door Locks

This convenience/safety feature automatically locks all doors when the automatic transmission is moved out of "Park" or when speed reaches 13 km/h (8 mph) (manual transmission models). Doors can be programmed by the driver to remain locked, or to unlock automatically when the ignition is turned off.

### USE THIS GUIDE TO "WALK AROUND" BERETTA.

#### Safety-Cage Construction

A rugged steel "safety cage" surrounds the passenger compartment of every Beretta. Front and rear crush zones help cushion and absorb the force of impact in a collision.

#### Soft-Ray Tinted Glass

Standard on both Berettas, tinted glass cuts down on glare and assists the standard air conditioning system's cool-down time.

#### Driver-Side Air Bag

A standard driver-side air bag complements the standard safety belt by helping to restrain the driver in the event of a moderate to severe frontal collision. Always wear your safety belt, even in cars equipped with air bags.

#### Spacious Trunk

Beretta's large 383 L (13.5 cu. ft.) trunk adds to its versatility. Split-folding rear seat-backs (with trunk pass-through feature) are standard on Beretta Z26 and optional on Beretta Coupe.

#### More Powerful 2.2 Litre Engine

Beretta's revised 2.2 litre 4-cylinder engine delivers 120 hp at 5200 rpm, a 9% increase over 1993. Features include Multi-Port Fuel Injection for excellent driveability and a single-belt accessory drive designed never to need adjustment. Standard on Beretta Coupe.

Beretta Z26 Coupe shown.

#### Stainless Steel Exhaust

Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

#### Base-Coat/Clear-Coat Paint

All 1994 Berettas feature a durable base-coat/clear-coat paint finish that helps shrug off airborne chemicals, including acid rain, for long-lasting good looks.

#### Room for Five

Inside Beretta's sleek coupe shape, there's room for 5 to ride in comfort.

#### Standard Four-Wheel ABS

Beretta's standard anti-lock brake system (ABS) prevents wheel lockup during severe braking and helps you maintain steering control even in a panic stop in rain or snow.

#### Front-Wheel Drive/All-Season Tires

Beretta's combination of front-wheel drive and all-season radial tires helps provide excellent traction and driving stability year-round.

#### Power-Assisted Rack-and-Pinion Steering

Standard power-assisted rack-and-pinion steering helps provide precise, responsive handling and makes low-speed manoeuvring and parking easier.

First, settle into Z26's body-hugging bucket seat with adjustable head restraint and inflatable lumbar support.

Now take in the superb design of this coupe's driving environment.

The Sport steering wheel with built-in air bag is adjustable. The easy-to-read analogue instrumentation is complete. Controls, including floor shifter, are conveniently placed and intuitive in design.

And Z26 also offers comfort and convenience features you'll appreciate, like standard air conditioning, slide-out cupholders and a centre console with integral armrest and storage compartment. Add it all up. Z26 is a serious sports coupe...without the serious price tag.

**BERETTA Z26. THIS CAR TAKES DRIVING AS SERIOUSLY AS YOU DO.**

*Beretta Z26 features supportive body-contoured front bucket seats with an inflatable lumbar support for the driver. Both driver and passenger side seats are 4-way adjustable.*

BERETTA

B  
E  
R  
E  
T  
T  
A

The rule used to be that quality, safety and style had to cost a lot of money.

**BERETTA COUPE. WE TOSSED** Well no more.

**OUT THE RULE BOOK.** The 1994 Beretta Coupe offers premium looks and features at a price real people can afford.

Standard features include an anti-lock braking system (ABS), a driver-side air bag, air conditioning, power rack-and-pinion steering and deep-shining base-coat/clear-coat paint. A powerful 2.2 litre engine with Multi-Port Fuel Injection produces 120 smooth,

quiet horsepower. For even more performance and refinement, order the available 155 hp 3100 V6.

And rest assured, Beretta's quality will stand the test of time. All body panels except the roof are made from rust-resistant 2-sided galvanized steel, which actually eliminates surface rust due to minor chips and scratches. The exhaust system is durable stainless steel. And the advanced engine ignition system never requires adjustment.

Beretta Coupe. It should be an expensive car. But it isn't.

*Beretta Coupe provides room for 5 and a host of standard comfort and convenience features, including Scotchgard™ Fabric Protector on the seats, door panels and floor carpeting, for stain resistance and easy cleanups.*

# LUMINA

Lumina is accommodating. As Chevrolet's roomiest front-wheel drive car, it offers seating for up to 6 passengers in air conditioned comfort.

**LUMINA.** Lumina is satisfying. With smooth V6 power, responsive power-assisted

**ONE CAR THAT** rack-and-pinion steering, front and rear disc brakes with an anti-lock

**DOES IT ALL.** braking system (ABS) and a precisely tuned 4-wheel independent

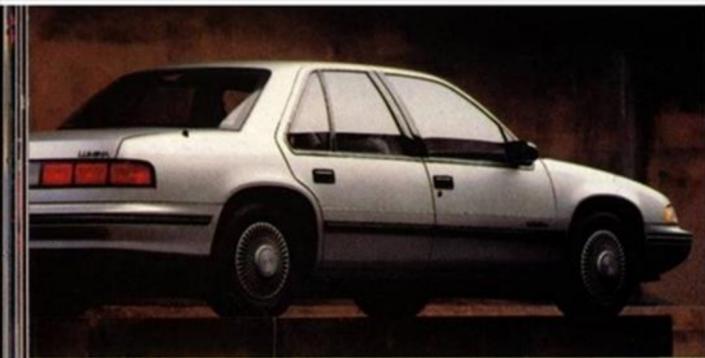

suspension, this is one family car that's a treat to drive.

Lumina is enduring. Extensive use of 2-sided galvanized steel, a corrosion-resistant stainless steel exhaust system and base-coat/clear-coat paint help every Lumina to last a long, long time.

Which leaves only one question. With Lumina offering all this, why are some people still paying more money for less car?

Foreground: Lumina Z34 Coupe.  
Background: Lumina Euro 3.4 Sedan.

Lumina Sedan

**Four-Wheel ABS**

Lumina's standard anti-lock brake system (ABS) prevents wheel lockup during severe braking and helps you maintain steering control even in a panic stop in rain or snow. Power-assisted 4-wheel disc brakes provide excellent stopping power.

**Power-Assisted Rack-and-Pinion Steering**

Standard power-assisted rack-and-pinion steering helps provide precise, responsive handling and makes low-speed manoeuvring and parking easier.

**3.1 Litre V6 Engine**

The standard 3.1 litre V6 with Multi-Port Fuel Injection delivers 140 hp at 4400 rpm. An exceptionally smooth, electronically-controlled 4-speed automatic transmission with overdrive is used in all models this year.

**Front-Wheel Drive/All-Season Tires**

Lumina's combination of front-wheel drive and all-season radial tires helps provide excellent traction and driving stability year-round.

**Two-Sided Galvanized Steel**

Excellent corrosion protection is provided by the use of 2-sided galvanized steel for most exterior body panels. The zinc coating actually eliminates surface rust on the outside due to minor chips and scratches and helps prevent holes that actually start from the inside. That's double coverage.

**Self-Aligning Feature (SAF) Steering Wheel**  
Lumina's Self-Aligning Feature (SAF) safety steering wheel helps protect drivers from chest or abdominal injury in the event of a frontal collision.

**Large Window Area**

Lumina's large "greenhouse", designed low into the body, offers excellent outward visibility, which can help you avoid accidents.

**Soft-Ray Tinted Glass**

Standard on all Luminas, tinted glass cuts down glare and assists the standard air conditioning system's cool-down time.

**Scotchgard™ Fabric Protector**

Scotchgard™ Fabric Protector resists soiling and staining and makes cleanups easier, helping keep Lumina's interior looking new.

**Side-Guard Door Beams**

High-strength steel beams in every door help protect occupants in the event of a side impact.

Lumina Euro Sedan, shown.

**USE THIS GUIDE TO  
"WALK AROUND"  
LUMINA.**

**Base-Coat/Clear-Coat Paint**

All 1994 Luminas feature a durable base-coat/clear-coat paint finish that helps shrug off airborne chemicals, including acid rain, for long-lasting good looks.

**Automatic Power Door Locks**

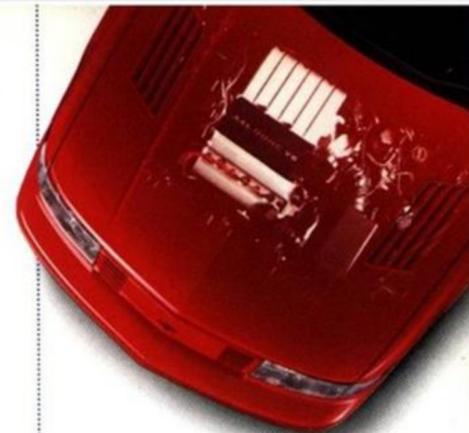

This convenience/safety feature automatically locks all doors when the automatic transmission lever is moved out of "Park". Doors can be programmed by the driver to remain locked, or to unlock automatically when the ignition is turned off.

**Room For Up To 6**

Lumina Sedan is Chevrolet's most spacious front-wheel drive car, with comfortable seating for 5 or 6 passengers, depending on the seat style and model selected.

**Four-Wheel Independent Suspension**

The 4-wheel independent suspension found on every Lumina provides a smooth ride and very good handling, and features a single transverse leaf spring made of fibreglass, for excellent corrosion resistance.

**Available 3.4 Litre Twin Dual Cam V6 Engine**

A 3.4 litre Twin Dual Cam V6 engine is standard on Lumina Z34 Coupe and Euro 3.4 Sedan. This 24-valve performance engine - the most powerful V6 ever in a Chevrolet passenger car - produces 210 hp.

**Stainless Steel Exhaust**

Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

**Safety-Cage Construction**

A rugged steel "safety cage" surrounds the passenger compartment of every Lumina. Front and rear crush zones help cushion and absorb the force of impact in a collision.

LUMINA

*The Custom Cloth interior, including a 60/40 divided front bench seat, is standard on Lumina Euro and optional on Lumina. Custom Cloth front bucket seats are available on both Lumina Euro models.*

Inside Lumina, you'll find comfortable seating for up to 6 passengers, with a standard 60/40 divided front bench seat complete with pull-down centre armrest. Or

select from the range of available seating, including Custom Cloth and reclining front bucket seats.

**THE LUMINA INTERIOR.**

*Lumina Euro 3.4 Sedan and Z34 Coupe feature front reclining Sport bucket seats in Custom Cloth and full floor console with shifter.*

You can cool down with standard air conditioning. Enjoy your favourite stations on the AM/FM stereo radio. And to make your driving even more comfortable, a Tilt-Wheel™ adjustable steering column is standard.

*The standard Lumina cloth interior features a 60/40 divided front bench seat and offers comfortable seating for up to 6 passengers.*

# C A M A R O

If the new Camaro has your heart racing, don't worry. It's normal.

The usually-cool heads at *Autoweek* magazine called it "... by far the best Camaro ever." That's a sentiment echoed by the editors of *Motor Trend*, who wrote, "It took all our

**THE REINVENTION** self-control to give it back."

**OF A LEGENDARY** And why not? In your choice of Coupe or Convertible body

**CHEVROLET.** styles, Camaro has all the goodies.

Like a 160 hp 3.4 litre V6 with Sequential-Port Fuel Injection. Standard dual air bags. Anti-lock brakes. Solar-Ray tinted glass. A Tilt-Wheel™ adjustable steering column. AM/FM stereo with cassette player. And a PASS-Key II theft-deterrent system that makes Camaro one tough car to steal.

There's also a more rigid body structure that helps keep Camaro free from squeaks and rattles. Not to mention ding- and dent-resistant doors and front fenders, for long-lasting good looks. And a price that's a pleasant surprise.

Because a car that's this easy to fall in love with should be easy to live with, too.

Camaro Coupe

#### **PASS-Key II Theft-Deterrent System**

If a would-be thief tries to start your Camaro without using the right ignition key, the standard PASS-Key II theft-deterrent system will automatically disable the car's starter and fuel systems for approximately 3 minutes.

#### **Dual Air Bags**

Standard driver- and passenger-side air bags help protect front-seat passengers in moderate to severe frontal collisions. Always wear your safety belt, even in cars equipped with air bags.

#### **5.7 Litre LT1 V8**

Z28's standard 275 hp 5.7 litre LT1 V8 benefits from Sequential-Port Fuel Injection for 1994, providing better emissions control and driveability along with all the road-wrinkling performance this engine is famous for. The LT1's platinum-tipped spark plugs can go an amazing 160,000 km (100,000 miles) before their first required scheduled maintenance.

#### **Manual Transmissions**

Camaro comes standard with an easy-shifting 5-speed manual transmission with overdrive. A 6-speed close-ratio manual transmission is standard on Z28 and perfectly complements the performance of the LT1 V8.

#### **Improved 4-Speed Automatic Transmission**

The 4-speed automatic transmission - available on Camaro and Z28 models - features new-for-1994 electronic controls for smoother, more precise shifting.

*Camaro Z28 Convertible, shown.*

#### **Short/Long Arm (SLA) Front Suspension**

Short/Long Arm (SLA) front suspension with high gas-pressure monotube de Carbon® shocks helps provide precision steering response and a smooth, controlled ride.

#### **Removable Roof Panels**

Enjoy open-air driving with Camaro's optional removable roof panels. Deep-tinted, scratch-resistant glass, they are also lightweight and lock in place for added security. Optional, Coupes only.

#### **Anti-lock Braking System (ABS)**

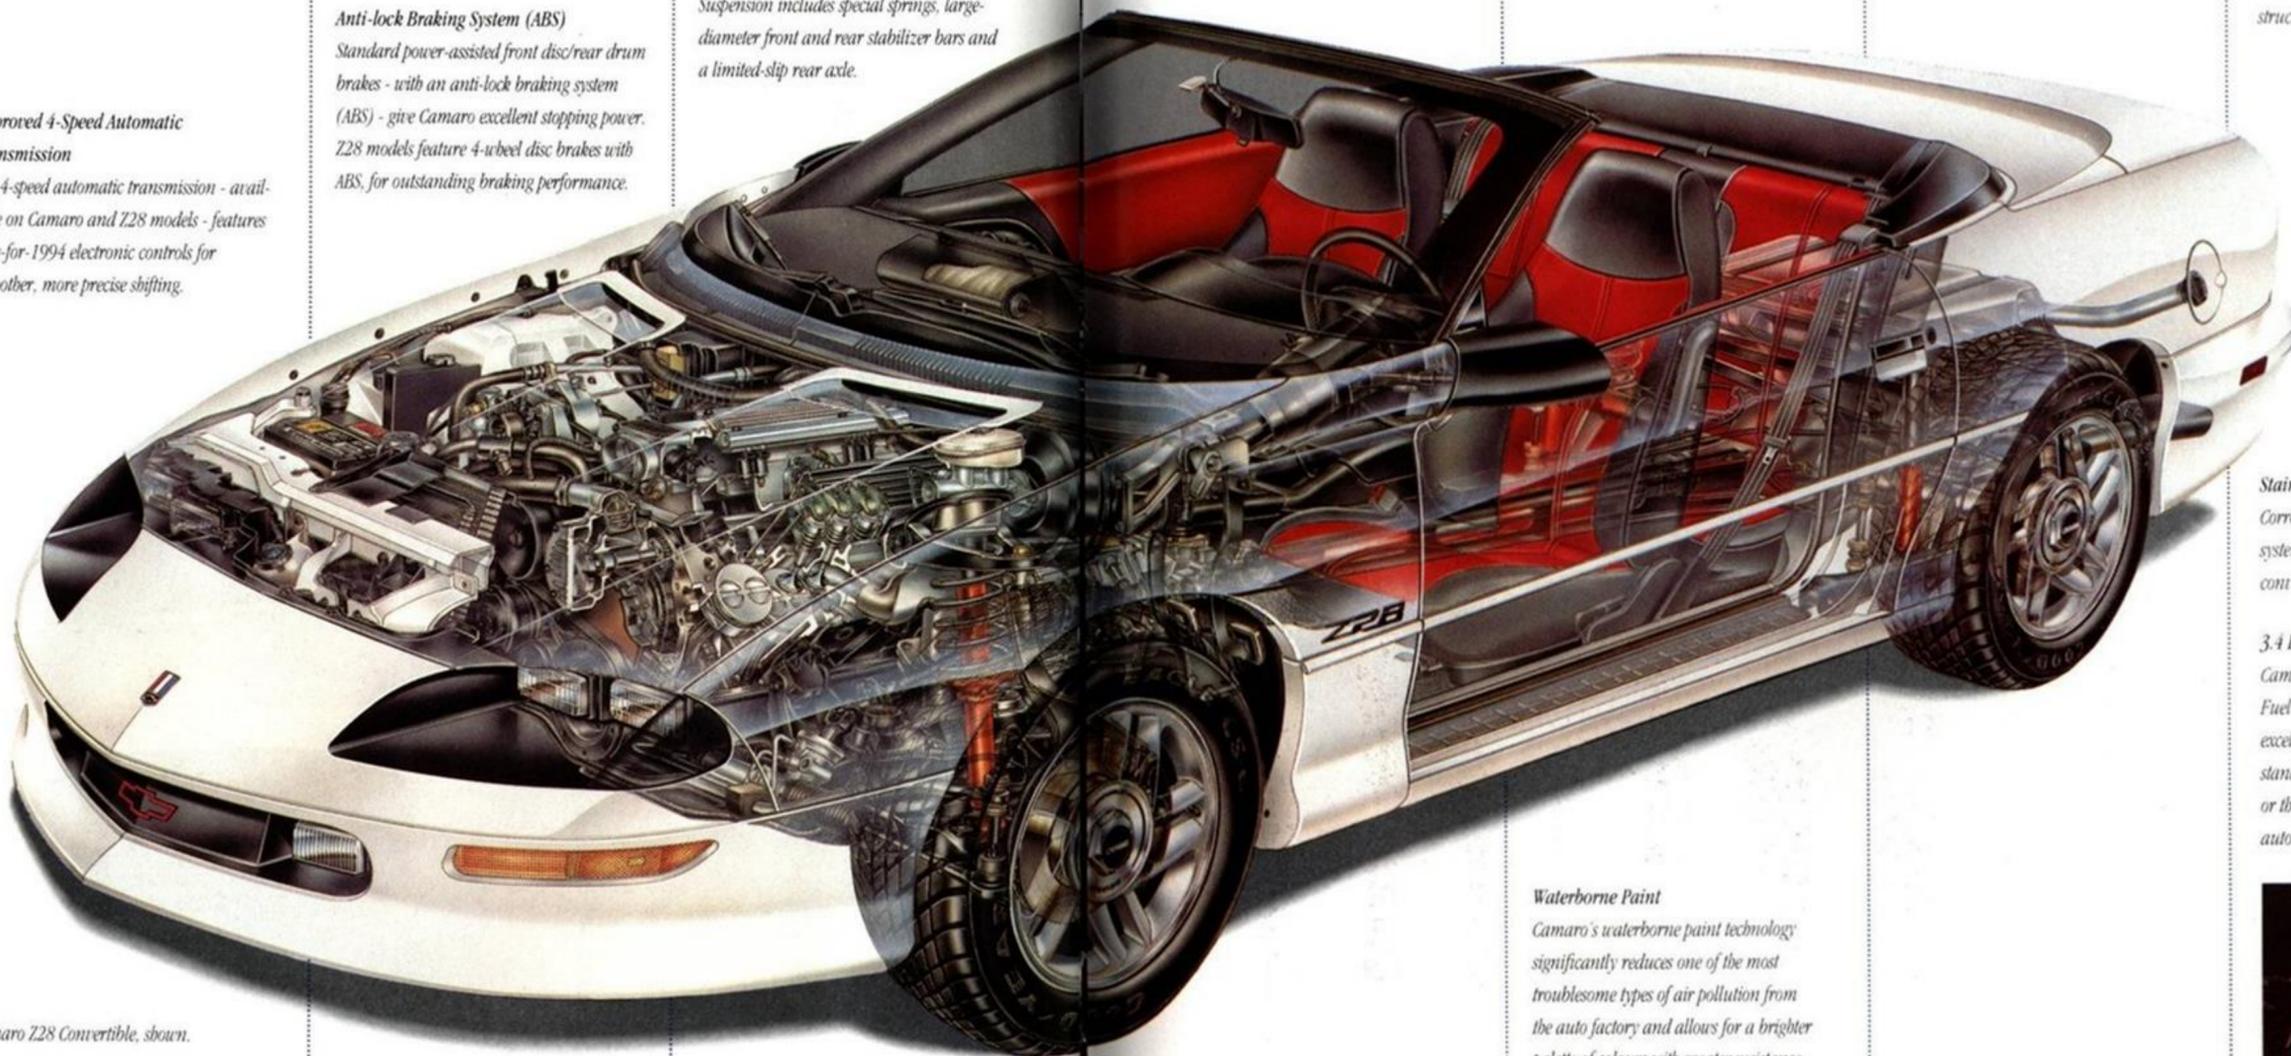

Standard power-assisted front disc/rear drum brakes - with an anti-lock braking system (ABS) - give Camaro excellent stopping power. Z28 models feature 4-wheel disc brakes with ABS for outstanding braking performance.

#### **Solar-Ray Tinted Glass**

Solar-Ray tinted glass - used on all windows - makes for a more comfortable interior, helps protect fabrics and other materials from the damaging ultra-violet rays of the sun and decreases the available air conditioner's cool-down time.

#### **Ride and Handling Suspension**

Standard on Z28, the Ride and Handling Suspension includes special springs, large-diameter front and rear stabilizer bars and a limited-slip rear axle.

#### **Power Assisted Rack-and-Pinion Steering**

Power assisted steering makes every Camaro easy to park and manoeuvre in tight traffic.

#### **16" Touring Tires**

Both Camaro and Z28 feature 16" Goodyear Eagle touring tires as standard equipment, for excellent traction and a good ride (P215/60R16 on Camaro, P235/55R16 on Z28). High performance P245/50ZR16 Goodyear Eagle GS-C tires are available on Z28 for a superb blend of grip, wet-weather traction and quiet highway ride.

#### **Side-Guard Door Beams**

High-strength steel beams in both doors help protect occupants in the event of a side impact.

## **USE THIS GUIDE TO "WALK AROUND" CAMARO.**

#### **Traction Control**

New for 1994 on Z28 models is an available Acceleration Slip Regulation (ASR) traction control system which enhances stability by helping to prevent wheel spin in slippery driving conditions. (Interim availability.)

#### **Convertible Rear Window Defogger**

Even the new convertible models feature a glass rear window with electric rear defogger for improved visibility.

#### **Substantial Cargo Space**

With the rear seat folded down, both Camaro coupe models offer up to 930 L (32.8 cu. ft.) of cargo space, accessible through the wide-opening rear hatch.

#### **Steel Safety Cage**

A rugged steel safety cage surrounds the entire passenger compartment (Coupe models). Other integral safety features include controlled-crush front and rear body structures and side-guard door beams.

#### **Stainless Steel Exhaust**

Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

#### **3.4 Litre V6**

Camaro's 3.4 litre V6 with Sequential-Port Fuel Injection delivers 160 hp and provides excellent performance with either the standard 5-speed manual transmission or the available 4-speed electronic shifting automatic.

#### **Waterborne Paint**

Camaro's waterborne paint technology significantly reduces one of the most troublesome types of air pollution from the auto factory and allows for a brighter palette of colours with greater resistance to fading and weathering.

#### **Polymer Composite Body Panels**

The polymer composite panels used on Camaro's doors, roof, front fenders and front and rear fascias are rust-proof and dent-resistant, to help keep Camaro good-looking for years.

Great visibility. Carefully placed controls. Extensive analogue instrumentation. Supportive seats. Quality fabrics. And surprising convenience features.

That's what you'll find inside every Camaro. It adds up to a driving environment that will please even the most discriminating enthusiast.

Standard features include an AM/FM stereo with cassette tape player, console-mounted cupholder and a locking glove box. There's also a Tilt-Wheel™ adjustable steering column.

*A console-mounted cupholder provides an added measure of convenience.*

*Scotchgard™ Fabric Protector, on seats, door panels, floor carpeting and floor mats, is standard.*

**A SPORTS CAR YOU CAN  
BE COMFORTABLE WITH.**

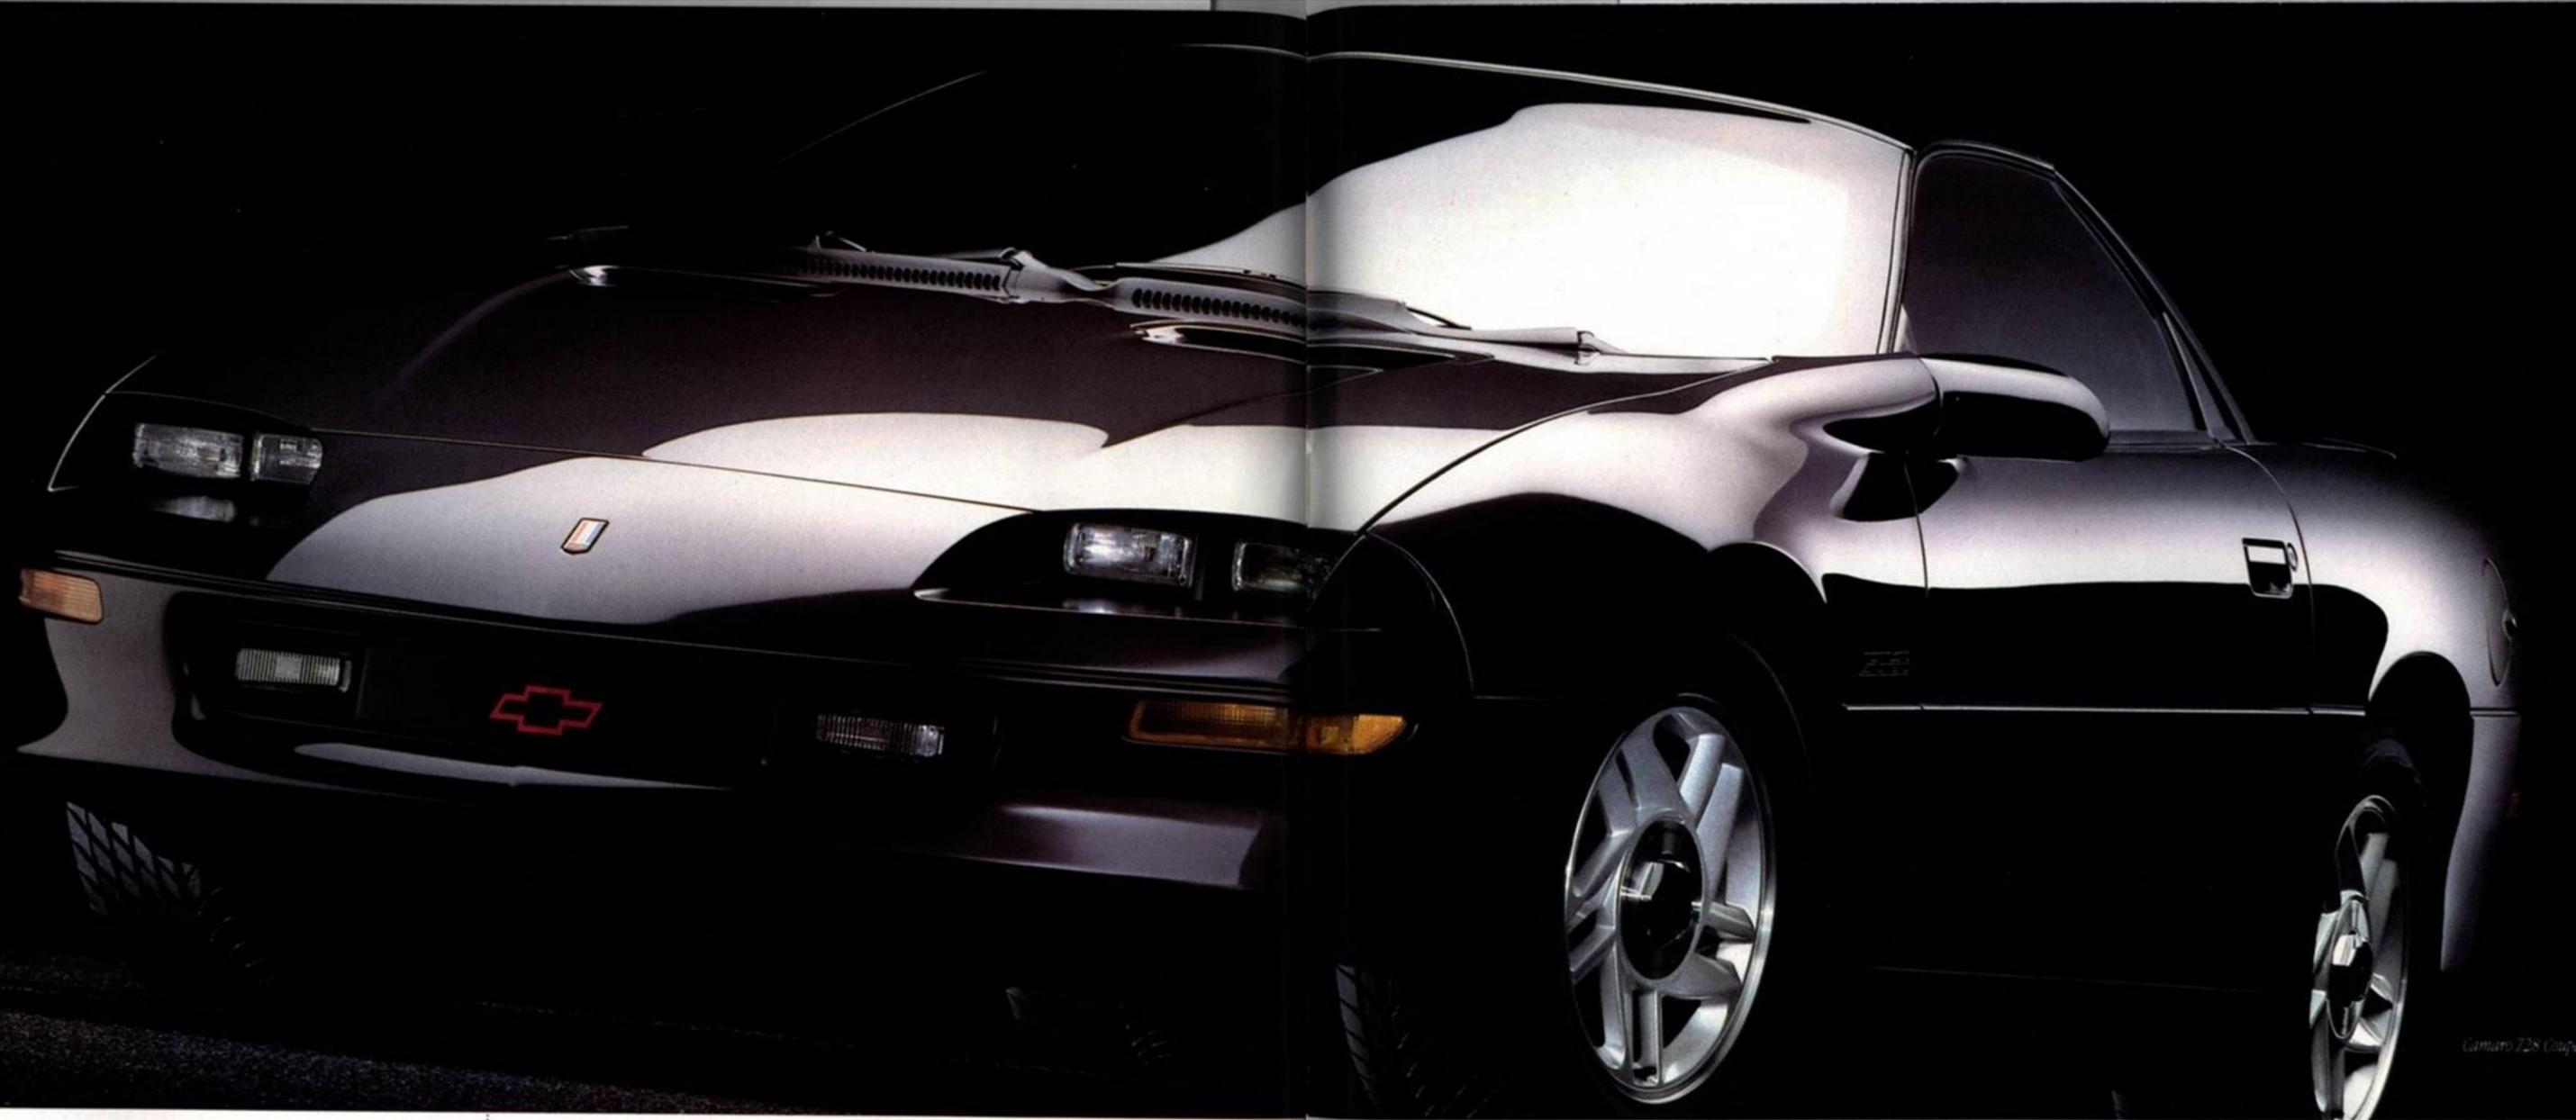

*The windshield and all windows feature Solar-Ray glass, which helps reduce heat buildup in the interior and protects fabrics and other materials from the harmful ultra-violet rays of the sun.*

*Reclining front bucket seats are standard. For maximum comfort, order the optional 6-way power driver's seat.*

*Coupe models with deep well trunk, offer up to 930 L (32.8 cu. ft.) of cargo space with the rear seatback folded down.*

Camaro Z28 Coupe

Optional Z-rated P245/50ZR16 Goodyear Eagle GS-C tires with 16 x 8-inch cast-aluminum wheels contribute to Z28's great looks and razor-sharp handling. Also available, a Performance Package for Z28 Coupes - larger stabilizer bars, stiffer shock absorbers and bushings - intended for serious performance enthusiasts only!

This one isn't for everybody. But if you long for classic V8 performance with 1990s sophistication, Z28 delivers. Its unique blend of poise and power will have you taking the

**Z28.** long way home time after time.

**MAXIMUM CAMARO.**

Z28's heart, of course, is Chevrolet's 275 hp LT1 V8, refined and updated for 1994 with a new Sequential-Port Fuel Injection system. And matched with a 6-speed manual transmission - 4 close-ratio forward gears with 2 overdrive gears.

Its soul is a chassis designed and tuned for instant response to every input.

Components include a remarkably solid body structure. Specific Performance Ride & Handling suspension with front and rear stabilizer bars and special springs. Fast-ratio power-assisted rack-and-pinion steering. And four-wheel disc brakes with ABS.

Standard Z28 style features include a special black roof treatment (Z28 Coupe), 16" cast-aluminum wheels and "Z28" badging on the front fenders and rear fascia.

Read the reviews. Check out the specifications. Take a test drive. Then ask yourself, "Am I ready for this much Camaro?"

*Camaro's ergonomically designed instrument panel features a full range of analogue gauges, for easy readability.*

There's never been a higher-performance regular production Camaro than the new Z28. And the credit goes to the legendary LT1 V8.

This deep-breathing 5.7 litre powerplant - equipped with Sequential-Port Fuel Injection

**Z28 AND THE LT1 V8.** for 1994 - delivers 275 hp at 5000 rpm. Torque is a pavement-pounding **MADE FOR EACH OTHER.** 325 lb.-ft. at 2000 rpm.

The standard 6-speed manual transmission is the perfect complement to the high-revving LT1. Gear ratios have been carefully chosen to maximize the potential of this world-class powertrain. For optimal fuel economy, there's a special "skip-shift" feature which directs the shifter from first gear to fourth under light acceleration.

For those who prefer the convenience of an automatic transmission, a 4-speed automatic with overdrive is available. Upgraded for 1994, this transmission now features electronic controls for smooth, precise upshifts and downshifts, with shift timing that's perfectly matched to the performance characteristics of the LT1 V8.

*Looking for a sports car with miles of headroom? Check out the new-for-1994 Camaro Convertible, available in both base and Z28 form (Z28 shown). Camaro Convertibles offer all the performance, style and safety features you'd expect, plus a power-operated top complete with a glass rear window and electric defogger. They also feature a standard 3-piece fiberglass tonneau cover for a clean top-down appearance that the competition just can't touch.*

*Z28's available Acceleration Slip Regulation (ASR) traction control system helps prevent wheelspin in slippery driving conditions, for enhanced stability. (Interim availability.)*

*Z28's standard 5.7 litre LT1 V8 with Sequential-Port Fuel Injection.*

# L U M I N A V A N

Lumina Van meets today's family needs with generous standard seating for 5, including a removable 3-passenger rear bench seat. Or choose the available flexibility of modular

**1994 LUMINA VAN.** seating for 7. Lumina Van combines this accommodating interior with

**AN EXCEPTIONAL TALENT** a uniquely enjoyable blend of aero design, car-like ride and precise

**FOR MAKING YOU COMFORTABLE.** handling. You can also take comfort in a host of standard safety

features, including a four-wheel anti-lock braking system, a driver-side air bag and side-guard door beams.

Redesigned for 1994, its shortened front-end is easier to park. Distinctive rust-proof ding- and dent-resistant composite body panels haven't changed — they are still built over a strong steel space frame.

*Lumina Van with LS package.*

**Large Cargo Capacity**  
Standard seating is for 5- two front bucket seats with a 3-passenger wide removable bench.  
Lumina Van features 3188 L (112.6 cu. ft.) of cargo space with all rear seats removed. Loading is easy, thanks to a low lift-over and a wide hatch. The open tail

**Composite Body Panels**  
Outer body panels are formed from a high-strength composite material that's rust-free and dent- and ding-resistant.

**Space-Frame Construction**  
Lumina Van surrounds you with the strength of a built-in rigid steel body cage.

**Ozone-Friendly Air Conditioning**  
Lumina's front or front/rear air conditioning systems use a CFC-free refrigerant that helps safeguard the environment.

**Available Dual Child Seats**  
Optional Dual integral dual child seat design lets you fold the seat down for small children and fold it up and out of the way for adults. (Available only with 7-passenger seating.)

**Power Sliding Side Door**  
This available feature lets you close and lock the sliding side door electronically from the driver's seat. For superior safety, the door automatically stops and reverses if the system's sensors encounter any object - even the little fingers of a child - in the door opening.

**Scotchgard™ Fabric Protector**  
Scotchgard™ Fabric Protector resists soiling and staining and makes cleanups easier, helping keep Lumina's interior looking new.

**Automatic Programmable Power Door Locks**  
This optional feature automatically locks all doors when the transmission is shifted out of "Park". Doors can be programmed to remain locked, or to unlock automatically when the ignition is turned off.

**Revised Instrument Panel**  
Lumina Van features new driver-friendly instrumentation for 1994 that's easy to see and easy to use, even at night.

**Remote Keyless Entry System**  
Available remote keyless entry system locks or unlocks the front doors, tailgate and sliding side door (and also operates the optional power sliding side door) with a key-chain transmitter.

**Driver-Side Air Bag**  
A standard driver-side air bag complements the standard safety belt by helping to restrain the driver in the event of a moderate to severe frontal collision. Always wear your safety belt, even in cars equipped with air bags.

**Solar-Coated Windshield Glass**  
Specially tinted glass windshield helps reduce heat buildup in the interior and protects fabrics and other materials from the damaging ultra-violet rays of the sun.

**Anti-lock Brake System**  
Lumina's standard 4-wheel anti-lock brake system (ABS) prevents wheel lockup during severe braking and helps you maintain steering control even in a panic stop in rain or snow.

**Power-Assisted Rack-and-Pinion Steering**  
Standard power-assisted rack-and-pinion steering helps provide precise, responsive handling and makes low-speed manoeuvring and parking easier.

**Revised Front-End Design**  
The 1994 Lumina Van features a new, shorter front-end design that makes for easier parking and manoeuvring in traffic.

**3.1 Litre V6 Engine**  
The standard 3.1 litre V6 with Throttle-Body Fuel Injection delivers 120 hp. It comes with a convenient 3-speed automatic transmission.

**3.8 Litre V6 Engine**  
Lumina Van's available 3.8 litre 3800 V6 with Sequential-Port Fuel Injection produces 170 hp. It drives through a smooth-shifting 4-speed electronically-controlled automatic transmission. Appropriately equipped, Lumina Vans with this engine are capable of towing up to 1361 kg (3000 lb.).

**Front-Wheel Drive/All-Season Tires**  
Lumina Van's combination of front-wheel drive and all-season radial tires helps provide excellent traction and driving stability year-round.

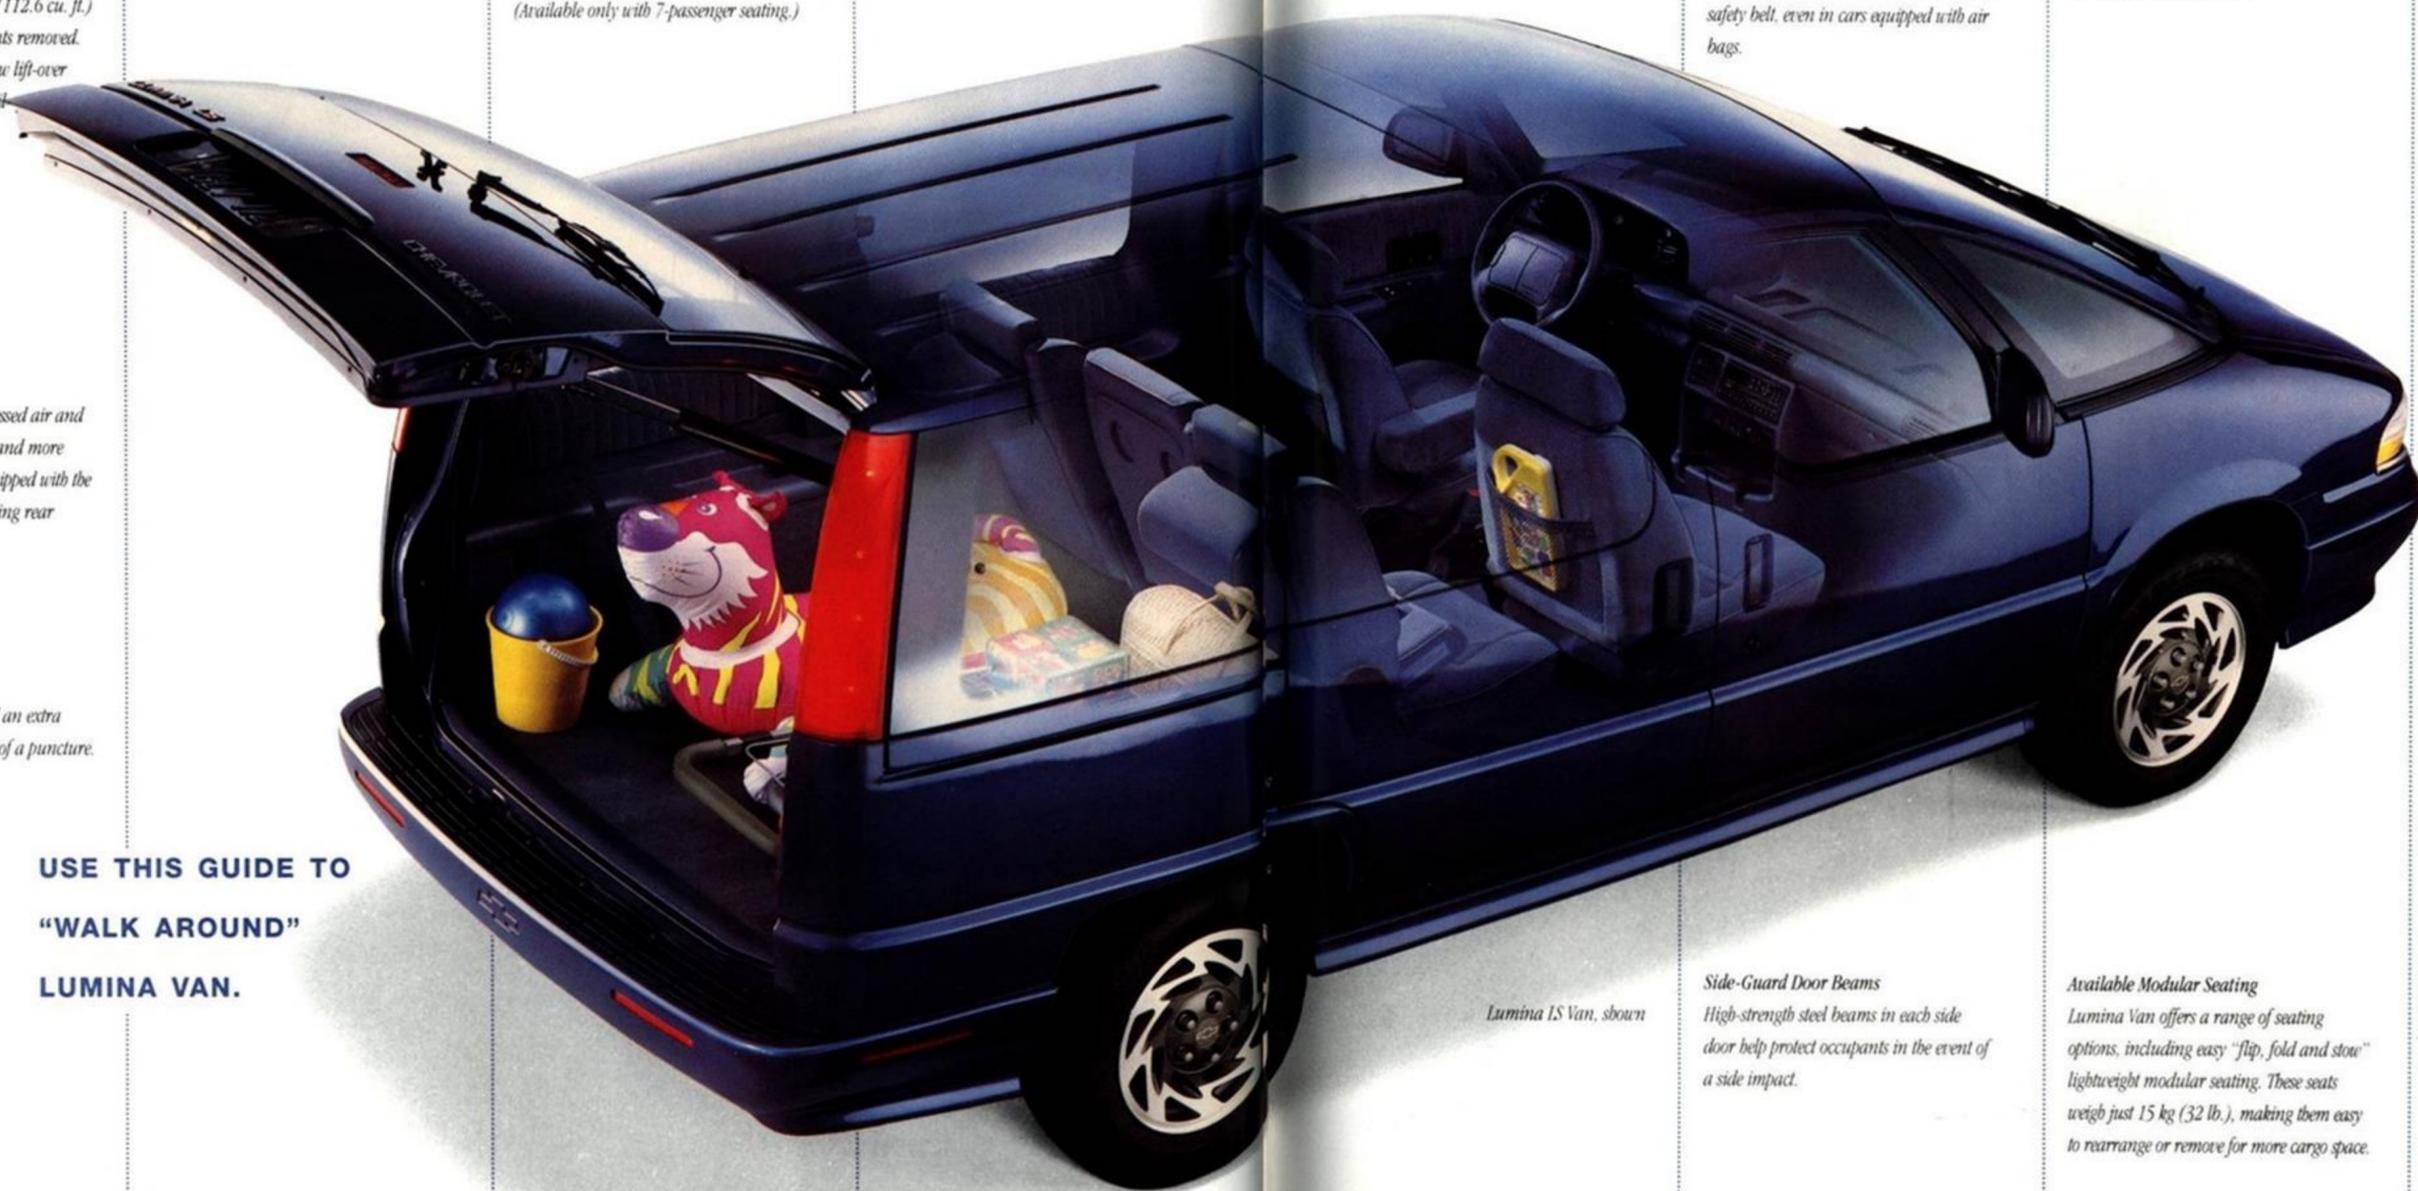

**Traction Control\***  
Available with the 3800 V6 powertrain, this system electronically controls wheel spin under acceleration on slippery surfaces at all speeds.

\*Interim availability.

**Built-in Air Compressor**  
You'll have a source of compressed air and an inflator hose for tires, toys and more when your Lumina Van is equipped with the optional automatic load-leveling rear suspension system.

**Self-Sealing Tire Option**  
Available self-sealing tires add an extra measure of safety in the event of a puncture.

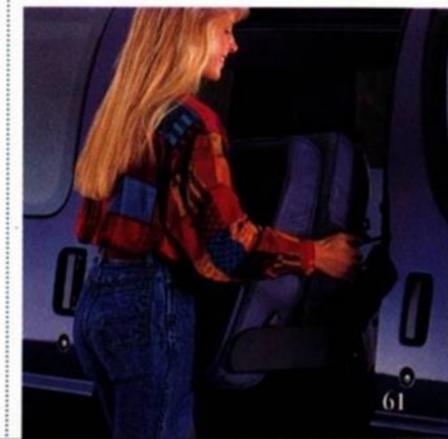

**USE THIS GUIDE TO  
"WALK AROUND"  
LUMINA VAN.**

*Lumina IS Van, shown*

**Side-Guard Door Beams**  
High-strength steel beams in each side door help protect occupants in the event of a side impact.

**Available Modular Seating**  
Lumina Van offers a range of seating options, including easy "flip, fold and stow" lightweight modular seating. These seats weigh just 15 kg (32 lb.), making them easy to rearrange or remove for more cargo space.

LUMINA VAN

Shown here with 7 passenger seating in IS trim, the Lumina Van interior offers the kind of room growing families really need. The modular rear bucket seats are lightweight and easily removed to make room for extra cargo. The 7-passenger (included on IS package) seating option also includes a cargo convenience net and a rear heater and air distribution system, for additional riding comfort. The rear air distribution system has the added benefit of helping to keep the rear side windows from fogging up, for better visibility.

*Lumina Van's 4-wheel anti-lock braking system provides greater control during hard braking, even through curves and in wet or slippery conditions.*

Look inside a Lumina Van and you might be surprised at what you'll find.

Driver-side air bag. Specially tinted Solar-coated **LUMINA AND LUMINA LS:** Scotchgard™ Fabric **EASY TO GET INTO**

Protector on the seats, door panels, headliner, floor mats and carpeting. AM/FM stereo. Lockable centre console.

Impressed? There's more.

Move up to Lumina LS and the list just goes on and on.

There's air conditioning. A Tilt-Wheel™ adjustable steering column. Power windows, door locks and outside mirrors. A 6-way power driver's seat. Remote keyless entry.

And Lumina Van's low price puts all this comfort and convenience within your reach.

*Lumina Van's distinctive body construction offers the durability of rust-proof and dent- and ding-resistant composite panels and the safety of a strong steel frame.*

LUMINA VAN

*With its new shortened front end for 1994, Lumina Van is easier to park and manoeuvre in traffic.*

*The available dual integral child seats fold down for children and fold up and out of the way for adults. Child seats are suitable for children up to 18 kg (40 lb.) in weight and 100 cm (40 in.) tall.*

*A driver-side air bag is standard on every 1994 Lumina Van, for added protection in the event of a frontal collision. Always wear your safety belt, even in vehicles equipped with air bags.*

\*All colours available with optional Custom two-tone paint with lower-accent colour of Light Gray Metallic; Light Gray Metallic not available with Custom two-tone paint.

# C A P R I C E C L A S S I C

In the 1994 Caprice Classic, the best of Chevrolet tradition meets the best of Chevrolet technology. The result is one unique - and uniquely appealing - full-size sedan.

First the tradition. The rear-wheel drive Caprice Classic's rugged perimeter frame, Full Coil suspension and long 2945 mm (115.9 in.) wheelbase deliver an outstanding ride. A choice of V8 engines provides smooth, responsive power. And of course, the interior offers all the room and comfort 6 adults could want.

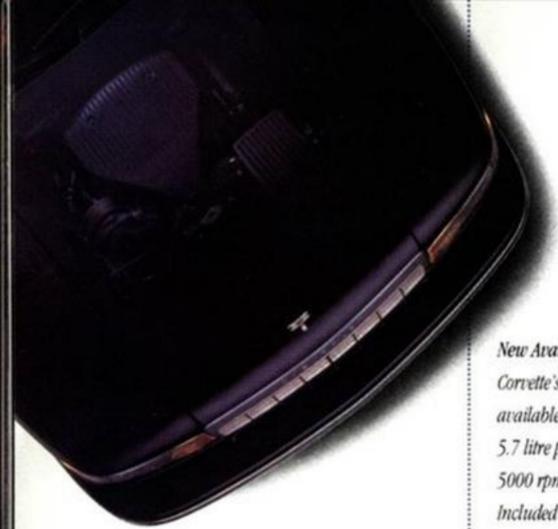

Now the technology. Dual air bags are standard. So are anti-lock brakes. The 4-speed automatic transmission features electronic controls, for shifts that are almost imperceptible.

A PASS-Key II theft-deterrent system helps keep Caprice safe and secure.

The 1994 Caprice Classic. Simply the best full-size Chevrolet ever.

Caprice Classic LS.

**New Available LT1 V8**  
Corvette's legendary LT1 V8 engine is available in Caprice Classic for 1994. This 5.7 litre powerplant produces 260 hp at 5000 rpm, for outstanding performance. Included are dual exhaust outlets.

**New 4300 V8**  
Caprice Classic's new standard 4.3 litre V8 delivers 200 hp at 5200 rpm, an 18% increase over last year's standard engine. The new "4300" is one of the smoothest, quietest Caprice engines ever.

**New 4-Speed Automatic Transmission**  
Caprice Classic's new electronically controlled 4-speed automatic transmission provides "seamless" performance and almost imperceptible shifts.

**Soft-Ray Tinted Glass**  
Standard on all Caprice models, tinted glass helps cut glare as well as reducing the air conditioning system's "cool-down" time.

**Rear Limited Slip Differential**  
This optional system, which includes heavy-duty engine and transmission cooling systems, is designed to assist with towing, and to help you out of deep snow and mud.

**Steel Safety Cage**  
A rugged steel safety cage surrounds the entire passenger compartment. This cage is so strong it helps Caprice Classic to meet the US government's 1997 side-impact standards today.

Caprice Classic LS, shown.

**Cornering Lamps**  
Caprice Classic LS's cornering lamps light up dark driveways and alert drivers you intend to change lanes.

**Dual Air Bags**  
Standard driver- and passenger-side air bags help protect front-seat passengers in moderate to severe frontal collisions. Always wear your safety belt, even in cars equipped with air bags.

**Rear Door Child-Security Locks**  
Moving a small switch on the inside rear door jamb keeps little passengers from opening the rear doors from the inside accidentally. Until the switch is re-set, rear doors can only be opened from the outside.

**PASS-Key II Theft-Deterrent System**  
If a would-be thief tries to start your Caprice Classic without using the right ignition key, the standard PASS-Key II theft-deterrent system will automatically disable the car's starter and fuel systems for approximately 3 minutes.

**Two-Sided Galvanized Steel**  
Excellent corrosion protection is provided by the use of 2-sided galvanized steel for most exterior body panels. The zinc coating actually eliminates surface rust on the outside due to minor chips and scratches.

**Remote Keyless Entry**  
This available convenience and security feature allows you to lock or unlock your doors, and to unlock your trunk, from up to 9 m (30 ft.) away.

**Side-Guard Door Beams**  
High-strength steel beams in every door help protect occupants in the event of a side impact.

**USE THIS GUIDE TO  
"WALK AROUND"  
CAPRICE CLASSIC.**

**Seating for 6**  
Caprice Classic offers one of the auto industry's largest interiors, with spacious seating for 6 adults.

**Full-Frame Construction**  
Separate body-on-frame construction with extensive rubber cushioning helps Caprice Classic deliver a wonderfully quiet, smooth ride.

**Anti-lock Brake System**  
Standard power-assisted front disc/rear drum brakes - with an anti-lock braking system (ABS) - give Caprice Classic excellent stopping power. Even during panic braking on slippery surfaces, ABS helps drivers maintain steering control.

**Scotchgard™ Fabric Protector**  
Scotchgard™ Fabric Protector resists soiling and staining and makes cleanups easier, helping keep Caprice's interior looking new.

**Spacious Trunk**  
Caprice Classic sedan models offer a capacious 577 L (20.4 cu. ft.) trunk. (The Caprice Classic Wagon provides even more cargo room - 2624 L (92.7 cu. ft.) with the rear seats folded flat.)

**Stainless Steel Exhaust System**  
Corrosion-resistant stainless steel exhaust system is designed to last longer than conventional systems.

*Caprice Classic LS interior with optional leather seating surfaces.*

*Caprice Classic LS features an all-new instrument panel design that places all controls within easy reach. Driver and front passenger side air bags are standard in '94.*

For your consideration, the Caprice Classic LS interior. This is a driving environment designed for pure comfort, no matter how long or short your journey might be.

**THE CAPRICE CLASSIC**

**INTERIORS.**

The Custom Cloth seating is richly tailored and very supportive. Or allow yourself to be tempted by Caprice Classic LS's leather seating surfaces. Either way, the 55/45 divided bench front seat

reclines for added comfort. And power windows, power door locks, front and rear centre folding armrests and door courtesy lamps are all standard.

*Caprice Classic's interior, shown here with available 55/45 divided bench front seat, offers stretch-out room for 6. No Mercedes-Benz, no Lexus and no BMW offers a larger, more accommodating interior.*

*Caprice Classic Wagon shown with available simulated woodgrain paneling.*

For room, comfort and style, Caprice Classic Wagon is hard to beat.

**CAPRICE CLASSIC WAGON.**

There's seating for up to 8 people. Or you can fold the rear seats flat

**WHO SAYS YOU CAN'T**

and carry up to 2624 L (92.7 cu. ft.) of cargo. And properly equipped,

**TAKE IT WITH YOU?**

Caprice Classic Wagon will tow up to 2268 kg (5000 lb.).

Engine choices include the new 4300 V8 and the available 260 hp 5.7 litre LT1 V8.

Specify the LT1 and you're driving the most powerful wagon you can buy.\*

Of course, standard safety features include anti-lock brakes and dual air bags.

Both standard and Custom Cloth interiors are available. And on the outside, simulated

woodgrain paneling is available for those who prefer a classic look.

\*Excludes other GM products.

*The convenient dual-action tailgate swings down to form a loading platform or to the side for easy passenger access to the 3rd seat. The rear glass (with standard wiper/washer) swings up and out of the way.*

### Important: A Word About This Brochure

We have tried to make this brochure as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details.

Ask your Chevrolet dealer for complete details.

### A Word About Engines

Chevrolets are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

### A Word About Assembly

Chevrolets are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Chevrolets incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolets with different or differently sourced components than originally scheduled. All such components have been approved for use in Chevrolets and will provide the quality performance associated with the Chevrolet name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

### A Word About Corrosion Protection

Chevrolets are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/160,000 kilometres. Application of additional rust-inhibiting materials is not required under the corrosion coverage.

### Note: Instruments shown throughout this brochure are metric in Canada. Vehicles in Canada are equipped with automatic Daytime Running Lamps.

## Turn buying power into horsepower

**No Annual Fee!** Every time you make a purchase with the GM Visa Card, a full 5% of the purchase price will be credited to a special GM Card Rebate account to help you save towards your next new GM car or truck. Plus, when you make a purchase with your GM Card at one of the special GM Card Partners, you may earn up to an additional 5% simply by using your GM Card.

When you're ready to buy or lease, just redeem your GM Card Rebate at the General Motors dealership of your choice.

You can save hundreds, even thousands of dollars. And that's over and above any other rebate or incentive you may get from your GM dealer. Some restrictions apply; please see your GM dealer or call: 1-800-461-3279.

1 set under license. The GM Card is a trademark of General Motors Corporation. Up to \$500 annually or maximum of \$3000 over 7 years. No limit on Partner Rebate during 7 year period.
