**AN UNEXPECTED
BIT OF COMFORT
IN THE RUGGED WORLD OF THE SUV.**

No one can deny the popularity of the SUV. They're great for getting away, handling weather of any type, and they can pretty much carry anything. The thing is, many sacrifice comfort for capability. Which is what makes the new Highlander so different. It's designed for those of us who live in the real world — combining SUV utility with an amazingly smooth, comfortable ride. Call it refined or revolutionary. Just don't call it a typical SUV.

Style. Strength. Distinction. Get a close look around Highlander's unique presence at www.toyota.com/highlander/exterior

IT'S ALSO
VERY COMFORTABLE
ON THE EYES.

Highlander shown in Millennium Silver with available Limited Package.

The image shows the interior of a Toyota Highlander SUV. The front and rear seats are upholstered in a light tan leather with a quilted pattern. The dashboard and center console feature wood-grain trim. The steering wheel is dark with the Toyota logo. The overall lighting is warm and focused on the seats.

**YOU'LL WANT TO CARPOOL
JUST TO SHOW OFF.**

Highlander shown in Ivory with available Limited Package, Leather Trim Package, JBL Premium 3-in-1 AM/FM ETR/Cassette/CD with 6-disc in-dash changer and eight speakers in six locations, heated front seats and floor mats.

 Highlander's interior is rich, comfortable, inviting and yours to view in 360° from the front and back seat at www.toyota.com/highlander/interior

FROM HERE,
IT'S EASY TO FORGET
THIS IS AN
SUV.

Highlander shown in Ivory with available Limited Package, JBL Premium 3-in-1 AM/FM ETR/Cassette/CD with 6-disc in-dash changer and eight speakers in six locations, heated front seats and floor mats.

Welcome to your very own personal comfort zone. It begins with the Highlander Limited Package's "set it and forget it" automatic climate control system. Using a group of sensors, the system adjusts to maintain the preferred interior temperature setting

through heat of day or cool of night. Highlander offers its driver excellent all-around visibility and a commanding sense of the road. The well-appointed interior, featuring available chestnut wood-grain-style trim, is driver-friendly, too. The sweeping dash puts controls in easy reach.

A multi-information display is integrated with the climate control display, and lets you scroll through vital information with the touch of a button, including average fuel consumption, current fuel consumption, average speed, trip time and outside temperature.

Highlander's roomy cabin was designed with people like you in mind. Bring the sun and stars a little closer with the available power moonroof. For your added convenience and security, choose the overhead HomeLink** system (included in the Limited Package) for opening and closing a garage door or driveway gate from inside Highlander. The Limited Package

includes an 8-way power-adjustable driver's seat. What's more, when you choose the Leather Trim Package, heated front seats are available for more comfort in colder climates. And you can treat yourself to the available 8-speaker (in six locations) JBL Premium AM/FM ETR/Cassette/CD, or even a 6-disc in-dash changer.

*HomeLink® is a registered trademark of Johnson Controls.

SEATING FOR FIVE.
OR TWO VERY
**AMBITIOUS
SHOPPERS.**

Highlander shown in Indigo Ink Pearl with Charcoal cloth interior.

Take a look around. There's a thoughtful touch pretty much everywhere. Two auxiliary power outlets. Multiple concealed storage compartments. Grocery bag hooks. Cup holders for all. And the Limited Package includes a tonneau cover for the rear cargo area, to keep things out of sight. Highlander's a welcoming place to make yourself at home.

Highlander's seats are not only very comfortable, they also have hidden talents. For instance, the rear seat's 60/40 split configuration means a variety of passenger/cargo options are possible...

The rear seats recline to three positions and, with one touch, can easily be folded flat all the way forward, either independently or together, creating a wide, flat cargo area...

You can even recline the front passenger seat semi-flat for carrying large items you want to keep close at hand. (Note: Do not attempt to recline front seats while vehicle is in motion.)

If only life were as adaptable as this! For starters, Highlander just seems to be the right size, from any angle. Outside, it's a vehicle that's easy to drive and easy to park. And yet, inside, Highlander's ample passenger and cargo room adds to the comfort on trips to the

wilderness store or the wilderness itself — with plenty of space to bring along the toys. And not only is it easy to get cargo in and out, Highlander is easy for people to get into and out of, as well. No question, Highlander's a great fit. Try one on.

We'd like to show you Highlander's interior versatility in action: visit www.toyota.com/highlander/versatility

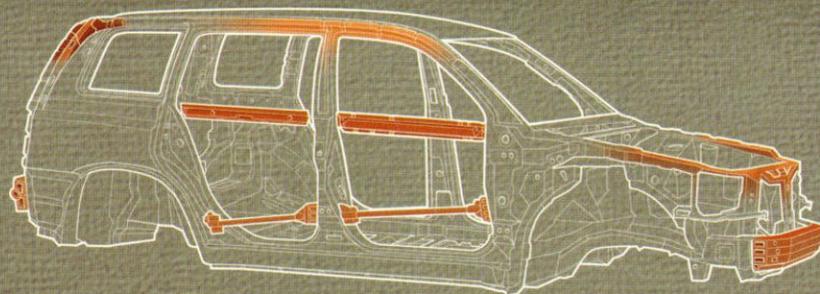

IT'S A LOT EASIER TO FEEL COMFORTABLE
WHEN YOU FEEL SAFE.

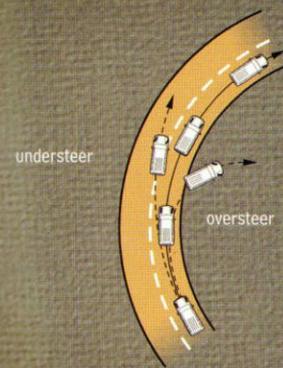

Highlander shown in Sundown Red Pearl with available Appearance Package and roof rack.

Highlander's body design incorporates the latest thinking to help protect you in the event of a collision. The rigid unibody construction and high-strength cabin, combined with side-impact door beams, mean that the very structure of Highlander is a strong first line of defense. We've also incorporated energy-absorbing materials into the pillars and roof side rails

to help reduce the risk of head injuries during an accident. The hood area and front end have been engineered to absorb much of the energy of an impact. And the front bumper has all-aluminum reinforcement, designed to transmit force to the side members and dissipate it, while the rear bumper is reinforced by a solid steel bar.

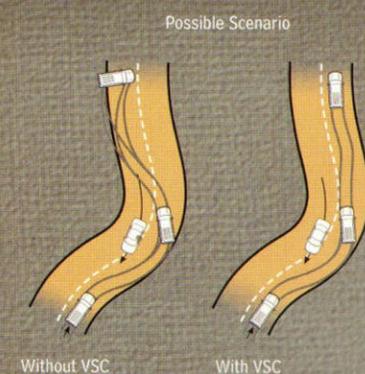

Highlander includes several advanced safety features. Get a look at www.toyota.com/highlander/safety

Highlander can be equipped with **Vehicle Skid Control (VSC) plus Traction Control (TRAC)**. If you live in an area where weather conditions are often adverse, you'll especially appreciate this advanced system. It uses the vehicle's computer and multiple sensors to regulate brake and throttle control to help counteract understeer (potential to skid) and oversteer (potential to spin).

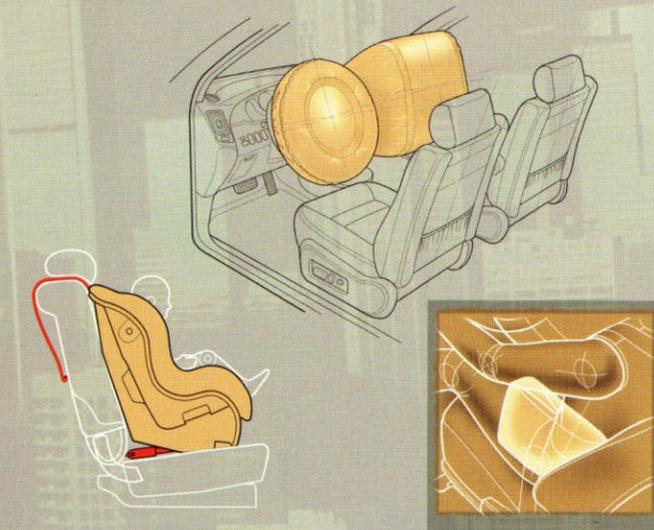

Highlander's standard Anti-lock Brake System (ABS) features Electronic Brake-force Distribution (EBD) and Brake Assist. With EBD, the distribution of brake force among all wheels is electronically regulated, helping to obtain optimum performance under various load conditions. Brake Assist supplements applied braking pressure in emergency braking situations.

- VSC Components**
- On-board computer
 - Wheel speed sensors
 - Yaw-rate sensors
 - Deceleration sensor
 - Steering wheel angle sensor
 - Throttle position sensor

SAFETY FEATURES

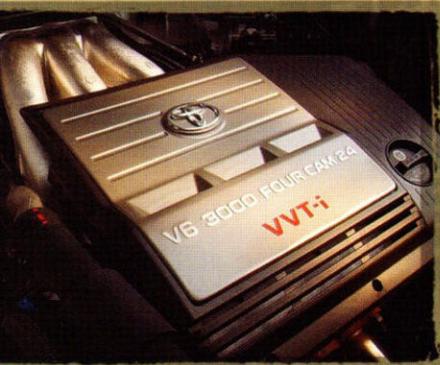

- Front and rear energy-absorbing crumple zones
- Side-impact door beams
- 5-mph front and rear bumpers
- Available Daytime Running Lights (DRL) with auto on/off feature
- Hood hold-down hooks
- Standard Anti-lock Brake System (ABS) with Electronic Brake-force Distribution (EBD), and Brake Assist
- Full-time 4-wheel drive (4WD models)
- Soft energy-dissipating interior trim
- Height-adjustable energy-absorbing front and rear outboard head restraints
- Driver and front passenger air bag Supplemental Restraint System (SRS)*
- Available driver and front passenger seat-mounted side-impact air bag Supplemental Restraint System (SRS)*
- Driver and front passenger seat seatbelt warning sensor
- 3-point shoulder belts in all seating positions
- Emergency Locking Retractor (ELR) on driver's belt, Automatic/Emergency Locking Retractors (A/ELR) on all passenger belts
- Front seatbelt pretensioners with force limiters
- Child Restraint System (CRS) top tether anchors and ISO-FIX lower anchor points
- Child-protector rear door locks
- Center high-mount stop lamp (CHMSL)
- Collision fuel shut-off valve
- Collapsible steering column

Advanced technology gets a very human face in the systems designed to help protect you and those you care for. Highlander's standard safety features include **driver and front passenger frontal air bags*** and 3-point seatbelts in all five seating positions. Highlander also offers added protection with available **side-impact air bags***. In the event of a severe side-impact collision, air bags located in the sides of the front seats deploy instantaneously, helping protect the driver and front passenger. We also make child safety a top priority. **Child Restraint System (CRS) top tether anchors and ISO-FIX lower anchor points** provide secure child seat installation.

*See the Specifications page for more information on Toyota's air bag Supplemental Restraint Systems (SRS).

IMAGINE. AN SUV DESIGNED FOR ON-ROAD DRIVING.

Quiet strength. No flex. No swagger. Just the sure, smooth power of an advanced VVT-i engine whenever and wherever you need it. Choose the **155-horsepower 4-cylinder** or the available **220-horsepower V6**. Either way, you're well-equipped for passing semis on the freeway or negotiating a semi-paved road in the country. Engineered to be lightweight yet potent, quiet and efficient, these remarkable engines also produce low emissions.

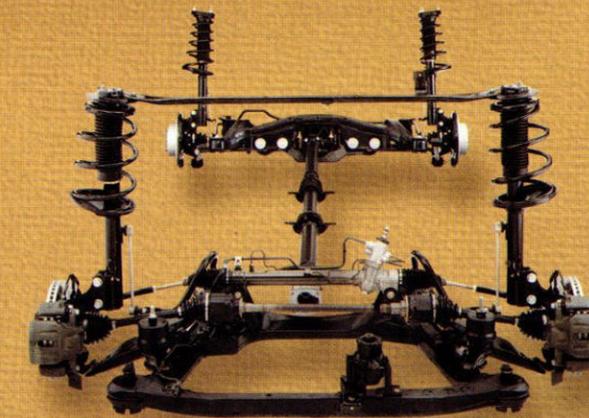

- 1 Engine
- 2 Front/center differentials
- 3 Transfer case
- 4 Drive shaft
- 5 Rear differential

Highlander features an available **full-time 4WD system** that provides driving force to all wheels at all times in normal driving conditions. Over rough, sandy or wet roads, where traction is variable or unsure, this system transfers power efficiently and effortlessly to the wheels with traction when others start to slip. The full-time 4WD helps achieve optimum control over a variety of road conditions. Highlander's **4-speed Electronically Controlled Transmission (ECT)** is standard on 2WD and 4WD models, and includes a Snow Mode feature. When engaged, Snow Mode starts the vehicle in second gear to minimize wheel spin and increase traction in snowy or icy conditions.

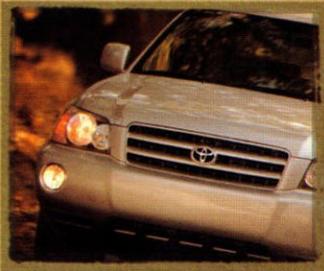

Highlander shown in Millennium Silver with available Limited Package.

Both the **front and rear suspension systems** feature tuned shock absorbers; the front shocks have built-in linear control valves and rebound springs. Together with front and rear stabilizer bars, these advanced suspension systems contribute to smooth riding over all kinds of less-than-civilized road surfaces, as well as enhanced handling during cornering. The front struts, with independent suspension, along with Highlander's rack-and-pinion steering, help provide excellent maneuverability and handling. The dual-link rear MacPherson suspension helps optimize ride control. All in all, you'll find driving and riding in Highlander a very pleasant experience — and a more than pleasant surprise if you're used to the ride in most SUVs.

(4WD model shown)

- JBL Premium 3-in-1 AM/FM ETR/Cassette/CD with 6-disc in-dash changer, 8 speakers and in-glass FM diversity antenna⁶

TOYOTA FINANCIAL SERVICES¹³

You're thinking about driving a Toyota. You may also be thinking about whether you should buy or lease your Toyota. Toyota Financial Services (TFS) offers a variety of finance and lease programs to complement your lifestyle and work within your budget. Ask your participating dealer about our Toyota Touch Lease Plan, Retail Finance Plan, Toyota Touch Preferred Option Finance Plan and College Graduate Finance Program. We are confident there is a TFS program tailored to meet your needs. At TFS we realize that buying or leasing a vehicle is a major investment. To help you protect your investment over time, we've developed a broad

spectrum of quality insurance products. Whether you plan to buy or lease, in most cases you may include the cost of TFS insurance products in your financing contract. Ask your participating dealer about our Toyota Extra Care vehicle service agreements, Guaranteed Auto Protection (GAP) coverage, Toyota Auto Care prepaid maintenance plans and Credit Insurance Program. Your peace of mind is our priority. If you have questions, please call our **Customer Assistance Center at 1-800-331-4331**.

WARRANTIES¹⁴

Every Toyota Car, Truck and SUV has excellent warranty coverage. However, given Toyota's worldwide reputation for quality, reliability and dependability, you may never find out just how good our new vehicle warranty really is. But, should you ever need it, we've definitely got you covered.

Basic Coverage: All components other than normal wear and maintenance items are covered for 36 months/36,000 miles.

Powertrain Coverage: Your engine, transmission/transaxle, front-wheel drive, rear-wheel drive, seatbelts and air bags are covered for 60 months/60,000 miles.

Rust-Through Coverage: Corrosion perforation of sheet metal is covered for 60 months/unlimited miles.

Federal Emission Coverage: Components under the federal emission defect warranty are covered for 36 months/36,000 miles and specified major emission control components are covered for 8 years/80,000 miles. Specified major emission control components under emission performance warranty are also covered

for 8 years/80,000 miles. In addition, emission performance warranty is applicable for 24 months/24,000 miles in states and local jurisdictions that require a periodic EPA-approved inspection and maintenance program. **California Emission Control Coverage:** In California and any other state that adopts California emission warranty provisions, performance warranty and defect warranty coverage is applicable for 36 months/50,000 miles and specific control devices are covered for 7 years/70,000 miles.

Accessory Warranty: Toyota-approved accessories are covered for 12 months, regardless of mileage, or for the remainder of any new vehicle warranty (except for car covers, which are covered for 12 months).

An Added Benefit: You may be eligible for transportation assistance if your vehicle is required to be kept overnight for warrantable repairs.

For complete details of Toyota's warranties, please refer to the **Owner's Warranty Information** booklet.

³V6 models only.

⁴4-cylinder models only.

⁵Requires Convenience or Quick Order Packages.

⁶Requires Limited Package.

⁷Requires aluminum alloy wheels, Appearance Package or Limited Package.

⁸4WD models only. Not available with Vehicle Skid Control + TRAC.

⁹Not available with limited-slip differential.

¹⁰Requires Towing Prep Package.

¹¹The Toyota driver, front passenger and front seat-mounted side-impact air bags are Supplemental Restraint Systems (SRS). The driver and front passenger air bags are designed to inflate in a severe frontal collision. The side-impact air bags are designed to inflate in severe side-impact collisions. In all other accidents, the air bags will not inflate. To decrease the risk of injury from a deploying air bag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the air bag modules and do not lean against the door. Do not put objects in front of an air bag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying air bag SRS may cause serious injury or death. Please see your Owner's Manual for further instructions.

¹²Requires Leather Package.

¹³Toyota Financial Services is a service mark used by Toyota Motor Credit Corporation and Toyota Motor Insurance Services, Inc. Products are available through your participating Toyota dealer. See your participating dealer regarding features and benefits, requirements and eligibility conditions on these and other Toyota Financial Services products, programs and services.
