Cadillac

MY OTHER CAR IS AN STS.

S T S

S L S

LUXURY PACKS HEAT

SELECTED WOODS. CHECK. FINE LEATHER: CHECK. WHAT YOU REALLY WANT TO HEAR ABOUT IS POWER. INSPIRED BY THE CADILLAC NORTHSTAR LE MANS PROTOTYPE (LMP) GLOBAL RACING PROGRAM, SEVILLE IS QUICK OFF THE LINE, MOVING THROUGH THE WORLD WITH THE MUSCULAR PRECISION OF A CRUISE MISSILE. SEVILLE'S WORKING PREMISE IS THAT THE EXPERIENCE IS CREATED...ON THE FLY. WITH NORTHSTAR POWER, PRECISE STEERING CONTROL, ALL-WEATHER PERFORMANCE, PASSENGER COMFORT, AND POWERFUL, SOPHISTICATED SOUND SYSTEMS, SEVILLE IS READY TO HEAT IT UP.

6 / 7

SURVIVAL OF THE FLEETEST: STS

The definition of a performance vehicle is undergoing an evolution that is paced by Seville STS, whose favorite word is **now**. But there's nothing brutish about the way STS's 300 horses come on line; they all pull together. Flick the steering wheel, and they turn as one, superbly channeled and coordinated by STS's Northstar System that includes speed-sensitive power steering. It varies the level of power assist to match your speed, enhancing control with just the right amount of steering effort. And STS's Continuously Variable Road-Sensing Suspension (CVRSS 2.0) generates a near-instant response to driver input while insulating you from the vagaries of the road.

8 / 9

BUT IS STS RIGHT FOR YOU?

Actually, STS will go out of its way to make itself yours. One of its more ingenious features is Performance Algorithm Shifting (PAS), which literally tailors transmission shift points to your driving style. Additional features like speed-rated tires, racy aluminum wheels, four-wheel independent suspension, and even the Rainsense Gen II windshield wiper system coordinate to make STS a completely in-tune driving partner. At 425 watts, its sophisticated Bose® 4.0 Music System has enough power to share with the outside world, should you choose. But the amenities of STS's elegant inner sanctuary are for you and perhaps four passengers alone. While STS's willingness to conform to your desires approaches the telepathic, be prepared for subtle changes in your own behavior: hanging back as you approach intersections to get caught at red lights, so you can enjoy what your STS can do on green.

For more details on Seville features and technologies, visit cadillac.com.

12 / 13

SO WHAT DOES IT FEEL LIKE?

Seville is as fun to drive as any muscle car; it's just got better manners. And that unforgettable badge on the grille. Beyond the subtle application of vast amounts of power, what's yours to enjoy is a remarkable feeling of solidity. Seville's computer-designed body structure incorporates such advanced technologies as hydroformed steel roof beams to create an internal safety cage. It's your first line of defense should trouble arise. And to help make sure it doesn't, Seville provides some of the foremost collision-avoidance features available on four wheels. So you can enjoy your thrilling performance.

10 / 11

WE HAVE OUR STANDARDS: SLS

SLS delivers the full Seville treatment, with a 275-horsepower Northstar V8 providing both motivation and inspiration. There's a 4-speed automatic transmission with overdrive and electronic shift that helps hurry things along while operating with the smoothness of silk. Performance-enhancing refinements extend to all-speed traction control that integrates brake and engine management systems, and the StabiliTrak 2.0 stability enhancing system that monitors vehicle dynamics in real time. An electronic rear-level control compensates for the presence of luggage or extra passengers. Enhancing safe operation are four-wheel disc brakes with an anti-lock braking system and wiper-activated headlamps. Some set of "standards."

PRIVILEGED VIEW

THE LARGE WHITE-ON-BLACK ANALOG SPEEDO AND TACH HINT AT HOW READY SEVILLE IS TO CRANK THINGS UP. THOUGHTFULLY, QUICK-READING DIGITAL GAUGES AUGMENT THE PRESENTATION WITH DRIVER INFORMATION AND VEHICLE STATUS READOUTS CAREFULLY POSITIONED TO KEEP YOU UP TO SPEED. WITH YOUR HANDS AT 3 AND 9 O'CLOCK ON THE SCULPTED STEERING WHEEL, YOU'RE READY TO COMMAND SEVILLE'S REMARKABLE POWER. YOU MIGHT SAY THAT SEVILLE IS FOCUSED ON PERFORMANCE, WITHOUT NEGLECTING THE FINER THINGS.

XM satellite radio,* standard on STS, delivers almost 100 stations, providing clear, static-free music of virtually every format, plus information and entertainment programming that travels with you from coast to coast. XM might soon become your favorite form of radio.

16 / 17

IT'S IN YOUR HANDS, NOW

Seville's formidable technology is accessed through a very user-friendly interface – think roomy cockpit with Nuance leather seating areas. The standard leather-trimmed steering wheel invites driver involvement with fingertip controls for audio and climate. Seville's climate control system is a fully electronic system with individual settings for driver, front, and rear compartments. You will find that the seating areas are truly luxurious. Both driver and front passenger seating feature power 10-way adjusters/recliners (with four-way power lumbar support). On the technical side, Seville's programmable features allow you to set preferences for everything from automatic door lock operation to the passenger-mirror curb view. In other words, Seville is smart enough to know its master.

Standard on STS and available on SLS, Seville's memory package automatically recalls 24 settings for two drivers based on their individual remote keyless entry key fob.

* Not available at start of production. Service subscription required.

18 / 19

ADVANCED DRIVING TECHNOLOGY

The available 2002 Cadillac DVD Navigation system uses GPS (global positioning system) satellites to pinpoint the vehicle's location on a 6.5" touch screen. The system incorporates voice-recognition technology, and a single DVD provides map coverage for the continental U.S. and portions of Canada. Route planning with voice/text guidance helps keep you on course to your destination. As an added convenience, the DVD changer is integrated into the radio, freeing valuable trunk space. DVD Navigation is available on both STS and SLS when you also order the available Bose® 4.0 Music System and six-disc CD changer.

20 / 21

STS: THE POWER POSITION

Worthy of a machine with 300 horses under the hood, STS is ready to rock with the 425-watt Bose 4.0 Music System with RDS capability. This custom-designed and patented system incorporates a cabin microphone to monitor interior sound levels and adjusts its output to compensate with incredible digital fidelity and acoustic imaging. Meaning STS performs even before the light turns green. To ensure you're ready, the personalization system (standard on STS, available on SLS) recalls the seating position for two drivers, as well as their settings for the tilt-and-telescoping steering wheel, exterior rearview mirror, radio station, and climate control.

Heated front and rear seats (outboard positions) are standard on both STS and SLS.

For more details on Seville features and technologies, visit cadillac.com.

22 / 23

CAN THE FEEL OF WOOD IMPROVE PERFORMANCE?

Tactile sensation: Seville's wood trim package, available on both STS and SLS, brings the matchless feel of wood to the steering wheel and shifter. As your fingers curl around the smooth, sculpted shapes, know that the performance they are most likely to enhance is the driver's. The standard interior layout on both models includes front seats whose articulated head restraints and power adjusters and recliners combine personal control with deep comfort. Pleasing details include Seville's supple Nuance leather-trimmed seating areas and handcrafted Zebrano wood accents. The array of standard features also includes fully electronic dual-zone climate control and precision-designed controlled-cycle windshield wipers. And – because hot performance doesn't warm every human body part with equal dispatch – heated seats are standard for all outboard positions.

NORTHSTAR V8 ENGINES

HERE'S THE IMAGE: AN ATHLETE'S PHYSIQUE UNDER A FINELY TAILORED TUXEDO. WHAT LEAPS OFF SEVILLE'S NORTHSTAR V8 SPEC SHEET IS SHEER POWER (300 HORSES AND 295 FT-LBS OF TORQUE FOR STS). IT'S A MATTER OF SUPERB MECHANICALS - A DEEP-BREATHING 32-VALVE 4.6 LITER DOUBLE-OVERHEAD-CAM V8 - SUPPORTED AND MANAGED BY ADVANCED TECHNOLOGY. CONSTANTLY MONITORING AND PRECISELY ADJUSTING TO MATCH DRIVING CONDITIONS, NORTHSTAR'S ENGINE MANAGEMENT SYSTEM ACHIEVES HIGH LEVELS OF PERFORMANCE WITH LITTLE APPARENT EFFORT. NORTHSTAR MAKES SEVILLE QUIET AND EFFICIENT.* VISIT CADILLAC.COM FOR AN IN-DEPTH LOOK AT THE COMPLETE NORTHSTAR SYSTEM.

STABILITRAK 2.0

A KEY SEVILLE PERFORMANCE-ENHANCING AND DRIVER-CONTROL COMPONENT IS STABILITRAK 2.0. THIS SECOND-GENERATION STABILITY ENHANCING SYSTEM MONITORS VEHICLE DYNAMICS IN REAL TIME. IN AN EVASIVE DRIVING MANEUVER, IF IT DETECTS THAT THE VEHICLE IS NOT RESPONDING ADEQUATELY TO STEERING INPUT, STABILITRAK 2.0 APPLIES A QUICK, PRECISE FORCE TO THE APPROPRIATE FRONT BRAKE TO HELP BRING SEVILLE BACK ON TRACK. STABILITRAK 2.0 MONITORS CONTINUOUSLY, AT ANY SPEED, ON ANY SURFACE. WHEN EVASIVE MANEUVERS LEAVE YOU LITTLE TIME TO REACT, STABILITRAK 2.0 HAS YOU COVERED.

With StabiliTrak 2.0

Without StabiliTrak 2.0

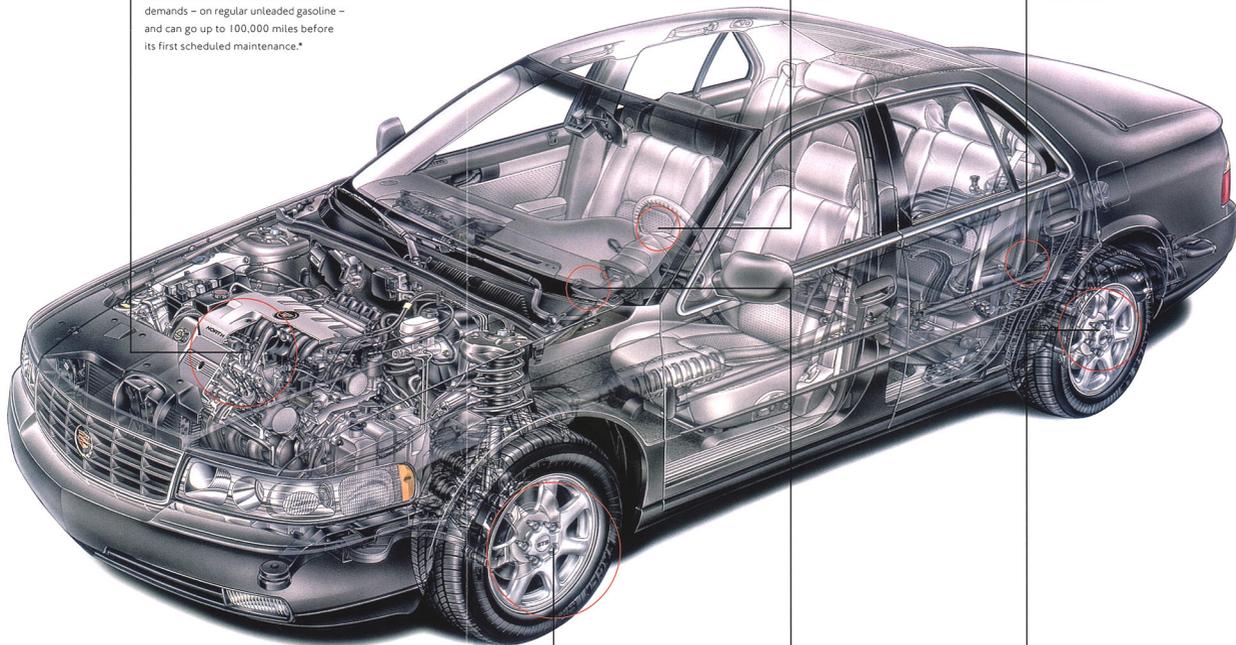

When StabiliTrak 2.0 detects the initiation of an evasive action, it reduces the amount of "nose dive" during hard braking, increases the amount of steering wheel feedback, and if necessary, "pulses" each brake to provide extra help for the driver to maintain steering control. Then, even though the driver is no longer braking while steering back into the right lane, StabiliTrak 2.0 is still at work, determining that the left front wheel needs braking power to help the driver keep Seville on track. Visit cadillac.com for a demonstration of the system.

ADVANCED INTEGRATED SYSTEMS

EVERY SIX MILLISECONDS, A LIGHTNING-QUICK COMPUTER PROCESSES THOUSANDS OF BYTES OF DATA, DEFTLY COORDINATING ENGINE PERFORMANCE, STEERING, AND BRAKES. THE CULMINATION OF SEVILLE'S INTEGRATED TECHNOLOGY ARRIVES WITH THE NORTHSTAR SYSTEM ON STS, WHICH IS ENHANCED BY CONTINUOUSLY VARIABLE ROAD-SENSING SUSPENSION 2.0. THE ARTFUL COORDINATION OF ALL THESE TECHNOLOGIES HELPS MAINTAIN STS'S PERFORMANCE AT AN OPTIMUM LEVEL, MODULATING INSTANTLY TO MATCH CHANGING ROAD AND WEATHER CONDITIONS – AND OF COURSE TO YOUR INPUT.

Northstar V8 engine. Four valves per cylinder, double-overhead camshafts, and magical engine management yield 300 horsepower in Seville STS and 275 horsepower in Seville SLS. With smoothness that belies its power, Seville's refined Northstar engine provides effortless response to driver demands – on regular unleaded gasoline – and can go up to 100,000 miles before its first scheduled maintenance.*

Magnasteer. Enhancing the inherent precision of Seville's rack-and-pinion design, Magnasteer is a speed-sensitive power steering system that varies the level of power assist with speed, furthering control on the highway and reducing steering effort in tight parking spots.

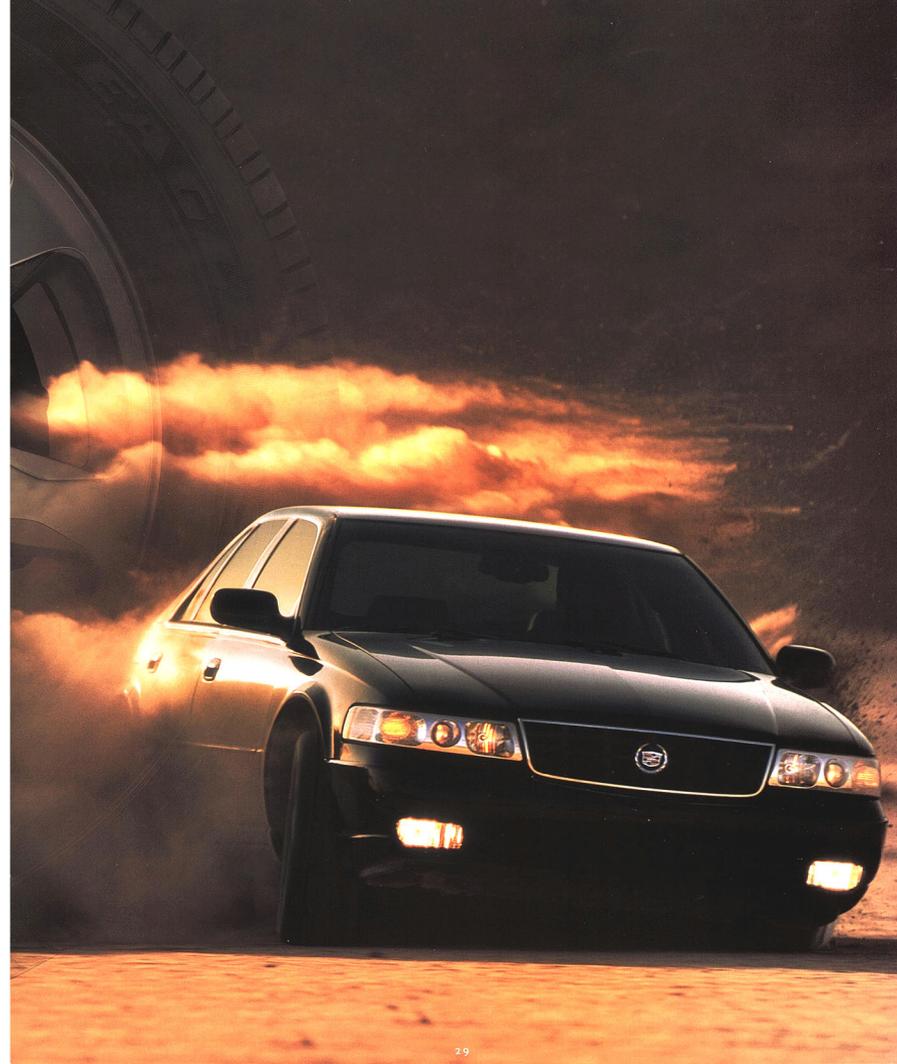

Road-Sensing Suspension. An enhancement to the Northstar System on STS, the second-generation Continuously Variable Road-Sensing Suspension (CVRSS 2.0) constantly reads the road surface and instantly adjusts suspension settings for optimum ride control.

All-speed traction control. Works with Seville's four-wheel anti-lock brakes to help reduce wheel spin during acceleration on slippery surfaces. Given the power of Seville's Northstar V8 engines – and the enthusiasm they inevitably inspire – this is very useful technology.

Performance Algorithm Shifting (PAS). Helping to make the most of STS's 300 horses, PAS (an enhancement to the Northstar System) combines the convenience of an electronically controlled 4-speed automatic transmission with the response and performance of a manual gearbox.

StabiliTrak 2.0 stability enhancement system. Improves all-weather control by monitoring and compensating for under-steer, over-steer, or tire side-slip. Always engaged, it continuously gathers information from multiple sensors to come to your aid, if necessary, in an emergency maneuver.

*Maintenance needs vary with different uses and driving conditions. See Owner's Manual for more information.

SATELLITE CONNECTIONS

THE "CONNECTIVITY" OF ADVANCED TECHNOLOGY IS BEHIND YOU WHEREVER YOU GO IN SEVILLE.

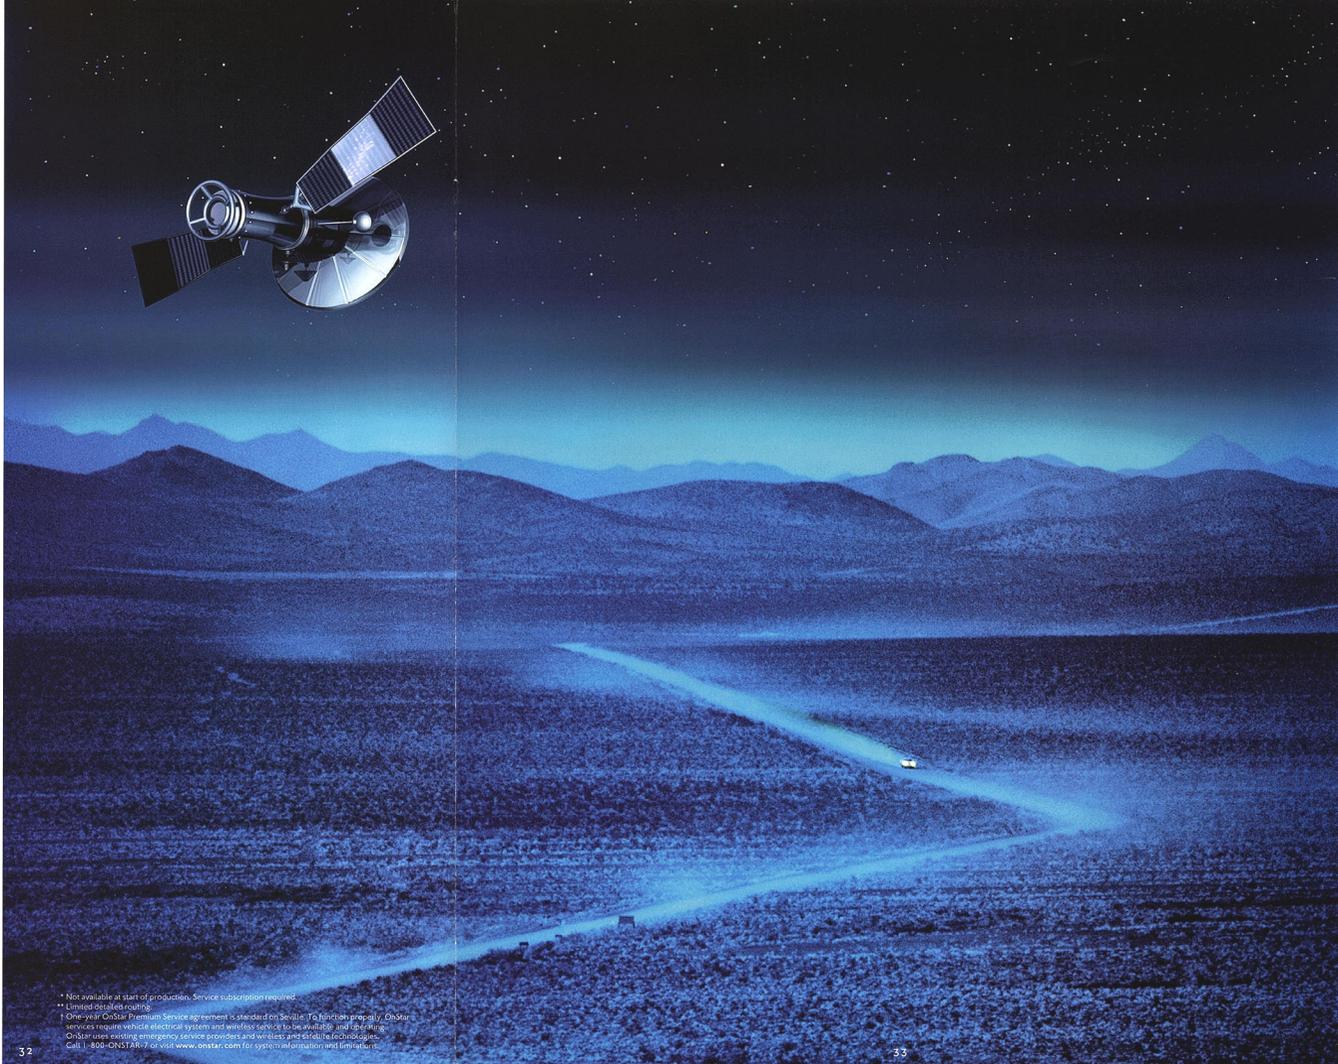

THE AVAILABLE XM SATELLITE RADIO SERVICE* IS A PERFECT EXAMPLE. THIS COAST-TO-COAST, SATELLITE-BASED RADIO HAS UP TO 100 DIGITAL-QUALITY CHANNELS THAT OFFER MUSIC, SPORTS, TALK, AND MORE. CHOOSE WHAT YOU LIKE, THEN ENJOY XM RADIO'S DIGITAL-CLEAR SIGNAL ANYWHERE YOU TRAVEL. YOU MAY NEVER CHANGE RADIO STATIONS AGAIN.

BUT WHENEVER YOU CHANGE DIRECTION, SEVILLE'S AVAILABLE VOICE-ACTIVATED NAVIGATION SYSTEM CAN HELP YOU GET WHERE YOU WANT TO GO. IT'S SATELLITE/DVD-BASED, AND MAP COVERAGE INCLUDES VIRTUALLY ALL OF THE CONTINENTAL U.S. AND PORTIONS OF CANADA. JUST ENTER YOUR DESTINATION AND TOUCH A BUTTON, AND YOUR ROUTE IS MAPPED AND BROUGHT UP ON AN IN-DASH VIDEO SCREEN. THEN, THE NAV-SYSTEM'S VOICE TALKS YOU THROUGH THE ROUTE.**

ANOTHER IMPORTANT CONNECTION FOR SEVILLE OWNERS IS ONSTAR. SIMPLY PRESS A BUTTON, THEN USE YOUR VOICE TO SPEAK WITH AN ONSTAR ADVISOR. THEY CAN PROVIDE A RANGE OF SAFETY, CONVENIENCE, AND CONCIERGE SERVICES! IN SEVILLE, YOU'RE VERY WELL CONNECTED. INDEED.

* Not available at start of production. Service subscription required.

** Limited digital routing.

† One-year OnStar Premium Service agreement is required for Seville. To facilitate pre-call, OnStar services require vehicle electrical system and wireless service to be available, and Emergency OnStar uses existing emergency service providers and wireless and satellite technologies. Call 1-800-ONSTAR for visit www.onstar.com for system information and limitations.

IMPORTANT WORDS ABOUT THE CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in the information contained in this catalog. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end models years at different times.

Note: Some photographs in this catalog show vehicles with optional equipment.

GM ACCESSORIES

Visit GMGoodwrench.com for information on genuine GM Accessories for Seville.

ENGINES

Sevilles are equipped with engines produced by different operating units of GM, its subsidiaries, or suppliers to GM worldwide.

ASSEMBLY

Seville and its components are assembled and produced by different operating units of General Motors, its subsidiaries, or suppliers to GM worldwide. We sometimes find it necessary to produce Sevilles with differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac regularly sends its dealers useful service bulletins about Cadillac products. Cadillac monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

A NOTE ON CHILD SAFETY

Always use safety belts and proper child restraints, even in vehicles with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

WARRANTY/CORROSION PROTECTION

The GM four-year/50,000-mile Gold Key Bumper-to-Bumper Limited Warranty covers repairs for any new Seville, including parts and labor, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle will be covered for four years or 50,000 miles, whichever comes first, except adjustments and normal maintenance items. Sevilles are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. There is no deductible on any Seville warranty. See your Cadillac dealer for terms of these limited warranties.

SAFETY AND SECURITY

The following are just some of the features found on the 2002 Seville:

OCCUPANT PROTECTION

- Automatic door locks
- Child security door locks and door retention components
- Manual lap/shoulder belts and air bags, driver/front passenger – front and side
- Passenger-guard inside door lock handles
- Power window lockout
- Safety belt cinch capability for child seats

SECURITY

- Anti-lockout feature
- Audible theft-deterrent system
- Battery rundown protection
- Laser-etched VIN plate
- PASS-Key theft-deterrent
- Remote deck lid release
- Remote inside hood release
- Remote keyless entry
- Stolen vehicle tracking/emergency communication

CRASH AVOIDANCE

- Anti-lock brakes, front and rear
- Automatic daytime running lamps
- Automatic windshield wipers
- Brake/transmission shift interlock
- Cornering lamps
- Disc brakes, front and rear, audible wear indicator
- Door warning lamps or reflectors
- Fog lamps (STS)
- Front, side, rear window defoggers
- Halogen headlamps
- Inside electrochromic rearview mirror
- Maintenance-free battery
- Outside power rearview mirrors, heated, electrochromic
- Stability enhancement
- Steering wheel controls
- Tinted glass windshield
- Tires with built-in tread wear indicators
- Traction control
- Wiper-activated exterior lamps
