

2003 | CADILLAC DEVILLE

BREAK THROUGH

DEVILLE

## BREAK THROUGH

The power. The technology. And the prestige synonymous with Cadillac. DeVille embodies it all as America's favorite large luxury sedan.\* And for 2003, DeVille sets the technological standard. Consider available Night Vision, OnStar, the revered 4.6L Northstar V8, Ultrasonic Rear Parking Assist, and StabiliTrak as only DeVille presents them. An impressive blend of power and presence that provides ultimate driver confidence.

DTS

\*Based on 2002 retail sales.

**PROVEN SUCCESS.** DeVille stands tall as the most popular luxury car in America. Reasons? The powerful presence of DeVille. The uncompromised luxury of DeVille DHS. And the advanced, yet refined technology of DeVille DTS. Each is unique. With all the cachet, all the technology, and all the power you're looking for.

**DISTINCTIVE STYLE.** One characteristic of DeVille's style lies in its wheels. For DeVille and DHS, cast or available chrome 16-inch wheels with specific radial tires smooth the ride. For DTS, 17-inch cast or available chrome wheels (shown left) put performance tires at your command. You choose the limits.

**LIGHT-EMITTING DIODES.** Call them LEDs for short. They make up the bright part of DeVille's tail-lamps and stop lamps. They illuminate faster than a cold incandescent bulb. Turn signal indicators are now part of DeVille's side-view mirrors, for more clarity from behind.

INNOVATIVE COMFORT AND CONVENIENCE

In DTS or DHS, the driver's seat is a major proof point. Its 10-way adjustable with recline and available memory feature will recall your personal setting from the key fob. It also has heated seating and includes massaging lumbar. Choose the DHS or DTS adaptive seat option instead of massaging lumbar and sensors will detect your changing position, then adjust inner air cells to optimize your comfort every few minutes. The seats on DTS also feature perforated leather inserts (as shown).

- 1 Heated Seating Areas    2 Massaging Lumbar    3 10-Way Power Adjustment

**AUDIO SYSTEM.** In DTS, the Bose® premium audio system delivers 275 watts of concert hall sound through eight speakers. A GPS-based DVD navigation system that's programmable in five languages is also available. This technology can route you to most any destination in the continental U.S. Just enter the destination, and the system talks you through the trip while a video map visually guides you. Learn more at [cadillac.com](http://cadillac.com).

**PROPER ATMOSPHERE.** DeVille offers XM Satellite Radio with 100 digital-clear channels, anywhere in the contiguous 48 states (activation and service fees are extra).\* For a well balanced cabin environment, DeVille has tri-zone climate control. Both driver and front passenger can tailor their own temperature...and the third zone puts rear heat and air conditioning in control of those in back.

\*Visit [www.gm.xmradio.com](http://www.gm.xmradio.com) for details.

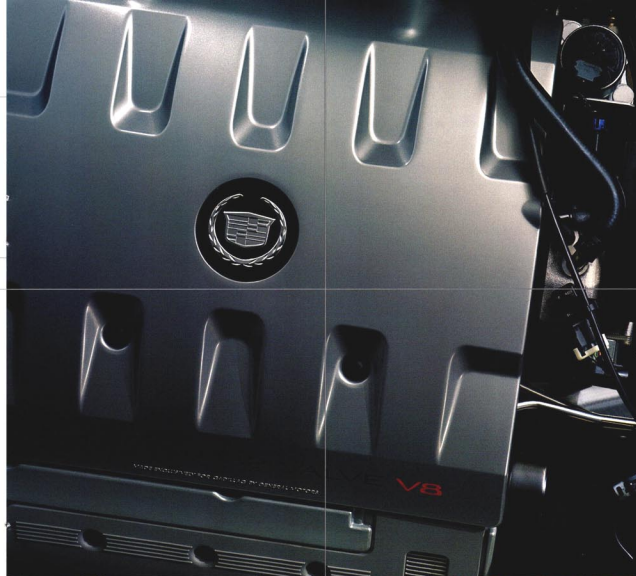

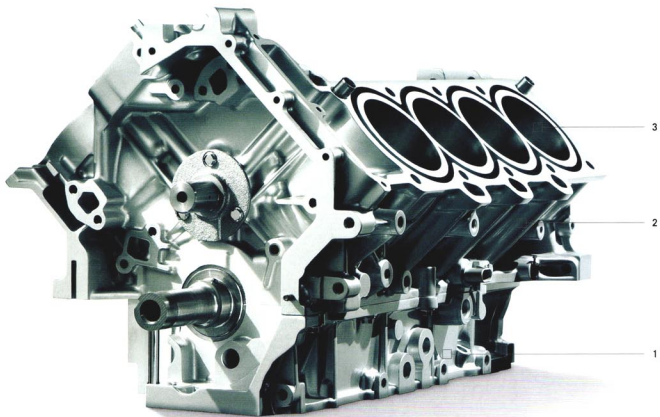

**FINGERTIP CONTROL.** If it is important, DeVille puts you in control of it. Adjust outside mirrors, power windows, rear window lockout, seat heaters, and driver's seat exit position. The door handles are elegantly sculpted chromed alloy and rewarding just to touch.

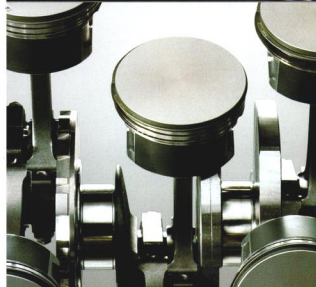

PERFORMANCE AND HANDLING

The 4.6 liter Northstar V8 is at the heart of every DeVille. Since its introduction, this dual overhead-cam engine has been widely acclaimed as one of the world's great powerplants. Its block, skirt, and cylinder heads are made of a lightweight high-strength aluminum alloy. Presented in two versions (275 horsepower for DeVille and DHS, 300 in DTS) with four valves per cylinder, the 4.6L Northstar V8 provides impressive control, response, and a feeling of extraordinary confidence.

1 Cast Aluminum Block    2 90-Degree Cylinder Angle    3 4.6 Liter Displacement

**THE 4.6L NORTHSTAR V8.** Under this cover is up to 300 horsepower. This V8 has an aluminum block and DOHC heads with 32 valves. Compression is 10:1, and each cylinder is fired by individual coils. All you do is press a pedal. And go. Learn more at [cadillac.com](http://cadillac.com).

**EIGHT CYLINDERS.** Inside the 4.6 liter Northstar V8 is an octet of equal length intake runners, anodized aluminum pistons, and a dynamically balanced crank for strong, smooth, and quiet operation.

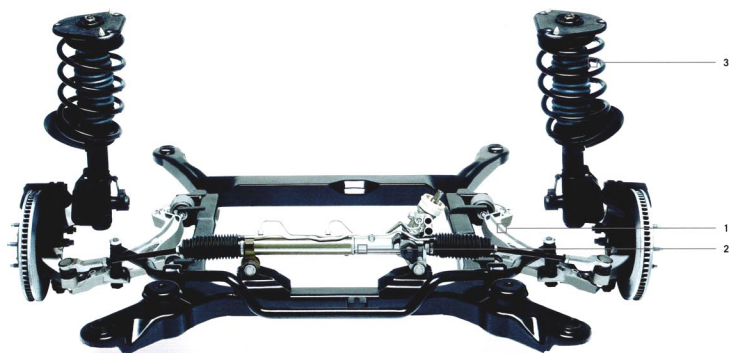

**MILLISECOND SUSPENSION.** That's how long it takes for continuously variable road-sensing suspension to tailor the driving characteristics of DeVille DTS to the road you're on. Or the way you drive. Or the speed you're traveling. It's doing the math and making the adjustments faster than you can imagine. But the added control is very real.

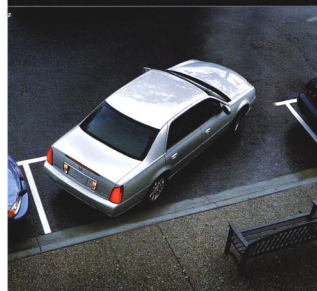

## CHASSIS AND SUSPENSION

Engineering genius exists under the skin of DeVille. It begins with four-wheel independent suspension and continues with key components made from aircraft-type aluminum alloy. These components reduce unsprung weight and allow other engineering feats. Variable-rate springs stiffen as they compress, and some very special hydraulic struts react at lightning speed.

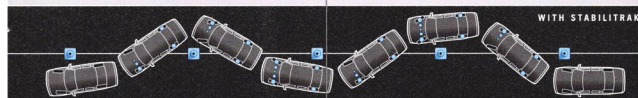

1 Aluminum Control Arms 2 Rack-and-Pinion Steering 3 Variable-Rate Springs

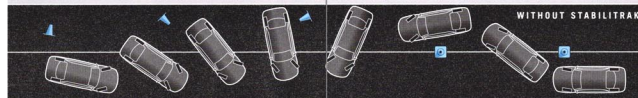

**ANTI-LOCK BRAKES.** You have them at all four wheels. As you brake, sensors detect when a wheel is about to lose its grip on the road. Then ABS modulates brake pressure to help you keep control. As you accelerate, all-speed traction control modulates engine power to help you maintain traction.

**ULTRASONIC REAR PARKING ASSIST.** At less than 3 mph in reverse, available Ultrasonic Rear Parking Assist warns of certain stationary objects in your path. Sensors in the rear bumper trigger audio and visual systems inside that tell you how close you are to the object in your path. Out front, DeVille's quartz-halogen headlamps reveal the scene ahead.

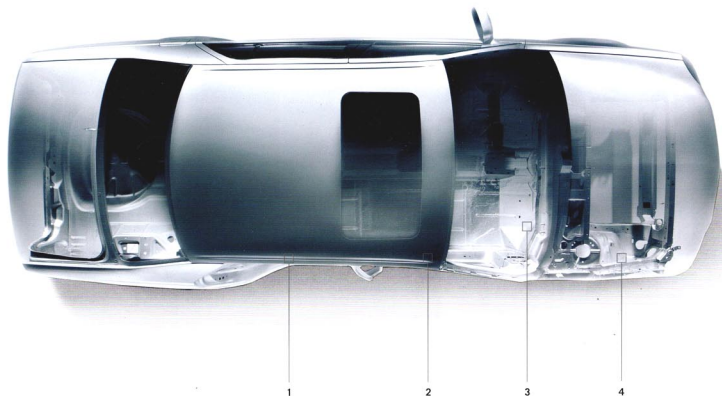

**STABILITRAK.** This technology helps you get a grip on things when adversity presents itself. StabiliTrak senses the beginning of a skid or slide by comparing the car's response to steering input. Then it applies a quick, precise force to the appropriate brake. This helps you stay on course. See a demonstration at [cadillac.com](http://cadillac.com). StabiliTrak is standard on DTS, and available as part of a package on DHS and DeVille.

## SAFETY AND SECURITY

The very structure of DeVille integrates safety. Crush zones in front and rear are designed to absorb impact forces. And a strong internal safety cage resists them to help protect the passenger compartment. To bolster integrity, a strong magnesium beam bridges the body from left to right, just behind the engine compartment. And two hydroformed steel beams run along the roof, from the front fenders to the rear deck.

- |                                |                          |
|--------------------------------|--------------------------|
| 1 Hydroformed Steel Roof Beams | 2 Internal Safety Cage   |
| 3 Magnesium Structural Beam    | 4 Front/Rear Crush Zones |

**FRONT AIR BAGS.** When DeVille's highly discerning sensors detect a significant frontal or side impact, they deploy the appropriate frontal or side-impact air bags for the driver and right front passenger.\*

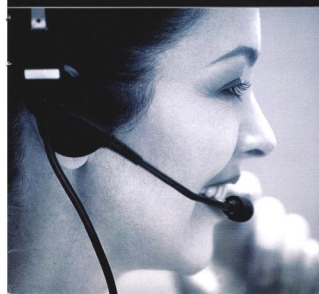

\*Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained.

### A NOTE ON CHILD SAFETY.

Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Children are safer when properly secured in the rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your Owner's Manual and child safety seat instructions for more safety information.

### REAR SIDE-IMPACT AIR BAGS.

Air bags for the rear outboard seats are available. They inflate to help protect occupants in moderate to severe lateral impact situations.

**ONSTAR ONBOARD.** Touch a button and a friendly voice brings you OnStar service. With the one-year OnStar Directions & Connections Plan, you get route directions and emergency medical services. You can also add hands-free phone service.\*\* And OnStar can help police track your DeVille if it's ever stolen.

\*\*A service subscription and advance payment for Personal Calling minutes are required. One year of Directions & Connections is provided and may be renewed. Visit [www.onstar.com](http://www.onstar.com) for system limitations and details.

**NIGHT VISION**

DHS and DTS are the only passenger vehicles in the world to offer the technology of Night Vision. It uses infrared sensing technology to give you extra warning of what's ahead...much farther than your low-beam headlamps can reach. A camera-like sensor in the grille reads the heat signature of things ahead and turns it to video.

Then the image is projected onto your windshield via a Head-Up Display. What you see appears to float above your hood, a little left of center. This image becomes a natural checkpoint at night, like the rearview mirror. Result: There is more opportunity to see danger ahead, before it becomes trouble. See a demonstration at [cadillac.com](http://cadillac.com).

Simulated Night Vision Image.

## IMPORTANT WORDS ABOUT THE CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, to the information contained in this catalog. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times.

Note: Some photographs in this catalog show vehicles with optional equipment.

### GM ACCESSORIES

Visit [Goodwrench.com](http://Goodwrench.com) for information on genuine GM Accessories for DeVille.

### ENGINES

DeVille models are equipped with engines produced by different operating units of GM, its subsidiaries, or suppliers to GM worldwide.

### ASSEMBLY

DeVille and its components are assembled and produced by different operating units of General Motors, its subsidiaries, or suppliers to GM worldwide. We sometimes find it necessary to produce vehicles with differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

### UPDATED SERVICE INFORMATION

Cadillac regularly sends its dealers useful service bulletins about Cadillac products. Cadillac monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

### A NOTE ON CHILD SAFETY

Always use safety belts and proper child restraints, even in vehicles with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your vehicle Owner's Manual and child safety seat instructions for more safety information.

### WARRANTY/CORROSION PROTECTION

The GM four-year/50,000-mile no-deductible Gold Key bumper-to-bumper limited warranty covers repairs for any new DeVille, including parts and labor, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle will be covered for four years or 50,000 miles, whichever comes first, except adjustments and normal maintenance items. DeVille models are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for six years or 100,000 miles. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Cadillac dealer for terms of these limited warranties.

### SAFETY AND SECURITY

The following are just some of the standard features on all 2003 DeVille models unless otherwise noted:

#### OCCUPANT PROTECTION

- Three-point lap and shoulder safety belts for all seating positions except front center
- Front center lap belts (DeVille, DHS)
- Air bags, driver and front passenger
- Automatic door locks
- Child security door locks
- Power window lockout

#### SECURITY

- Anti-lockout feature
- Audible theft-deterrent system
- Battery rundown protection
- Laser-etched VIN plate
- PASS-Key III theft-deterrent
- Remote deck lid release
- Remote hood release
- Remote keyless entry
- Stolen vehicle tracking/emergency communications (requires OnStar activation)

#### CRASH AVOIDANCE

- Anti-lock brakes, front and rear
- Brake/transmission shift interlock
- Disc brakes, front and rear, audible wear indicator
- StabiliTrak stability enhancement (DTS)
- Steering wheel controls
- Tire with built-in tread wear indicators
- Traction control
- Automatic daytime running lamps
- Automatic windshield wipers (DHS and DTS)
- Cornering lamps
- Door warning lamps and reflectors
- Fog lamps
- Halogen headlamps
- Inside electrochromic rearview mirror
- Maintenance-free battery
- Outside power rearview mirrors, heated, with turn signal indicators
- Rear window defogger
- Side window defogger, front
- Tinted-glass windshield
- Wiper-activated exterior lamps

## CADILLAC OWNER PRIVILEGES

By driving a DeVille, you're part of a select group that deserves special privileges.

These include 24-hour roadside service (1-800-882-1112) and trip interruption protection. Free roadside services include: jump-starts, towing, lockouts, fuel delivery (fuel charges extra), and flat tire changes. Trip interruption protection can reimburse you for expenses incurred as a result of a warranted repair that interrupts your travel. Alternate transportation is also available whenever your vehicle is in for warranted repairs. You can also rely on the GM bumper-to-bumper limited warranty. All this coverage is in effect for the first 48 months or 50,000 miles of ownership, whichever comes first. See your dealer for complete details, terms, and conditions of these programs and the GM limited warranty. Another complimentary service for Cadillac owners is the Cadillac Center at My GMLink, a one-stop resource to enhance your Cadillac ownership experience. Exclusive member benefits include online service reminders, vehicle maintenance tips, online Owner's Manual, special privileges and more. Sign up today at [www.mygmlink.com](http://www.mygmlink.com).
