

NISSAN PATHFINDER

PERFORMANCE / CAPABILITY / FLEXIBILITY / SAFETY

Find **strength**. Cross paths. Greet peaks. Rock worlds. Gain **control**. Rush destiny. Reign the land. Seek **flexibility**. Bring gear. Enlist a crew. Go it alone. Gain **confidence**. Escape monotony. Never look back.

Introducing the all-new, 7-passenger Nissan Pathfinder. Expert-grade equipment and athletic capability come together in one of the most versatile SUVs on the planet.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

PERFORMANCE

PAVE YOUR OWN ROADS. AND OWN THE PAVED ONES.

To reach that remote destination, take the road paved with asphalt. Or mud. Or snow. Or sand. Chances are, the resolute strength of the all-new Pathfinder is tough enough to get you through it. This state-of-the-art 4.0-liter 24-valve V6 produces more power than Pathfinder has ever known. Pumping out 270 horsepower and 291 lb-ft of torque, more torque than any other V6 in its class.* It's all possible with the help of friction-reducing microfinishing for silky-smooth performance around every turn.

V6
4.0

270 hp
291 lb-ft of torque

For optimal power at any rpm, Pathfinder has an advanced Continuously Variable Valve Timing Control System. This system manages air consumption to give you enormous low-end torque and greater power as velocity rises. So whether you're crawling over rocks, or creating a blur on the horizon, you'll have more power. More efficiency. More reason to extend the vacation a few days.

4.0 liter

And helping to squeeze every last ounce of muscle out of this powerhouse is an advanced 5-speed automatic transmission. This performance-gated transmission lets you achieve quicker acceleration, greater efficiency, and smoother shifts.

V6

*Pathfinder is in the Mid-size SUV segment as classified by Ward's Auto World.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

FRAME / TOWING

EVERY GREAT ESCAPE REQUIRES A SMOOTH GETAWAY. HERE'S YOURS.

It's Friday afternoon and the open roads are calling. As it has for almost 20 years, Pathfinder answers the call. Be it a hometown tour of home-improvement stores or a long-overdue trip to the lake house, Pathfinder will provide you with a smooth, solid ride from start to sun-soaked finish.

TOWING

Wherever you go, the action is sure to follow. All 6,000 lbs.* of it. Pathfinder's maximum towing capacity can get your snowmobiles, fishing boat, or camper to that remote destination in time to set the weekend into motion.

INDEPENDENT REAR SUSPENSION

Planning your next getaway can be rough. Fortunately, the ride there doesn't have to be. Pathfinder is equipped with a road-smoothing independent rear suspension that helps absorb the bumps and improve handling, especially on rough roads. It is also designed to maximize interior space, providing high-riding comfort for your fellow escapees in the second and third rows.

STEEL FRAME

For greater durability over the long haul, Pathfinder's frame is built with super high-tensile steel in strategic areas, for improved structural integrity. This rugged material is 90% stronger and 22% lighter than conventional steel. It all adds up to provide dynamic performance, solid handling, and superior ride comfort.

* 7-pin connector trailer wire harness required.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

CAPABILITY / 4-WHEEL DRIVE / OFF-ROAD TECHNOLOGIES

THE EARTH IS YOUR PLAYGROUND. TIME FOR RECESS.

Pathfinder finds fun on almost any surface it travels. With underbody components tucked up above the frame level to help protect it from damage, Pathfinder can travel on everything from snowy mountain roads to rocky riverbeds. And when the skies throw a little water into the mix, it's playtime for this nature-loving SUV.

GRIP

Pathfinder XE, SE and SE Off-road are available with a shift-on-the-fly 4WD system that can be activated at speeds up to 50 mph. This system features a low-range gear for severe off-road conditions.

POWER

The All-Mode 4WD system (standard on LE 4x4) instantly reacts to changing road conditions. In "Auto" mode, this system operates itself, automatically transferring power between rear and front wheels as soon as slippery conditions are detected.

AGILITY

And for optimal power on uneven terrain, Pathfinder has available 4-wheel Limited Slip (ABLS)*. This system senses a drive wheel(s) spinning, then automatically applies the brakes to the slipping wheel(s) directing power to the drive wheel(s) with the best traction to keep the momentum going.

ENDURANCE

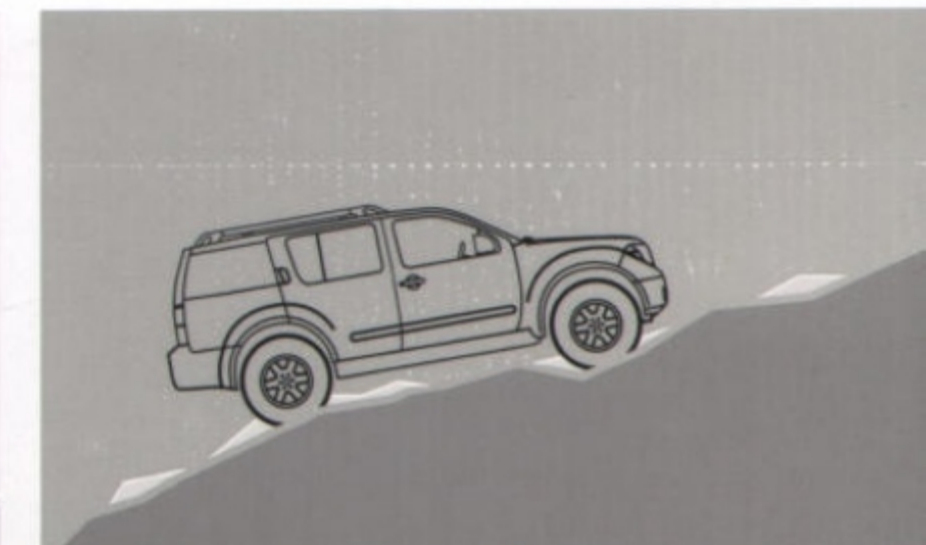

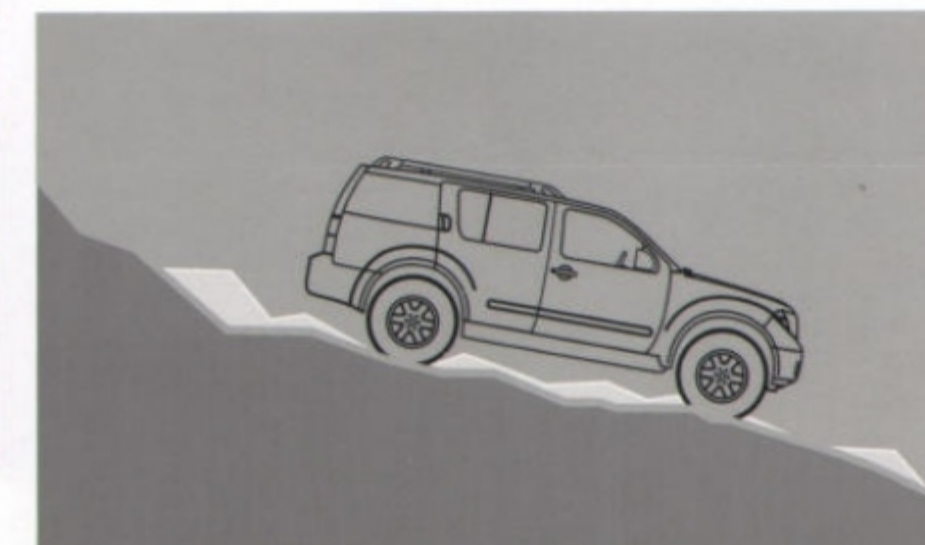

For off-road enthusiasts, we offer the SE Off-road. It features dirt-loving BFGoodrich® Rugged Trail® off-road performance tires, protective skid plates, Rancho® off-road performance shocks and the available hill-friendly technologies of Hill Descent Control and Hill Start Assist.

HILL DESCENT CONTROL HILL START ASSIST

When engine braking isn't enough while driving down a steep grade in low gear, Pathfinder offers **Hill Descent Control** on SE Off-road 4x4 models. When activated, the system automatically adjusts speed and adds brake pressure to help keep you moving at a controlled speed.

While starting up steep hills on SE Off-road models, **Hill Start Assist** helps keep you from rolling backwards. It applies the brakes for a few seconds, allowing you enough time to switch from the brake to the accelerator, and get your Pathfinder smoothly moving uphill again.

*4-wheel Limited Slip (ABLS) on 4x4 models. 2-wheel Limited Slip (ABLS) on 4x2 models. ®BFGoodrich is a registered trademark of Goodrich Corporation. ®Rancho is a registered trademark of Tenneco Automotive Operating Company, Inc. ®Rugged Trail is a registered trademark of Uniroyal Goodrich Licensing Services, Inc.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

VDC / TCS / ABS / EBD

**CONFIDENCE THROUGH EVERY TURN.
STABILITY ON EVERY STRAIGHTAWAY.**

Every Pathfinder is equipped with a set of standard active safety systems. These advanced technologies respond to every twist and turn you take, reacting instantly and predictably to help keep you in control every mile of the journey.

VEHICLE DYNAMIC CONTROL* is an advanced system designed to help you stay on your steered path. If your vehicle begins to oversteer (fishtail) or understeer (plow forward), VDC senses it and can reduce engine output and/or apply appropriate brake pressure to specific wheels.

TRACTION CONTROL SYSTEM cuts back on the throttle or shifts the automatic transmission as soon as it detects wheel slippage to help you keep a grip on the road.

ANTI-LOCK BRAKING SYSTEM rapidly pumps the brakes during hard braking to help keep your wheels from locking up and allow you to steer around the obstacle.

ELECTRONIC BRAKE FORCE DISTRIBUTION helps compensate for additional weight in the rear, whether it's a full house or a full tank of gas, by sending extra force to the rear brakes.

* VDC cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely.

MORE SPACE. BIGGER ENGINE. BETTER STORIES.

Pathfinder SE Off-road shown in Canteen with accessory equipment.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

EXTERIOR UTILITY

NOW, EVERYTHING HAS ITS PLACE. INCLUDING THE THREE-DAY WEEKEND.

Every Pathfinder is equipped with durable roof rails and is available with two adjustable crossbars to help you carry bikes, camping gear or duffle bags. Plus, there is a full line of Genuine Nissan Accessories that are compatible with these rails, like the lockable, aerodynamic hard-shell cargo carrier that can store all types of gear, including up to six pairs of skis. All to help secure your gear in place for the long weekend ahead.

Cargo shown for display purposes only. Nissan recommends that all loose items be secured when transported. Cargo and load capacity limited by weight and distribution.

HITCH-MOUNTED BIKE CARRIER

LOADWARRIOR

The LoadWarrior™ is a cavernous gear carrier, ideal for storing lots of stuff when you've got all three rows occupied with people. Its weather-resistant, heavy-duty steel construction is incredibly durable, yet lightweight.

© Yakima is a registered trademark of Yakima Products, Inc.
™ LoadWarrior is a trademark of Yakima Products, Inc.

When you venture out into the wild, so does your gear. Now, cleanup is easier when you load wet or dirty cargo into Pathfinder's available Easy Clean cargo area, which extends to the back of the third row.

STRENGTH CONFIDENCE

MULTIPLE CONFIGURATIONS

Flexibility is second nature to Pathfinder. Each passenger seat, including the one up front,* can be folded down individually, providing numerous seating options. Both second- and third-row seats can be folded down to give you a flat cargo floor without having to remove the seats or headrests. This allows all the flexibility you can imagine for your passengers and your gear.

*Front passenger seat folds down on cloth interiors only.

Load up for an evening out on the town. Three rows and seating for seven lets you include everyone in the night's festivities.

Configure your ride for a day at the beach. The second- and third-row split-folding seats allow room for five people, beach bags and a few boards.

Fold down the second and third rows and you have the perfect refuge for two escapees, two sets of ski gear, and a three-day getaway north of the border.

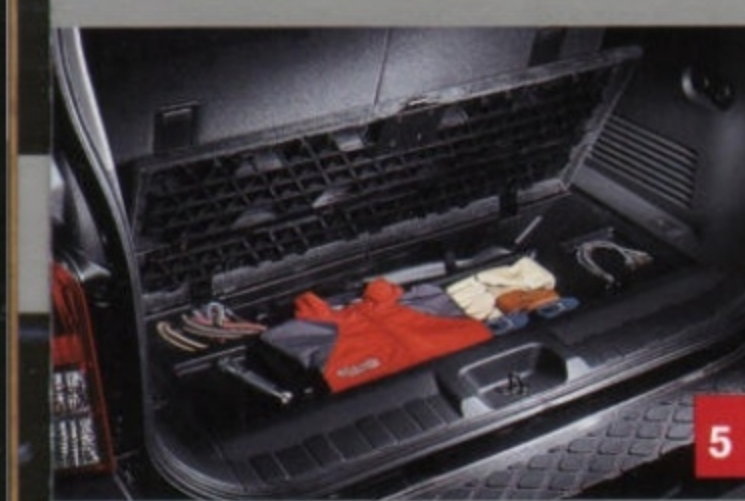

FLEXIBILITY CONTROL

INTERIOR UTILITY

STORAGE

In addition to the cargo-carrying flexibility provided by the seating configurations, Pathfinder has numerous storage compartments and bins that allow you to keep your interior organized and your gear securely in place.

1. Center console – Not only do you have easier access to the available DVD player, you'll also find extra storage for DVDs and CDs inside the center console.

2. Dash storage – Pathfinder has two storage bins built into the dash to give the driver and front passenger quick and easy access to notepads, snacks, tissues or other loose items.

3. Side seat pocket – This is where you can store pens and maps for easy reach and quick access.

4. Side net – Keep your water jugs from rolling around in the back by placing them in the side net.

5. Under-floor storage – Don't sweat the small stuff. Just put it in the under-floor storage bin in the cargo area, or in the storage container located underneath the seat cushions in the second row.

6. First-aid kit – Located in the rear hatch, Pathfinder's available first-aid kit can help with the nicks and scrapes that come from your adventures.

Cargo shown for display purposes only. Nissan recommends that all loose items be secured when transported.

**SEVEN PASSENGERS. THREE ROWS.
ONE DRIVER...LUCKY YOU.**

Pathfinder LE shown in Graphite Leather with optional equipment.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

INSTRUMENT PANEL

TREK THROUGH PARADISE WITHOUT LEAVING THE DRIVER'S SEAT.

The journey begins right where you're sitting. Look around and you'll find the amenities you need to escape into your own private sanctuary every time your foot meets the pedal. Bringing comfort, style and assurance to every outing.

THOUGHTFUL CONTROL

Convenient driver's memory system.

BOLD DESIGN

Intuitive gauges and instrument panel controls.

REFINED DETAIL

Wood-tone trim and titanium-tinted accents.

Pathfinder is designed with comfort and convenience in mind. Now you and your significant other can set your own positions for the driver's seat. The available driver's memory system also remembers power pedal placement and power outside mirror locations. It can recall them all with the touch of a button, or by using the handheld keyless remote.

STRENGTH CONFIDENCE FLEXIBILITY CONTROL

INTERIOR FEATURES

LOSE YOURSELF. JUST DON'T GET LOST ALONG THE WAY.

BOSE®

Let the tunes fly through the available premium Bose audio system – custom-tuned for ultimate sound quality. It comes with an in-dash 6-CD changer, available satellite radio,* and nine strategically placed speakers. This system also has MP3 CD-ROM capability to hold up to 4.2 GB of music – or over 1,000 songs.

DUAL ZONE

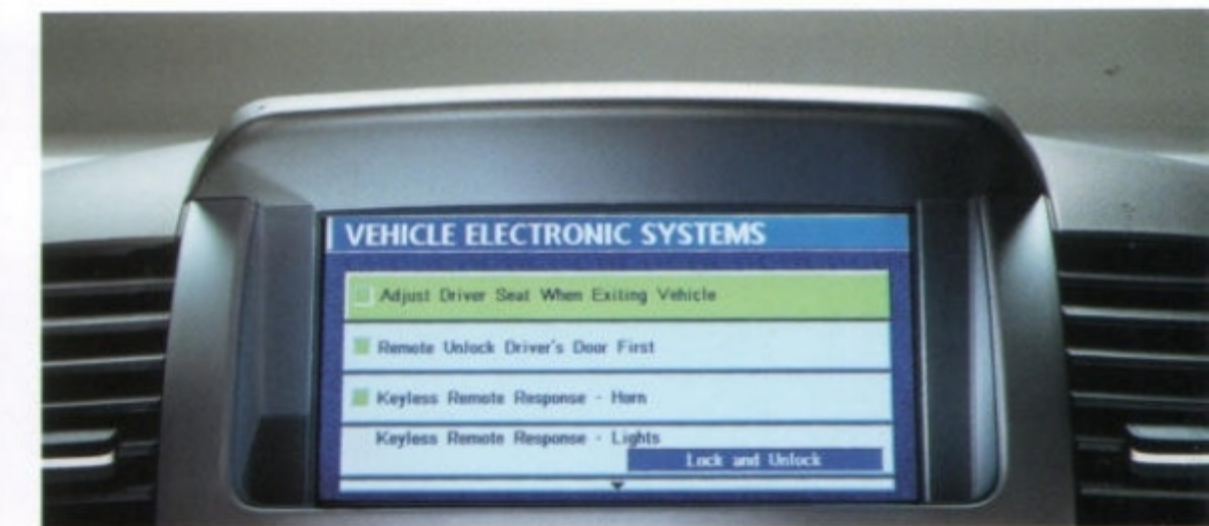

Pathfinder's available Dual Zone Automatic Temperature Control (ATC) allows each front passenger to set a different temperature for their side of the cabin. Rear air conditioning controls are also available for your passengers in the back.

NAVIGATION

Pick an address and let the DVD-based Nissan Navigation System help you find it. A 7" color monitor displays your current location on a conventional map or through the patented 3-dimensional Birdview.™ Once back in civilization, this system can direct you to the nearest ATM, gas station, or restaurant.**

INFORMATION CENTER

Keep tabs on your fuel economy and tire pressure. The system even gives you maintenance reminders, lets you set preferences, and includes a comprehensive trip computer.

DVD

Entertain your second- and third-row passengers with the available Nissan DVD Entertainment System. It comes with a 7" flip-down color monitor, DVD player, a wireless remote and auxiliary inputs for video game systems or playing home movies on the camcorder. Plus, thanks to the Dual Media Playback feature, rear passengers can use headsets provided with the DVD system to listen to a different audio source than the front passengers.

*Satellite radio is not available in Hawaii. **Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. Navigation system is inoperable in Hawaii and Alaska. It is operational in the contiguous 48 states.

STRENGTH CONFIDENCE

SAFETY FEATURES

FLEXIBILITY CONTROL

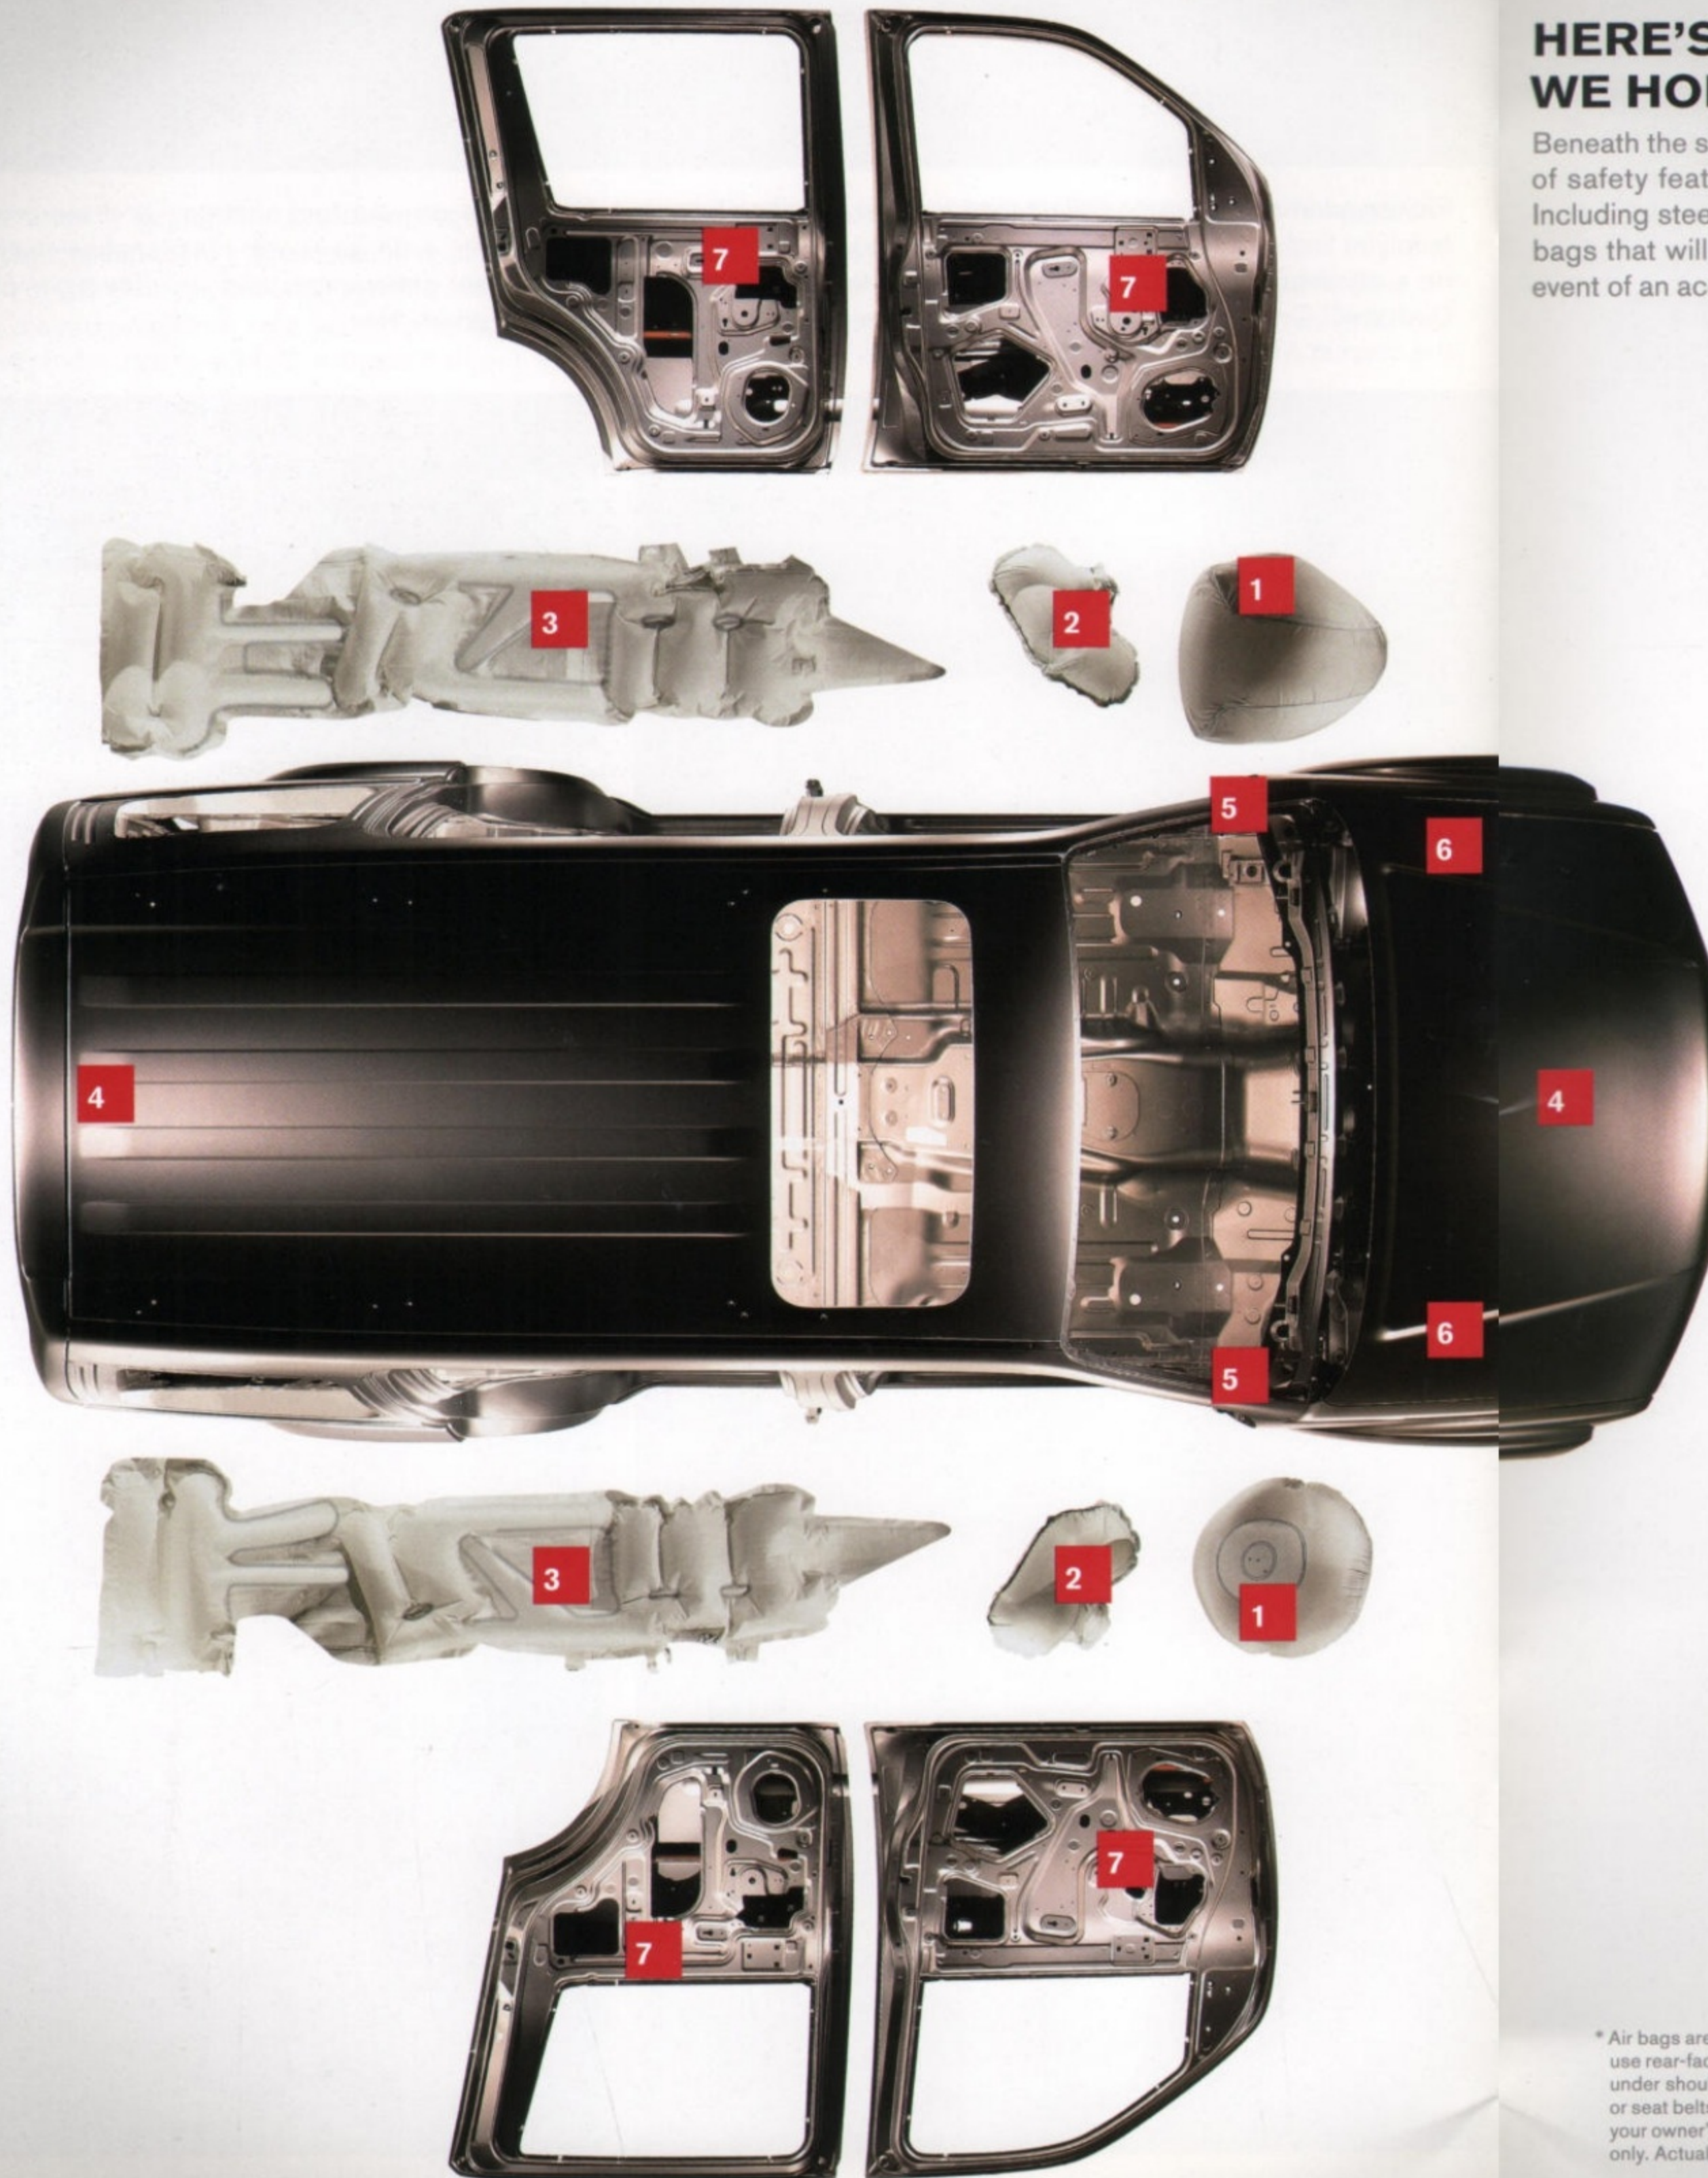

HERE'S ONE SET OF FEATURES WE HOPE YOU NEVER SEE.

Beneath the stylish exterior of every Pathfinder lies an entire set of safety features to help protect you from the unavoidable. Including steel reinforcements, guard beams, and advanced air bags that will help safeguard you and your passengers in the event of an accident.

HEAD RESTRAINTS

Active head restraints actually move up and forward in the event of a rear-end collision, helping reduce whiplash-style injuries to you and your front passenger.

IMPACT SAFETY

CHILD SAFETY

When the front passenger seat is empty or occupied by a child, a sensor is designed to turn off that air bag. In the second row, Pathfinder features the LATCH System (Lower Anchors and Tethers for CHildren) for securing compatible child-restraint seats for your adventurer-in-training.

A properly installed child restraint is one of the best ways to keep a child safe in a moving vehicle. This fact motivated us to create an industry first: The Snug Kids Child Safety Seat Fit Guide. This guide lists the child seats which fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for it at NissanUSA.com/snug-kids

- 1. Advanced Air Bag System (AABS):** Pathfinder's dual-stage supplemental front air bags incorporate seat belt sensors to help adjust deployment according to seat-belt usage and crash severity.
- 2. Available driver and front-passenger side-impact supplemental air bags:** They are built into the front seats (not the door), so they're still in the right place if you change your seat position.
- 3. Available roof-mounted curtain supplemental air bags for side impact and rollover protection:** When the sensor detects an impending rollover, the system deploys the roof-mounted curtain supplemental air bags. These air bags remain inflated long enough to help provide all three rows of outboard occupants enhanced protection in the event of multiple rolls.
- 4. Zone Body construction with crumple zones:** This helps to absorb crash energy before it reaches the passenger zone.
- 5. Pillar/roof reinforcements:** These are made of high-strength steel and help Pathfinder surpass Federal Roof Crush Resistance Standards.
- 6. Hood deformation points:** Structural creases allow the hood to buckle at a predetermined point to help protect the passenger zone.
- 7. Pipe-style steel side-door guard beams:** Constructed like a thick-walled hollow pipe for extra strength, these help protect passengers in a side impact.

* Air bags are only a supplemental restraint system; always wear your seat belt. Do not use rear-facing child restraints in the front-passenger's seat. Also, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your owner's manual for more details. Inflated air bags shown for illustration purposes only. Actual air bags deflate after deployment.

Every seat is protected by a **3-point seat belt**. Both front seat belts are equipped with pretensioners that automatically help tighten the belts when the front air bags deploy, as well as load limiters that give a little when high force is put on the belt.

WELCOME TO NOWHERE. ENJOY YOUR STAY.

SHIFT landscapes

AT NISSAN, WE CHALLENGE OURSELVES TO PUSH THE BOUNDARIES. TO SEE THE FAMILIAR IN A DIFFERENT WAY. TO OPEN OUR MINDS TO NEW WAYS OF THINKING. NOW, WE INVITE YOU TO LOOK AT THE RESULTS. COMMITMENT

FROM THE MOMENT YOU FIRST THINK ABOUT A NISSAN TO THE TIME YOU ACTUALLY DRIVE ONE OFF THE DEALER LOT AND LONG BEYOND, WE WANT EVERY EXPERIENCE TO BE SPECIAL. PASSIONATE. EXHILARATING. LIKE THE VEHICLES WE DESIGN AND BUILD. BUT WE ALSO WANT YOU TO HAVE A COMPLETE EXPERIENCE. WHICH IS WHY WE OFFER A WIDE RANGE OF PRODUCTS AND SERVICES. AFTER ALL, WHAT IS EXCITEMENT WITHOUT COMMITMENT?

WEB SITE/CUSTOMER SERVICE Keep in touch and stay up to date. Log on to NissanUSA.com for the scoop on our current cars and trucks, the opportunity to configure your own Pathfinder, as well as a sneak peek into the future. Or perhaps you just have a question. Call 1-800-NISSAN-3. It's part of our commitment to getting it right – whatever your needs, wherever you are.

SIGNATURE FINANCING When you've figured out which Nissan is right for you, Nissan Motor Acceptance Corporation (NMAC) offers a variety of financing options, attractive rates, and flexible terms to make your decision easier and helps make your purchase more accessible. See your Nissan dealer or visit NissanUSA.com/Financing for more details. Qualifications and restrictions may apply.

WARRANTIES Every Nissan is backed by a 36-month/36,000-mile limited vehicle coverage and a 5-year/60,000-mile limited powertrain coverage. (For complete information, see your Nissan dealer and read the actual limited warranty.)

SECURITY+PLUS AND MAINTENANCE+PLUS For ultimate peace of mind, consider the Nissan Security+Plus® Plan, our extended warranty program. It's our commitment to be there for you, and to help you leave your worries behind. Different plans, available for both purchase and lease vehicles, let you tailor the coverage to your driving habits. Maintenance+Plus® coverage, on the other hand, ensures your vehicle will receive up to 17 different services and over 33 different inspection items at each visit, using the most up-to-date diagnostic equipment available. (For complete information, see your Nissan dealer and read the actual plan.)

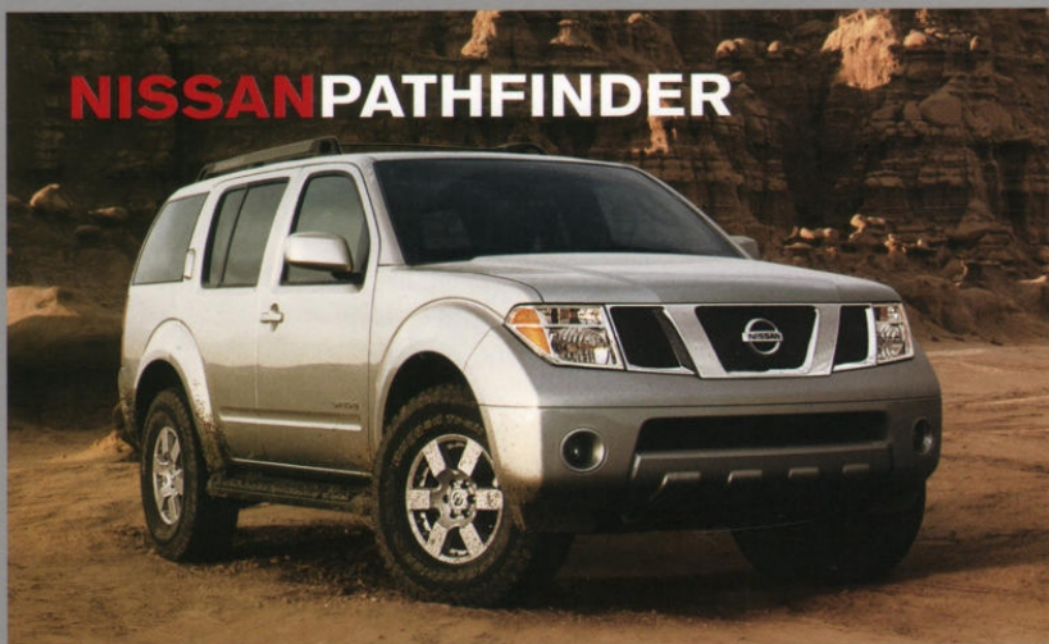

GENUINE NISSAN PARTS AND SERVICE Every part we make is manufactured to the same exacting standards as the original. And they're the only parts to carry Nissan's factory-backed limited warranty. At Nissan dealers, you'll find factory-trained, certified service technicians who are just as precision-oriented.

NISSAN ESSENTIALS Share the enthusiasm with a line of lifestyle products designed specifically for Nissan drivers, family and friends. From caps to jackets, pens to golf bags, Nissan Essentials is your source for everything Nissan. To find out more, log on to NissanUSA.com or ask your local dealer.
