MAP OUT YOUR STRATEGY

ADDING BIGGER TIRES AND WHEELS TO YOUR JEEP® GLADIATOR CAN REQUIRE ADDITIONAL MODIFICATIONS. BE SURE YOU UNDERSTAND HOW EQUIPMENT UPGRADES WILL AFFECT OTHER COMPONENTS AND CAREFULLY PLAN OUT YOUR BUILD.

HIGHER FENDER FLARES

Allow you to upgrade to larger wheels and install Lift Kits without experiencing tire interference in the wheel well.

LARGER TIRES

Whether you're in the mud or on the rocks, larger tires are designed to give you a better off-road experience.

OFF-ROAD WHEELS

FCA Canada Inc. does not authorize the installation of these parts on any vehicle prior to its first retail sale. **3** Off-Road Lights must remain turned off, or covered, on public roadways. **4** Do not drive your vehicle on public roads with the doors removed as you will lose the protection they can provide. Tube Door Kits are intended for use during off-road operation only. Driving with the doors off and windshield down is for off-road use only. **12** Cannot use in conjunction with soft tops or hardtops (except as noted). **13** Check User Guide for hitch type, load capacity and heavy-duty equipment required.
