

Volvo EX40

MODEL YEAR 2026

FULLY ELECTRIC

V O L V O

The Volvo EX40

The EX40 is the vehicle for active, urban individualists who are not afraid to be themselves. It is perfect for drivers who want the attributes expected of a larger SUV but in a smaller, more space-efficient exterior footprint. Its proud upright stance, high in-command seating position, and big wheels mean the EX40 stands out, but still without shouting about its presence. The EX40 meets these expectations and does so with an expressive, exterior design that is authentic to an SUV. Because it is a real SUV.

KEY FEATURES

No Compromises

The EX40 doesn't force you to choose between power and responsible driving. Just take your seat, drive away, and enjoy the comfort of one pedal drive and smooth acceleration—with zero tailpipe emissions.

Regenerative Braking

Regenerative braking occurs whenever the driver applies braking either by releasing the accelerator with one-pedal drive or pressing on the brake pedal. The car's electric motor and inverters are used to provide the desired braking and recapture the kinetic energy to charge the battery. Regenerative braking provides sufficient braking for most normal braking events.

Storage for Everything

Practicality and storage compartments have been a high priority when designing the interior of the EX40. Many useful storage solutions are available, including a large center console with an integrated, removable wastebin, large door bins, a folding load hook on the glove box door for small bags, and under-floor cargo storage. These EX40 features make daily routines and errands a little bit easier.

Connected Journey

Google built-in is the Android OS-based, state-of-the-art technology incorporating Google Assistant, Google Maps, and Google Play. Access to Google Services plus data are included in the standard Volvo Car Connect Plus.*

*Data for Volvo Car Connect Plus is included standard for 4 years.

Some features shown above may not be available on all trim levels.

EX40 Models

Fully Electric	
Plus	Ultra Black Edition
Single Motor RWD	
Twin AWD	Twin AWD
