

2008 COBALT

2008 COBALT

CHEVROLET

2008 COBALT

STOKE YOUR ENTHUSIASM.

Your sense of anticipation will be heightened by the sporty styling. The advanced technology will make you even more eager to get behind the wheel of the 2008 Chevrolet Cobalt. Redefined and more robust than ever. With new Coupe and Sedan Sport models that feature the advanced driver control of StabiliTrak™ and the enhanced peace of mind of the OnStar® system. Once you choose the Cobalt that's best for you, you can take added reassurance from the fact it's backed by the best coverage in Canada: our \$0 deductible 5-year/160,000 km Powertrain Limited Warranty,* in addition to 5-year/160,000 km Courtesy Transportation* and 24/7 Roadside Assistance.*

Let's Go. In Cobalt.

*Whichever comes first. Conditions and limitations apply, see dealer for details.

Cobalt Sport Coupe, shown in Rally Yellow.

LET'S GO 
CHEVROLET

COBALT LT

FIRST TAKE IN THE LOOK. THEN TAKE IN THE PRICE.

Cobalt LT Coupe and Sedan models deliver a powerful array of features beginning under the hood with the 148 horsepower 2.2L ECOTEC® dual overhead cam engine. It's more powerful than either Honda Civic's or Toyota Corolla's standard engine.* Cobalt LT also includes a series of comfort and convenience features like air conditioning, cruise control, plus power windows, door locks and exterior rear-view mirrors. But don't stop there. The Best Value Package includes stylish 16-inch aluminum wheels, a polished exhaust tip, the enhanced driver control of a four-wheel anti-lock braking system (ABS) – plus an available no-charge power sunroof.** Think the package looks good? Wait till you see the price.

*Based on 2007 Model Year data for the GM Small Car segment and the latest competitive information available at time of printing. See your dealer for details.
**See your dealer for details.

Cobalt LT Coupe, shown in available Sport Red Tintcoat and Cobalt LT Sedan, shown in Imperial Blue Metallic. Both are shown with the available Best Value Package.

COBALT SPORT

SPORT ISN'T JUST A NAME. IT'S A CREDO.

Introducing a more engaged approach to driving that determines everything from the dynamic styling and performance technology to the interior trim and soundscape. The style of Cobalt Sport is accented by the 17-inch polished forged aluminum wheels. The performance is highlighted by the 171-horsepower 2.4L ECOTEC engine with variable valve timing (VVT) and the StabiliTrak electronic stability control system that automatically counters understeer and oversteer. The driving experience is enhanced by an available no-charge power sunroof*, a seven-speaker Pioneer® premium sound system with 260-watt amplifier and 10-inch subwoofer and XM Satellite Radio™.** OnStar and one year of the Safe & Sound Plan complete the package. The truly exciting package called Cobalt Sport.

*See your dealer for details.

**Includes three trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

Cobalt Sport Coupe, shown in Rally Yellow and Sport Sedan, shown in Ultra Silver Metallic.

A detailed photograph of the interior of a Chevrolet Cobalt LT. The view is from the passenger side looking towards the driver's seat. The car features black leather-appointed bucket seats with visible stitching. The dashboard is black with silver trim around the air vents and the center console. The steering wheel is black with a silver Chevrolet logo in the center. The gear shift is located in the center console. The car is parked in front of a building with large windows, and the interior is well-lit.

INTERIOR

DARE WE MENTION THE L-WORD?

Luxury is probably not the first word you think of in a compact car that delivers exceptional value. But Cobalt is an anything-but-typical car in its class. Every Cobalt is equipped with contoured front bucket seats and a driver's seat height adjuster. Interior flexibility is increased by the 60/40 split-folding rear seatback with a trunk pass-through for skis or other long

objects. You can upgrade the Cobalt experience with the addition of the Best Value Package on LT models. It includes everything from a four-wheel anti-lock braking system (ABS) to an available no-charge power sunroof.* As for the luxury – heated, leather-appointed front bucket seats are available. Exceeding expectations – that's what Cobalt is all about.

*See your dealer for details.

LT interior, shown with available leather-appointed seating in Ebony and other available equipment.

INTERIOR FEATURES

COMES IN QUIET AND LOUD.

Cobalt's centre stack will capture your attention, first through its styling and then through the sound it produces. All Cobalt LT and Sport sound systems are equipped with a CD player that lets you play your favourite MP3 CDs, plus an auxiliary audio input jack that allows you to plug and play your iPod® or any other MP3 player. It's not only the quality of the sound that's notable inside Cobalt; the level of quiet is also exceptional, thanks to 75 separate noise-reduction features, including Quiet Steel® technology. It sandwiches a layer of elastic material between two thin sheets of steel for superior insulation from sound and vibration. Quiet or loud? It's your choice in Cobalt.

The premium amplified 260-watt sound system shown here features 7 Pioneer speakers including 3/4-in. soft dome tweeters and a 10-in. dual-voice cone subwoofer for low-end response. The system is standard on Sport models.

The standard Driver Information Centre monitors numerous vehicle functions. It can display 15 different warning messages and offers a number of programmable menu features. An exterior temperature readout is also included.

TECHNOLOGY

Cobalt LS Sedan, shown in Ultra Silver Metallic with available GM Accessories.

THINK GLOBAL. DRIVE LOCAL.

Cobalt's dual overhead cam all-aluminum ECOTEC engines are the product of a global GM Powertrain effort. The idea was to integrate the best four-cylinder engine features GM engineers had developed around the world. The result is a family of ECOTEC engines that reduce friction to increase output and fuel efficiency. Less friction also translates into reduced heat, harshness and vibration. The achievements speak for themselves. The 2.2L ECOTEC engine in LS and LT models generates more standard horsepower than you'll get in either Toyota Corolla or Honda Civic. The engine isn't only powerful, it's also exceptionally fuel-efficient, with 9.2L/100 km (31 mpg) city and 5.9L/100 km (48 mpg) highway ratings.* It took global thinking to enhance your local driving – with Cobalt's ECOTEC engines.

*2007 model tested, with manual transmission. Based on Natural Resources Canada's 2007 Fuel Consumption Guide Ratings.

The 148 hp 2.2L ECOTEC I-4 engine is standard on LS and LT models. All Cobalt engines feature long-life spark plugs that are designed to last 166,000 km before replacement** and DEX-Cool™ engine coolant that lasts 5 years or 240,000 km (whichever comes first).**

**Maintenance needs vary with use and driving conditions. Please refer to the Owner's Manual for more information.

The 171 hp 2.4L ECOTEC I-4 VVT engine is standard on Sport models. It features variable valve timing that optimizes combustion timing to deliver 90 percent of its peak torque at just 2400 rpm for excellent responsiveness.

ACCESSORIES

GO YOUR OWN WAY.

You can personalize your Cobalt by first choosing the model that best reflects who you are. Then you can go even further with the added style and functionality of GM Accessories. They are the only accessories that are integrated into the process of designing your vehicle, ensuring that they look right and work right on your Cobalt. Only GM Accessories are backed by the 3-year/60,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle lease or finance agreement through GMAC. Ask your dealer for a complete list of the GM Accessories available for Cobalt, or visit gm.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase or lease your new vehicle.

In addition to what you see pictured on this page, available GM Accessories for Cobalt include:

- Ground Effects Package
- Catback exhaust
- Performance Air Intake
- High-rise spoiler
- Chrome Grille Package
- Personal Audio Link (PAL)
- Armrest Packages
- Floor mats.

COBALT MODEL OVERVIEW

COBALT LS COUPE/SEDAN

- 148 hp 2.2L ECOTEC I-4 engine
- Getrag 5-speed manual transmission
- 15-in. steel wheels with bolt-on wheel covers
- Speed-sensitive electric power steering
- Electronic engine immobilizer
- Analogue gauge cluster with tacometer
- Driver Information Centre
- Dual-stage frontal air bags with Passenger Sensing System
- Reclining front cloth bucket seats
- 60/40 split-folding rear seatback with trunk pass-through
- CD player with auxiliary iPod input jack

COBALT LT COUPE/SEDAN

Cobalt LT includes the LS features, plus:

- Air conditioning
- Cruise control
- Power windows, door locks and exterior rear-view mirrors
- Sport cloth front bucket seats
- CD player with MP3 playback

COBALT LT COUPE/SEDAN WITH BEST VALUE PACKAGE

The Best Value Package adds these appealing features:

- Available no-charge power sunroof*
- 4-wheel anti-lock braking system (ABS)
- 16-in. aluminum wheels
- Polished exhaust tip
- Fog lights
- Rear spoiler
- Leather-wrapped steering wheel and shift knob
- Steering wheel-mounted sound system controls
- Satin Nickel interior trim accents

COBALT COUPE/SEDAN SPORT

The Sport model includes the LS, LT and Best Value Package equipment, plus these unique features:

- Available no-charge power sunroof*
- 171 hp High Output 2.4L ECOTEC I-4
- 4-wheel disc brakes with ABS
- StabiliTrak electronic stability control system
- Tire pressure monitoring system
- 17-in. polished forged aluminum wheels
- Front to rear side head curtain air bags
- 260-watt premium amplified sound system with 7 Pioneer speakers, including a subwoofer
- XM Satellite Radio
- OnStar with 1 year of the Safe & Sound Plan

*Must specify optional power sunroof to receive at no-charge, see your dealer for details.

ONSTAR

OnStar** uses advanced communications technology to enhance your safety, security and convenience. OnStar Advisors can provide a wealth of information and perform a variety of diagnostic services. They can also provide assistance in an emergency. No wonder more than five million people have become OnStar subscribers and over 15 million calls are made each month on the built-in voice-activated, hands-free system. OnStar and one year of the Safe & Sound Plan are standard on Cobalt Sport and available on LT models. See your dealer for more information on plans and services.

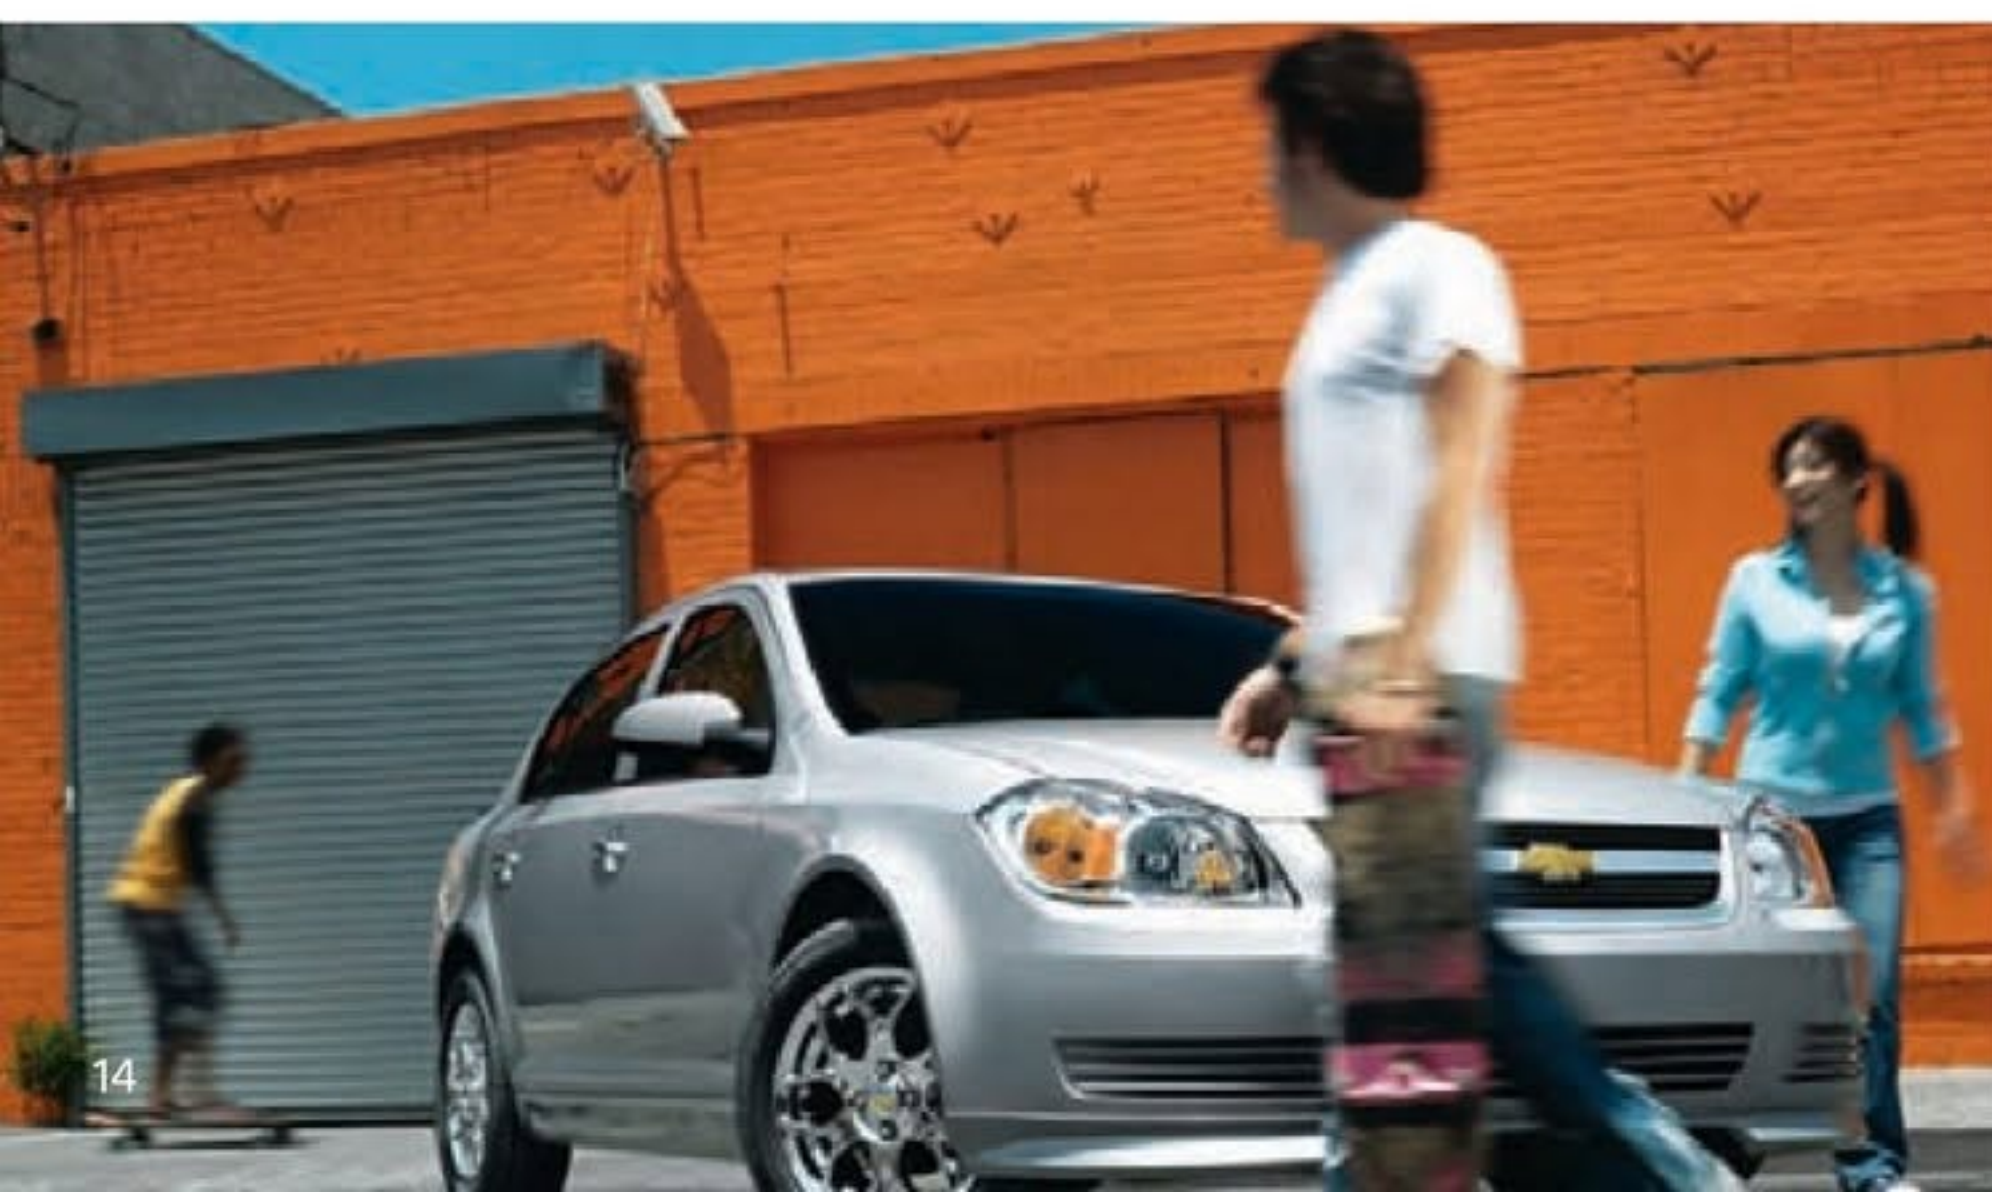

**OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. OnStar Hands-Free Calling requires a Hands-Free enabled vehicle, prepaid minutes or enrollment in a shared minutes plan and existing OnStar service contract. Subscription Service Agreement required.

XM SATELLITE RADIO

What's convinced more than seven million people to subscribe to XM Satellite Radio? How about the largest playlist on the planet, with musical genres that span everything from decades to dance, rock to rap and country to classical – broadcasting the most commercial-free music in digital quality sound? Or is it the news, talk, comedy and sports channels – including more than 1,000 NHL games – and all available from coast to coast?† Now with 120 channels to enjoy, XM has revolutionized radio as we know it. And now you can enjoy XM Satellite Radio in your next General Motors vehicle. Ask your dealer for more information.

†Includes three trial months beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous United States.

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

Canada 

TAKING ACTION TODAY. FOR TOMORROW.

At General Motors, our commitment to environmentally friendly transportation starts right at the top:

"What we do at General Motors profoundly affects the lives of many people. As the world's largest maker of cars and trucks, we realize our impact extends beyond those who drive our vehicles, who work here and who live in our communities. We also know that our actions today can positively affect the lives of future generations. It's a huge responsibility, but also a great opportunity. And that's why corporate responsibility is an integral part of everything we do at GM.

We're determined to be part of the solution to the environmental issues that we as a global community are facing. To that end, GM is investing billions of dollars in a broad-based advanced technology strategy to help reduce the world's dependency on oil. This includes everything from biofuels like E85 ethanol, to plug-in hybrids, to electrically driven vehicles powered by advanced batteries and hydrogen fuel cells. We've also made steady and significant progress over the past five years to reduce our own energy use, conserve natural resources and decrease greenhouse gas emissions from GM products and facilities."

Rick Wagoner

Chairman and Chief Executive Officer, General Motors
